

Pavement Condition Analysis-Statewide Public Use Airports REQ 1192

QA 1

4/18/2013

Q: With regards to the subject RFP, will the state of Michigan also be looking to obtain the Pavement Classification Number (PCN) for each airport pavement facility? The RFP doesn't mention this but I know this is a recent initiative of the FAA according to Advisory Circular Number 150/5335-5B.

A: **At this time we are only interested in updating the PCI Index. We are funding this project with state of Michigan funds, the PCN classification is a federally initiative.**
