

MICHIGAN DEPARTMENT OF TRANSPORTATION

Rebuilding Michigan 2020-2024 Revised Five-Year Transportation Program Project List • January 30, 2020

MDOT Regional Service Areas

Rebuilding Michigan Program

The Rebuilding Michigan program objective is to rebuild the state highways and bridges that are critical to the state's economy and carry the most traffic. The investment strategy is aimed at fixes that result in longer useful lives and improves the condition of the state's infrastructure. In addition, this strategy allows MDOT to address key corridors and rebuild major segments of highly travelled interstates, such as I-69, I-75, and I-94, as well as several other busy freeways.

Project Lists

The following section contains a list of road and bridge projects, divided by MDOT region, to be constructed between FY 2020 and FY 2024. For more information, including project limits, construction length, and contact information, please visit the online interactive map at www.Michigan.gov/MDOT-5YearProgram.

BAY REGION

BRIDGE - BIG BRIDGE PROGRAM

COUNTY	ROUTE (COMMON NAME)	LOCATION	TYPE OF WORK	LENGTH	2020	2021	2022	2023	2024
BAY	M-13 (Lafayette Bridge EB/WB)	M-13 & M-84 OVER EAST CHANNEL SAGINAW RIVER	BRIDGE REPLACEMENT			CON
