

# Required Equipment for Initial Education Programs

## Equipment for every 6 students or skills rotation plan require

Device	Meets	Does Not Meet
<b>MFR/EMR</b>		
Long backboard (s) Straps		
Head immobilizer		
Various sized cervical collars		
Short backboard or extrication device (s) Traction splint (s)		
Adult airway trainer (s) Infant airway trainer (s) Rigid splints		
Stethoscope and BP cuffs Sufficient bandaging supplies		
Arterial tourniquet (commercial device) Pediatric OPAs, NPAs, BVMs		
Adult OPAs, NPA, pocket masks, BVMs		
Mechanical suction device with rigid and flexible catheters Oxygen tank with regulator		
Pediatric nasal cannula, non-rebreather Adult nasal cannula, non-rebreather igel® airway		
Pulse oxymeter OB kits		
Burn sheet (s)		
CPR manikens for pediatric and adult AED trainer or simulator		
Narcotic antagonist trainer device Epi-pen trainer		
Glucometer		
Helmets (motorcycle, football, bicycle, etc.) Personal protective equipment		
Hand sanitizer N-95 mask (s)		
<b>EMT (MFR equipment plus)</b>		
Supraglottic airways Commercial device tube holder Metered-dose inhaler trainer nebulizer		
CPAP		
Simple face mask		
IV bag of NS 0.9%, D5W, LR		
Micro and macro gtt tubing		
Child restraint device		

**Device****Meets****Does Not Meet****Specialist/AEMT (MFR/EMT equipment plus)**

Capnography or CO2 detectors

IO Maniken or simulator

IO Needles

Various sized syringes

IV arm (s)

Various sized IV needles/catheters

IV tubing (microgtt, macrogtt, blood)

IV extension tubing

IV fluids

Sharps container

IV start kit (alcohol prep, betadine, tape, venous tourniquet)

Pediatric lenth based tape

Mi-Medic cards-most recent

Drug box

Simulated Albuterol

Simulated Aspirin

Simulated Detrose 50%

Simulated Epinephrine IM/SQ

Simulated Nitrous oxide

Simulated Glucagon

Simulated Instant Glucose

Simulated Naloxone

Simulated nitroglycerine (paste, spray, tablets)

**Device****Meets****Does Not Meet****Paramedic (MFR/EMT/Specialist equipment plus)**

Endotracheal tubes, various sizes

Laryngoscope handles and blades (Miller and Mac-all sizes)

Replacement bulbs for laryngoscope blades

Replacement batteries for laryngoscope handles

Magill forceps (adult and pediatric)

Cardiac Monitor capable of cardioversion, pacemaking, and 12-lead

Cables for cardiac monitor

Batteries for cardiac monitor in working order

Cardiac rhythm generator

Electrodes for EKG monitoring and defibrillation

Medications in simulation form

Needles (filter, various lengths and guages)

Subcutaneous and IM simulation device (s)

Various sized syringes

Piggyback IV set-up

Pleural decompression model

Needle Cricothyroidotomy simulation device

Drug box

Simulated Acetaminophen

Simulated Adenoside

Simulated Amiodarone

Simulated Aspirin

Simulated Atropine

Simulated Calcium Chloride Simulated Detrose 50% Simulated

Sodium Chloride

Simulated Diphenhydramine Simulated Dopamine Simulated

Epinephrine 1:1, 1:10 Simulated Fentanyl

Simulated Ipratropium Bromide

Simulated Ketamine Simulated  
Lidocaine Simulated Magnesium  
Sulfate Simulated  
Methylprednisolone Simulated  
Midazolam Simulated Morphine  
Simulated Naloxone Simulated  
Nitroglycerine Simulated  
Ondansetron Simulated  
Prednisone Simulated Sodium  
Bicarbonate
