

Michigan Cancer Atlas 2019:

Risk Factors, Screening, Incidence, and Mortality

GRETCHEN WHITMER, GOVERNOR | ROBERT GORDON, DIRECTOR

Overview

Background

Cancer is the second leading cause of death in Michigan and the number one cause of death for people over the age of 80. Cancer incidence and mortality rates vary by age, sex, race/ethnicity, geographic area, and cancer site.

Cancer is not one single disease but a term used to describe more than 100 different diseases. Cancer is due to abnormal cell growth, however the speed of growth and the reaction to treatment varies by cancer type. A substantial portion of cancer can be prevented. About one-third of cancer deaths in the U.S. are attributed to cigarette smoking. However, the primary cause of many cancers still remains unknown. The cause of cancer is complex and is most likely due to the interaction of numerous factors such as: demographics (e.g. age, race, sex), social determinants (e.g. education, income, food insecurity, access to care, discrimination), health behaviors (e.g. tobacco, alcohol, obesity, inactivity), genetics (e.g. genetic mutations, family history), and environmental factors (e.g. infectious agents, radon, radiation). There are several different types of cancer screening methods that can help prevent or diagnose some cancers early. When cancer is diagnosed early, survival rates improve.

This report presents the geographic patterns of cancer rates and associated factors across the state of Michigan.

Table of Contents

Data Sources and Methods	3
Overview of Michigan Geography	4
Social Determinate Measures	6
Cancer Risk Factors and Prevention Measures	16
Detection and Diagnosis Measures	23
Incidence and Mortality Measures	33
For More Information	60

Data and Methods

Risk Factors and Detection

Risk factors and screening data were obtained from the Michigan Behavioral Risk Factor Survey. This survey is representative of the current Michigan adult population. Prevalence estimates were calculated using SAS-Callable SUDAAN. Risk factor data (smoking, alcohol, etc.) contains data from survey years 2016-2017. Cancer screening data is only asked during even survey years. The estimates for these measures are from survey years 2014 and 2016.

Source: Michigan Behavioral Risk Factor Survey

Cancer Incidence

Cancers are coded to the International Classification of Diseases for Oncology, Third Edition (ICD-O-3). Incidence rates include invasive cancers only, with the exception of *in situ* bladder cancers being included in the overall cancer rates. This is consistent with the methodology of the Surveillance, Epidemiology, and End Results Program (SEER). Age-adjusted rates are computed by the direct method, and are age-adjusted to the 2000 U.S. population.

Source: Michigan Cancer Surveillance Program (MCSP) 2012-2016

Cancer Staging

Stage at diagnosis is characterized using staging method: SEER Summary Stage 2000. Late stage refers to diagnoses at the regional and distant stages.

Source: Michigan Cancer Surveillance Program (MCSP) 2012-2016

Cancer Mortality

Cancer mortality refers to deaths in which the underlying death reported was cancer (ICD-10= C00-C97). Age-adjusted rates are computed by the direct method, and are age-adjusted to the 2000 U.S. population.

Source: Michigan Resident Death Files 2013-2017

Outliers

In this report, an outlier is any county or prosperity region with a measure that is abnormally high. Counties and regions are considered to be outliers if the measure is greater than the outlier cutoff of $Q3 + (1.5 * IQR)$, where Q3 refers to the third quartile and IQR refers to the interquartile range (Q3-Q1). These counties and regions are outlined in red in the maps.

Michigan's Counties

Other Regions

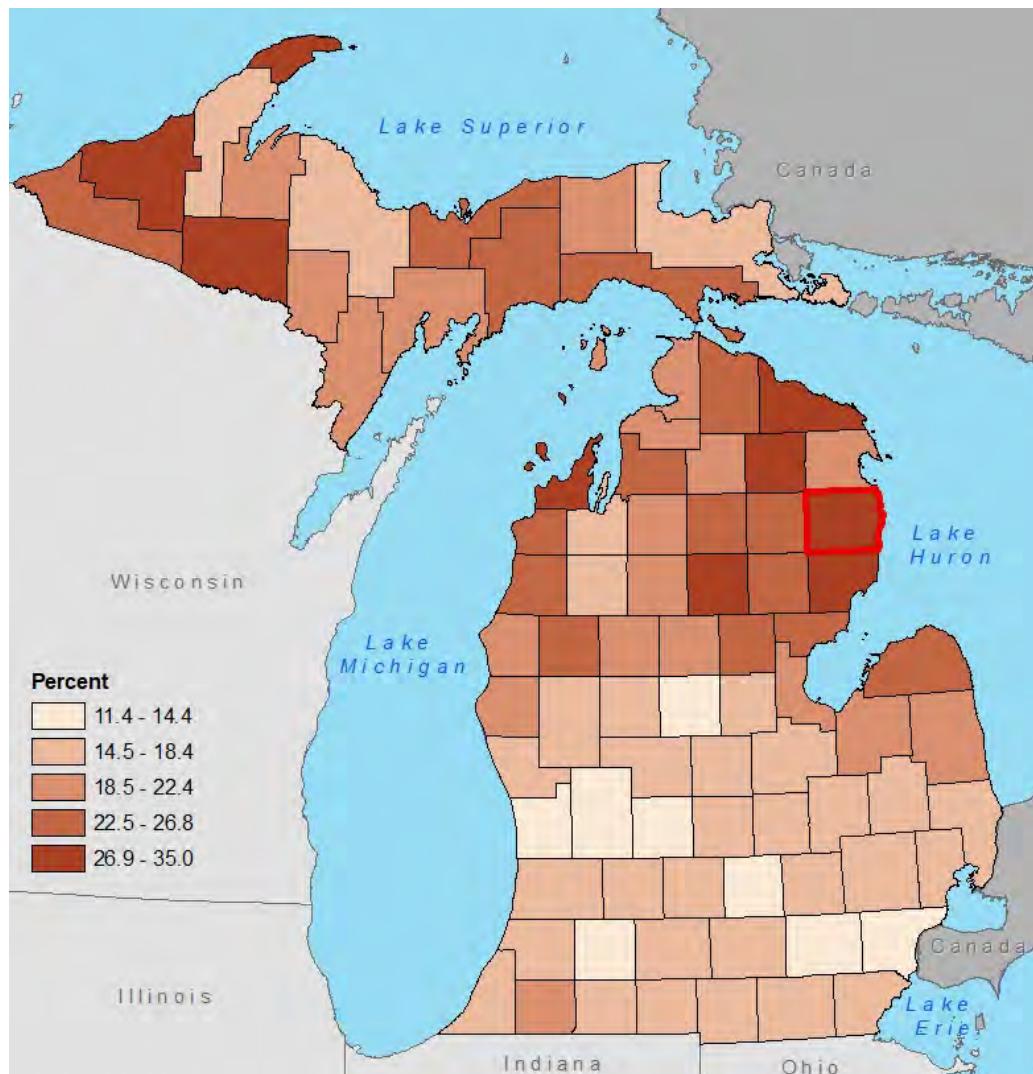

Select analyses will be shown by prosperity regions to minimize data suppression

Incidence and mortality for the Native American population will be shown by tribal service region

Currently Smokes Cigarettes

Data Notes:

^a Data taken from 2016-2017 Michigan Behavioral Risk Factor Survey (MiBRFS) ^b Current smoking defined as the proportion who reported that they had ever smoked at least 100 cigarettes (5 packs) in their life and that they smoke cigarettes now, either every day or on some days.

Prevalence of Adult Smokers ^{a,b}	
Prosperity Region	Percent (%)
1 – Upper Peninsula	21.1
2 – Northwest	21.0
3 – Northeast	23.6
4 – West Michigan	18.3
5 – East Central Michigan	21.6
6 – East Michigan	24.0
7 – South Central	15.5
8 – Southwest	18.8
9 – Southeast Michigan	16.9
10 – Detroit Metro	22.5
State of Michigan	20.7

Excessive Drinking

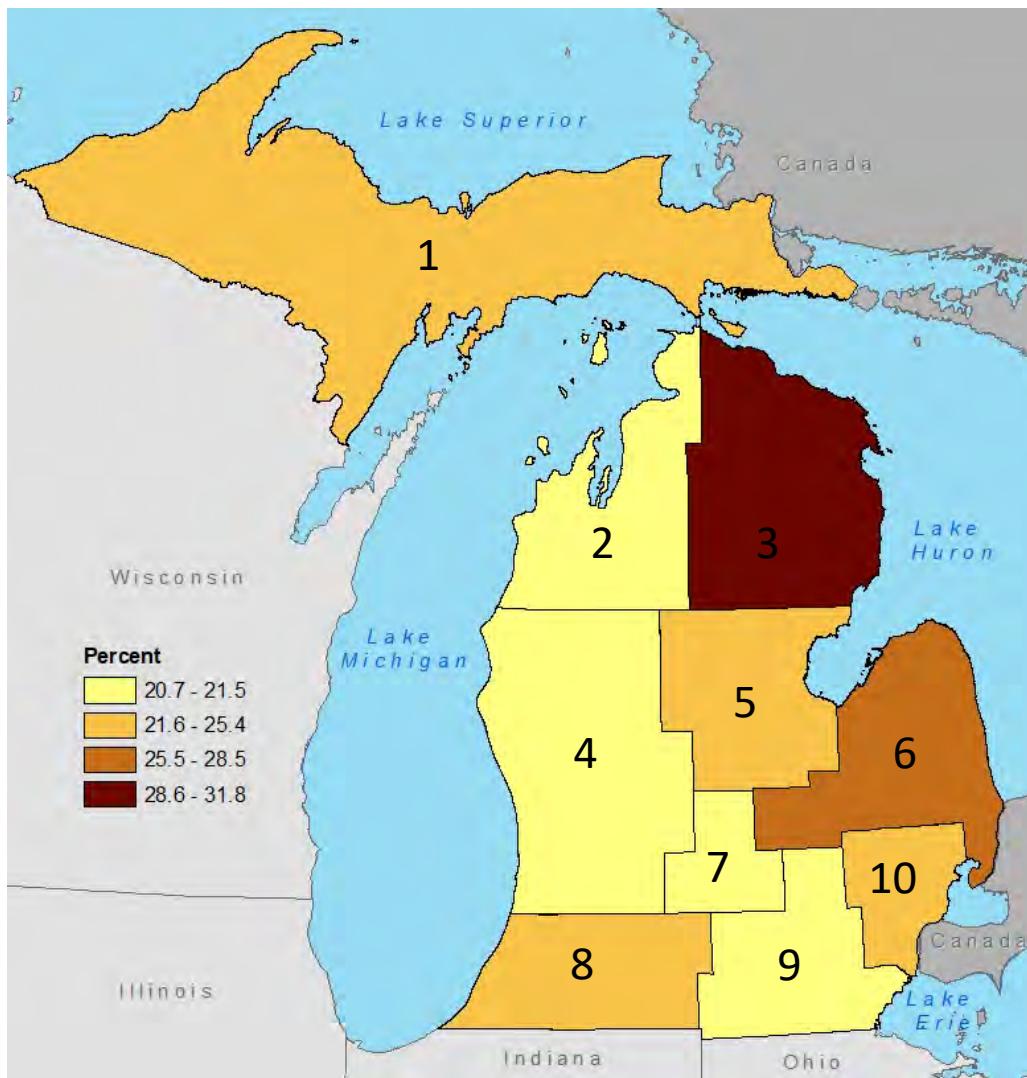

Prevalence of Adult who Report Excessive Drinking^{a,b}

Prosperity Region	Percent (%)
1 – Upper Peninsula	16.4
2 – Northwest	20.4
3 – Northeast	15.5
4 – West Michigan	20.0
5 – East Central Michigan	23.6
6 – East Michigan	22.3
7 – South Central	19.5
8 – Southwest	17.5
9 – Southeast Michigan	23.2
10 – Detroit Metro	20.2
State of Michigan	20.4

Data Notes:

^a Data taken from 2016–2017 Michigan Behavioral Risk Factor Survey (MiBRFS) ^b Excessive drinking defined as the proportion who reported consuming an average of more than two alcoholic drinks per day for men or more than one per day for women in the previous month or reported consuming five or more drinks per occasion (for men) or 4 or more drinks per occasion (for women) at least once in the previous month.

Physical Inactivity

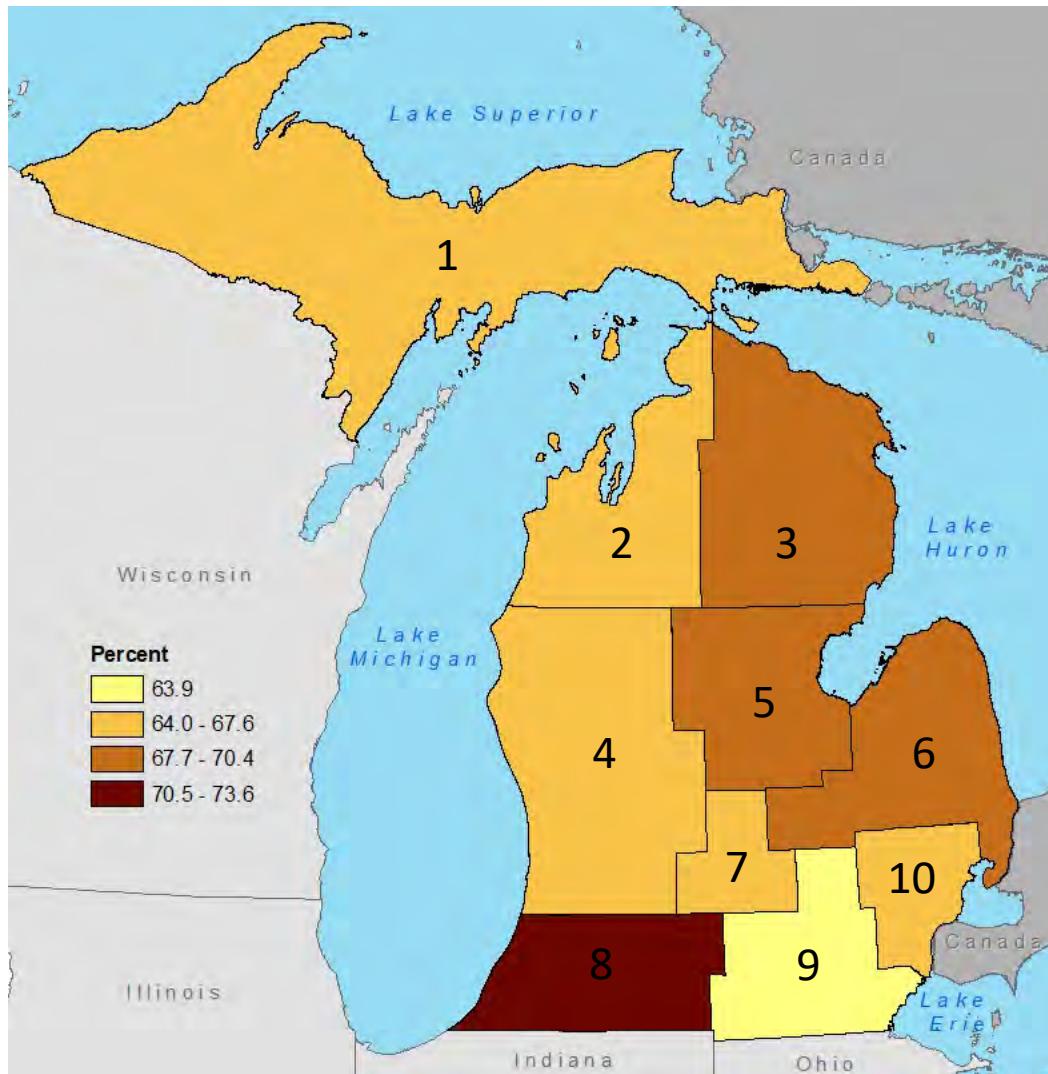

Prevalence of Adults Reporting Physical Inactivity^{a,b}

Prosperity Region	Percent (%)
1 – Upper Peninsula	25.4
2 – Northwest	20.7
3 – Northeast	31.8
4 – West Michigan	21.5
5 – East Central Michigan	24.9
6 – East Michigan	28.5
7 – South Central	21.5
8 – Southwest	24.6
9 – Southeast Michigan	21.5
10 – Detroit Metro	24.5
State of Michigan	24.1

Data Notes:

^a Data taken from 2016-2017 Michigan Behavioral Risk Factor Survey (MiBRFS) ^b Physical inactivity defined as the proportion who reported not participating in any leisure time physical activities or exercises such as running, calisthenics, golf, gardening, or walking for exercise during the past month.

Obese or Overweight

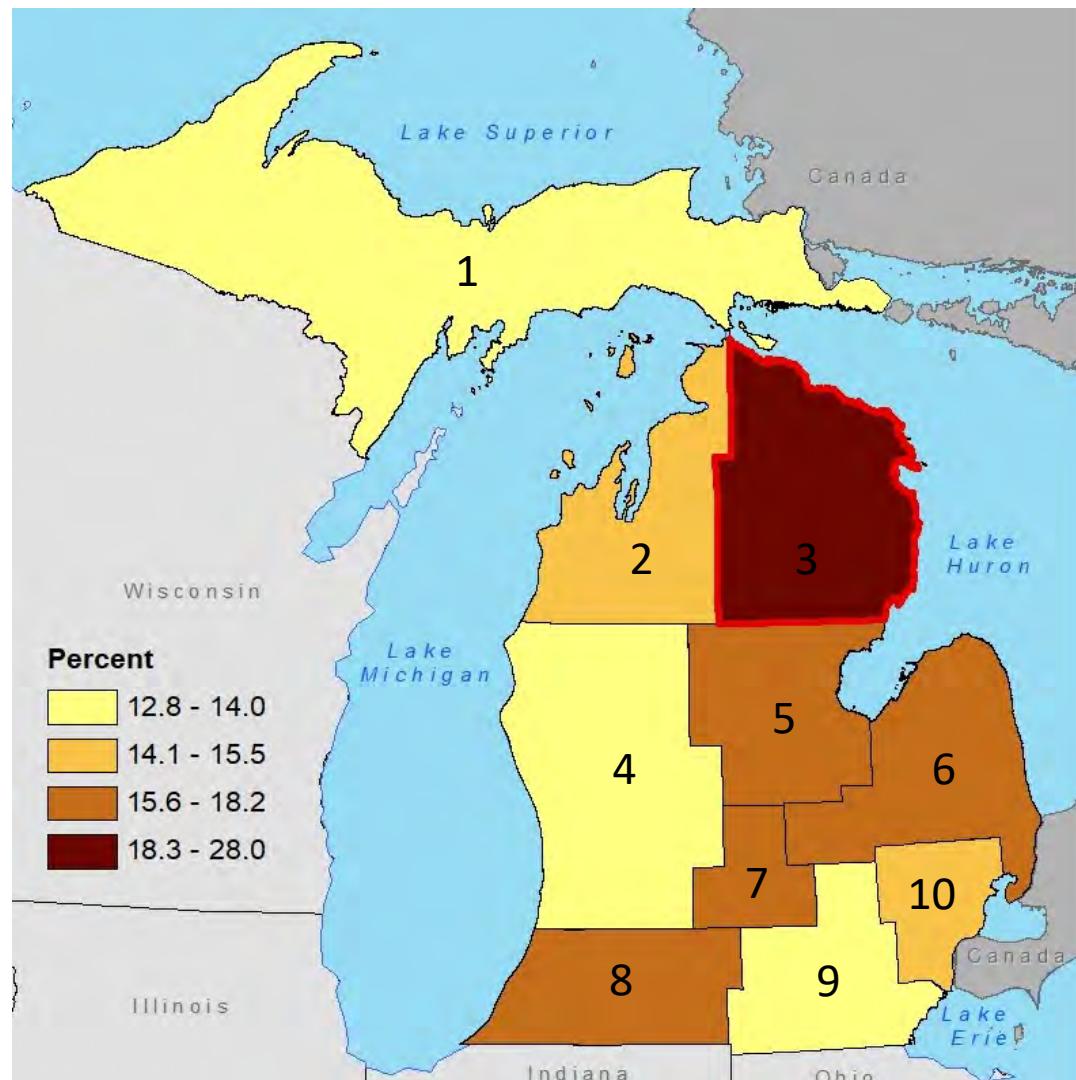

Prevalence of Adults who are Obese or Overweight ^{a,b}

Prosperity Region	Percent (%)
1 – Upper Peninsula	67.1
2 – Northwest	67.1
3 – Northeast	69.3
4 – West Michigan	67.6
5 – East Central Michigan	69.7
6 – East Michigan	70.4
7 – South Central	66.5
8 – Southwest	73.6
9 – Southeast Michigan	63.9
10 – Detroit Metro	67.2
State of Michigan	67.8

Data Notes:

^a Data taken from 2016-2017 Michigan Behavioral Risk Factor Survey (MiBRFS) ^b Obesity or overweight defined as the proportion of respondents whose body mass index (BMI) is greater than or equal to 25.0.

Family History of Hereditary Cancer

Prevalence of Family History of Hereditary Cancer ^{a-c}

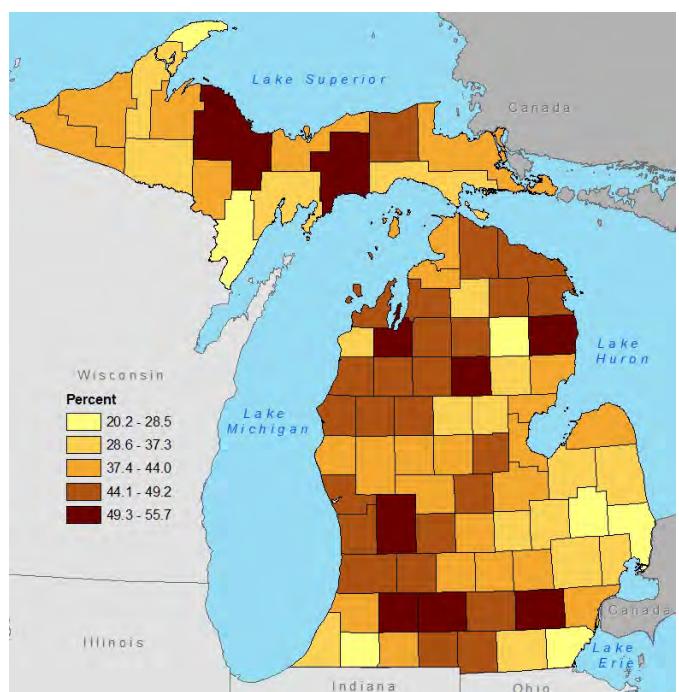

Prosperity Region	Percent (%)
1 – Upper Peninsula	14.0
2 – Northwest	15.5
3 – Northeast	28.0*
4 – West Michigan	14.0
5 – East Central Michigan	16.4
6 – East Michigan	18.2
7 – South Central	16.3
8 – Southwest	16.5
9 – Southeast Michigan	12.8
10 – Detroit Metro	15.0
State of Michigan	15.4

Data Notes:

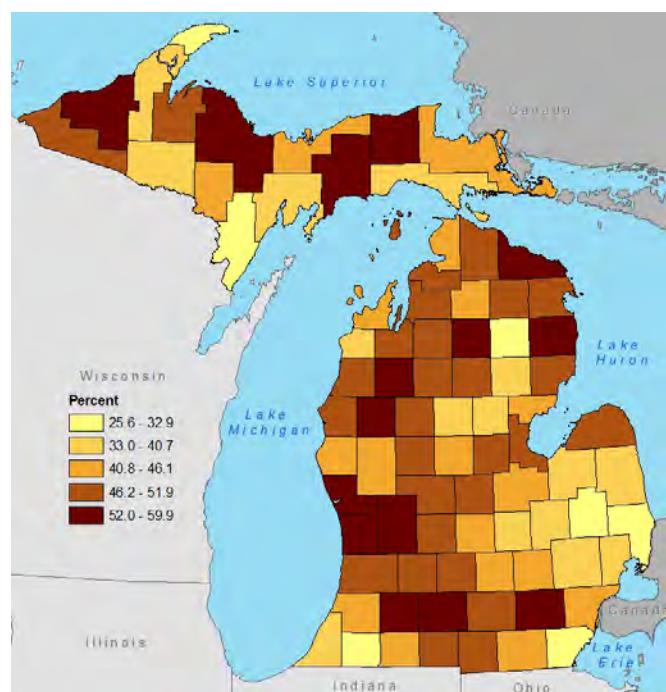

^a Data taken from 2016-2017 Michigan Behavioral Risk Factor Survey (MiBRFS) ^b Family History of Hereditary Cancer is defined here as having at least one relative diagnosed before the age of 50 with Breast Cancer (YBC) or diagnosed with Ovarian Cancer (OC) at any age ^c Counties defined as outliers (see page 3) are outlined in red on the map and indicated by a red asterisk in the table.

HPV Vaccination Completion Percentage

Male

Female

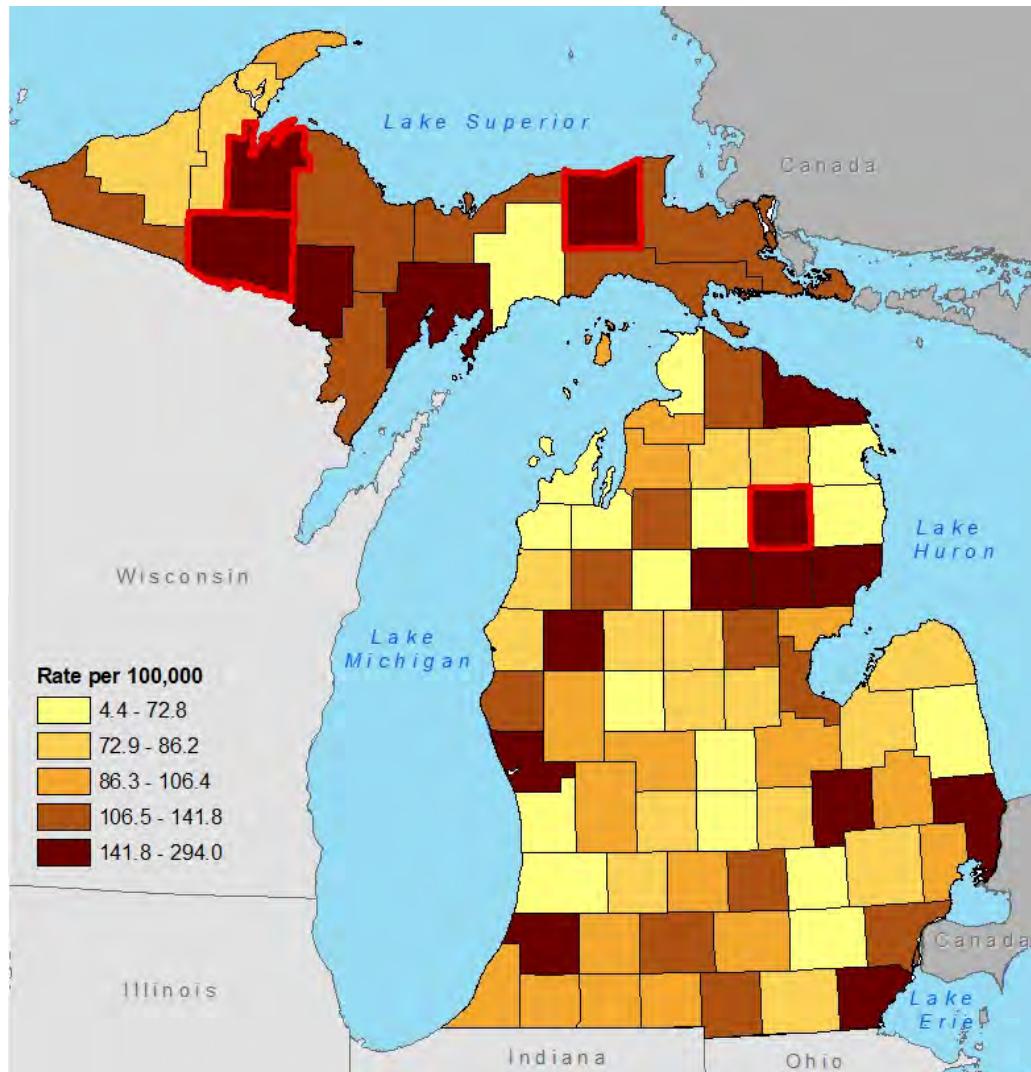

HPV Vaccination Completion Percentage among Adolescents 13 through 17 Years ^{a,b}					
County	Male	Female	County	Male	Female

Liver Cancer Incidence

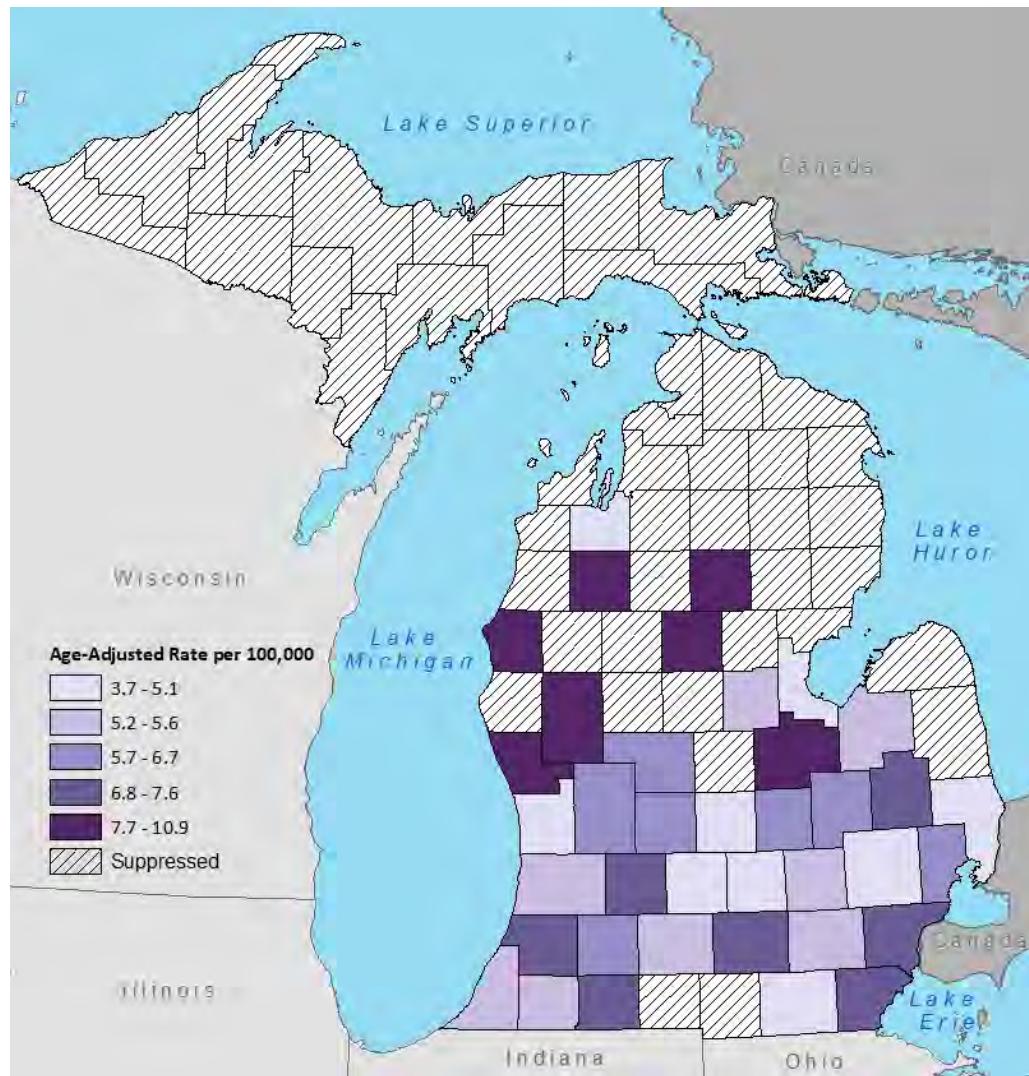

Data Notes:

^a Incidence data taken from the 2012-2016 Michigan Cancer Surveillance Program (MCSP) ^b Rates are age-adjusted to the 2000 US Standard Population ^c County rate suppressed if case count < 20

^d Counties defined as outliers (see page 3) are outlined in red on the map and indicated by a red asterisk in the table.

Age-Adjusted Liver Cancer Incidence Rate (per 100,000) ^{a-d}			
County	Rate	County	Rate
Alcona	.	Lake	.
Alger	.	Lapeer	6.3
Allegan	5.1	Leelanau	.
Alpena	.	Lenawee	6.0
Antrim	.	Livingston	5.2
Arenac	.	Luce	.
Baraga	.	Mackinac	.
Barry	.	Macomb	6.6
Bay	6.1	Manistee	.
Benzie	.	Marquette	5.6
Berrien	5.9	Mason	8.5
Branch	.	Mecosta	.
Calhoun	6.4	Menominee	.
Cass	.	Midland	4.0
Charlevoix	.	Missaukee	.
Cheboygan	.	Monroe	6.9
Chippewa	.	Montcalm	7.3
Clare	7.4	Montmorency	.
Clinton	4.3	Muskegon	7.3
Crawford	.	Newaygo	.
Delta	.	Oakland	6.2
Dickinson	.	Oceana	.
Eaton	4.7	Ogemaw	.
Emmet	.	Ontonagon	.
Genesee	7.9	Osceola	.
Gladwin	.	Oscoda	.
Gogebic	.	Otsego	.
Grand Traverse	4.4	Ottawa	4.6
Gratiot	.	Presque Isle	.
Hillsdale	.	Roscommon	10.1
Houghton	.	Saginaw	8.5
Huron	.	St Clair	5.4
Ingham	5.5	St Joseph	6.1
Ionia	6.8	Sanilac	.
