

As-Needed Bridge Design Services QA1

Requisition 1493

4/15/2014

Q: Should this RFP be under the Tier 2 guidelines (for services between \$150k and \$1M) instead of the Tier 3 guidelines shown on Form 5100B? Page 1 of the Scope of Services indicates that the max value of the as-needed assignments will not exceed \$1M for any of the four selected consultants, which would seem to indicate a Tier 2 selection process.

A: The total contract includes 4 consultants, at \$1M each, which is a total of \$4M, making it Tier III selection.
