3. *Current percentage of FIP cases that meet federal work participation requirement.*

The federal work participation rate is based on a monthly review of a statistically valid sample of federally-funded active FIP recipients who have been referred to PATH and have completed the required FIP 21-day orientation. Reviews are completed by the MDHHS Office of Quality Assurance and Internal Control and the work participation rate is calculated per federal regulations. The current percentage of federally-funded FIP cases (meeting the above qualifications) that meet federal work participation requirements for FY 2015, year-to-date (October 2014 - August 2015) is **68.93%** as of December 3, 2015. The FIP work participation rates are point-in-time rates subject to change based on receipt of verifications and review by the federal Department of Health and Human Services, Administration for Children and Families.

Please Note: The following table provides details regarding the data included for each monthly report for Fiscal Year 2016. The MDHHS Office of Quality Assurance and Internal Control reports Work Participation Rate (WPR) on a three-month lag because of the rigorous methodology and testing required to calculate the data.
