

Design Services for the addition of a center left turn lane, including cold milling, signs and pavement markings in Deerfield Township

Requisition 1593

QA1

9/3/2014

Q) We had a question on the M-24 RFP. We noticed that there was no mention of survey in the RFP and the prequalification was not included. Who will be responsible for providing the survey for the project (MDOT or the Consultant)?

A) MDOT-Bay Region Surveys will provide the survey for the project.
