4/13/2015

JN 110627C – REQ #1751

Q-1: What work is anticipated on Industrial Drive?

A-1: The scope of work on Industrial Drive will be a two-course mill and resurface with misc. structure repairs.

Q-2: What type of sanitary and water main work is anticipated?

A-2: Sanitary and water main work will be limited to any conflicts that arise from the storm water design. No new sanitary or water main work is anticipated.

Q-3: Is the Industrial Drive/US-223 signal included in the scope of work?

A-3: No

Q-4: Is the M-34/M-52 signal included in the scope of work?

A-4: No

Q-5: What signals will need modification/modernization?

A-5: Sand Creek Hwy, Madison St, and Scott St/Red River Drive. The Industrial Drive signal will not be modified/modernized.
