

Specialty Services for owner's representative research, advise, assist and implementing
performance based operational systems

QA3 Requisition #966

7/12/2012

Q: Could MDOT clarify where the required past experience of the vendor, page 9 of 14, should be placed in the required bookmark format indicated in the Notification Mandatory Electronic Submittal?

A: We eliminated a separate section dedicated to past performance. The scores for past performance are derived from the Consultant Performance Evaluations maintained by the department. If MDOT does not have any performance evaluations, the Project Manager will need to contact reference obtained in the resumes submitted in the proposals.
