

Tribal Health Centers Q and A

December 20, 2017

CHAMPS Facility Settlement Subsystem

- 1. If we are not required to file a cost report, is there any advantage in doing so?**
 - The only advantage is receiving an estimate of what your settlement will be.

- 2. With the UB billing change happening 8/1/2017, will the entire calendar year of 2017 be reported in the format you just showed?**
 - Yes, calendar year 2017 will be in the new format.

- 3. If the report automatically happens on the date it is due, is there a period of time we have to cross reference claims on our end? If so, what period of time do we have to do so?**
 - Final settlements are processed as early as twelve months after the THC's fiscal year end. THCs have 30 days after the final settlement letter is sent to review all related data. That's a minimum of thirteen months after the THC's fiscal year end to review claims data before a final settlement is paid.
