St. Mary's of Michigan Hospital	Yes	II	N/A
University of Michigan Medical Center	Yes	I	N/A

Work Plan Objective Progress and Highlights:

complete sections that have progress within the quarter

Injury Prevention

Indicator(s): 203.5: The RTN has developed a written injury prevention plan. The injury prevention plan is data driven and targeted programs are developed based upon injury risk areas. Specific goals with measurable objectives are incorporated into the injury prevention plan.

Progress: The Regional Trauma Injury Prevention Committee has updated the injury prevention plan as well as resource guide, however, due to COVID-19 all injury prevention initiatives have been placed on hold.

Communications

Indicator(s): 325.132: There are established procedures for EMS and Trauma System Communications for major EMS events or multiple jurisdiction incident that are effectively coordinator with the overall regional response plans. [Click or tap here to enter text.](#)

Progress: Region 2 South Healthcare coalition conducts monthly exercises relating to redundant radio communications. During the COVID-19 response, coordination efforts with EMS and hospitals were routinely done. This was highlighted when Beaumont Wayne became a dedicated COVID hospital and all EMS and trauma traffic were diverted to other facilities.

Infrastructure

Indicator(s): 303.1: The Regional trauma plan has clearly defined the roles, resources and responsibilities of all acute care facilities treating trauma, and of facilities that provide care to specialty populations such as burn, pediatrics, global injuries and reimplantation.

Progress: The RPSRO review all double transfers of patients within the Region to ensure the patient arrives at the correct facility. During the 3rd quarter, there have been no double transfers.

Regional Performance Improvement

Indicator(s): 325.132: The RTN data in the state trauma registry is used to identify and evaluate regional trauma care and improve the use of resources

Progress: All trauma facilities within the Region enter data into the state trauma registry. The department hired a Trauma Registrar and data is being used to complete the RPSRO Inventory. Region 2S's RTN was presented the Inventory for review and it will be shared Aug 6th with the RPSRO.

Continuum of Care

Indicator(s): 308.1: The Regional work plan addresses the integration and participation of rehabilitation services within the continuum of care for the trauma patients.
Progress: The Regional Trauma Coordinator began developing a list of rehabilitation centers that are used routinely by Region 2 South Facilities. Due to COVID-19 the list has not been completed.

Trauma Education

Indicator(s): 310.3,4,6: The regional trauma network establishes and ensures that appropriate levels of EMS, nursing and physician trauma training courses are provided on a regular basis.
Progress: Due to COVID-19 all training course were cancelled in 3rd quarter

Other relevant activities information:

Region 2 South was the epicenter of COVID -19 starting March 10th with 2 confirmed COVID patients. Due to COVID-19, many Trauma Program Managers and Trauma Medical Directors were re-allocated to care for the high volume of COVID patients. Emergency Room visits for Trauma were extremely low due to the “Stay Home, Stay Safe” order from Governor Whitmer. A Level III mobile hospital was stood up at the TCF Center, with the assistance of Dr. Atlas and the Region 2 South Healthcare Coalition. This temporary facility housed COVID patient’s that could not be sent home, yet still recovering from the virus.

ATLS classes are being held at Beaumont Trenton on the following dates: September 24th & 25th, November 19th & 20th. The region is actively working on the new trauma application and objectives.

Administrative Rule Requirements:

Yes -Quarterly meeting minutes on shared drive. Meetings took place by conference call due to COVID-19.

Yes -All MCA’s participating in the RTN.

Yes -Performance improvement ongoing
