

**Legislative Reporting Requirement  
Public Act 192 of 2010, Section 601**

**PERFORMANCE AND ROAD CONSTRUCTION WARRANTIES  
Fiscal Year 2011**

The Michigan Department of Transportation (MDOT) continues to work with the road construction industries and its many other customers to develop performance and road construction warranties for construction projects as required by Public Act 116, Public Acts 2009. Additionally, the overall effectiveness of MDOT's warranty program continues to be evaluated.

MDOT has let an additional 130 plus warranty projects in the various categories since its last reporting. MDOT and the contracting industry continue to make use of the Statewide Warranty Administration Database (SWAD) to track and monitor the status of warranty projects.

MDOT will continue to explore new and innovative construction and contracting methods in order to provide the highest quality integrated transportation service for economic benefit and improved quality of life for all of our customers.
