Subject: New MTG awards

Dear Colleagues:

I am pleased to announce that we have made additional MTG awards. We have awarded 684 students for a total of \$1 million dollars. These awards went to qualified students for applications received through July 11, 2011.

You will see these students in your Monday file. Please look for them and verify eligibility/enrollment for Fall.

Also please note that the next verification deadline (for the second semester/term) is February 15, 2012.

The fund is still overcommitted. These awards were made based on projections of historical utilization. It is important that we get your actual utilization data so that we have an accurate picture of the fund. We do not want to have to turn around and make reductions. Thank you for your cooperation.

Anne Wohlfert, MPA
