

Changes in Funding Allocations for PIHP and CMHSP

(FY2019 Appropriation Act - Public Act 207 of 2018)

September 30, 2019

Sec. 1004. The department shall provide the senate and house appropriations subcommittee on the department budget, the senate and house fiscal agencies, and the state budget office any rebased formula changes to either Medicaid behavioral health services or non-Medicaid mental health services 90 days before implementation. The notification shall include a table showing the changes in funding allocation by PIHP for Medicaid behavioral health services or by CMHSP for non-Medicaid mental health services.

Michigan Department of Health and Human Services
Report on rebased formula changes to either Medicaid behavioral health
services or non-Medicaid mental health services.
Section 1004

The legislative reporting requirements indicate that the MDHHS report on Medicaid and Non-Medicaid funding changes that result from any rebased formula changes is due 90 days before implementation. Medicaid funding has not been revised and did not have a rebasing of the formula for Medicaid.

The distribution of General Fund resources to the Community Mental Health Services Programs (CMHSP) has largely been based on past historical distributions and has not been reflective of the community needs across the State. Legislators, the Michigan Department of Health and Human Services (MDHHS) and other stakeholders, including the Community Mental Health Association of Michigan (CMHAM) agreed that a General Fund distribution methodology should be established to equitably distribute the resources based on the needs of the population the CMHSPs are responsible to serve. A workgroup was created with representation from MDHHS and various CMHSPs and CMHAM to develop the new methodology. Consensus was reached among the workgroup on the variables that would be used to develop the new funding formula.

Therefore, beginning October 1, 2018, MDHHS changed how General Fund amounts are allocated to the CMHSPs. The change to the revised distribution methodology will be phased in over 5 years. The new allocation method reflects an operating base for all CMHSPs, current demands on General funds for jail diversion and spend down, with the balance of the allocations based on each CMHSP's non-Medicaid population that is at or below 200% of the Federal Poverty level.

Detailed information on the current CMHSP allocations and the impact of implementing the new methodology over the five-year time period beginning October 1, 2018 is attached.

CMHSP General Fund Distribution
Distribution detail by CMHSP based on workgroup approved methodology
