

# **M-20 @ Schrader Creek Design Build Project**

## **Question & Answers #2**

**(Q)** On page 4 under item 2.4 it states that additional prequalifications will be listed in the RFP. Is it possible to get that list sooner?

**(A)** The RFQ lists the primary prequalifications. Here are the additional secondary prequalifications:

Bridge Load Rating Analysis  
Road Design Surveys  
Structure Surveys  
Hydraulic Surveys  
Right of Way Surveys  
Construction Staking  
Landscape Architecture  
Pavement Marking Plans  
Permanent Non-Fwy Traffic Signing Plans

**(Q)** Does the lead design firm need to have all of the primary prequalifications? Or is it sufficient for the team to have them?

**(A)** The team will need to have the lead prequalifications listed in section 2.4 of the RFQ. Per section 2.5, the lead engineering/design firms and each engineering/design sub-consultant that will perform 20% or more of the design work will be considered a Major Participant. Each Major Participant will need to be identified in the submittal. The Design Manager will also need to be identified and there are suggested qualifications listed in section 3.3.3.2 of the RFQ for this position.
