Information for Policy Presentation

- What is the history of the topic?
 - How do other States handle the issue?
- Who are the concerned interest groups & stakeholders?
- Why is the policy important?
- How to measure progress?
- Any other pertinent research or information
- STC will require department to report on implementation

Work Session: Sample Policy Language

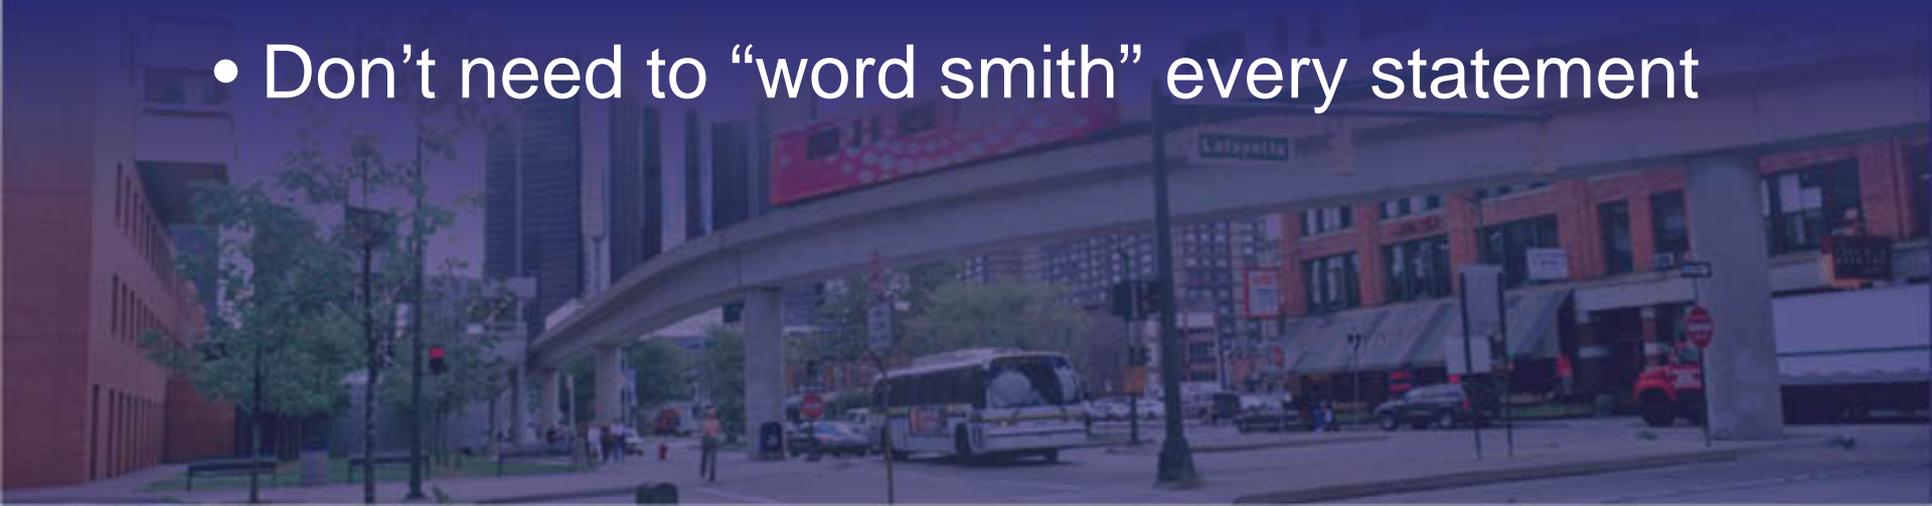

CSAC Vision

- A transportation network that is accessible, interconnected, and multi-modal and that safely and efficiently moves goods and people of all ages and abilities.
- A process that empowers partnerships to plan, fund, design, construct, maintain and operate complete streets that respect context and community values.
- Outcomes that will improve economic prosperity, equity, and environmental quality.

Sample Policy Language

- Does it align with the vision statement?
- Is there anything missing? Is there additional language we want to recommend?
- What considerations are most important?
- If Michigan passed this language, would your constituents be comfortable with it?
- Don't need to "word smith" every statement

Break

Please be back in 15 minutes

Public Comment

Homework

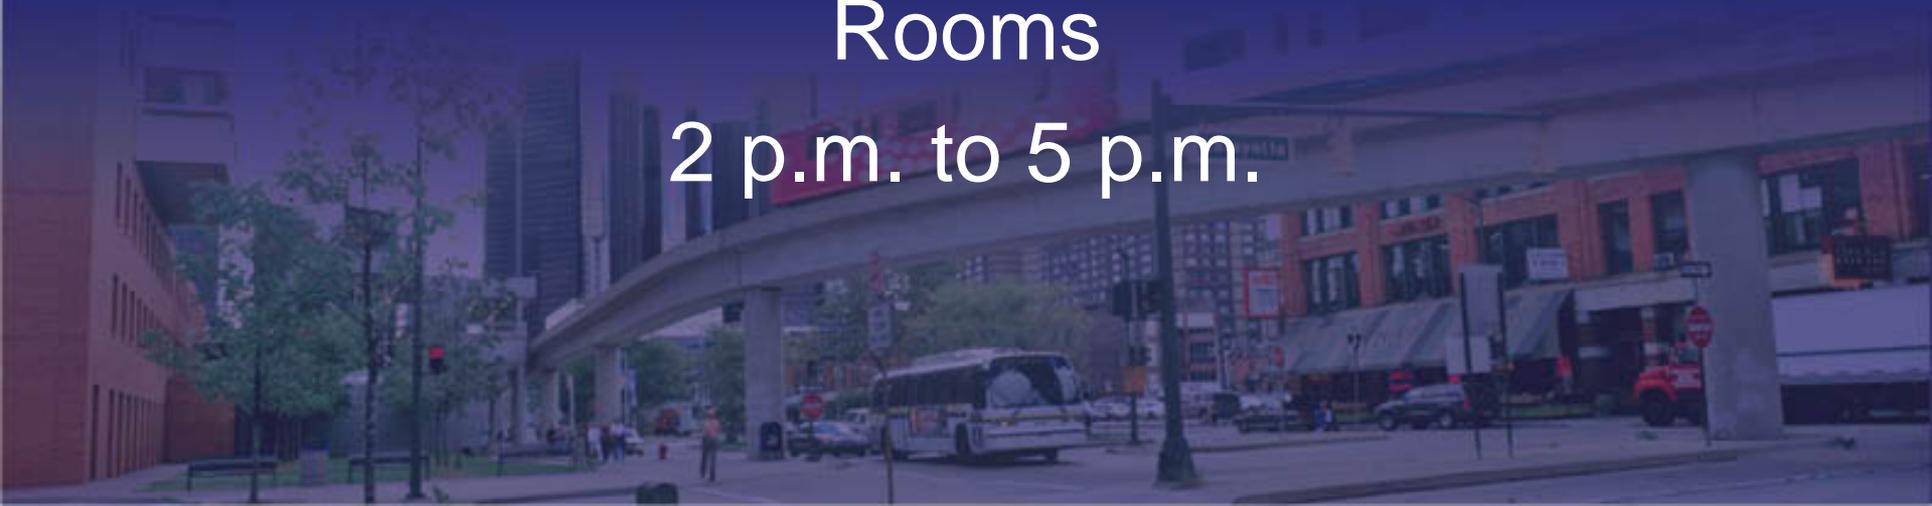

- Based on the vision, please identify one local policy that could serve as a model policy
- Sample local policies can be found at www.micompletestreets.org, but feel free to look at other locations
- Please send these policies to Michelle Myers at myersm@michigan.gov by March 1
- As you review these policies, consider whether the language is consistent with the CSAC vision?

Next Meeting

April 26, 2012
