

OIG LIFE REMODELED PROJECT 2019

Agents from the Office of Inspector General (OIG) volunteered with Life Remodeled to clean up blight in Midtown Detroit on August 6, 2019. They participated in several tasks, signified by various color tee shirts. OIG agents handled check-in, operated food service for Command Center B (purple) and assisted in clearing several alleys (green). The day was very successful and a great way to bond as a team, celebrate diversity and serve the community. OIG plans to return to the event next year and will encourage greater participation.
