IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none", "not acceptable" or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration given therefor and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
- 6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less. Give reference to FERC or State Commission authorization, as appropriate, and the amount of obligation or guarantee.
- 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- 9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly and materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on page 106, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. (Reserved.)
- 12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

RECEIVABLES FROM ASSOCIATED COMPANIES (Accounts 145, 146)

- Report particulars of notes and accounts receivable from associated companies* at end of year.
- Provide separate headings and totals for Accounts 145, Notes Receivable from Associated Companies, and 146, Accounts Receivable from Associated Companies, in addition to a total for the combined accounts.
- For notes receivable, list each note separately and state purpose for which received. Show also in column (a) date of note, date of maturity and interest rate.
- 4. If any note was received in satisfaction of an open account, state the period covered by such open account.
- 5. Include in column (f) interest recorded as income during the year including interest on accounts and notes held any time during the year.
- 6. Give particulars of any notes pladged or discounted, also of any collateral held as guarantee of payment of any note or account.

* NOTE: "Associated companies" means companies or persons that, directly or indirectly, through one or more intermediaries, control, or are controlled by, or are under common control with, the account company. This includes related parties.

"Control" (including the terms "controlling," "controlled by," and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a company, whether such power is exercised through one or more intermediary companies, or alone, or in conjunction with, or pursuant to an agreement, and whether such power is established through a majority or minority ownership or voting of securities, common directors, officers or stockholders, voting trusts, holding trusts, associated companies, contract or any other direct or indirect means.

HomeWorks Tri-County Electric Cooperative	(1) [X] An Original (2) [] A Resubmission	(Mo, Da, Yr) 04/30/19	12/31/2018		
LONG TERM DERT (Assessment 224, 222, 222 and 224)					

LONG-TERM DEBT (Accounts 221, 222, 223 and 224)

- 1. Report by balance sheet account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt.
- 2. In column (a), for new issues, give Commission authorization numbers and dates.
- 3. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
- 4. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
- 5. For receivers' certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.
- 6. In column (b) show the principal amount of bonds or other long-term debt originally issued.
- 7. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
- 8. For column (c) the total expenses should be listed first for each issuance, then the amount of premium (in parentheses) or discount. Indicate the premium or discount with a notation, such as (P) or (D). The expenses, premium or discount should not be netted.
- 9. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year. Also, give in a footnote the date of the Commission's authorization of treatment other than as specified by the Uniform System of Accounts.

LONG-TERM DEBT (Accounts 221, 222, 223 and 224) (Continued)

- 10. Identify separate undisposed amounts applicable to issues which were redeemed in prior years.
- 11. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt-Discount and Expense, or credited to Account 429, *Amortization of Premium on Debt-Credit*.
- 12. In a footnote, give explanatory particulars (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.
- 13. If the respondent has pledged any of its long-term debt securities give particulars (details) in a footnote including name of pledgee and purpose of the pledge.
- 14. If the respondent has any long-term debt securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
- 15. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (i). Explain in a footnote any difference between the total of column (i) and the total of Account 427, Interest on Long-Term Debt, and Account 430, Interest on Debt to Associated Companies.
- 16. Give particulars (details) concerning any long-term debt authorized by a regulatory commission but not yet issued.

Independent Auditor's Report

The Board of Directors Tri-County Electric Cooperative, Inc. and Subsidiary Portland, Michigan

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Tri-County Electric Cooperative, Inc. and Subsidiaries, which comprise the consolidated balance sheets as of December 31, 2018 and 2017, and the related consolidated statements of operations, members' equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Tri-County Electric Cooperative, Inc. and Subsidiaries, as of December 31, 2018 and 2017, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Note 1 - Summary of Significant Accounting Policies

Principal Business Activity

Tri-County Electric Cooperative, Inc. and Subsidiary dba HomeWorks (the Cooperative), a Michigan corporation, provides for the electric energy and high speed internet needs of its members, the rural residents of the central Michigan area. Tri-Co Services, Inc. (Tri-Co), a Michigan corporation, is a wholly owned subsidiary of Tri-County Electric Cooperative, Inc. and Subsidiary and provides telecommunication, propane, and other services to rural residents of the central Michigan area.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Cooperative and its wholly-owned subsidiary, Tri-Co Services, Inc. All significant inter-company transactions have been eliminated. The consolidated financial statements have been prepared on the accrual basis of accounting.

Regulation

As of April 6, 2010, the Cooperative is self-regulated for rates, billing practices, and accounting standards. All other aspects of electric service continue to be regulated by the Michigan Public Service Commission. The Cooperative's accounting policies and the accompanying financial statements conform to generally accepted accounting principles applicable to rate-regulated enterprises and reflect the effects of the ratemaking process.

As a result of the ratemaking process, the Cooperative applies Accounting Standards Codification (ASC) 980, *Regulated Operations*. The application of generally accepted accounting principles by the Cooperative differs in certain respects from the application by non-regulated businesses as a result of applying ASC 980. Such differences generally relate to the time at which certain items enter into the determination of net margins in order to follow the principle of matching costs and revenues.

Plant and Retirements

Plant is stated at cost less contributions in aid of construction. The cost of additions to plant includes contracted work, direct labor, materials and allocable overheads. When units of property that are specifically identifiable are retired, sold or otherwise disposed of in the ordinary course of business, their book cost less net salvage is recognized as a gain or loss. All other units of property that are retired, sold or otherwise disposed of in the ordinary course of business, their average book cost less net salvage is charged to accumulated depreciation. Repairs and the replacement and renewal of items determined to be less than units of property are charged to maintenance expense.

Depreciation

Depreciation is computed using the straight-line method based upon the estimated useful lives of the various classes of property.

Cash and Cash Equivalents

Short-term highly liquid investments that are readily converted to known amounts of cash and present insignificant risks of changes in value are considered cash equivalents. Investments in commercial paper are considered cash equivalents and valued at cost which approximates market.

Investments

Certain equity securities with readily determinable fair values are classified as available for sale and are carried at fair value with unrealized gains and losses included in other comprehensive income (loss). Realized gains and losses are computed by the first-in first-out method at the time of disposition and are included as a component of the statement of operations. A decline in the market value of any marketable security below cost that is deemed other than temporary is charged to net realized/unrealized gains on investments, resulting in a new cost basis for the investment security.

Investments in other cooperatives and associated organizations, representing less than 20% ownership are accounted for under the cost method and all other investments are stated at cost, which approximates fair value. Investments in associated companies are carried at cost plus assigned capital credits less any capital paid to the Cooperative. Income from investments in associated companies is recognized when capital credits are assigned.

Fair Value Measurements

The Cooperative has determined the fair value of certain assets and liabilities in accordance with generally accepted accounting principles, which provides a framework for measuring fair value.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

A fair value hierarchy has been established, which prioritizes the valuation inputs into three broad levels. Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

The Cooperative does not have any assets or liabilities subject to the level 1, 2, or 3 valuation as of December 31, 2018 and does not anticipate participating in transactions of this type in the future.

Receivables and Credit Policies

Electric trade receivables are uncollateralized customer obligations due under normal trade terms requiring payment within 21 days from the billing date. Unpaid electric trade receivables with dates over 30 days old are assessed a late fee of 2% (residential) or 5% (large power and general service) of the unpaid balance or the amount of the bill less tax, whichever is less. Non-interest bearing notes receivable are stated at principal balance and are collateralized by equipment.

Fiber to the home customers are billed in advance on the 12th of the month. If balance is not paid by end of the month, their services are shut off. There is no grace period allowed for customer credit.

Propane trade receivables are uncollateralized customer obligations due under normal trade terms requiring payment within 10 days from the billing date. Unpaid propane trade receivables with dates over 10 days old are charged an additional \$0.07/gallon. Unpaid propane trade receivables with dates over 30 days old are assessed a late fee of 1.5% of the unpaid balance.

Satellite internet customers pay for their internet service in advance. Payment is due the 28th of each month prior to the month of service. Unpaid accounts are shut off by the 4th business day of the month after payment is due and billed for the remaining balance of their contract.

Payments on trade and notes receivables are allocated to the earliest unpaid billings. The carrying amounts of trade receivables are reduced by a valuation allowance that reflects management's best estimate of the amount that will not be collected. Management reviews all trade receivable balances periodically and adjusts the allowance accounts based on current economic conditions and past experience.

Inventories

Electric and fiber materials and supplies are stated at average moving cost. Propane is valued at the lower of average unit cost or market using the first-in, first-out (FIFO) method.

Prepaids

The Cooperative records prepaid amounts as incurred. The expenses are then amortized according to the period covered by the prepayment, generally a twelve-month period.

Deferred Debits

Deferred debits consist primarily of a retirement security prepayment made to ensure proper funding of the Retirement Security Plan which is being amortized over the remaining service life of the employees, generally 15 and 20 years. Deferred debits also include loan conversion fees resulting from the conversion of some long term CFC loans to lower interest rates. Conversion fees are being amortized over the average remaining life of the loans that were converted which was approximately 22 years. Also included are the costs of putting together a four year construction work plan, which will be amortized over the four years of the plan.

Patronage Capital

The Cooperative operates on a nonprofit basis.

Amounts received from the furnishing of electric energy in excess of operating costs and expenses are assigned to patrons on a patronage basis. All other amounts received by the Cooperative from its operations in excess of costs and expenses are also allocated to its patrons on a patronage basis to the extent they are not needed to offset current or prior losses, at the discretion and determination of the board of directors.

An electric member who is also a fiber customer is considered a fiber member. Amounts received from the furnishing of fiber to the home services in excess of operating costs and expenses are assigned to fiber members on a patronage basis to the extent they are not needed to offset current or prior fiber losses, at the discretion and determination of the board of directors.

Revenue Recognition and Unbilled Revenues

The Cooperative and subsidiary both recognize revenue on members' unbilled accounts based upon estimated usage in the current billing cycle.

Power Costs

Power costs include all power delivered to the Cooperative, regardless of whether the power supplier has billed the Cooperative for power delivered.

Deferred Credits

Deferred credits consist primarily of deferred gains related to insurance proceeds, customer advances on construction, advance payments and deferred revenues related to customer prepayments in connection with electric service, fiber service and propane service, unclaimed capital credit checks and over collection of costs related to the energy optimization program. Deferred gains from insurance proceeds are amortized over the useful lives of the assets replaced.

Post-Retirement Benefits

The Cooperative sponsors an unfunded defined benefit post-retirement health plan that covers certain employees who retire after obtaining age 62 and 15 years of service. Spouses of beneficiaries are also included, with coverage continuing to the spouse after the beneficiaries' death. The Cooperative's share of the estimated costs of benefits that will be paid after retirement is being accrued by charges to expense over the employees' active service periods to dates they are fully eligible for benefits.

Business and Credit Risk

Financial instruments which potentially subject the Cooperative and subsidiary to concentrations of credit risk consist primarily of temporary cash instruments and trade receivables. The Cooperative provides electrical service and the subsidiary provides propane and internet on account to its customers and members which are located primarily in the central Michigan area. The Cooperative and subsidiary have established policies for extending the credit based upon factors surrounding the credit risk of specified customers, historical trends and other information. Concentrations of credit risk with respect to trade receivables are limited due to the Cooperative and subsidiary's large number of customers. Nonetheless, the Cooperative and subsidiary's ability to collect from its members and customers is affected by the economic conditions in which it operates.

The Cooperative and subsidiary maintains its temporary cash investments and cash balances with high credit quality financial institutions. Although such investments and cash balances may exceed the federally insured limit of \$250,000 from time to time, they are, in the opinion of management, subject to minimal risk.

Income Taxes

Tri-County Electric Cooperative, Inc. and Subsidiary is exempt from federal income tax under Section 501(c)(12). The Cooperative is annually required to file a Return of Organization Exempt from income Tax (Form 990) with the IRS. The Cooperative files an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS to report its unrelated business taxable income.

Tri-Co Services, Inc. is taxed as a C corporation, accordingly, income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to basis of receivables and property and equipment. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled Valuation allowances are established, if necessary, to reduce deferred tax assets to the amount that will more likely than not be realized. Income tax expense is the current tax payable or refundable for the period plus or minus the net change in the deferred tax assets and liabilities.

The Cooperative and subsidiary evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions. As of December 31, 2018 and 2017, the unrecognized tax benefits accrual was zero. The Cooperative and subsidiary will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense if such penalties and interest are incurred. Under normal circumstances, the Cooperative and subsidiary are no longer subject to Federal and State tax examinations by tax authorities for years before 2015.

The Cooperative and subsidiary undergo an annual analysis of the various tax positions, assessing the likelihood of those positions being upheld upon examination with relevant tax authorities.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Sales Taxes

The Cooperative and subsidiary have customers in a state which imposes a sales tax on certain sales. The Cooperative and subsidiary collect those sales taxes from its customers and remits the entire amount to the state of Michigan. The Cooperative and subsidiary accounting policy is to exclude the tax collected and remitted from revenue and cost of revenue.

Advertising Costs

Advertising costs are expensed as incurred and totaled \$117,721 and \$74,314 for the years ended December 31, 2018 and 2017, respectively.

Subsequent Events

The Cooperative and subsidiary have evaluated subsequent events through March 20, 2019, the date which the financial statements were available to be issued.

Note 2 - Plant and Depreciation

Major classes of plant at December 31, 2018 and 2017 consist of the following:

	2018	2017
General plant Distribution plant Intangible plant	\$ 15,844,589 101,789,955 463,054	\$ 12,261,132 96,920,659 340,672
Consolidated plant in service Construction in progress	118,097,598 2,591,447	109,522,463 254,210
Total consolidated plant Less accumulated depreciation and amortization	120,689,045 38,090,095	109,776,673 36,095,474
Consolidated plant - net	\$ 82,598,950	\$ 73,681,199
General plant depreciation rates have been applied on a straight-line basis a	as follows:	
Structures and improvements Office furniture equipment Tanks Meters Solar Equipment Transportation equipment Power operated equipment Communication equipment Other general plant	1.9 - 20.0% 14.0 - 33.3% 3.33 - 10.0% 5.00% 4.00% 10.0 - 20.0% 4.0 - 25.0% 10.0 - 33.3% 4.0 - 10.0%	
Depreciation charges were as follows at December 31, 2018 and 2017:		
	2018	2017
Charged to operations Classified as depreciation and amortization Classified in other operating expenses Charged to transportation	\$ 3,328,597 46,727 3,375,324 124,739	\$ 3,254,287 37,255 3,291,542 130,784
Total	\$ 3,500,063	\$ 3,422,326

Note 3 - Inventories

Inventories at December 31, 2018 and 2017 consist of the following:

	 2018	 2017
Fiber materials Propane gas Electric materials and DBS equipment Water heaters	\$ 1,470,060 395,759 624,973 30,759	\$ 406,359 636,273 28,572
	\$ 2,521,551	\$ 1,071,204
Jote 4 Deferred Debits		

Note 4 - Deferred Debits

	2018	2017
Retirement security prepayment	\$ 1,482,548	\$ 1,626,209
Miscellaneous	-	8,031
Construction Work Plan	33,110	-
Unamortized loan exp - CFC conversion	209,592	221,129
	\$ 1,725,250	\$ 1,855,369

Note 5 - Investments in Associated Organizations

Investments in associated organizations at December 31, 2018 and 2017 consist of the following:

	2018	2017
Wolverine Power Supply Coop., Inc capital credits National Rural Utilities Cooperative Finance Corporation Capital term certificates maturing at various times through	\$ 27,799,010	\$ 27,746,198
October 1, 2080, at interest rates between 0% and 5.0%	1,837,518	1,847,108
NRTC Patronage	1,624,632	1,680,878
Other Patronage capital credits	1,609,835	1,523,542
Other memberships and investments	21,300	25,000
	\$ 32,892,295	\$ 32,822,726

Note 6 - Prepaid Propane

The Company uses pre-buy contracts to lock in the prices of propane. The pre-buy contract guarantees a specified price for propane in exchange for a down payment for the specified number of gallons. The Company has pre-buy contracts for 2,118,390 gallons with a prepaid cost of \$179,729 and 744,396 gallons with a prepaid cost of \$448,686 at December 31, 2018 and 2017, respectively. Prepayment on propane contracts can vary widely depending on the market and vendor and range from a \$.05 per gallon to full prepayment on the contract. As of December 31, 2018, and 2017 there are 2,082,390 and 108,202 prepaid propane gallons, respectively, that consist of \$.05 - \$.10 per gallon in down payments. The Company has miscellaneous prepaid expenses of \$297,808 and \$216,898 December 31, 2018 and 2017, respectively.

Note 7 - Power Supply Cost Recovery

Up until April 2010, the Cooperative was required by the Michigan Public Service Commission to maintain power supply cost recovery over-collections and refundable customer contributions in restricted accounts to be used only for the purpose for which they are intended. As of April 6, 2010, the Cooperative became self-regulated for rates, billing practices, and accounting standards and is no longer subject to this requirement.

Wolverine Power Supply Cooperative, Inc. and the member-distribution cooperatives including Tri-County Electric Cooperative, Inc. and Subsidiary were required to obtain authority to implement and apply PSCR clauses and monthly factors. Because the Cooperative became self-regulated as noted above, the PSCR clauses and monthly factors were approved by the Board of Directors. Tri-County's average monthly factor for residential customers was (.00249) and (.00127) per KWH during 2018 and 2017, respectively.

Due to fluctuations in market conditions, over-collections or under-collections could result between the generation cooperative and distribution cooperative as well as between the distribution cooperative and their member-consumers. Power cost recovery over-collections must be remedied by refunds and power cost recovery under-collection must be remedied by additional collections. As of December 31, 2018, and 2017 there was an over collection of \$908,423 and \$565,903.

Note 8 - Patronage Capital

Patronage capital balances at December 31, 2018 and 2017 consist of the following:

	2018	2017
Assignable - electric Assignable, (future offset to positive margins) - fiber Assigned to date	\$ 3,741,815 (239,041) 69,013,725	\$ 2,366,451 66,647,274
Total	72,516,499	69,013,725
Retired to date	(22,125,700)	(19,121,738)
Balance	\$ 50,390,799	\$ 49,891,987

The mortgage provisions of the Cooperative restrict the retirement of patronage capital unless, after retirement, the capital of the Cooperative equals at least 20% of the total assets of the Cooperative; provided, however, that retirements can be made if such distributions do not exceed 30% of the preceding year's margins. No distribution can be made if there is unpaid, when due, any installments of principal or interest on the notes or, if after giving effect to any distribution, the total current and accrued assets would be less than the total current and accrued liabilities. During 2018 and 2017, the Cooperative's capital exceeded 20% of total assets.

Note 9 - Other Equities

Other Equities as of December 31, 2018 and 2017 consist of the following:

	2018	2017
Donated capital memberships Retired capital credits - gain Pre 1979 margins	\$ 1,868,659 241,262 1,603,211	\$ 1,707,540 241,262 1,603,211
	\$ 3,713,132	\$ 3,552,013
Other equities from Tri-Co Services, Inc. as of December 31, 2018 and 201	7 consist of the follow	wing:
	2018	2017
Tri-Co Services, Inc. equity	\$ 7,479,700	\$ 7,664,506
Note 10 - Long-Term Debt Long-term debt at December 31, 2018 and 2017 is as follows:		
	2018	2017
National Rural Utilities Cooperative Finance Corporation (CFC) notes bearing interest at 2.95% to 5.66% per annum. The notes are payable in installments and mature at various times through		
November 2048.	\$ 60,406,511	\$ 47,661,777
Less current maturities	(1,849,247)	(1,597,704)
Total long-term debt	\$ 58,557,264	\$ 46,064,073

Maturities of long-term debt are as follows:

Year Ending December 31,	Amount
2018	\$ 1,849,247
2019	1,929,815
2020	2,014,238
2021	2,102,705
2022	1,990,232
Thereafter	50,520,274
	\$ 60,406,511

The loan agreements with CFC are secured by substantially all assets of the Cooperative and include certain positive and negative covenants with which the Cooperative has complied. Additionally, the Cooperative has available unadvanced loan funds from CFC of \$35,000,000.

The security agreement (mortgage) restricts the Cooperative's debt limit to \$130,000,000.

Note 11 - Lines of Credit

The Cooperative has executed a perpetual, variable rate (3.35% and 2.35% at December 31, 2018 and 2017, respectively) uncommitted line of credit with CFC, providing it with short-term loans in the total amount of \$5,000,000. There were no outstanding balances on the line at December 31, 2018 and 2017. During 2009, the Cooperative executed an additional variable rate (3.75% and 2.75% at December 31, 2018 and 2017, respectively) line of credit with CFC, providing it with short-term loans in the total amount of \$10,000,000 maturing July 2019. There were no outstanding balances on the line at December 31, 2018 and 2017.

During 2018, the Cooperative executed a variable rate (4.06% at December 31, 2018) line of credit with CoBank allowing for short-term loans up to \$3,000,000 maturing August 2019. There were no outstanding balances on the line at December 31, 2018.

Tri-Co Services has executed a variable rate line of credit with the National Rural Utilities Cooperative Finance Corporation (CFC), providing it with short-term loans in the total amount of \$1,500,000 maturing September 2019. The interest rate as of the year ended December 31, 2018 and 2017 was 3.75% and 2.75%, respectively. There were no outstanding balances on the line at December 31, 2018 and 2017.

Note 12 - Retirement Plan

Pension Plan

The National Rural Electric Cooperative Association (NRECA) Retirement Security Plan (RS Plan) is a defined benefit pension plan qualified under Section 401 and tax-exempt under Section 501(a) of the Internal Revenue Code. It is a multiemployer plan under the accounting standards. The plan sponsor's Employer Identification Number is 53-0116145 and the Plan Number is 333. A unique characteristic of a multiemployer plan compared to a single employer plan is that all plan assets are available to pay benefits of any plan participant. Separate asset accounts are not maintained for participating employers. This means that assets contributed by one employer may be used to provide benefits to employees of other participating employers.

Tri- County Electric Cooperative, Inc. contributions to the RS Plan in 2018 and in 2017 represented less than five percent of the total contributions made to the plan by all participating employers. Tri-County Electric Cooperative made contributions to the plan of \$923,000 in 2018 and \$838,000 in 2017. In 2013, the Cooperative made a \$2,344,518 prepayment to the National Rural Electric Cooperative Association for the Retirement Security Plan to enhance the Plan's funded status. With this prepayment, the Cooperative will pay 25% lower premiums than cooperatives in the Retirement Security Plan that did not make a prepayment. The prepayment will be amortized based on the average remaining service life of the respective employee groups, 15 and 20 years. The amortization expense was approximately \$144,000 for the years ended December 31, 2018 and 2017.

For the RS Plan, a "zone status" determination is not required, and therefore not determined, under the Pension Protection Act (PPA) of 2006. In addition, the accumulated benefit obligations and plan assets are not determined or allocated separately by individual employer. In total, the RS Plan was over 80 percent funded on January 1, 2018 and over 80 percent funded on January 1, 2017 based on the PPA funding target and PPA actuarial value of assets on those dates. Because the provisions of the PPA do not apply to the RS Plan, funding improvement plans, and surcharges are not applicable. Future contribution requirements are determined each year as part of the actuarial valuation of the plan and may change as a result of plan experience.

Savings Plan

In addition to the above retirement plan, employees of the Cooperative are eligible to participate in the NRECA 401(k) Pension Plan. In 2018 the Cooperative made contributions equal to 5.0% of each employee's base wages and in 2017 it made contributions of 4.0% of each employee's base wages. Employees are required to contribute 4.0% of base pay and may voluntarily contribute more if desired. The Cooperative made contributions of \$259,100 and \$189,000 in 2018 and 2017, respectively.

Note 13 - Post-Retirement Benefits other than Pensions

The Cooperative sponsors an unfunded defined benefit post-retirement health plan that covers certain employees who retire after retaining age 62 and 15 years of service. Spouses of beneficiaries are also included, with coverage continuing to the spouse after the beneficiaries' death.

The following table sets forth the change in the post-retirement benefit obligation reconciled with the obligation recognized in the accompanying balance sheet at December 31:

	 2018	 2017
Change in post-retirement benefit obligation Accumulated post-retirement benefit		
obligation at beginning of year Service cost Interest cost Actuarial (gain) loss Benefits paid Accumulated post-retirement benefit	\$ 945,079 2,275 44,025 (26,103) (84,767)	\$ 875,281 2,493 47,254 112,643 (92,592)
obligation at end of year	\$ 880,509	\$ 945,079
The plan is unfunded as of December 31, 2018.		
Weighted average assumptions as of December 31:		
	 2018	 2017
Discount rate	4.19%	3.56%

For measurement purposes, a 20.0% annual rate of increase in the cost of covered health care benefits was assumed. The health care cost trend rate assumption has a significant effect on the calculated liability. The Plan does cap monthly health insurance premium costs for both individuals and families for employees that retired after a specific date. A one-percentage point change in assumed health care costs would have the following effect:

Change in Health Care increase	Poin	1% t Decrease	Poir	1% nt Increase
Effect on total service and interest cost components	\$	(1,032)	\$	1,077
Effect on post-retirement benefit obligation	\$	(20,653)	\$	21,535

Note 14 - Income Taxes

Net deferred tax assets and liabilities consist of the following component as of December 31, 2018 and 2017:

	 2018	 2017
Deferred tax asset Allowance for doubtful accounts	\$ 4,600	\$ 3,400
Deferred tax liabilities Property and equipment	\$ 387,600	\$ 370,200

The components giving rise to the net deferred tax assets and liabilities described above have been included in the accompanying balances sheets as of December 31, 2018 and 2017 as follows:

	 2018	 2017
Current asset Noncurrent liability	\$ (4,600) 387,600	\$ (3,400) 370,200
	\$ 383,000	\$ 366,800

The provision for income tax (benefits) expenses charged to operations for the years ended December 31, 2018 and 2017 consists of the following:

	 2018	 2017
Currently payable Deferred	\$ 65,079 16,200	\$ 42,793 (90,200)
	\$ 81,279	\$ (47,407)

The difference between federal income tax expense and the tax computed based on statutory rates is primarily attributable to permanent differences between deductions taken for book and tax purposes.

The Tax Cuts and Jobs Act of 2017 that was enacted December 22, 2017, affected Tri-Co Services Inc.'s deferred tax assets and liabilities due to the future corporate income tax rate decreasing from 34% to 21%. This change created a deferred tax benefit in 2017. Generally accepted accounting standards require the change to be included in the prior period financial statements and the effect of the changes to be included as a component of the 2017 income tax provision (benefit).

Note 15 - Deferred Credits

	2018	2017
Customer construction deposits	\$ 332,219	\$ 303,443
Consumer prepayments	350,166	362,935
Regulatory liability for fire	90,597	94,100
Unearned revenue	556,661	575,421
Energy optimization accrual	231,582	328,762
Unclaimed capital credits	1,467,337	1,327,075
Prepaid community solar garden investment	19,607	20,903
Total deferred credits	\$ 3,048,169	\$ 3,012,639

Note 16 - Related Party Transactions

The Cooperative collects and remits voluntary contributions to the Tri-County Electric People Fund, Inc. (the Fund), a 501 (c)(3) nonprofit organization organized for charitable giving to individuals and organizations in the Cooperative's service area. The Cooperative reimburses the Fund for operating expenses which amounted to \$16,132 and \$19,885 for the years ended December 31, 2018 and 2017, respectively.

Note 17 - Commitments

The Cooperative has a commitment to purchase its electric power and energy requirements at wholesale from Wolverine Power Supply Cooperative, Inc. (Wolverine) until December 31, 2041 and Wolverine is obligated to sell to the Cooperative all of the Cooperative's electric power needs. The rates paid by the Cooperative under the contract are subject to review by the seller at such intervals, as it deems appropriate.

The following is a summary of transactions with Wolverine for the years ended December 31, 2018 and 2017:

	2018	2017
Purchase of wholesale power	\$ 28,768,614	\$ 29,084,914
Accounts payable for purchased power at December 31	\$ 2,359,528	\$ 2,788,062
Capital credits allocated during the year	\$ 2,021,431	\$ 1,964,108
Accumulated investment in patronage capital credits	\$ 27,799,010	\$ 27,746,198

At December 31, 2018 and 2017 the subsidiary has signed purchase agreements for propane totaling approximately \$1,587,457 and \$72,293, respectively.

Note 18 - Lease Agreements

The Cooperative leases various vehicles and office equipment under various operating lease agreements. Lease expense for years ending December 31, 2018 and 2017 was \$326,152 and \$304,467, respectively. The leases expire from February 2018 to June 2027. The minimum future lease payments for the leases are as follows:

Years Ending December 31,	Amount
2019	\$ 335,783
2020	304,840
2021	252,846
2022	197,328
2023	136,644
Thereafter	294,045
	\$ 1,521,486

Tri-County Electric Cooperative, Inc. and Subsidiary

Independent Auditor's Report on Supplementary Information

The Board of Directors Tri-County Electric Cooperative, Inc. and Subsidiary Portland, Michigan

sde Sailly LLP

We have audited the consolidated financial statements of Tri-County Electric Cooperative, Inc. and Subsidiaries as of December 31, 2018 and 2017, and our report thereon dated March 20, 2019, which expressed an unmodified opinion on those consolidated financial statements, appears on pages 1 and 2. Our audit was conducted for the purpose of forming an opinion on the consolidating financial statements as a whole. The consolidating information presented on pages 24 through 27 is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Independent Auditor's Report

The Board of Directors Tri-County Electric Cooperative, Inc. Portland, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of Tri-County Electric Cooperative, Inc., which comprise the balance sheets as of December 31, 2018 and 2017, and the related statements of operations, members' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Qualified Opinion

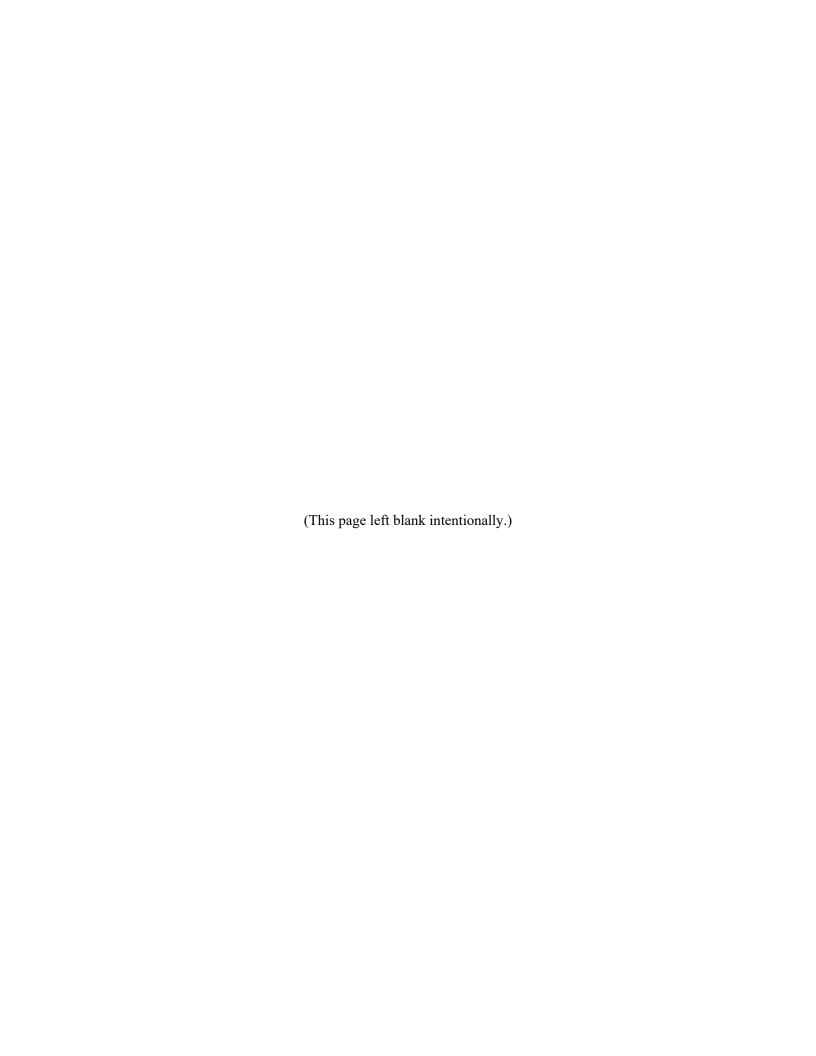

As more fully described in Note 6 to the financial statements, the Cooperative reports its investment in Tri-Co Services, Inc., a wholly owned subsidiary, on the equity method of accounting. In our opinion, accounting principles generally accepted in the United States of America require that all majority-owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of Tri-Co Services, Inc. had been consolidated with those of Tri-County Electric Cooperative, Inc., total assets and total liabilities and equities would be increased by \$1,131,486 and \$143,433 as of December 31, 2018 and 2017, and revenues and expenses would be increased by \$4,238,278 and \$3,111,858 for the years then ended.

Qualified Opinion

In our opinion, except for the effects of not consolidating Tri-Co Services, Inc., as discussed in the above paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of Tri-County Electric Cooperative, Inc. as of December 31, 2018 and 2017, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Note 1 - Summary of Significant Accounting Policies

Principal Business Activity

Tri-County Electric Cooperative, Inc. dba HomeWorks (the Cooperative), a Michigan corporation, provides for the electric energy needs of its members, the rural residents of the central Michigan area.

Additional Business Activity

At the beginning of 2018, the Cooperative entered into another like business activity, to provide high speed internet services (fiber to the home) to its electric members, with the goal to build out to all of its members over a five-year period. The fiber business is considered a department within the cooperative.

Consolidation Policy and Preparation of Financial Statements

The financial statements of the Cooperative have been prepared on the accrual basis of accounting. The Cooperative reports its investment in its wholly owned subsidiary, Tri-Co Services, Inc., using the equity method. Accounting principles generally accepted in the United States of America require wholly owned subsidiaries to be consolidated. In arriving at the decision not to consolidate its subsidiary, management concluded that since the primary users of the statements are the Board of Directors, management and members, consolidation of the subsidiary's statements would tend to obscure the financial position and activities of the Cooperative.

Regulation

As of April 6, 2010, the Cooperative is self-regulated for rates, billing practices, and accounting standards. All other aspects of electric service continue to be regulated by the Michigan Public Service Commission. The Cooperative's accounting policies and the accompanying financial statements, except as noted above, conform to generally accepted accounting principles applicable to rate-regulated enterprises and reflect the effects of the ratemaking process.

As a result of the ratemaking process, the Cooperative applies Accounting Standards Codification (ASC) 980, *Regulated Operations*. The application of generally accepted accounting principles by the Cooperative differs in certain respects from the application by non-regulated businesses as a result of applying ASC 980. Such differences generally relate to the time at which certain items enter into the determination of net margins in order to follow the principle of matching costs and revenues.

Plant and Retirements

Plant is stated at cost less contributions in aid of construction. The cost of additions to plant includes contracted work, direct labor and materials and allocable overheads. When units of property that are specifically identifiable are retired, sold or otherwise disposed of in the ordinary course of business, their book cost less net salvage is recognized as a gain or loss. All other units of property that are retired, sold or otherwise disposed of in the ordinary course of business, their average book cost less net salvage is charged to accumulated depreciation. Repairs and the replacement and renewal of items determined to be less than units of property are charged to maintenance expense.

Depreciation

Depreciation is computed using the straight-line method based upon the estimated useful lives of the various classes of property.

Cash and Cash Equivalents

Short-term highly liquid investments that are readily converted to known amounts of cash and present insignificant risks of changes in value are considered cash equivalents. Investments in commercial paper are considered cash equivalents and valued at cost which approximates market.

Investments

Investments in associated companies, representing less than a 20% ownership of such companies, are accounted for under the cost method and all other investments are stated at cost, which approximates fair value. Investments in associated companies are carried at cost plus assigned capital credits less any capital paid to the Cooperative. Income from investments in associated companies is recognized when capital credits are assigned.

The Cooperative's investment in its wholly owned subsidiary, Tri-Co Services, Inc., is recorded using the equity method. Under this method, the investment is adjusted for the subsidiary's underlying earnings and losses.

Receivables and Credit Policies

Electric trade receivables are uncollateralized customer obligations due under normal trade terms requiring payment within 21 days from the billing date. Unpaid trade receivables with dates over 30 days old are assessed a late fee of 2% (residential) or 5% (large power and general service) of the unpaid balance or the amount of the bill less tax, whichever is less. Non-interest-bearing notes receivable are stated at principal balance and are collateralized by equipment. Fiber to the home customers are billed in advance on the 12th of the month. If balance is not paid by end of the month, their services are shut off. There is no grace period allowed for customer credit.

Payments on trade and notes receivables are allocated to the earliest unpaid billings. The carrying amounts of trade receivables are reduced by a valuation allowance that reflects management's best estimate of the amount that will not be collected. Management reviews all trade receivable balances periodically and adjusts the allowance accounts based on current economic conditions and past experience.

Materials and Supplies

Material and supplies are stated at average moving cost.

Deferred Debits

Deferred debits consist primarily of a retirement security prepayment made to ensure proper funding of the Retirement Security Plan which is being amortized over the remaining service life of the employees, generally 15 and 20 years. Deferred debits also include loan conversion fees resulting from the conversion of some long-term CFC loans to lower interest rates. Conversion fees are being amortized over the average remaining life of the loans that were converted which was approximately 22 years. Also included are the costs of putting together a four-year construction work plan, which will be amortized over the four years of the plan.

Patronage Capital

The Cooperative operates on a nonprofit basis.

Amounts received from the furnishing of electric energy in excess of operating costs and expenses are assigned to patrons on a patronage basis. All other amounts received by the Cooperative from its operations in excess of costs and expenses are also allocated to its patrons on a patronage basis to the extent they are not needed to offset current or prior losses, at the discretion and determination of the board of directors.

An electric member who is also a fiber customer is considered a fiber member. Amounts received from the furnishing of fiber to the home services in excess of operating costs and expenses are assigned to fiber members on a patronage basis to the extent they are not needed to offset current or prior fiber losses, at the discretion and determination of the board of directors.

Revenue Recognition and Unbilled Revenues

The Cooperative recognizes revenue on members' unbilled accounts based upon estimated usage in the current billing cycle.

Power Costs

Power costs include all power delivered to the Cooperative, regardless of whether the power supplier has billed the Cooperative for power delivered.

Deferred Credits

Deferred credits consist primarily of deferred gains related to insurance proceeds, customer advances on construction, advance payments made by consumers in connection with electric or fiber service, unclaimed capital credit checks and over collection of costs related to the energy optimization program. Deferred gains from insurance proceeds are amortized over the useful lives of the assets replaced.

Post-Retirement Benefits

The Cooperative sponsors an unfunded defined benefit post-retirement health plan that covers certain employees who retire after obtaining age 62 and 15 years of service. Spouses of beneficiaries are also included, with coverage continuing to the spouse after the beneficiaries' death. The Cooperative's share of the estimated costs of benefits that will be paid after retirement is being accrued by charges to expense accounts over the employees' active service periods to dates they are fully eligible for benefits.

Business and Credit Risk

Financial instruments which potentially subject the Cooperative to concentrations of credit risk consist primarily of temporary cash instruments and trade receivables. The Cooperative provides electrical service on account to its members which are located primarily in the central Michigan area. The Cooperative has established policies for extending the credit based upon factors surrounding the credit risk of specified customers, historical trends and other information. Concentrations of credit risk with respect to trade receivables are limited due to the Cooperative's large number of customers. Nonetheless, the Cooperative's ability to collect from its members is affected by the economic conditions in which it operates.

The Cooperative maintains its temporary cash investments and cash balances with high credit quality financial institutions. Although such investments and cash balances may exceed the federally insured limit of \$250,000 from time to time, they are, in the opinion of management, subject to minimal risk.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Sales Taxes

The Cooperative has customers in a state which imposes a sales tax on certain sales. The Cooperative collects those sales taxes from its customers and remits the entire amount to the state of Michigan. The Cooperative's accounting policy is to exclude the tax collected and remitted from revenue and cost of revenue.

Fair Value Measurements

The Cooperative has determined the fair value of certain assets and liabilities in accordance with generally accepted accounting principles, which provides a framework for measuring fair value.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

A fair value hierarchy has been established, which prioritizes the valuation inputs into three broad levels. Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

The Cooperative does not have any assets or liabilities subject to the level 1, 2, or 3 valuation as of December 31, 2018 and 2017 and does not anticipate participating in transactions of this type in the future.

Advertising Costs

Advertising costs are expensed as incurred and totaled \$77,806 and \$20,920 for the years ended December 31, 2018 and 2017, respectively.

Income Taxes

The Cooperative is exempt from federal income tax under Section 501(c)(12). The Cooperative is annually required to file a Return of Origination Exempt from Income Tax (Form 990) with the IRS. The Cooperative files an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS to report its unrelated business taxable income.

The Cooperative evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions. As of December 31, 2018, and 2017, the unrecognized tax benefit accrual was zero. The Cooperative will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense if incurred. The Company is no longer subject to Federal tax examinations by tax authorities for years before 2015 and state examinations for years before 2015.

The Cooperative undergoes an annual analysis of its various tax positions, assessing the likelihood of those positions being upheld upon examination with relevant tax authorities.

Subsequent Events

The Cooperative has evaluated subsequent events through March 20, 2019, the date which the financial statements were available to be issued.

Note 2 - Plant

Major classes of plant at December 31, 2018 and 2017 consist of the following:

	2018	2017
General plant	\$ 12,227,960	\$ 7,219,631

Note 6 - Investment in Subsidiary

The Cooperative reports its investment in its wholly owned subsidiary, Tri-Co Services, Inc., using the equity method. Accounting principles generally accepted in the United States of America require wholly owned subsidiaries to be consolidated. In arriving at the decision not to consolidate its subsidiary, management concluded that since the primary users of the statements are the Board of Directors, management and members, consolidation of the subsidiary's statements would tend to obscure the financial position and activities of the Cooperative. Inclusion of the following condensed financial information of the subsidiary as of and for the years ended December 31, 2018 and 2017 permits users of these statements to be more fully informed. Financial information related to Tri-Co Services, Inc. at December 31, 2018 and 2017 is as follows:

	2018	2017
Balance Sheet		
Current assets	\$ 4,854,815	\$ 4,791,590
Investments and other assets	3,825,829	4,108,170
	\$ 8,680,644	\$ 8,899,760
Current liabilities	\$ 763,344	\$ 815,054
Long-term liabilities / deferred credits	387,600	370,200
Equity	7,529,700	7,714,506
	\$ 8,680,644	\$ 8,899,760
Operations		
Operating revenues	\$ 4,605,072	\$ 3,560,917
Operating expenses	(4,281,712)	(3,250,100)
Other revenue/(expense) - net	(8,166)	114,230
Net income/(loss)	\$ 315,194	\$ 425,047

As a result of not consolidating Tri-Co Services, Inc., the Cooperative's financial statements are understated as follows at December 31, 2018 and 2017:

	2018	2017
Assets and liabilities	\$ 1,131,486	\$ 143,433
Revenues and expenses	\$ 4,238,278	\$ 3,111,858

Note 7 - Power Supply Cost Recovery

Up until April 2010 the Cooperative was required by the Michigan Public Service Commission to maintain power supply cost recovery over-collections (PSCR) and refundable customer contributions in restricted accounts to be used only for the purpose for which they are intended. As of April 6, 2010, the Cooperative became self-regulated for rates, billing practices, and accounting standards and is no longer subject to this requirement.

Wolverine Power Supply Cooperative, Inc. and the member-distribution cooperatives including Tri-County Electric Cooperative, Inc. were required to obtain authority to implement and apply PSCR clauses and monthly factors. Because the Cooperative became self-regulated as noted above, the PSCR clauses and monthly factors were approved by the Board of Directors. Tri-County's average monthly factor for residential customers was (.00249) and (.00127) per KWH during 2018 and 2017, respectively.

Due to fluctuations in market conditions, over-collections or under-collections could result between the generation cooperative and distribution cooperative as well as between the distribution cooperative and their member-consumers. Power cost recovery over-collections must be remedied by refunds and power cost recovery under-collection must be remedied by additional collections. As of December 31, 2018, and 2017 there was an over collection of \$908,423 and \$565,903.

Note 8 - Patronage Capital

Patronage capital balances at December 31, 2018 and 2017 consisted of the following:

	2018	2017
Assignable - electric Assignable, (future offset to positive margins) - fiber Assigned to date	\$ 3,741,815 (239,041) 69,013,725	\$ 2,366,451 - 66,647,274
Total	72,516,499	69,013,725
Retired to date	(22,125,700)	(19,121,738)
Balance	\$ 50,390,799	\$ 49,891,987

The mortgage provisions restrict the retirement of patronage capital unless, after retirement, the capital of the Cooperative equals at least 20% of the total assets of the Cooperative; provided, however, that retirements can be made if such distributions do not exceed 30% of the preceding year's margins. No distribution can be made if there is unpaid, when due, any installments of principal or interest on the notes or, if after giving effect to any distribution, the total current and accrued assets would be less than the total current and accrued liabilities. During 2018 and 2017, the Cooperative's capital exceeded 20% of total assets.

Note 9 - Other Equities

Other Equities as of December 31, 2018 and 2017 consist of the following:

	2018	2017
Donated capital memberships Retired capital credits - gain Pre 1979 margins	\$ 1,868,659 241,262 1,603,211	\$ 1,707,540 241,262 1,603,211
	\$ 3,713,132	\$ 3,552,013

Other equities from Tri-Co Services, Inc. had a balance of \$7,479,700 and \$7,664,506 as of December 31, 2018 and 2017, respectively.

Note 10 - Long-Term Debt

Long-term debt at December 31, 2018 and 2017 is as follows:

	2018	2017
National Rural Utilities Cooperative Finance Corporation (CFC) notes bearing interest at 2.95% to 5.66% per annum. The notes are payable in installments and mature at various times through November 2048.	\$ 60,406,511	\$ 47,661,777
Less current maturities	(1,849,247)	(1,597,704)
Total long-term debt	\$ 58,557,264	\$ 46,064,073

Maturities of long-term debt are as follows:

Year Ending December 31,	Amount
2019	\$ 1,849,247
2020	1,929,815
2021	2,014,238
2022	2,102,705
2023	1,990,232
Thereafter	50,520,274
	\$ 60,406,511

The loan agreements with CFC are secured by substantially all assets of the Cooperative and include certain positive and negative covenants with which the Cooperative has complied. Additionally, the Cooperative has available unadvanced loan funds from CFC of \$35,000,000.

The security agreement (mortgage) restricts the Cooperative's debt limit to \$130,000,000.

Note 11 - Lines of Credit

The Cooperative has executed a perpetual, variable rate (3.35% and 2.35% at December 31, 2018 and 2017, respectively) uncommitted line of credit with CFC, providing it with short-term loans in the total amount of \$5,000,000. There were no outstanding balances on the line at December 31, 2018 and 2017. During 2009, the Cooperative executed an additional variable rate (3.75% and 2.75% at December 31, 2018 and 2017, respectively) line of credit with CFC, providing it with short-term loans in the total amount of \$10,000,000 maturing July 2019. There were no outstanding balances on the line at December 31, 2018 and 2017.

During 2013, the Cooperative executed a variable rate (3.35% and 2.75% at December 31, 2018 and 2017, respectively) line of credit with Tri-Co Services, Inc., a subsidiary of the Company (Note 15) providing it with short-term loans in the total amount of \$2,500,000. This line of credit was renewed as a perpetual, variable rate line of credit in 2015, which is due upon demand. During 2017, the cooperative executed a new agreement with Tri-Co Services, Inc. increasing the total to \$3,000,000. The outstanding balance is \$0 and \$1,000,000 at December 31, 2018 and 2017, respectively.

During 2018, the Cooperative executed a variable rate (4.06% at December 31, 2018) line of credit with CoBank allowing for short-term loans up to \$3,000,000 maturing August 2019. There were no outstanding balances on the line at December 31, 2018.

Note 12 - Retirement Plan

Pension Plan

The National Rural Electric Cooperative Association (NRECA) Retirement Security Plan (RS Plan) is a defined benefit pension plan qualified under Section 401 and tax-exempt under Section 501(a) of the Internal Revenue Code. It is a multiemployer plan under the accounting standards. The plan sponsor's Employer Identification Number is 53-0116145 and the Plan Number is 333. A unique characteristic of a multiemployer plan compared to a single employer plan is that all plan assets are available to pay benefits of any plan participant. Separate asset accounts are not maintained for participating employers. This means that assets contributed by one employer may be used to provide benefits to employees of other participating employers.

Tri- County Electric Cooperative, Inc. contributions to the RS Plan in 2018 and in 2017 represented less than five percent of the total contributions made to the plan by all participating employers. Tri-County Electric Cooperative made contributions to the plan of \$923,000 in 2018 and \$838,000 in 2017. In 2013, the Cooperative made a \$2,344,518 prepayment to the National Rural Electric Cooperative Association for the Retirement Security Plan to enhance the Plan's funded status. With this prepayment, the Cooperative will pay 25% lower premiums than cooperatives in the Retirement Security Plan that did not make a prepayment. The prepayment will be amortized based on the average remaining service life of the respective employee groups, 15 and 20 years. The amortization expense was approximately \$144,000 for the years ended December 31, 2018 and 2017.

For the RS Plan, a "zone status" determination is not required, and therefore not determined, under the Pension Protection Act (PPA) of 2006. In addition, the accumulated benefit obligations and plan assets are not determined or allocated separately by individual employer. In total, the RS Plan was over 80 percent funded on January 1, 2018 and over 80 percent funded on January 1, 2017 based on the PPA funding target and PPA actuarial value of assets on those dates. Because the provisions of the PPA do not apply to the RS Plan, funding improvement plans, and surcharges are not applicable. Future contribution requirements are determined each year as part of the actuarial valuation of the plan and may change as a result of plan experience.

Savings Plan

In addition to the above retirement plan, employees of the Cooperative are eligible to participate in the NRECA 401(k) Pension Plan. In 2018 the Cooperative made contributions equal to 5.0% of each employee's base wages and in 2017 it made contributions of 4.0% of each employee's base wages. Employees are required to contribute 4.0% of base pay and may voluntarily contribute more if desired. The Cooperative made contributions of \$259,100 and \$189,000 in 2018 and 2017, respectively.

Note 13 - Post-Retirement Benefits other than Pensions

The Cooperative sponsors an unfunded defined benefit post-retirement health plan that covers certain employees who retire after reaching age 62 and 15 years of service. Spouses of beneficiaries are also included, with coverage continuing to the spouse after the beneficiaries' death.

The following table sets forth the change in the post-retirement benefit obligation reconciled with the obligation recognized in the accompanying balance sheet at December 31:

	2018		2017	
Change in post-retirement benefit obligation Accumulated post-retirement benefit				
obligation at beginning of year Service cost Interest cost Actuarial (gain) loss Benefits paid Accumulated post-retirement benefit obligation at end of year	\$ \$	945,079 2,275 44,025 (26,103) (84,767)	\$ 	875,281 2,493 47,254 112,643 (92,592) 945,079
The plan is unfunded at December 31, 2018.				
Weighted average assumptions as of December 31:				
		2018		2017
Discount rate		4.19%		3.56%

For measurement purposes, a 20.0% annual rate of increase in the cost of covered health care benefits was assumed. The health care cost trend rate assumption has a significant effect on the calculated liability. The Plan does cap monthly health insurance premium costs for both individuals and families for employees that retired after a specific date. A one-percentage point change in assumed health care costs would have the following effect:

Change in Health Care increase	Poin	1% t Decrease	Poir	1% nt Increase
Effect on total service and interest cost components	\$	(1,032)	\$	1,077
Effect on post-retirement benefit obligation	\$	(20,653)	\$	21,535

Note 14 - Deferred Credits

	2018		 2017	
Customer construction deposits	\$	332,219	\$ 303,443	
Consumer energy prepayments		333,677	362,935	
Customer fiber prepayments		16,489	-	
Regulatory liability for fire		90,597	94,100	
Energy optimization accrual		231,582	328,762	
Unclaimed capital credits		1,467,337	1,327,075	
Prepaid community solar garden investment		19,607	20,903	
Total deferred credits	\$	2,491,508	\$ 2,437,218	

Note 15 - Related Party Transactions

The Cooperative provides Tri-Co Services, Inc. a wholly owned subsidiary, with personnel, office space, and other administrative support. Amounts reimbursed for these services during 2018 and 2017 totaled \$1,107,950 and \$998,402, respectively. Amounts due (to) from Tri-Co Services, Inc. amounted to \$(19,458) and \$(41,821) at December 31, 2018 and 2017, respectively.

The Cooperative collects and remits voluntary contributions to the Tri-County Electric People Fund, Inc. (the Fund), a 501 (c)(3) nonprofit organization organized for charitable giving to individuals and organizations in the Cooperative's service area. The Cooperative reimburses the Fund for operating expenses which amounted to \$16,132 and \$19,885 for the years ended December 31, 2018 and 2017, respectively.

During 2015, the Cooperative renewed the line of credit with Tri-Co Services, Inc., making it a perpetual line of credit. The outstanding balance is \$0 and \$1,000,000 at December 31, 2018 and 2017, respectively.

Note 16 - Commitments

The Cooperative has a commitment to purchase its electric power and energy requirements at wholesale from Wolverine Power Supply Cooperative, Inc. (Wolverine) until December 31, 2041 and Wolverine is obligated to sell to the Cooperative all of the Cooperative's electric power needs. The rates paid by the Cooperative under the contract are subject to review by the seller at such intervals, as it deems appropriate.

Following is a summary of transactions with Wolverine for the years ended December 31, 2018 and 2017:

	2018	2017
Purchase of wholesale power	\$ 28,768,614	\$ 29,084,914
Accounts payable for purchased power at December 31	\$ 2,359,528	\$ 2,788,062
Capital credits allocated during the year	\$ 2,021,431	\$ 1,964,108
Accumulated investment in patronage capital credits	\$ 27,799,010	\$ 27,746,198

Note 17 - Lease Agreements

The Cooperative leases various vehicles and office equipment under various operating lease agreements. Lease expense for years ending December 31, 2018 and 2017 was \$326,152 and \$304,467, respectively. The leases expire from February 2018 to June 2027. The minimum future lease payments for the leases are as follows:

Years Ending December 31,	 Amount	
2019	\$ 335,783	
2020	304,840	
2021	252,846	
2022	197,328	
2023	136,644	
Thereafter	 294,045	
	\$ 1,521,486	

Supplementary Information December 31, 2018 and 2017

Tri-County Electric Cooperative, Inc.

Independent Auditor's Report on Supplementary Information

The Board of Directors Tri-County Electric Cooperative, Inc. Portland, Michigan

We have audited the financial statements of Tri-County Electric Cooperative, Inc. as of and for the year ended December 31, 2018 and 2017, and our report thereon dated March 20, 2019, which expressed a modified opinion on those financial statements, appears on page 1. Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information on pages 24 through 26 is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.
