Subject: Proposed Changes to CON- MRI Standards

Dear Madam/Sir;

This is to express my enthusiastic support of the current proposed changes to the MRI CON Standards specifically regarding the elimination of the volume requirement for replacement of an existing MRI unit. It is my position that this change, if enacted, will better serve Michigan residents through the facilitation of access to upgraded and newer technology in the interest of optimal public health. I thank you in advance for your time and attention.

Respectfully submitted,

Sue Ann Durso, R.N., M.A.
