## Plan Revision – FHWA Oversight

Federal law requires that plan revisions for FHWA oversight projects have approval from the FHWA. Approval must be obtained prior to full distribution of the plan revision. An E-mail is considered acceptable documentation of approval. The FHWA approval date must be noted in MDOT form 291 (Revision of Plans).

MDOT form 211 (Plan Revision Distribution) lists internal recipients for whom the plan revision is made available through the MDOT Project Wise system and external recipients for whom revisions are sent either by electronic mail or by hard copy mailing. FHWA is listed on form 211 for inclusion in the external distribution.

Care should be taken to assure attainment of any required plan revision approvals and to provide full distribution including all applicable external recipients.
