

What is Toward Zero Deaths?

Toward Zero Deaths (TZD) is a statewide safety campaign based on the national strategy on highway safety intended to influence driver behavior and improve safety. With more than 37,000 fatalities on U.S. highways in 2017, roadway safety remains one of the most challenging issues facing Michigan, and the nation. Turn this card over for Michigan's statewide fatality and serious injury statistics since 2010.

Be a champion in supporting TZD and the safety culture in Michigan. Go to ***www.towardzerodeaths.org*** to become a TZD participant.
