

Michigan QI visits

At-A-Glance for Provider Sites

IQIP is CDC's national, Vaccines for Children (VFC) provider-level immunization quality improvement (QI) program.

IQIP promotes and supports implementation of provider-level strategies designed to increase on-time vaccination of children and adolescents.

Michigan QI strategies

- Schedule the next immunization visit before the patient leaves the provider site
- Leverage IIS functionality to improve immunization practice
- Give a strong vaccine recommendation (emphasize HPV vaccine if provider has adolescent patients)
- Custom strategy: Promote Flu Vaccine

Michigan QI Process

IQIP is a 12-month process where public health representatives and VFC provider sites collaborate to select QI strategies to increase vaccine administration by improving and enhancing immunization workflow.

Site visit

- Discuss provider workflow
- Review initial coverage levels
- Select 2 QI strategies
- Receive technical assistance
- Choose action items for Strategy Implementation Plan

2-month and 6-month check-ins

- Review progress toward strategy implementation
- Receive technical assistance
- Update Strategy Implementation Plan

12-month follow-up

- Review progress toward strategy implementation
- Receive technical assistance
- Review year-over-year coverage & denominator changes
