

CoSign Client – Uninstall

The CoSign client cannot be uninstalled using the Windows system. The Uninstall application included with the client must be used.

NOTE: A reboot of the system must be done before installing a new CoSign Client.

Uninstall:

- Select > Start Menu > All Programs > ARX CoSign > Uninstall CoSign Components

After a successful uninstallation is complete, reboot the system.

Install new CoSign Client in accordance with **CoSign Client Install External.docx** document.
