RE: 911 Telecommunicator Training Standards

Dear Ms. Norcross;

Please accept the following comments regarding the proposed rules for 911 dispatcher training standards.

The State 9-1-1 Committee has established a process used for the funding of dispatcher training courses. This has provided for excellent training opportunities for our staff. The current process for the distribution of funds also works extremely well. Changing to a system with bi-annual reimbursements makes no sense.

Chippewa County supports the recommendations of the State 9-1-1 Committee.

Sincerely;

A handwritten signature in cursive script that reads "Tim McKee".

Tim McKee, Director
