Mobile Route Site Applications

All MRI Notices must be submitted with an application fee of \$3,000. Notice applications not accompanied by the required fee shall not be considered timely and shall be deemed submitted and processed after receipt of the required fee. Further, existing host sites for all mobile services (i.e., CT, PET, Litho) to be added to existing mobile routes without data commitments will now be categorized as NONSUB [Notice] and reviewed on an expedited basis. Pursuant to MCL 333.22233, Project Costs, such as operating leases, renovations, etc., are not required to be listed for NONSUB [Notice]. The Letters of Intent for such projects should not include Project Costs or Sources of Funds.
