MDOT Unique SPs - Migrating from 2012 to 2020 Spec Book

Until MDOT has fully switched over to the new 2020 Spec Book with the **Aug 2021 Letting and beyond, please note the guidance below when updating 2012 Unique SPs to 2020.**

- All Recommended and Template SPs that will be carried over for 2020 (*that are not already approved*) are being tracked internally by MDOT.
 - Before submitting any revised drafts, be sure to check the applicable conversion list found here:
<https://mdotjboss.state.mi.us/SpecProv/specProvHome.htm>
 - Note: MDOT's technical experts were tasked with updating all of the 2012 Recommended and Template SPs for 2020.
 - **Designers do not need to submit any of these if they are being carried over for the new spec book.**
- MDOT is also tracking updated non-recommended/template 2020 Unique SPs.
 - Before submitting any updated drafts, be sure to check the applicable conversion list found here:
<https://mdotjboss.state.mi.us/SpecProv/specProvHome.htm>
 - MDOT QA will only be accepting **one** SP for any item of work
 - If you find a Special Provision that is in review but is needed for an earlier letting than noted, please have your MDOT PM notify QA so approval can be coordinated in time to make your specified letting.
 - **Duplicate submittals will be rejected.**
 - If changes are needed, once the 2020 Unique SP is approved (and on the web) you can then submit it with revisions if updates are still needed for your project (ensuring the use of track changes).

• How do you develop and submit Special Provisions for approval?
• MDOT Design SS/SP Application
• Special provisions are provided in either Microsoft Word or rich text format (rtf), which allows editing or Adobe Acrobat format (pdf) for those documents should not be edited.

This website was designed to allow designers a single location to find special provisions already approved for inclusion in proposal documents.

Special Provisions - 2012 **Special Provisions - 2020**
