

MCSP NEWSBLAST: Web Plus Maintenance

May 19, 2021

This NEWSBLAST applies to reporting entities that upload electronic file submissions to MCSP through Web Plus and/or those who use the online abstracting function within Web Plus for cancer case reporting.

On Thursday, May 20, 2021 Web Plus will be down for maintenance (upgrade of Web Plus to v21). Please do not attempt to access Web Plus on this date to ensure no disruption.

Important Notes!

- If you have any questions regarding Web Plus maintenance period, please email MDHHS-MCSP-WebPlus@michigan.gov
- With this upgrade of Web Plus to NAACCR v21 format, please anticipate longer upload times for bundles and exercise patience with the edits process that immediately runs upon a successful upload. Uploads larger than 4,000 cases may experience upload issues, so we recommend splitting any bundle larger than this into multiple uploads, with applicable file extension (i.e., _File1, File 2). If you require tools to split a bundle into smaller files, the CDC has provided a free tool [here](#) called XML Exchange Plus.
- If you come across an edit error that cannot be resolved based upon the applicable data item coding instructions, please send a screen shot of the edit error to Georgetta (Jetty) Alverson at alversong@michigan.gov and Stacey Coltrain at coltrains@michigan.gov. We will review the edit error and provide an applicable response (i.e., metafile issue vs a coding issue).
- If you have questions regarding Michigan cancer reporting requirements, please contact:
 - Georgetta (Jetty) Alverson at AlversonG@michigan.gov or Stacey Coltrain at ColtrainS@michigan.gov and Doug Koster at kosterd@michigan.gov for cervical (C53) cancer case reports (including pre-invasive/pre-cancerous cervical lesions).
 - Any missed cancer case reports, including pre-invasive cervical (C53) lesions for **diagnosis year 2019 or earlier must be submitted to MCSP on or before May 31, 2021** and **diagnosis year cases must be submitted on or before June 30, 2021**.
 - A copy of the 'MCSP Case Definitions and Reporting Requirements for Pre-invasive Cervical (C53) Lesions For Cases Diagnosed in 2019 and later' is available on the [MCSP web](https://www.michigan.gov/mcsp) at <https://www.michigan.gov/mcsp>.
- If your registry is in the MDCSS area (Wayne, Oakland, or Macomb County) and you have questions regarding submission of data, please contact your SEER-State Coordinator, Jeanne Whitlock at 313-578-4219 or whitlock@karmanos.org
