Michigan Bureau of Services for Blind Persons

Michigan Behavioral Health and Developmental Disabilities Administration

Michigan Workforce Development Agency

Michigan Developmental Disabilities Council

Vision: Through strong interagency collaboration, students with disabilities will exit school with competitive integrated employment and/or a connection to post-secondary education intended to lead to employment.

1. Recitals and Purpose

1.1 Nationally and in Michigan, many individuals with disabilities are unemployed or significantly underemployed upon leaving school compared to their peers who do not have disabilities.

1.2 Preparation for competitive integrated employment should take place throughout secondary education and extend through transition to the workforce or post-secondary education.

1.3 Together with Michigan’s Employment First Executive Order No. 2015-15, this Memorandum of Understanding (MOU) recognizes that Michigan starts with the presumption that everyone, with the appropriate preparation and support, can be employed in a competitive integrated job as defined below.

1.4 The parties to this agreement share a common responsibility, philosophy and goal of increasing the number of transition age students and youth with disabilities who successfully transition from school to competitive integrated employment.

1.5 Therefore, to support and increase the number of students and youth with disabilities transitioning from school to employment and/or a connection to post-secondary education intended to lead to employment, the above listed agencies enter into this MOU.

2. Definitions

2.1 Transition aged students and youth with disabilities: Per the Workforce Innovation and Opportunity Act (WIOA), students with a disability are between the ages of 16 and 21 who are eligible for and receiving Individuals with Disabilities Education Act (IDEA) services or an individual with a disability for purposes of section 504. Michigan special
education services may extend through age 25 (beyond the federal requirement of age 21).

2.2 **Competitive integrated employment**: full or part time work at minimum wage or higher, with wages and benefits similar to those without disabilities performing the same work, and fully integrated with co-workers without disabilities.

2.3 **Employment services**: services provided by Michigan Rehabilitation Services (MRS), Michigan Bureau of Services for Blind Persons (BSBP), Michigan Behavioral Health and Developmental Disabilities Administration (BHDDA), or Michigan Workforce Development Agency (WDA) that are intended to assist persons with disabilities choose, obtain, learn and maintain competitive integrated employment. For transitioning students and youth with disabilities these services are often delivered in conjunction with IDEA services provided by Local Education Agencies.

2.4 **Transition services**: It is the intent of IDEA and WIOA statutes and regulations that transition services be a coordinated set of activities for an individual with a disability designed within an outcome-oriented process that promotes movement from school to post-school activities, including postsecondary education, vocational training, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. The coordinated set of activities must be based upon the individual student’s needs, taking into account the student’s preferences and interests, and must include instruction, community experiences, the development of employment and other post-school adult living objectives, and, if appropriate, acquisition of daily living skills and functional vocational evaluation. For the purposes of this agreement transition services must promote or facilitate the achievement of the employment outcome identified in the student’s individualized plan for employment.
