

Michigan Flu Focus

Weekly Influenza Surveillance Report

July 9, 2021

Vol. 18; No. 36

Week Ending July 3, 2021 | WEEK 26

Editor: Sue Kim

Editor email: KimS2@michigan.gov

Michigan 2020-2021 Season Overview

Note: Most systems were impacted by the COVID-19 pandemic and should be interpreted with caution.

Geographic Spread – reporting for this [system](#) was suspended for the 2020-2021 season due to the impact of the COVID-19 pandemic on ILI activity.

Outbreaks – zero respiratory outbreaks were reported (excludes COVID-19-associated outbreaks).

Sentinel Provider Surveillance (ILINet) – provisional data shows ILI activity remained below baseline all season.

Laboratory – 6 flu positive results (1 flu A, 5 flu B) were reported by the MDHHS Bureau of Laboratories.

Hospitalizations – 10 influenza-associated hospitalizations were reported in the catchment area.

Pediatric flu mortality – zero pediatric influenza deaths have been confirmed by MDHHS.

Seasonal Influenza Vaccination Coverage

Michigan's goal is to vaccinate more than 4.3 million residents during the 2020-2021 flu season.

As of June 26, 2021, there have been **3,460,969** doses administered (**80.44%** towards goal) for the 2020-2021 flu season.

Please visit the Flu Dashboard at www.michigan.gov/flu for more information.

Flu Bytes

Alana's Foundation Hosts National College & University Flu Challenge

In 2014, Alana's Foundation hosted the first College/University Flu Challenge by partnering with Michigan institutions in efforts to help increase flu vaccination rates among undergraduate and graduate college students, staff, faculty, alumni, and/or fans of a particular institution. Alana's Foundation is teaming up with college and universities across the nation for the 8th annual College/University Flu Vaccination Challenge.

Large, medium, and small institutions are encouraged to participate. The number of influenza vaccine doses administered will be reported through a self-report survey by the vaccinated person. Enrollment is open for institutions that are interested in participating and will close on Thursday, September 30, 2021. More information and registration can be found [here](#).

The three schools (based on small, medium and large categories) with the greatest number of surveys completed will be presented with the Alana Yaksich Memorial Trophy. Winners will be announced Wednesday, December 15, 2021, during the final challenge webinar. Michigan schools will have state level recognition that will also be announced at the final challenge webinar.

Updates of Interest

Influenza activity remains low in Michigan and nationally.

Note: MIFF will be distributed for the first MMWR Week of each month, June through September, unless summer activity warrants more frequent communication.

Congregate Setting Respiratory Virus Outbreaks

There were **0** new respiratory outbreaks (OC, ON, OSE, OSW) reported to MDHHS during this time period. Respiratory outbreaks for the 2021 summer season are listed in the table below.

of Congregate Setting Outbreaks by Region

Facility Type	C	N	SE	SW	Summer 2021 Total	2020-21 Season Total
Schools: K-12 & College	0	0	0	0	0	0
Long-term Care / Assisted Living Facility	0	0	0	0	0	0
Healthcare Facility	0	0	0	0	0	0
Daycare	0	0	0	0	0	0
Homeless Shelter	0	0	0	0	0	0
Correctional Facility	0	0	0	0	0	0
Other	0	0	0	0	0	0
Total	0	0	0	0	0	0
2020-21 Season Total	0	0	0	0	0	0

Did you know?

Congregate setting outbreaks of viral respiratory illnesses are required to be reported to your local health department? See:

- [Influenza Guidance for Healthcare Providers](#)
- [Guideline for influenza and Respiratory Virus Outbreaks in Long-Term Care Facilities](#)

Novel Influenza A Viruses

Five human infections with a variant influenza A virus (3 H1N1v, 1 H1N2v, 1 H3N2v) associated with swine exposure were reported for the 2020-2021 season. For more information, visit the CDC FluView Interactive: http://gis.cdc.gov/grasp/fluview/Novel_Influenza.html

U.S. Outpatient Influenza-like Illness Surveillance Network (ILINet)

During the 2020-2021 influenza season, provisional data shows Michigan ILI activity remained below baseline all season.

Number of Reports and ILI % by Region in Michigan during this time period:

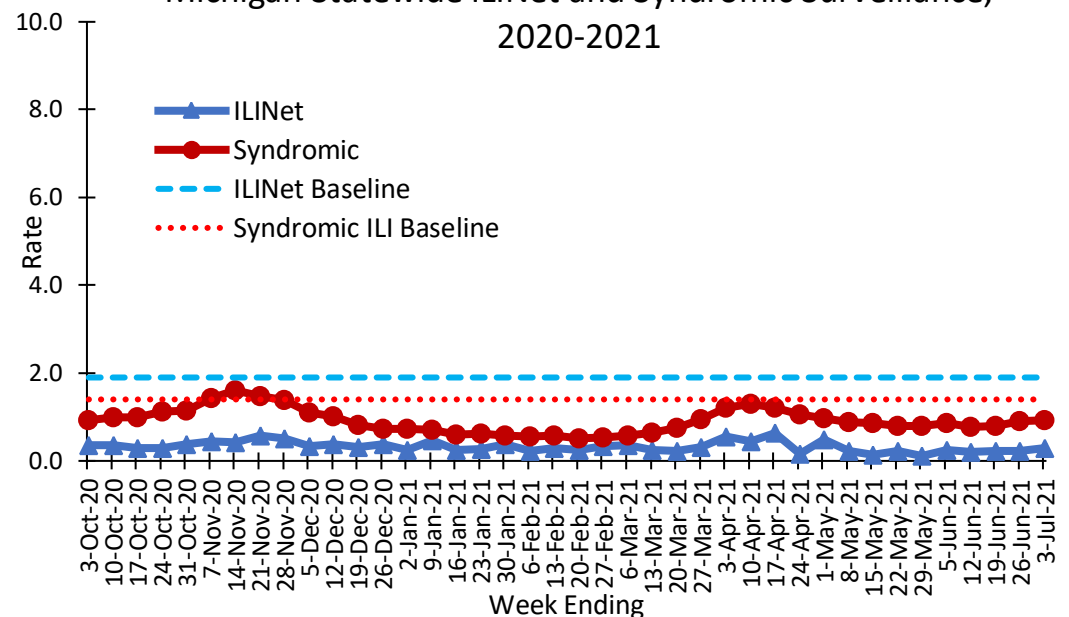

Region	C	N	SE	SW
No. of Reporters, Total (14)	4	2	7	1
ILI %	0.4	0.4	0.3	0.0

Data is provisional and may change as additional results are reported.

Michigan ILI Activity: 0.3%. A total of 15 patient visits due to ILI were reported out of 5,098 office visits during Week 26.

*Regional baseline is developed by calculating the mean percentage of patient visits for ILI during non-influenza weeks for the previous three seasons and adding two standard deviations

Michigan Statewide ILINet and Syndromic Surveillance, 2020-2021

MDHHS Laboratory Data

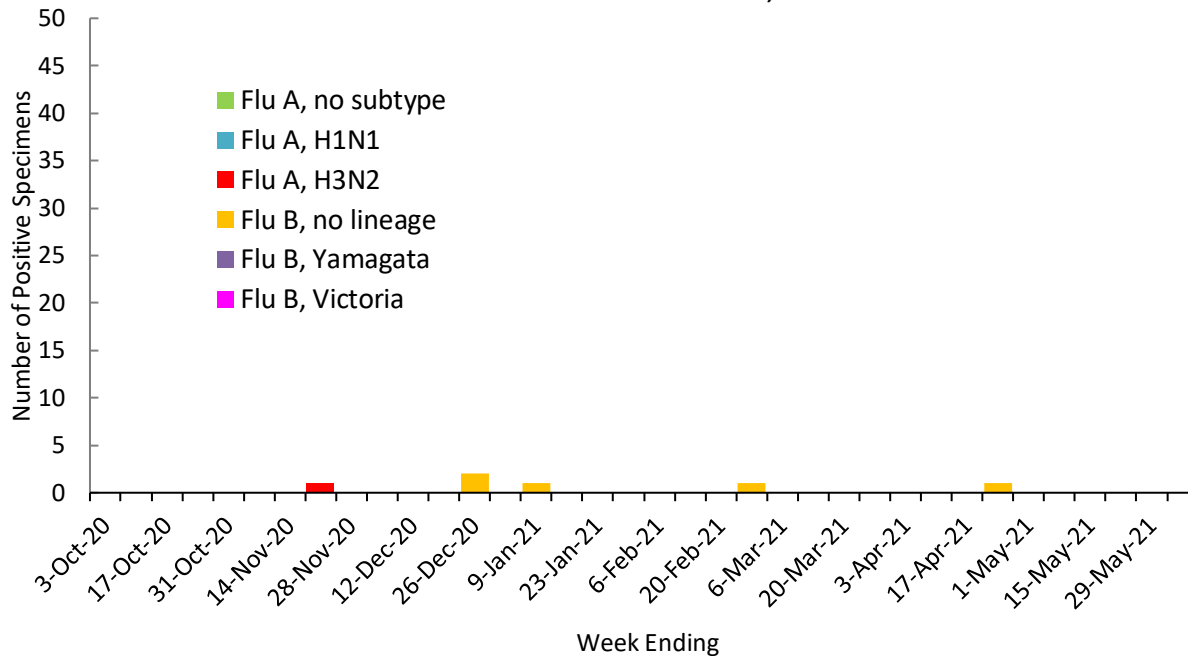

There were **0** new positive influenza results (0C, 0N, 0SE, 0SW) reported by the MDHHS Bureau of Laboratories (BOL) during this time period.

of Positive Respiratory Virus Results by Region

Flu Type, Subtype	C	N	SE	SW	Summer 2021 Total	2020-21 Flu Season Total
Flu A, H1N1	0	0	0	0	0	0
Flu A, H3N2	0	0	0	0	0	1
Flu B	0	0	0	0	0	5
Total	0	0	0	0	0	
2020-21 Total	0	0	5	1		6

Data is provisional and may change as additional results are reported.

Influenza Positive Test Results, 2020-2021

Note: Based on Specimen Collection Date
Flu B lineage data will be reported based on MDHHS BOL testing runs and will be backtracked into this graph

Michigan Sentinel Clinical Lab Network Respiratory Virus Data

Eight (8) sentinel clinical labs (1SE, 2SW, 4C, 1N) reported during the weeks ending 6/26 – 7/03

SE Region	
Influenza A:	no activity
Influenza B:	sporadic
Parainfluenza:	elevated
RSV:	slightly elevated
Adenovirus:	sporadic – low
hMPV:	sporadic – low
Central Region	
Influenza A:	no activity
Influenza B:	no activity
Parainfluenza:	elevated
RSV:	sporadic
Adenovirus:	sporadic – low
hMPV:	no activity
SW Region	
Influenza A:	no activity
Influenza B:	no activity
Parainfluenza:	low – slightly elevated
RSV:	sporadic – low
Adenovirus:	no activity
hMPV:	no activity
North Region	
Influenza A:	no activity
Influenza B:	no activity
Parainfluenza:	sporadic – low
RSV:	sporadic
Adenovirus:	no activity
hMPV:	no activity

Influenza Hospitalization Surveillance Project (IHSP)

The CDC's Influenza Hospitalization Surveillance Network (FluSurv-NET) provides population-based rates of laboratory-confirmed influenza-associated hospitalizations from October 1st through April 30th each year. Michigan participates as an IHSP state in FluSurv-NET for Clinton, Eaton, Genesee, Ingham, and Washtenaw Counties.

Since October 1st, **10 (1 pediatric, 9 adult)** influenza-related hospitalizations were reported in the catchment area for the 2020-2021 season. Data is preliminary and may be updated as more information becomes available.

Total IHSP Cases, 2015-2016 through 2020-2021

Cumulative IHSP Rates per 100,000

Washtenaw County was added in the 2017-2018 season

Mortality Surveillance

Pneumonia & Influenza (P&I) Mortality Surveillance

Michigan Department of Health and Human Services Vital Records and Health Statistics provides pneumonia & influenza mortality data based on death certificates.

Please visit the [Michigan Mortality Statistics](#) webpage for more information.

Influenza-associated Pediatric Mortality

Zero (0) pediatric influenza deaths have been confirmed by MDHHS for the 2020-2021 influenza season.

Nationally, one (1) influenza-associated pediatric death has been reported for the 2020-2021 influenza season.

Total influenza-associated pediatric deaths in the U.S. and Michigan by season are listed in the table below.

	2017-18	2018-19	2019-20	2020-21
U.S. Total <small>Source: CDC FluView</small>	188	144	199	1
MI Total	3	3	6	0

Pediatric deaths due to influenza are required to be reported in Michigan. Please see:
