## **Performance Reporting Requirement**

Federal Regulation 49 CFR Part 18 establishes uniform administrative requirements for grants to State and Local Governments. Sub-part 18.40 addresses monitoring and reporting requirements for Grantees. Grantees are responsible for managing the day-to-day operations of grant activities to ensure compliance with applicable Federal requirements. A grantee is required to submit a performance report for each fiscal quarter. This report must be submitted within 30 days of the end of the reporting period. The collection of this information is addressed under OMB control number 2105-0520.

The performance report shall, as a minimum, include the following:

1. Comparison of actual accomplishments to the objectives established for the period
2. Identify reasons for slippage
3. Identify impacts to other projects
4. Identify and explain any anticipated cost overruns

This form is a suggested format for submitting the required quarterly performance information. Other formats may be used provided the above information is properly addressed.

The tracked accomplishments will vary per the type of project. The following examples list recommended tasks for specific project types (*for Actual Accomplishments vs. Baseline Goals section*):
