**Footnotes**

1. Special Formula/Food Request form as well as revisions to the List of Authorized WIC Formulas are available at [michigan.gov/wic](http://michigan.gov/wic) medical providers tab.
2. In general, retail products ("R") are likely shelf stock items available via WIC grocery vendors. Institutional products ("I") may require a special order and are more likely available via WIC pharmacy vendors.
3. Purchase Quantity: WIC staff should inform the client that these are the quantities the formula is packaged (i.e. 6 pack). The maximum food package may not be evenly divided by the purchase quantity. If "1" is not listed, individual bottles are not allowed. (i.e. Pediasure)
4. RTF formulas, when available in other forms, require one or more of the conditions in policy 7.02 or in policy 7.03 to be approved.
5. These formulas require a qualifying condition of prematurity and can be issued until the infant reaches a body weight of 8 pounds.
6. These formulas require a qualifying condition of prematurity or low birth weight. See MI-WIC Policy 7.03 for requirements.
7. These formulas can be issued in cases of prematurity up to one year adjusted age. See MI-WIC Policy 7.03 for requirements.
