

2016 Michigan Energy Assistance Program (MEAP) Grants

On July 15, 2015 the Michigan Agency for Energy (MAE) requested an updated work plan and budget from each 2015 MEAP Grant recipient for their second phase or Year 2 portion of their grant.

The purpose of the MEAP Grants is to intervene in energy crisis situations and to provide energy assistance program services that will help eligible low-income households meet home energy costs for their primary residence through payment or partial payment of bills for one or more of the following: 1) electricity; 2) natural gas; 3) propane; 4) heating oil; or 5) any other deliverable fuel used to provide heat. As in Year 1, the grantees will provide energy assistance programs to include services that will enable participants to become or move toward becoming self-sufficient, including assisting participants in paying their energy bills on time, assisting participants in budgeting for and contributing to their ability to provide for energy expenses, and assisting participants in utilizing energy services to optimize on energy efficiency. The grants are funded by the state Low-Income Energy Assistance Fund and the federal Low-Income Home Energy Assistance Program.

On August 20, 2015 the MAE approved thirteen MEAP grants for their Year 2 funding, totaling \$89,500,000 as follows:

- Barry County United Way - \$195,054 to provide energy assistance program services to low-income households in Barry County.
- Consumers Energy Company - \$13,177,000 to provide energy assistance program services to low-income households in its utility service territory throughout the State of Michigan.
- DHHS – Bureau of Community Action and Economic Opportunity - \$7,000,000 to provide energy assistance program services to low-income households statewide.
