APPROP #	APPROP NAME	APPROPRIATED	ESTIMATED ANNUAL EXPENDITURES	ESTIMATED YEAR-END BALANCE	% ESTIMATED EXCEEDANCE	EXPLANATION FOR EXCEEDANCE	PLANNED CORRECTIVE ACTION
30750	AIDS prevention, testing, and care programs	\$ 63,752,200	\$ 96,502,200	\$ (32,750,000)	51.4%	With the implementation of the Affordable Care Act, some Michiganders became Medicaid eligible which reduced the private expenditures for this program. However, due to a slight increase in AIDS Drug Assistance Program (ADAP) rebates for eligible individuals, the ADAP private funds have continued to increase slightly. In Fiscal Year 2020 (FY20) the DHHS increased contracts with hospitals, health departments, and nonprofit agencies to provide additional ADAP private funds to support additional services related to HIV medical care; tobacco use reduction and intervention for people with HIV/AIDS; obesity, and hypertension program services; cancer prevention, aging services, diabetes prevention, breast feeding, informatics, and housing; and HIV care coordination. The focus is on clientele that were not Medicaid eligible or had another form of insurance to cover the high cost of services. MDHHS is establishing medical centers in underserved areas as well. Due to the additional services and the overall increase of medications in FY20, additional private authorization is needed to support these activities.	Supplemental Request 2020-1
