

**Office of Operations Administration Services Business Needs QA1**  
**Requisition 1721**  
**3/24/2015**

Question: Form 5100B suggests that the consultant to "provide only checked items" on the form. However, no items are checked under Tier II.

**Answer: Form 5100B has been updated to include the checked items that are also included in the RFP.**

Question: Maximum number of pages of the proposal and requirements for electronic submittals. The RFP states that:

- The total maximum of pages for RFP not including resumes and MDOT forms is seven pages
- The maximum size of the RFP response file (including Scope of Services and all forms and attachments) is five megabytes.

However, due to the scope of services that includes 11 tasks and the requirements of the Best Value Method scoring, the proposal will more likely exceed the above requirements.

Would you accept a proposal that exceeds the above limits?

**Answer: Yes. The total maximum of pages for the RFP not including résumés and MDOT forms will be fourteen pages, please disregard the 7 page maximum on the bottom of the 5100b.**
