

Asset Management of Retaining Walls

OR15-114

QA3

Requisition #1959

March 23, 2016

Q. Previously, we were told that the wording "MDOT will not accept multiple submittals" applied to the PI responding to an RFP. Can you please clarify?

A. MDOT will not accept more than one (1) proposal per Principal Investigator for each Requisition Number.

Q: At the top of page 2 of the RFP, three retaining wall structures in the Metro Region are mentioned as having evidence of distress. Is it appropriate to assume that these three are included in the 10 field surveys to be performed in the Metro Region specified in Objective 3, or are they in addition to the 10 surveys?

A: The 3 walls listed have been replaced. The 10 walls would be at other locations. Note they could be along the same route but at a different segment and location.
