

MDOT Advanced Training Wheels

Virtual On-Road Bicycle Facility Design Training

Sessions: 1 - 4 p.m.

Class 2: Sept. 22 and 24

This six-hour virtual online course on the newest planning and design approaches for on-road bicycle facilities will be split into two days of three hours each. It consists of state and national guidance for on-road bicycling facility design and analysis of planning considerations.

National Experts: Toole Design Group (optional question and answer session begins at 4:15 p.m. on day two)

Target Audience: This course is for city, county, and Michigan Department of Transportation (MDOT) managers, engineers, planners, and officials; township and metropolitan planning organization staff; chambers of commerce; downtown development authorities; economic development partners; and other stakeholders.

Required Items: Internet connection; Zoom software

Registration: This course is provided free by MDOT.

Please RSVP by Sept. 14 for September classes. Class link will be provided after confirmation.

Virtual bike routes in coordination with, Grand Valley Metro Council, the City of Grand Rapids, and Toole Design.

Accommodations: Accommodations can be made for persons with disabilities or limited English-speaking ability. Large print materials, auxiliary aids or the services of interpreters, signers, and readers are available upon request. Please call 517-241-7462 to make a request at least seven days before the meeting date.
