Revalidation Overview

- All providers are required to revalidate their Medicaid enrollment information a minimum of once every five years, or more often if requested by MDHHS. MDHHS will notify providers when revalidation is required.

- This presentation will cover the provider enrollment steps that are required during revalidation, additional provider enrollment steps may need to be updated or reviewed by providers but are listed as optional and are not covered in this presentation.

- Providers should review information within each enrollment step to ensure it’s up to date and accurate.

- When providers update their enrollment information a new record is created for Provider Enrollment to review. Providers can change the updated information through the new record until the enrollment is submitted to the State for review.
Provider Enrollment Revalidation Process

- Providers have a 90-day period to complete their revalidation in CHAMPS.
  - **Note:** The 90-day period to complete a revalidation **ONLY** applies to Home Help providers on their original revalidation attempt. If MDHHS re-opens a closed enrollment, providers will be told of the new timeframe to complete the re-opened revalidation.

- The first day of the revalidation period, providers will be mailed a letter addressed to their CHAMPS correspondence address located within the Provider Enrollment information.
- 30 days prior to the revalidation period end date a second letter is mailed if the revalidation has not been completed.
- If the revalidation has not been completed by the end of the last day of the revalidation period, a termination letter will be generated.
  - For example: 2/24/20 is the revalidation cycle end date, the termination letter will be generated the night of 2/24/20.

If revalidation is not completed during the revalidation period, the provider will have their enrollment closed and payments will stop immediately.

- Once an enrollment is closed due to not completing revalidation providers must contact MDHHS Provider Enrollment to have the enrollment re-opened.
  - **Note:** If MDHHS opens the enrollment manually the changes cannot be made by the provider until the following day.
Log in to MILogin and CHAMPS

MILogin is a website that allows a user to enter one ID and password in order to access multiple applications.

CHAMPS (Community Health Automated Medicaid Processing System) is the program where providers enroll, update enrollment information, and report services performed.
