E-Dockets Community – Search on File Date

In the search field that is displayed at the top of every Community page, enter a File Date and click the "Search" button. NOTE: The date may be entered as either mm/dd/yy or mm/dd/yyyy format but <u>should not include leading zeros</u>. For example, January 9, 2018 should be entered as 1/9/18 (or 1/9/2018) but not 01/09/18.

2. Because "Sorted by Relevance" is the default sort option, Filings with your selected File Date should be displayed at the top of the results list. If more than five (5) results are displayed, click on the "View More" link to see all Filings related to your search. NOTE: Filings with different File Dates may be displayed at the bottom of the search results list if the File Date you entered exists in other fields (such as the Filing Description field).
