

## MINUTE RECORD

MICHIGAN DEPARTMENT OF HEALTH AND HUMAN SERVICES (MDHHS) OFFICE OF RECOVERY ORIENTED SYSTEMS OF CARE (OROSC)	
WORKGROUP NAME:	State Epidemiological Outcomes Workgroup (SEOW) Core Team
DATE:	Wednesday, August 17, 2016
TIME:	1:00 p.m. – 3:00 p.m.
LOCATION:	MDHHS, Lewis Cass Bldg., 3 <sup>rd</sup> Floor Conference Rm., 320 S. Walnut, Lansing, MI
CHAIRPERSON	Joel Hoepfner
RECORDER	Taped (A)

### SUMMARY OF KEY POINTS

#### **SEOW Meeting Introductions, Welcome, and Approval of Agenda/Minutes – Joel Hoepfner**

- Joel welcomed members and members introduced themselves.
- August 17, 2016 Agenda was approved
- The Minutes of June 15, 2016 were reviewed and approved by consensus.

#### **Update on Next Steps/Action Items from Previous Meeting**

- Moved to Partner Updates

#### **OROSC Updates – Larry Scott**

- **Block Grant Conference** – There is a movement at the federal level to do more for the Opioid abuse prevention and many states are pursuing these grants. We are still awaiting PDO grant results.
- **Neonatal Abstinence Syndrome (NAS)** – We are encouraging/request for information (RFI) from our Prepaid Inpatient Health Plans (PIHPs) to establish a NAS program targeting women in medication assisted treatment (MAT) programs, as well as women facing other issues. Therefore we are encouraging PIHPs to develop a wraparound program for Women Specialty Service (WSS) programs and to make sure that the case management includes a healthcare navigator and case manager for individuals involved with Neonatal Intensive Care Unit (NICU) within hospitals by are asking the PIHPs to partner with NICU's at hospitals to establish and implement these programs and to use current and existing unspent WSS dollars derived from the Block Grant; We are also prepared to issue additional dollars from treatment funding.

#### **Emerging Issues and Trends**

##### **Opioids, Prescription Drugs, Heroin, Marijuana, E-Cigarettes - Su Min Oh**

- **Prescription Drugs and Heroin** – Su Min says that Michigan is seeing an uptick in overdoses related to fentanyl laced heroin, but we do not have the numbers. We are seeing an increase of fatal overdose deaths related to fentanyl. Currently looking at the 2015 provisional death data, there is a big jump from 2014 to 2015, which indicates that it is on the rise in Michigan too. Since February 2016, we have had three deaths related to the opioid called U04770, however, will check with MSP and share with everyone. Our neighboring states, such as Ohio and others had higher death rates than Michigan. Keep your eyes open regarding prescription and heroin drug overdose death information. In Michigan we will be working with a national heroin coordination group, organized by the Office of National Drug Control Policy (ONDCP), along with 20 other states in which we will be attending webinars, videoconferencing, and receive updates from the United States Drug Enforcement Agency (U.S. DEA) and other federal partners to reduce heroin availability. We have also been asked to provide up-to-date and current overdose information. The Midwest region; Ohio, Michigan, Iowa, and Wisconsin, have been asked for variations in terms of high and low overdose deaths. Death rates in Ohio is the largest; 11.0 per 100,000 people, Michigan 5.5, and Iowa 1.0. The national average was 3.4 in 2014. The First meeting will be September 1, 2016. Moving forward, as this information arrives, it will be shared with everyone. Joel reports on over [26 heroin overdoses within a four hour time span in West Virginia](#).

Joel thanked Jane for the overdose data for Washtenaw and Livingston county. Jane says she worked with Adreanne Waller in the past in which a lot of good work has been received, which includes lots of data and how we can use it now and in the future. Joel says that the Ingham County Health Department is collecting the data and are beginning to refine it. Dr. Bielawski appreciates the reporting and wants the data for his county also.

- **Legalizing Marijuana** – No movement on any marijuana legislative bills. Larry says he was at a states that receive Block Grant funding conference last week and attended a workshop on the impact of states that have legalized the retail recreational use of marijuana. Larry recommends that Epidemiology (EPI) needs to begin to pay close attention to drug poisonings caused by marijuana edibles and the morbidity and mortality statistics. Larry says there was an uptick of injuries in Colorado among children around the age of five. Increase in youth moving from Electronic Nicotine Delivery System (ENDS) to smoking and the big tobacco industry is once again targeting youth.
- **E-cigarettes** – Su Min says that here has been no movement on any e-cigarette bills as of this AM. Larry says ENDS will be included in the Synar protocol which will give us some idea in the retailer violation rate (RVR) for sales. Larry also advises the group to take a serious look and pay close attention to the Youth Risk Behavior Surveillance (YRBS) results to determine if there has been an uptick in 2015.

### **Central Data Repository (CDR) Website Updates – Brooke Dudek**

Brooke explains that there have been updates to the CDR and describes those updates; traffic crashes 2015 (rates per million mile (still at 2012)), drug poisoning death rate fact sheet, fixed the heroin opiate related drug poisoning death rates, opiate prescriptions written. Waiting on the heroin prescription rates, and *2016 Michigan Profile for Healthy Youth (MiPHY) data (2008-2016)* key variables. Liz mentions aspects of the CDR that are in process. Su Min asks the group to please visit CDR for updates. Will talk about advertising the CDR at the SUD Conference in September 2016 and handouts will be available.

### **Michigan Prevention Data System (MPDS) - Brooke Dudek and Su Min Oh**

Su Min begins by talking about the Michigan Prevention Data System (MPDS) who collect direct prevention activities provided by our service agencies and PIHPs and the system has been being managed by MPHI. A search is on for ways to keep monitoring trends and progress of prevention activities.

Brooke began by presenting a PowerPoint of quarterly reports and explained how they show gaps in data. She will send out an e-mail before compiling quarter four. We encourage your data use. Please review your prevention provider region data and dollars they are spending on EBPs and let us know. The result will be a state total for all regions. Su Min explains that the data is in real time. She also described the various tabs and their meaning.

### **Partner Updates – All**

**Michigan State Police (MSP)** – Dianne explained changes to the Saliva law. MSP will conduct a pilot project in five counties which is a roadside saliva test that is not admissible in court, but will give authorities a probable cause to draw blood. Still in process of choosing the counties. Only drug recognition (DREs) officers can conduct the tests. We have one year to get it right because the Defense Attorneys Associations are tracking this. Received a lot of backlash from medical marijuana advocates regarding medical marijuana patients of which Dianne explained how the testing differentiates. Will let everyone know when and which counties are chosen. Preparing the final math and review on the marijuana crash county data.

**Michigan Primary Care Association (MPCA)** – Joe T explains they received the 2015 Uniform Data System (UDS), the reporting system in which FQHCs/FQHC Look-Alikes fill in their audited data. This data includes some clinical data sets in which SEOW might be interested in seeing once the trend analysis is completed. There is no time frame at this time in which the trend analysis will be completed.

**MDHHS/Viral Hepatitis Surveillance and Prevention Unit** – Joe C explains about the proposal to the CDC about the Syringe Service Programs and the redirecting of federal funds to start/build upon existing syringe service programs and approval by the CDC. He says now we can approach statewide existing grantees about the potential of redirecting their existing federal funds for syringe service programs that include CDC, the Substance Abuse Mental Health Services Administration (SAMHSA), and Ryan White dollars. Have received queries from various parts of the state regarding initiating syringe service programs, such as the upper peninsula, St. Clair, Jackson, Muskegon County, among others. Larry mentions language in the Block Grant within the regulations related to Syringe services and asked SAMHSA for clarification. Joe goes on to explain how their lab is going to start building the capacity to do molecular testing of people who are positive for the HCV/hepatitis C virus and compare similarities within populations; such as a cluster of people within a specific area.

**Education** – No Education staff could attend today. However, Su Min explained that she spoke to Kim Kovalchick about her staff attending the SEOW in person as our preference and when that is not possible, to submit the form.

### **FDA Deeming Products and What They Mean for Prevention – Carolyn Foxall**

Carolyn introduced herself. She then proceeded to explain what Deeming products are, the law regarding Deeming products and the implications for prevention. She also explained that the Deeming Rule+ was announced in May 2016 and went into effect on August 8, 2016. There are two parts to the rule; provision that extended the statutory products (tobacco) and other products; tobacco substance that contains nicotine; but in the case of the Deeming Rule differentiates the two.

Next, Carolyn shared a PowerPoint which was more in-depth and gave the audience a more historical summary and meaningful explanation of the Deeming Rule. Some of the details and explanations included: what a covered tobacco product is (vape, smokeless tobacco, etc.), ENDS, accessories (carrying cases, holsters, pipe pouches, humidors, etc.) not included in the Deeming Rule, brand names of specific products, unregulated products, manufacturers that want to discredit the FDA ruling, the warning statement required on tobacco products, manufacturers cannot sell or offer to sell after May 10, 2018 without including a health warning, no free samples, as well as other information.

Lastly, Carolyn explained the FDA's approach to regulating the industry and described available online training education, compliance education to consumers, merchants and manufacturers, as well as monitor regulated industry compliance with the law through surveillance, inspections and investigations. The State's responsibilities include covert and overt inspections and more details about how those responsibilities are carried out. She also mentioned forms of policing, such as warning letters, fines, violations, civil money penalties, seizures, injunctions, and criminal prosecution, etc. In addition she offered contact information; e-mail and phone numbers, Carolyn Foxall at [Foxallc@michigan.gov](mailto:Foxallc@michigan.gov) and Kelsey Schell at [SchellK@michigan.gov](mailto:SchellK@michigan.gov). Carolyn

informed every one of the Glossary of Terms. Dianne wants to know if there is a flowchart or going to be a flowchart of enforcement that will tell who can and who cannot do what; Carolyn gave an explanation based on the information she has received up to this point. Submit your recommendations to Carolyn if you have any.

**Next Steps/Action Items:**

No meeting on September 21, 2016 due to [17th Annual Substance Use & Co-Occurring Disorder Conference](#). Ideas and thoughts for agendas may be submitted to Joel, Larry, or Su Min

**Other Items:**

Do Your Part posters are available for your distribution and they will also be at the [17th Annual Substance Use & Co-Occurring Disorder Conference](#). Let Su Min know if you are interested.

Meeting adjourned at 2:50pm

MEMBERS/GUEST NAMES	ORGANIZATION	WORKGROUP	HERE? YES/NO
AGIUS, ELIZABETH	WAYNE STATE UNIVERSITY	MEMBER	NO
BIELAWSKI, BRET	MSU CLINICAL PROFESSOR/INTERNAL MEDICINE	CONSULTANT	NO
BULLARD, SANDRA	MDHHS/OROSC	MEMBER	YES
COLEMAN, LISA	REGION 10 PIHP	MEMBER	NO
COYLE, JOE	MDHHS/VIRAL HEPATITIS SURVEILLANCE AND PREVENTION UNIT	MEMBER	YES
DUDEK, BROOKE	WAYNE STATE UNIVERSITY INTERN	GUEST	YES
GOERGE, JANE	CMH PARTNERSHIP OF SOUTHEAST MICHIGAN	MEMBER	PHONE
HARTL, BRIAN	LAKESHORE REGIONAL PARTNERS	MEMBER	NO
HELVESTON, MARIE	NORTHERN MICHIGAN REGIONAL ENTITY	GUEST	PHONE
HERBERT, DENISE	LAKESHORE REGIONAL PARTNERS	MEMBER	NO
HOEPFNER, JOEL	COMMUNITY MENTAL HEALTH AUTHORITY OF CLINTON, EATON, INGHAM COUNTIES	MEMBER/CHAIRPERSON	YES
ISAACSON, RICHARD	U. S. DRUG ENFORCEMENT AGENCY	MEMBER	NO
JENUWINE, NANCY	MACOMB COUNTY	GUEST	PHONE
KOVALCHICK, KIM	MICHIGAN DEPARTMENT OF EDUCATION	MEMBER	NO
LUDTKE, MARY	MDHHS/MENTAL HEALTH	MEMBER	NO
LYONCALLO, SARAH	MDHHS/LIFECOURSE EPIDEMIOLOGY & GENOMICS DIVISION	MEMBER	NO
MAMOU, FATEMA	MDHHS/LIFECOURSE EPIDEMIOLOGY	GUEST	NO
MARTIN, KELLI	MDHHS/OROSC	MEMBER	NO
NICOLE KRAMER	MICHIGAN DEPARTMENT OF EDUCATION	MEMBER	NO
OH, SU MIN	MDHHS/OROSC	MEMBER/SEOW EPIDEMIOLOGIST	YES
PERUKEL, DIANNE	MICHIGAN STATE POLICE/OHSP	MEMBER	YES
RADZIOCH, DAWN	MACOMB COUNTY CMH SERVICES	GUEST	PHONE
ROCKHILL, SARAH	CHILD ADOLESCENT SCHOOL HEALTH PROGRAM	GUEST	NO
SCOTT, LARRY	MDHHS/OROSC	MEMBER	YES
SHELAFOE, GERY	NORTHCARE NETWORK	MEMBER	NO
SMITH-BUTTERWICK, ANGELA	MDHHS/OROSC	MEMBER	NO
STANBURY, MARTHA	MDHHS/DIVISION OF ENVIRONMENTAL HEALTH	MEMBER	NO
TRAN, JOE	MI PRIMARY CARE ASSOC.	MEMBER	PHONE
VANDERKOOI, STEPHANIE	LAKESHORE REGIONAL PARTNERS	MEMBER	NO
WIEFERICH, JEFF	MDHHS/COMMUNITY PRACTICES AND INNOVATION	CONSULTANT	NO
<b>NEXT MEETING</b>			
<b>DATE:</b>	WEDNESDAY, OCTOBER 19, 2016		
<b>TIME:</b>	1:00 PM TO 3:00 PM		
<b>LOCATION:</b>	Lewis Cass Building 320 S Walnut, 5 <sup>th</sup> Fl., Large Conference Room Lansing, MI 48913 517-373-4700
