# AUDIT FINDINGS

## NARRATIVE:

The site visit for the PREA audit of the Shawono facility was conducted on October 31-November 1, 2016 to determine compliance with the 2012 Prison Rape Elimination Act standards. During the audit, the auditor toured the facility and conducted formal staff and resident interviews. The population consists of 40 juvenile males. The auditor interviewed 11 juveniles (11 random juveniles from all of the housing units). Of those juveniles three (3) were interviewed who self identified as being Bi-Sexual. In addition, the auditor questioned fourteen (14) staff and youth specialists, eight (8) specialized staff and six (6) random youth specialists, about PREA training, how to report, to whom to report, filing reports, available interventions, conducting interviews, evidence collection, follow up, and monitoring retaliation. Specialized staff interviewed included the Director, the PREA compliance manager, a special education teacher, an Investigator, a Mental Health Group leader, a contract medical LPN, a Shift Supervisor and the HR specialist.

An entrance meeting was held with the following persons in attendance: the Facility Director, the PREA Juvenile Compliance Coordinator and the PREA Facility Manager.

There are currently 40 juveniles assigned to the facility. Following the entrance meeting, I toured the facility from 8:30 a.m. to 9:30 am, Eastern Standard Time. In the last calendar year, there were zero sexual assault/harassment allegation cases.

## DESCRIPTION OF FACILITY CHARACTERISTICS:

Shawono Center, Grayling, MI, is a publicly-operated, secure 40-bed treatment facility for male juveniles between the ages of 12 and 21 years who have been adjudicated for one or more felony counts. The center offers specialized treatment programs for sex offenders, addictions/substance abuse and delinquents with co-occurring mental health issues. All services are provided in a secure environment where treatment can take place while assuring the community a high level of security.

The facility mission statement is "Improving the quality of life in Michigan by providing services to vulnerable children that will enable families and individuals to move toward independence". The mission statement of the parent organization, the Michigan Department of Health and Human Services (MDHHS), is "Child welfare professionals will demonstrate an unwavering commitment to engage and partner with families we serve to ensure safety, permanency and well-being".

Facility outdoor recreation areas are fenced and exterior doors and selected interior doors in the building are locked and can only be opened by using a staff key. The housing consists of four living units with individual cells. Each living unit contains 10 cells each. These cells contain individual beds and a clothing storage unit for each student. Each unit also contains showers and restrooms to accommodate the population of the unit. Showers are taken individually and shower doors are locked by staff when occupied by youth to prevent intrusion. The facility includes classrooms for education and group therapy, a food service area with cafeteria, a gymnasium and an administration area. All areas of the building are connected by enclosed hallways.

Shawono Center offers three distinct treatment opportunities. Substance Abuse Treatment is designated for treatment of chronic substance users where substance use contributed to or caused offender criminal behavior. Treatment includes daily treatment groups, a full school schedule including special education services, high school credit recovery and/or GED completion, psychological services, neuro-therapy if indicated, family work, community service, and enhanced transition services.

General Offender Treatment is provided for delinquents with both generalized criminogenic behavior and mental health issues. Treatment services include the same milieu as described above, with additional emphasis on psychological services and interventions. Likewise, treatment for sexual offenders includes the services provided to all residents and the additional of specific programming for rehabilitation of sexual offenders. There are two groups (of the four total in the program) that are designated as sexual offender groups. These groups are housed in one area of the building and the other two groups are housed in a different area of the building. The facility historically reserved several beds for short-term detention, however, that is not occurring at this time because of the current state-wide need for treatment beds.

Group counselors / treatment leaders are Master's level counselors. The program requires them to be trained in and administer a valid criminogenic risk assessment system, in addition to specific PREA screening and other assessments. All staff, regardless of title or position, must attend PREA training at least annually. Other required training includes CPR/First Aid, crisis intervention and physical restraint training and program specific training.

Youth can be placed at Shawono Center through the MDHHS assignment unit or can be direct ordered into the facility by the Courts. The Court determines length of stay at the facility, generally based on completion of program treatment goals. The average length of stay in at the facility is 13 months. Shawono Center utilizes the evidence-supported Boys Town Treatment Model as one component of its behavior modification modality and the facility participates fully in the Michigan Youth Re-Entry Initiative. Full medical, dental, and immunization services are provided at no charge to residents.

The agency PREA compliance manager informed me that their central office administration will be reviewing their budget to change ratios to meet PREA standards during the 2016 fiscal year. Policy ratios were met at all times except in the case of unforeseen and temporary circumstances. There are adequate resources to meet PREA and other confinement requirements. There has been no cross gender strip or visual body cavity searches by non-medical staff in the past year. Female staff do not conduct patdown searches. - Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Data was collected for 2012 calendar year, aggregated and posted to the public. In addition, information on compliance status was included in that report. This report was prepared for the Director of DHS to move forward with PREA compliance. This report recommended that the Governor sign for assurance and also listed general recommendations for achieving full compliance. Specifically, the 2013 data is being collected to compare with the 2012 data. Once this is collected, it will be analyzed and compared with the previous year's data. Recommendations will be made from this data. This information was obtained from an interview with the agency PREA coordinator, a review of the 2012 data and the March 2013 report to the Governor on the PREA.
