

Specialty Services for
Purchase, Lease, or Lease/Purchase of Intercity Railroad
Passenger Cars and Contract for Associated Maintenance Services

QA3 REQ #1461

(follow-up to Question 26 on QA1)

Question 1: The RFP does not identify the provision or cost of insurance. What is required?

Answer 1: MDOT expects Proposer to assume responsibility and insure all maintenance facility assets, provide insurance while equipment is in the control of the Proposer, and the Proposer will be required to indemnify both Amtrak and MDOT for equipment while it is in control of the Proposer and for acts attributed to their negligence associated with maintaining the equipment. MDOT or Amtrak shall pay the insurance costs when the equipment is under Amtrak control. Details will be addressed in the contract that is established with the selected Proposer.
