The Workgroup's Purpose

Lynda Zeller

- ▶ By the conclusion of today's meeting, we will have delivered:
 - ▶ An agreed upon end statement and core values
 - ▶ Suggested boilerplate concepts
 - ▶ An outline of a plan that reflects consensus on high-level elements of a coordinated, seamless system of services and supports

End Statement

To have a coordinated system of supports and services for persons (adults, children, youth, and their families) at risk for or with intellectual/developmental disabilities, substance use disorders, mental health needs, and physical health* needs. Further, the end state is consistent with stated core values, is seamless, maximizes percent of invested resources reaching direct services, and provides the highest quality of care and positive outcomes for people and the community.*

**State of complete physical, mental, and social well being, and not merely the absence of disease or infirmity.*

How the Work Will Continue After Today's Meeting

Elizabeth Hertel

- ▶ Conference committee agreement on budget boilerplate
- ▶ How the Department plans to move forward with the workgroup's consensus on core values and design elements for an improved system

Consensus on Design Elements for a Better System

Facilitation of full group voting

- ▶ Review of design elements receiving the most positive support through the online voting process
- ▶ Friendly amendments
- ▶ Full group will vote with green, yellow, and red cards on design elements
 - ▶ Two-thirds support required

Next Steps and Thank You!

Lynda Zeller & Chris Priest

- ▶ PSC will prepare a final document with all of the consensus design elements
- ▶ These consensus design elements, the core values, the end statement, and the new budget boilerplate will be the foundation for the more detailed system improvement work that will occur over the next few months
- ▶ Thank you for all of your hard work!
