

CONTRACT FOR ELECTRIC SERVICE
ECONOMIC DEVELOPMENT SERVICE RATE "E-2"
SUPPLEMENTAL AGREEMENT

This SUPPLEMENTAL AGREEMENT made this _____ day of _____, 19____, between CONSUMERS POWER COMPANY, herein termed the Company, and _____ of the _____ of _____ Michigan, herein termed the Customer, as follows:

WHEREAS, the parties hereto have entered into a Contract for Electric Service, dated the _____ day of _____, 19____, wherein the Company agreed to supply electric service under its electric rate _____ and the Customer agreed to purchase from the Company its electric requirements as provided for in said contract; and

WHEREAS, the parties hereto desire to add to said contract the provisions of the Company's Electric Rate E-2, a copy of which is attached hereto and made a part hereof, with conditions as herein set forth.

1. The Customer hereby agrees:

A. For an Existing Customer:

To add a minimum of 500 kW to the Customer's contracted historical on-peak billing demand per month: or,

B. For a New Customer:

To pay for a minimum of 500 kW of on-peak billing demand per month.

2. The Company will bill on-peak demands in excess of _____ kW per month, the historical on-peak billing demand, on its Economic Development Rate "E-2" and in accordance with such future revisions and amendments thereof, supplements thereto or substitutions therefore as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement.

3. Billing under the terms of this Supplement Agreement will commence with bills rendered on and after the _____ day of _____, 19____, and will continue for a total of _____ consecutive bill months. This Supplemental Agreement will extend for an initial term of one year, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly-period, which notice may be given at any time.

4. Upon completion of the _____ consecutive bill months or upon termination of this Agreement, all further billings will be based on the terms and conditions of the original contract.

5. In all other respects, the terms and conditions of said contract shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, said parties have executed this Supplemental Agreement, in duplicate, by their duly authorized representative.

TERMS AND CONDITIONS

PART II

1. The Customer requests the Company to provide electric service as described in Part I. In order to provide such electric service, it will be necessary for the Company to install a line extension, service connection and other facilities herein collectively called "Facilities." The general location and type of the Facilities is shown on the Work Order sketch attached.
2. Except for the special conditions pertaining to deposit and refunds contained in this Agreement due to the questionable permanence of the Customer's use of the service, this Agreement and the construction and operation of said Facilities shall be subject to the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) and any modifications or replacements thereof as may be applicable, copies of which will be furnished to the Customer upon request. The Customer shall, upon the execution hereof, pay the Company the total estimated cost stated in Part I. The portion, if any, designated as "nonrefundable contribution" was calculated in accordance with Rule B15.2, Underground Policy, of said Rate Schedule and will not be refunded. The Company shall construct the Facilities with all reasonable dispatch, upon receipt of said total estimated cost. If construction of the Facilities is delayed beyond six months after the date of this Agreement due to action or inaction of the Customer, the Company may terminate this Agreement by written notice to the Customer. Upon such termination, the Company will refund the Customer's payment, less any expenses incurred on account of this Agreement, without interest.
3. The Company will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area. Deposits are subject to refund for five years from the month following the completion of the facilities to serve the Customer. Any portion of the deposit remaining at the expiration of said five-year period which is not refundable in accordance with the provisions of this section shall be retained by the Company. No refund is to be made in excess of the deposit and such deposit shall bear no interest. The Company will make refunds to the Customer in accordance with subsections 3 (a), 3 (b) and 3 (c) below.
 - (a) At the end of each of the first four years, either 20% of said deposit, or 20% of the revenue (excluding Base Rate Adjustment, surcharges and sales tax) derived from the Customer for electric service at the Service Location described in Part I for said year, whichever is less.
 - (b) At the end of the final year of the five-year refund period, if the total revenue (excluding Base Rate Adjustment, surcharges and sales tax) derived from the Customer for said five-year period is:
 - (1) Equal to or greater than five (5) times the original deposit, then the Company will refund the balance of the deposit.
 - (2) Less than five (5) times the original deposit, then the Company will determine the final refund in accordance with 3 (a) above.
 - (c) Upon establishing electric load of predictable duration, the portion of the deposit which exceeds the deposit that would be required of a permanent Customer will be refunded immediately. Deposits for permanent Customers are calculated in accordance with Rule B15.1, "Overhead Extension Policy" or Rule B15.2, "Underground Policy."
4. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
5. The title to the Facilities shall vest in the Company and the Customer shall have no interest therein by reason of any payment under this Agreement.
6. The Agreement does not include the providing of electric service. Electric service will be provided at an available rate in accordance with the Rate Schedule.
7. This Agreement shall not be assigned by the Customer except with the previous written consent of the Company and any attempted assignment without such consent shall be void.
8. This Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives pertaining to the subject matter hereof and constitutes the entire agreement of the parties.

PART II

1. The Customer requests the Company to provide electric service as described in Part I. In order to provide such electric service, it will be necessary for the Company to install a line extension, service connection and other facilities herein collectively called "Facilities." The general location and type of the Facilities is shown on the Work Order sketch attached.
2. Except for the special conditions pertaining to deposit and refunds contained in this Agreement due to the questionable permanence of the Customer's use of the service, this Agreement and the construction and operation of said Facilities shall be subject to the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) and any modifications or replacements thereof as may be applicable, copies of which will be furnished to the Customer upon request. The Customer shall, upon the execution hereof, pay the Company the total estimated cost stated in Part I. The portion, if any, designated as "nonrefundable contribution" was calculated in accordance with Rule B15.2, Underground Policy, of said Rate Schedule and will not be refunded. The Company shall construct the Facilities with all reasonable dispatch, upon receipt of said total estimated cost. If construction of the Facilities is delayed beyond six months after the date of this Agreement due to action or inaction of the Customer, the Company may terminate this Agreement by written notice to the Customer. Upon such termination, the Company will refund the Customer's payment, less any expenses incurred on account of this Agreement, without interest.
3. Refundable deposits are subject to refund for five years from the month following the completion of the facilities to serve the Customer. Any portion of the refundable deposit remaining at the expiration of said five-year period which is not refundable in accordance with the provisions of this section shall be retained by the Company. No refund is to be made in excess of the refundable deposit and such deposit shall bear no interest. The Company will make refunds to the Customer in accordance with subsections 3 (a), 3 (b) and 3 (c) below.
 - (a) At the end of each of the first four years, either 20% of said deposit, or 20% of the revenue (excluding Power Supply Cost Recovery, surcharges and sales tax) derived from the Customer for electric service at the Service Location described in Part I for said year, whichever is less.
 - (b) At the end of the final year of the five-year refund period, if the total revenue (excluding Power Supply Cost Recovery, surcharges and sales tax) derived from the Customer for said five-year period is:
 - (1) Equal to or greater than five (5) times the original deposit, then the Company will refund the balance of the deposit.
 - (2) Less than five (5) times the original deposit, then the Company will determine the final refund in accordance with 3 (a) above.
 - (c) Upon establishing permanency, the portion of the refundable deposit which exceeds the deposit that would be required of a permanent Customer will be refunded immediately. Deposits for permanent Customers are calculated in accordance with Rule B15.1, "Overhead Extension Policy" or Rule B15.2, "Underground Policy."
4. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
5. The title to the Facilities shall vest in the Company and the Customer shall have no interest therein by reason of any payment under this Agreement.
6. The Agreement does not include the providing of electric service. Electric service will be provided at an available rate in accordance with the Rate Schedule.
7. This Agreement shall not be assigned by the Customer except with the previous written consent of the Company and any attempted assignment without such consent shall be void.
8. This Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives pertaining to the subject matter hereof and constitutes the entire agreement of the parties.

PART II
TERMS AND CONDITIONS

1. The Customer requests the Company to provide electric service as described in Part I. In order to provide such electric service, it will be necessary for the Company to install a line extension, service connection and other facilities herein collectively called "Facilities." The general location and type of the Facilities is shown on the Work Order sketch attached.
2. Except for the special conditions pertaining to deposit and refunds contained in this Agreement due to the questionable permanence of the Customer's use of the service, this Agreement and the construction and operation of said Facilities shall be subject to the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) and any modifications or replacements thereof as may be applicable, copies of which will be furnished to the Customer upon request. The Customer shall, upon the execution hereof, pay the Company the total estimated cost stated in Part I. The portion, if any, designated as "nonrefundable contribution" was calculated in accordance with Rule B15.2, Underground Policy, of said Rate Schedule and will not be refunded. The Company shall construct the Facilities with all reasonable dispatch, upon receipt of said total estimated cost. If construction of the Facilities is delayed beyond six months after the date of this Agreement due to action or inaction of the Customer, the Company may terminate this Agreement by written notice to the Customer. Upon such termination, the Company will refund the Customer's payment, less any expenses incurred on account of this Agreement, without interest.
3. Refundable deposits required due to questionable permanence are subject to refund for five years from the month following the completion of the Facilities to serve the Customer. Upon establishing permanency, the portion of the refundable deposit which exceeds the deposit that would be required of a permanent Customer will be refunded immediately without interest. Deposits for permanent customers are calculated in accordance with Rule B15.1, "Overhead Extension Policy" or Rule B.15.2, "Underground Policy."
4. As to the refundable deposit only, the Company will make refunds to the Customer in accordance with the Company's Rate Schedule. Any portion of the deposit remaining at the expiration of said five (5) year period which is not refundable in accordance with the provisions of the Rate Schedule shall be retained by the Company. No refund is to be made in excess of the refundable deposit and such deposit shall bear no interest.
5. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
6. The title to the Facilities shall vest in the Company and the Customer shall have no interest therein by reason of any payment under this Agreement.
7. The Agreement does not include the providing of electric service. Electric service will be provided at an available rate in accordance with the Rate Schedule.
8. This Agreement shall not be assigned by the Customer except with the previous written consent of the Company and any attempted assignment without such consent shall be void.
9. This Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives pertaining to the subject matter hereof and constitutes the entire agreement of the parties.

PART II
TERMS AND CONDITIONS

1. The Customer requests the Company to provide electric service as described in Part I. In order to provide such electric service, it will be necessary for the Company to install a line extension, service connection and other facilities herein collectively called "Facilities." The general location and type of the Facilities is shown on the Work Order sketch attached.
2. Except for the special conditions pertaining to deposit and refunds contained in this Agreement due to the questionable permanence of the Customer's use of the service, this Agreement and the construction and operation of said Facilities shall be subject to the Standard Rules and Regulations — Electric included in the Company's Schedule of Rates Governing the Sale of Electric Service and any modifications or replacements thereof as may be applicable, copies of which will be furnished to the Customer upon request. The Customer shall, upon the execution hereof, pay the Company the total estimated cost stated in Part I. The portion, if any, designated as "nonrefundable contribution" was calculated in accordance with Rule 26, "Underground Distribution System and Service Connections," of said Standard Rules and Regulations and will not be refunded. The Company shall construct the Facilities with all reasonable dispatch, upon receipt of said total estimated cost. If construction of the Facilities is delayed beyond six months after the date of this Agreement due to action or inaction of the Customer, the Company may terminate this Agreement by written notice to the Customer. Upon such termination, the Company will refund the Customer's payment, less any expenses incurred on account of this Agreement, without interest.
3. As to the refundable deposit only, the Company will refund to the Customer at the end of each year either (a) 20% of said deposit, or (b) 20% of the revenue (excluding power supply cost recovery and sales tax) derived from the Customer for electric service at the above location for said year, whichever is less. The aforesaid provision for refund shall be in effect for a period of five (5) years from and after the date of commencement of such service to the Customer. If the entire deposit has not been refunded pursuant to the foregoing and if 20% of the total amount of said revenue (excluding power supply cost recovery and sales tax) derived from the Customer for said five (5) year period is equal to or greater than said deposit, then the Company will refund the balance of the deposit at the expiration of said five (5) year period. Any portion of the deposit remaining at the expiration of said five (5) year period which is not refundable in accordance with the provisions of this section shall be retained by the Company. No refund is to be made in excess of the refundable deposit and such deposit shall bear no interest.
4. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
5. The title to the Facilities shall vest in the Company and the Customer shall have no interest therein by reason of any payment under this Agreement.
6. The Agreement does not include the providing of electric service. Electric service will be provided at an available rate in accordance with the Company Schedule of Rates Governing Electric Service.
7. This Agreement shall not be assigned by the Customer except with the previous written consent of the Company and any attempted assignment without such consent shall be void.
8. This Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives pertaining to the subject matter hereof and constitutes the entire agreement of the parties.

TERMS AND CONDITIONS

PART II

1. The Customer requests the Company to provide electric service as described in Part I. In order to provide such electric service, it will be necessary for the Company to install a line extension, service connection and other facilities herein collectively called "Facilities." The general location and type of the Facilities is shown on the Work Order sketch attached.
2. Except for the special conditions pertaining to deposit and refunds contained in this Agreement due to the questionable permanence of the Customer's use of the service, this Agreement and the construction and operation of said Facilities shall be subject to the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) and any modifications or replacements thereof as may be applicable, copies of which will be furnished to the Customer upon request. The Customer shall, upon execution hereof, pay to the Company the sum of twenty-five percent of the total cost of the Company's investment (less any required nonrefundable contribution for for underground costs) as a Refundable Deposit plus any required nonrefundable contribution. In addition, the customer shall "guarantee" the amount of annual revenue as stated in Part 1 for each of five consecutive years (guaranteed annual revenue shall at a minimum be equal to one-half the amount of the total cost of the Company's investment minus any required nonrefundable contribution and minus the amount of the refundable deposit). Should actual revenue be less than such guaranteed annual revenue the Customer agrees to pay the Company at the end of each of the five consecutive 12-month periods, based upon the addition to the following month's Customer bill, for any such annual revenue deficiency. The portion, if any, designated as "nonrefundable contribution" was calculated in accordance with Rule B15.2, Underground Policy, of said Rate Schedule and will not be refunded. The Company shall construct the Facilities with all reasonable dispatch, upon receipt of said required payment. If construction of the Facilities is delayed beyond six months after the date of this Agreement due to action or inaction of the Customer, the Company may terminate this Agreement by written notice to the Customer. Upon such termination, the Company will refund the Customer's payment, less any expenses incurred on account of this Agreement, without interest.
3. Refundable deposits are subject to refund five years from the month following the completion of the facilities to serve the Customer. If at the end of the five-year period, the revenue generated during such five-year period is greater than five (5) times the annual guaranteed revenue amount, a one-time refund will be made in the amount of the excess of such revenue over guaranteed revenue up to the amount of the refundable deposit paid to the Company by the Customer. No refund is to be made in excess of the refundable deposit and such deposit shall bear no interest. Any portion of the refundable deposit remaining at the expiration of such five-year period, which is not refundable in accordance with the provisions of this section, shall be retained by the Company.
4. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
5. The title to the Facilities shall vest in the Company and the Customer shall have no interest therein by reason of any payment under this Agreement.
6. The Agreement does not include the providing of electric service. Electric service will be provided at an available rate in accordance with the Rate Schedule.
7. This Agreement shall not be assigned to the Company and any attempted assignment is void without the previous written consent of the Company.
8. This Agreement supersedes all previous written or oral, between the parties hereto, understandings or agreements, either written or oral, relating to the subject matter hereof and constitutes the entire agreement of the parties.

PART II

TERMS AND CONDITIONS

1. The Customer requests the Company to provide electric service as described in Part I. In order to provide such electric service, it will be necessary for the Company to install a line extension, service connection and other facilities herein collectively called "Facilities." The general location and type of the Facilities is shown on the Work Order sketch attached.
2. Except for the special conditions pertaining to deposit and refunds contained in this Agreement due to the questionable permanence of the Customer's use of the service, this Agreement and the construction and operation of said Facilities shall be subject to the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) and any modifications or replacements thereof as may be applicable, copies of which will be furnished to the Customer upon request. The Customer shall, upon execution hereof, pay to the Company the sum of twenty-five percent of the total cost of the Company's investment (less any required nonrefundable contribution for underground costs) as a Refundable Deposit plus any required nonrefundable contribution. In addition, the customer shall "guarantee" the amount of annual revenue as stated in Part 1 for each of five consecutive years (guaranteed annual revenue shall at a minimum be equal to one-half the amount of the total cost of the Company's investment minus any required nonrefundable contribution and minus the amount of the refundable deposit.) Should actual revenue be less than such guaranteed annual revenue the Customer agrees to pay the Company at the end of each of the five consecutive 12-month periods, based upon the addition to the following month's Customer bill, for any such annual revenue deficiency. The portion, if any, designated as "nonrefundable contribution" was calculated in accordance with Rule B15.2, Underground Policy, of said Rate Schedule and will not be refunded. The Company shall construct the Facilities with all reasonable dispatch, upon receipt of said required payment. If construction of the Facilities is delayed beyond six months after the date of this Agreement due to action or inaction of the Customer, the Company may terminate this Agreement by written notice to the Customer. Upon such termination, the Company will refund the Customer's payment, less any expenses incurred on account of this Agreement, without interest.
3. Refundable deposits are subject to refund five years from the month following the completion of the facilities to serve the Customer. If at the end of the five-year period, the revenue generated during such five-year period is greater than five (5) times the annual guaranteed revenue amount, a one-time refund will be made in the amount of the excess of such revenue over guaranteed revenue up to the amount of the refundable deposit paid to the Company by the Customer. No refund is to be made in excess of the refundable deposit and such deposit shall bear no interest. Any portion of the refundable deposit remaining at the expiration of said five-year period which is not refundable in accordance with the provisions of this section shall be retained by the Company.
4. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
5. The title to the Facilities shall vest in the Company and the Customer shall have no interest therein by reason of any payment under this Agreement.
6. The Agreement does not include the providing of electric service. Electric service will be provided at an available rate in accordance with the Rate Schedule.
7. This Agreement shall not be assigned by the Customer except with the previous written consent of the Company and any attempted assignment without such consent shall be void.
8. This Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives pertaining to the subject matter hereof and constitutes the entire agreement of the parties.

SCHEDULE OF REFUNDS

- Original Customers

At the end of each of the five 12-month periods during the five-year period beginning the month following the date the line extension is completed, the Company will refund to the Applicant three times the amount that actual revenue from original permanent customers exceeds the base annual revenue. The 'base annual revenue' equals the total estimated annual revenue from permanent customers stated above; provided that if for any 12-month refund period the actual revenue upon which the refund is based exceeds the base annual revenue. Said actual 12-month revenue will be the base annual revenue for calculations of future refunds.
- Additional Connected Customers

The Company will refund \$500 for each permanent residential customer and/or the first year's estimated revenue for each permanent general service customer who during the five-year refund period connects directly to the line extension covered by this Agreement. Directly connected customers are those who do not require the construction of more than 300 feet of primary and/or secondary distribution line. Refunds will not be made until the original customer(s) or equivalent is actually connected to the extension. Refunds will not include any amount of contribution in aid of construction for underground service made under Rule 15.2, Underground Policy, of the Company's Schedule of Rates Governing the Sale of Electric Service.

SCHEDULE OF REFUNDS

1. Original Customers

At the end of the first complete 12-month period beginning the month following the date the line extension is completed, the Company will refund to the Applicant three times the amount that actual revenue from original permanent customers exceeds the revenue estimate upon which the above deposit was based. If the actual revenue exceeds the estimated revenue, the actual revenue then becomes the base upon which future similar refund calculations will be made during the remainder of the five-year refund period.

2. Additional Connected Customers

The Company will refund \$500 for each residential customer and the first year's estimated revenue for each general service customer who connects directly to the line extension covered by this Agreement. Directly connected customers are those who do not require the construction of more than 300 feet of primary and/or secondary distribution line. Refunds will not be made until the original customer(s) or equivalent is actually connected to the extension. Refunds will not include any amount of contribution in aid of construction for underground service made under Rule 26 of the Company's Standard Rules and Regulations — Electric.

The following customers (original permanent customers) are to be immediately served when said line extension is completed:

SCHEDULE OF REFUNDS

1. Additional Residential Customers

A one-time refund will be paid to the customer either (a) five years from completion date of the line extension or (b) at an earlier date if selected by the Applicant. However, once the refund date has been selected and the one-time refund paid, there will be no additional refunds to Applicant even if any additional customers connect to the line extension covered by this agreement. The Company will refund to the Applicant \$500 for each additional permanent residential customer who connects directly* to the line extension covered by this Agreement. Refund allowances shall first be credited against the 25% Instant Refund, which was deducted from the Applicant's required Cash Deposit, before a refund is made to the Applicant. Refunds shall not include any amount of contribution in aid of construction for underground service made under the provisions of Rule 15.2, Underground Policy, of the Company's Schedule of Rates Governing the Sale of Electric Service.

2. Additional General Service Customers

A one-time refund will be paid to the customer either (a) five years from completion date of the line extension or (b) at an earlier date if selected by the Applicant. However, once the refund date has been selected and the one-time refund paid, there will be no additional refunds to Applicant even if any additional customers connect to the line extension covered by this agreement. The Company will refund to the Applicant the first year's estimated revenue for each additional permanent general service customer who connects directly* to the line extension covered by this Agreement. Refund allowances shall first be credited against the 25% Instant Refund, which was deducted from the Applicant's required Cash Deposit, before a refund is made to the Applicant. Refunds shall not include any amount of contribution in aid of construction for underground service made under the provisions of Rule 15.2, Underground Policy, of the Company's Schedule of Rates Governing the Sale of Electric Service.

* Directly connected customers are those who do not require the construction of more than 300 feet of primary and/or distribution line.

SCHEDULE OF REFUNDS

1. Additional Residential Customers

A one-time refund will be paid to the customer either (a) five years from completion date of the line extension or (b) at an earlier date if selected by the Applicant. However, once the refund date has been selected and the one-time refund paid, there will be no additional refunds to Applicant even if any additional customers connect to the line extension covered by this agreement. The Company will refund to the Applicant \$500 for each additional permanent residential customer who connects directly* to the line extension covered by this Agreement. Refunds shall not include any amount of contribution in aid of construction for underground service made under the provisions of Rule 15.2, Underground Policy, of the Company's Schedule of Rates Governing the Sale of Electric Service.

2. Additional General Service Customers

A one-time refund will be paid to the customer either (a) five years from completion date of the line extension or (b) at an earlier date if selected by the Applicant. However, once the refund date has been selected and the one-time refund paid, there will be no additional refunds to Applicant even if any additional customers connect to the line extension covered by this agreement. The Company will refund to the Applicant the first year's estimated revenue for each additional permanent general service customer who connects directly* to the line extension covered by this Agreement. Refunds shall not include any amount of contribution in aid of construction for underground service made under the provisions of Rule 15.2, Underground Policy, of the Company's Schedule of Rates Governing the Sale of Electric Service.

* Directly connected customers are those who do not require the construction of more than 300 feet of primary and/or secondary distribution line.

CONSUMERS ENERGY
NET METERING PROGRAM APPLICATION

Return completed form to: Consumers Energy - Net Metering Program, One Energy Plaza, EP12-433, Jackson, MI 49201

I wish to participate in Consumers Energy's Net Metering Program for the following account:

Account Number: _____
Account Name: _____
Service Address: _____
City/State/Zip: _____
Customer Name: _____
Daytime Telephone: _____
Alternate Telephone: _____
E-mail Address: _____

Customer Type: Residential Customer
 Non-Residential Customer

Please provide the following generator information:

Capacity Rating of the Generator(s) in kW: _____

Projected Monthly kWh Output of the Generator: _____

Projected Annual kWh Output of the Generator: _____

Renewable Energy Source: _____

(Please specify one of the following: solar, wind, biomass, landfill gas, hydroelectric, or other)

Please provide estimated date for generator installation/operation: _____

Has Interconnection Agreement been completed? YES NO

Net Metering Program Applicants must complete and sign an Interconnection & Operating Agreement with the Company and fulfill all requirements as specified within the agreement. All Interconnection requirements must be met prior to the effective date of a customer's participation in the Net Metering Program.

A separate meter is required for Net Metering installations which will be specified, furnished, installed, read, maintained, and owned by Consumers Energy. All costs associated with metering that are incurred to participate in the Net Metering Program are the responsibility of the participating Net Metering customer. Approved Net Metering participants may elect to pay for the additional meter in 12 equal installments on their electric bill. Please indicate your payment preference below. Please note that costs for the Interconnection and Interconnection Study must be paid in advance (see Interconnection & Operating Requirements and Agreement.)

Upon approval of this Net Metering application, I elect to pay for the new meter in 12 equal installments on my monthly electric billing.

Upon approval of this Net Metering application, I elect to pay for the meter upfront along with costs for the Interconnection and the Interconnection Study.

AGREEMENT, made as of this _____ day of _____, 19 _____, between CONSUMERS ENERGY COMPANY, hereinafter called the Company and

(Name)

(Address)

hereinafter called the Licensee:

The Company hereby grants to the Licensee and the Licensee hereby accepts from the Company, subject to the provisions hereof, the revocable privilege and license of attaching certain facilities owned by the Licensee, constituting _____, to the certain pole _____ of the Company (herein called Poles) as shown on the drawing which is attached hereto and made a part hereof. The grant of the privilege and license hereby made is gratuitous on the part of the Company and constitutes the consideration for all agreements on the part of the Licensee hereunder.

The Licensee shall comply with all rules and requirements of the Michigan Public Service Commission, and all future amendments and revisions thereof, which are applicable to the installation, maintenance, operation and use of the facilities to be attached by the Licensee to the Poles. The Licensee shall install and properly maintain suitable protective appliances and devices as may be necessary to protect the facilities attached hereunder, and other property connected therewith, from damage which might be caused by a flow of electricity from the Company's facilities. The Poles shall be maintained by the Company and the attachments and other property of the Licensee shall be solely maintained by the Licensee. The Company reserves the right to designate the particular locations at which the attachments of the Licensee shall be made and the manner in which same shall be supported and maintained. No pole steps shall be placed upon or attached to the Poles by the Licensee nearer than either eight (8) feet from the surface of the ground or nearer than eight (8) feet from any existing structure or object above the surface of the ground which might be used as an aid in climbing to reach the lowest of such pole steps.

It is recognized by the parties hereto that the primary use of the Poles is to support the electric wires and other facilities of the Company, and that the privilege and license hereby granted to the Licensee is subservient in all respects to such primary use by the Company. The Company shall be liable for any damage to the Licensee's facilities attached to the Poles if such damage has been caused by the sole negligence of the Company. The Licensee assumes all liability for and shall save the Company harmless from all claims, demands, rights of action, or expense, for injury or damage to persons or property, including the employees and property of the Licensee, arising on account or out of the faulty or negligent installation, operation, maintenance, use or removal of the said facilities and associated protective appliances and devices of the Licensee.

The Company may, at any time, for any reason, terminate said privilege and license upon giving reasonable notice to the Licensee in advance of such termination, whereupon the Licensee shall promptly remove all of the Licensee's facilities from the Poles. The Company will endeavor, however, to give the Licensee at least ninety (90) days' notice in advance of such termination. The privilege and license hereby granted may be terminated by the Licensee at any time hereafter by removing the attached facilities from the Poles. The Licensee shall give the Company reasonable notice in advance of the removal of said facilities.

**ELECTRIC LINE
CONSUMERS' FACILITIES AGREEMENT
TERMS AND CONDITIONS
PART II**

1. In consideration of Customer's request and agreement to pay all the costs of relocation/modification of Consumers' facilities, Consumers agrees to relocate and/or modify its electric facilities. The facilities to be relocated or modified are shown on the drawing attached as Exhibit A. Pursuant to tariffs filed with the Michigan Public Service Commission, when relocation or modification of Consumers' facilities is requested or made necessary by a customer, all costs for the relocation or modification can be charged to the requesting party. All costs associated with the relocation or modification of Consumers' facilities are not refundable.

For any new facilities being installed to accommodate new load to the Company's system, a nonrefundable contribution pursuant to tariff files with the Michigan Public Commission is included in the Estimated Cost.

2. Customers shall pay the entire amount of the Cost Estimate identified in Part I upon execution of this Agreement. After all work is completed and the actual cost for the work is calculated, Consumers will either refund any overpayment to Customer or invoice Customer for any additional amounts owed. Customer shall pay invoiced amount within thirty days after receipt thereof.

Any amounts to be paid pursuant to this Agreement include Michigan sales tax but are exclusive of all other federal, state, county, municipal, or local property, license, excise, sales use, gross receipt or similar tax with respect to the work covered hereunder and if Consumers is required by applicable law or regulation to pay or collect any such tax or if any such taxes are assessed against Consumers on account of performance or this Agreement, no matter when such assessment is made, then such tax or taxes shall be paid by the Customer to Consumers in addition to the amounts provided for herein.

3. Prior to the work being performed, and as a condition precedent thereto, the Customer shall secure and deliver to Consumers, at no expense to Consumers, recordable easements, in form and substance satisfactory to Consumers, granting all necessary rights of way for installation and maintenance of said facilities. If said facilities are to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that Consumers does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to Consumers within thirty (30) days after execution of this Agreement, Consumers may, at its option, refund all payments made to it hereunder by the Customer, without interest, and with reasonable expenses incurred by Consumers on account of this Agreement deducted there from, and this Agreement shall thereupon terminate.

4. For any underground facilities included in the work to be performed hereunder, the Customer shall provide, at no expense to Consumers, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. The Customer shall maintain the average found elevation within six feet of any cable, conduit wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, the Customer shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of Consumers. Consumers will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area.

REMOVED BY _____ RL
DATE _____ 04-30-07

5. If any underground facilities or any portion thereof are to be installed between December 15 and April 15, the Customer shall pay Consumers, prior to installation of said underground facilities or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" for the portion of said facilities installed during said period. The Customer will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Customer for installation, by Consumers, of gas pipe in the same trench. No portion of said facilities will be installed between December 15 and April 15, unless the Customer has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in Consumers judgment, practical difficulties (not considered in determining the Customer's estimate) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within fifteen (15) days after receiving written notice of the amount of the additional contribution, Consumers may, at its option, refund all payments made to it hereunder by the Customer, without interest, and with reasonable expenses incurred by Consumers on account of this Agreement deducted there from, and this Agreement shall thereupon terminate.

6. Consumers shall not be in breach of contract as a result of any delay in performing its obligations if such delay is due to strikes or other labor troubles; inability to obtain labor, materials, components, supplies, for any reason, including default of suppliers or subcontractors; acts of God; fire; flood; storm; earthquake or other natural calamities; war; insurrections; riot; embargoes; curtailment; order; regulations or restriction imposed by governmental authorities; or any other cause which is beyond the reasonable control of Consumers, whether of a similar or dissimilar nature and whether or not existing or foreseeable on the scheduled date of commencement of the work. Consumers shall have no obligation to settle any strike or other labor difficulty in a manner not completely satisfactory to it. Should any such delay occur, the time for the performance of Consumers' obligations shall be extended by a time equal to the length of the delay plus such additional time as is reasonably necessary to enable Consumers to resume performance of its obligations.

7. Consumers warrants that any work performed under this Agreement shall be performed by properly skilled personnel in accordance with generally accepted standards for the work being performed. The sole liability of Consumers for defective work under this warranty or otherwise, shall be limited to reperforming any such work on the same conditions as the original work. The foregoing is the Customer's exclusive remedy and, EXCEPT AS EXPRESSLY STATED HEREIN, THERE ARE NO OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY, INCLUDING THE WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

In no event shall Consumers be liable for any loss or damage whatsoever, by reason of its failure to discover, report or modify latent defect or defects inherent in the subject matter of the work. The aforementioned warranty is subject to the following conditions:

- (a) Consumers shall not be responsible for repairs, replacements, or corrections made by others with respect to the work performed by Consumers.
- (b) The Customer shall notify Consumers in writing of any breach or warranty with respect to the services performed by Consumers within ten (10) days after completion of the work.

8. THE TOTAL LIABILITY OF CONSUMERS, ITS AGENTS, EMPLOYEES, VENDORS AND CONTRACTORS WITH RESPECT TO ANY AND ALL CLAIMS ARISING OUT OF THIS CONTRACT INCLUDING THE PERFORMANCE OF OBLIGATIONS IN CONNECTION WITH THE WORK HEREUNDER, WHETHER BASED ON CONTRACT, WARRANTY, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED IN AGGREGATE ONE THOUSAND DOLLARS (\$1,000.00) AND SHALL IN NO EVENT INCLUDE INCIDENTAL OR CONSEQUENTIAL DAMAGES OR ANY NATURE INCLUDING, BUT NOT LIMITED TO, LOSS OF REVENUE OR ITS USE; LOSS BY REASON OF PLANT OR EQUIPMENT SHUTDOWN OR INABILITY TO OPERATE AT RATED CAPACITY; INCREASED EXPENSE OR OPERATION OF PLANT OR EQUIPMENT; INCREASED COSTS OF PURCHASING OR PROVIDING EQUIPMENT, MATERIALS, SUPPLIES OR SERVICES OUTSIDE CONSUMERS' SCOPE OR SUPPLY; COSTS OR REPLACEMENT POWER OR CAPITAL; CLAIMS OF THE CUSTOMER'S CUSTOMERS; OR INVENTORY OR USE CHARGES, EVEN IF CONSUMERS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

This limitation of liability section shall prevail over any conflicting or inconsistent provisions contained herein or in any other applicable document and shall be in effect even if the remedy or remedies set forth herein fail in their essential purpose.

9. The Customer shall indemnify and hold Consumers, its agents, employees, vendors and contractor(s) harmless from and against, and shall at Consumers' option undertake the defense of, any and all claim, losses, liability and damage (including environmental harm) and including reasonable attorney's fees which Consumers might sustain or incur or which might be asserted by any third party against Consumers as a result of the services provided under this Agreement, whether based on warranty, contract, tort (including negligence), strict liability or otherwise, unless caused solely by the negligence of Consumers, its agents or employees.

10. Any assignment or any part thereof by the Customer without the previous written permission of Consumers shall be void and of no effect. Consumers may subcontract any services hereunder.

11. In the performance of the work hereunder, Consumers shall be an independent contractor with the sole authority to control and direct the performance of the details of the services, the Customer being interested only in the results obtained.

12. The terms of this Agreement shall not be changed superseded or supplemented, except in writing by an authorized officer of Consumers and by a duly authorized representative of Customer.

13. This Agreement shall be deemed a Michigan contract and shall be construed in accordance with and governed by the laws of the State of Michigan. With respect to the subject matter hereof, this Agreement supersedes all previous representations, understandings and negotiations, either written oral, between the parties hereto or their representatives and constitutes the entire contract between the parties. This Agreement is intended for the benefit of the parties hereto and does not grant any rights to any third parties unless otherwise specifically stated herein. No part of any purchase order, request for proposal or other documents issued by Customer shall be binding upon Consumers or affect its rights or obligations hereunder unless signed by a duly authorized representative of Consumers.

**CONTRACT FOR ELECTRIC SERVICE
MULTIPLE SITES
TERMS AND CONDITIONS**

PART II

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's Facility described in Part III, but not in excess of the capacity reserved amount identified in Part III. The Company will, at the written request of the Customer, made at least thirty days in advance, permit an increase in such reserved capacities if the Company has power available.
2. The electric energy to be supplied hereunder shall be alternating current and shall have the characteristics identified in Part III. Delivery shall be made at one mutually agreeable point upon the Customer's premises for each Facility identified in Part III. It shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to avoid damage thereto, tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.
3. The Customer shall pay for such energy in accordance with Company's General Service Rate(s) identified in Part III, copies of which are attached hereto and made a part hereof, and in accordance with such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement.
4. It is further agreed that:
 - (a) Such service is for the sole use of the Customer, for the purpose aforesaid, and shall not be transmitted elsewhere, or shared or resold, or used as auxiliary or standby as to any other source of power supply, except as may be herein provided.
 - (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate(s), neither party shall be liable to the other for damages for any act, omission or circumstances occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) This Agreement will become effective on the date identified in Part I and will extend for an initial term as stated in Part I and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time. Notwithstanding the foregoing, this Agreement shall not be terminated until all of the minimum terms established for Customer's Facilities in Part III have expired. The minimum terms of electric service for each of Customer's Facilities shall be as stated in Part III.
 - (e) This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the locations stated in Part III except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent and any such attempted transfer without the Company's written consent shall be void.

**CONTRACT FOR ELECTRIC SERVICE
TERMS AND CONDITIONS**

PART II

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's Facility described in Part I, but not in excess of the capacity reserved amount identified in Part I. The Company will, at the written request of the Customer, made at least thirty days in advance, permit an increase in such reserved capacity if the Company has power available.
2. The electric energy to be supplied hereunder shall be alternating current and shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. It shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to avoid damage thereto, tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.
3. The Customer shall pay for such energy in accordance with Company's General Service Rate identified in Part I, a copy of which is attached hereto and made a part hereof, and in accordance with such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement.
4. It is further agreed that:
 - (a) Such service is for the sole use of the Customer, for the purpose aforesaid, and shall not be transmitted elsewhere, or shared or resold, or used as auxiliary or standby as to any other source of power supply, except as may be herein provided.
 - (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) This Agreement will become effective on the date identified in Part I and will extend for an initial term as stated in Part I and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.
 - (e) This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the location stated in Part I except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

PART II

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's Facility described in Part I, but not in excess of the capacity reserved amount identified in Part I. The Company will, at the written request of the Customer, made at least thirty days in advance, permit an increase in such reserved capacity if the Company has power available.
2. The electric energy to be supplied hereunder shall be alternating current and shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. It shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to avoid damage thereto, tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.
3. The Customer shall pay for such energy in accordance with Company's General Service Rate identified in Part I, a copy of which is attached hereto and made a part hereof, and in accordance with such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement.
4. It is further agreed that:
 - (a) Such service is for the sole use of the Customer, for the purpose aforesaid, and shall not be transmitted elsewhere, or shared or resold, or used as auxiliary or standby as to any other source of power supply, except as may be herein provided.
 - (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) This Agreement will become effective on the date identified in Part I and will extend for an initial term as stated in Part I and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.
 - (e) This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the location stated in Part I except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

CONTRACT FOR ELECTRIC SERVICE

AGREEMENT, made this _____ day of _____, 19____,
between CONSUMERS POWER COMPANY (_____ Region), herein termed the Company,
and _____
of the _____ of _____,
Michigan, herein termed the Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's _____ located at _____ Street, in the _____ of _____ Michigan, but not in excess of _____ kW, being the capacity reserved by the Company for the Customer's use. The Company will, at the written request of the Customer, made at least thirty days in advance, permit an increase in such reserved capacity if the Company has power available.

2. The electric energy to be supplied shall be alternating current, _____ phase, 60 hertz, at approximately _____ volts. Delivery shall be made at one mutually agreeable point upon the Customer's premises. It shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to avoid damage thereto, tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.

3. The Customer shall pay for such energy in accordance with Company's Rate _____, a copy of which is attached hereto and made a part hereof, and in accordance with such future revisions and amendments thereof, supplements thereto, or substitutes therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this agreement.

4. It is further agreed that:

(a) Such service is for the sole use of the Customer, for the purpose aforesaid, and shall not be transmitted elsewhere, or shared or resold, or used as auxiliary or standby as to any other source of power supply, except as may be herein specifically provided.

(b) Such service shall be governed by the Company's Standard Electric Rules and Regulations and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this agreement. A copy thereof will be furnished to the Customer upon request.

(c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.

(d) This agreement will extend for an initial term of _____ year(s) from the _____

day of _____, 19____, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.

(e) This agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the above location; except as contained herein. This agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

IN WITNESS WHEREOF, said parties have executed this agreement, in duplicate, by their duly authorized representatives.

TERMS AND CONDITIONS

1. This Agreement will extend for an initial term of three years from the effective date set forth in Part I and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least 60 days' written notice of its desire to terminate the same at the expiration of said three-years or any monthly period thereafter, which notice may be given at any time.
2. Such service is also governed by the Standard Rules and Regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service and such future amendments thereto, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
3. The Customer may, from time to time, order changes in the location of any outdoor lighting equipment theretofore installed, and the actual cost and expense of making changes shall be borne by the Customer.
4. If any of the facilities to be installed by the Company are to be placed in or under the ground, the Customer shall, prior to such installation, identify and mark the location of any underground facilities or installations of the Customer which could be damaged by the installation to be performed by the Company. In no event shall the Company be liable for any loss, cost or expense resulting from destruction of or damage to any such facilities which are not properly identified and marked by the Customer as required by this section.
5. Neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Rules and Regulations.
6. This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to the outdoor lighting service provided for in this Agreement except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent. Any unauthorized assignment shall be void.

Company**

CONTRACT FOR GENERAL SERVICE OUTDOOR LIGHTING

AGREEMENT. Made this _____ day of _____, 19____, between CONSUMERS POWER COMPANY (_____ Region), herein termed the Company, and _____ of the _____ of _____ Michigan, herein termed the Customer, as follows:

1. The Company agrees to furnish, and the Customer agrees to purchase hereunder, general service outdoor lighting service at the Customer's premises located at _____, in the _____ of _____, Michigan. The approximate location of the pole(s), lamp(s), wiring, and other facilities (if any) required for such outdoor lighting service on the Customer's said premises is shown on the Company's Drawing, Serial No. _____, a copy of which is attached hereto and made a part hereof as Exhibit A.
2. The Company agrees to furnish such outdoor lighting service, and the Customer agrees to pay therefor, in accordance with the Company's General Service Outdoor Lighting Rate "L-4," a copy of which is attached hereto and made a part hereof, and in accordance with such future revisions and amendments thereof, supplements thereto and substitutions therefor as may become effective during the term of this agreement. The computation of the monthly charge for such outdoor lighting service (based on said rate as currently in effect, and exclusive of the Company's Power Supply Cost Recovery, sales tax, and the surcharges and credits referred to in said rate) is as follows:

3. The following Additional Facilities have been requested by the Customer or are required for the outdoor lighting service covered by this agreement:

The Customer agrees, upon the execution of this agreement, to make a nonrefundable contribution to the Company in the amount of \$ _____, being the total estimated cost of said Additional Facilities. The title to said Additional Facilities shall vest in the Company and the Customer shall have no interest therein by reason of said nonrefundable contribution.

4. It is further agreed that:

(a) The Customer shall take such outdoor lighting service for the stated term of this agreement. Furthermore, the Customer agrees that in the event such service is discontinued during the initial term of this agreement, the total monthly charges for the remainder of said initial term shall become due and payable. Such service is also governed by the Company's Standard Electric Rules and Regulations and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this agreement. A copy thereof will be furnished to the Customer upon request.

(b) The Customer may, from time to time, order changes in the location of any outdoor lighting equipment theretofore installed, and the actual cost and expense of making such changes shall be borne by the Customer.

(c) Neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto: provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.

(d) This agreement will extend for an initial term of ___ years from the

day of _____, 19___, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.

(e) This agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to the outdoor lighting service provided for in this agreement except as contained herein. This agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

1. The Company agrees to furnish the Customer with streetlighting service respecting the luminaires, lamps and other equipment constituting the installation(s) listed in Part I and also to furnish streetlighting service respecting any additional luminaires, lamps and other equipment to be installed hereunder as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract, attached to and made a part of this Agreement as Exhibit A.
2. The Company's service lines necessary to supply the energy for said streetlighting equipment shall be constructed in the public streets and highways of the Customer, or on private property, as mutually agreed between the Company and the Customer. In cases where such lines are to be constructed upon private property, the Customer shall obtain and furnish to the Company adequate written easements granting permission to install and maintain such lines.
3. Neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereof as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy of said Schedule of Rates Governing the Sale of Electric Service will be furnished to the Customer upon request.
4. The Customer shall pay the Company for the streetlighting service herein provided for in accordance with the Company's Streetlighting Rates, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time.
5. The Company shall render to the Customer, as soon as possible after the first day of each month, a bill for all streetlighting service furnished hereunder during the preceding month. Such bills shall be due and payable within twenty-one days after their issuance.
6. The Company agrees to furnish energy-only streetlighting service for the Customer-owned, operated and maintained streetlighting system in accordance with the terms and conditions of the Company's General Service Energy-Only Streetlighting Rate L-1, which is attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation(s) under this Agreement shall be as indicated in Part I. Additions to the Customer-owned, operated and maintained streetlighting system may be made by the Customer from time to time of any type, and when made shall be operated and maintained under the terms and conditions hereof and the attached Streetlighting Rate for Energy-Only Streetlighting Service, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned, operated and maintained streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.
7. The Company agrees to operate the Customer-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. Additions to the Customer-owned streetlighting system may be made by the Customer from time to time of any type for which the Company has an available streetlighting rate, and when made, shall be operated and maintained under the terms and conditions hereof and of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned streetlighting system may also be made

from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.

8. The Company agrees to operate the Company-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. The Company will operate under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Any additional Company-owned streetlighting equipment for which the Company has available streetlighting rates at such locations may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A), provided that the additional equipment shall conform with the provisions in such rates.
9. Further, the Company will, under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time and at such locations as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (Exhibit A), relocate any streetlighting equipment which is included in the initial Company-owned installation or in the additional Company-owned streetlighting equipment identified in Part I, provided that:
 - (a) Upon relocation of any of such streetlighting equipment, the Customer shall reimburse the Company for the Company's actual costs of such relocation regardless of the time period that such equipment has been installed, and
 - (b) The relocated equipment shall conform with the provisions in such application rates.
10. In addition, the Company will, upon termination of this Agreement for any reason, remove all of the aforesaid Company-owned streetlighting equipment which is then installed and not thereupon covered by another streetlighting contract. Upon removal of all of such streetlighting equipment, upon termination of this Agreement as aforesaid, the Customer shall reimburse the Company for the Company's actual costs of removing such equipment regardless of the time period that such equipment has been installed. The Company reserves the right to require special contractual arrangements respecting the replacement of any of the Company-owned streetlighting equipment or the removal thereof prior to the termination of this Agreement.
11. This Agreement shall become effective on the Effective Date of Agreement identified in Part I and shall continue in effect for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent or upon twelve months' written notice given by either party to the other. This Agreement, when effective, shall supersede all existing contracts with relation to the streetlighting service herein provided for.

**STANDARD STREETLIGHTING CONTRACT
TERMS AND CONDITIONS
PART II**

1. The Company agrees to furnish the Customer with streetlighting service respecting the luminaires, lamps and other equipment constituting the installation(s) listed in Part I and also to furnish streetlighting service respecting any additional luminaires, lamps and other equipment to be installed hereunder as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract, attached to and made a part of this Agreement as Exhibit A.
2. The Company's service lines necessary to supply the energy for said streetlighting equipment shall be constructed in the public streets and highways of the Customer, or on private property, as mutually agreed between the Company and the Customer. In cases where such lines are to be constructed upon private property, the Customer shall obtain and furnish to the Company adequate written easements granting permission to install and maintain such lines.
3. Neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereof as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy of said Schedule of Rates Governing the Sale of Electric Service will be furnished to the Customer upon request.
4. The Customer shall pay the Company for the streetlighting service herein provided for in accordance with the Company's Streetlighting Rates, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time.
5. The Company shall render to the Customer, as soon as possible after the first day of each month, a bill for all streetlighting service furnished hereunder during the preceding month. Such bills shall be due and payable within twenty-one days after their issuance.
6. The Company agrees to furnish energy-only streetlighting service for the Customer-owned, operated and maintained streetlighting system in accordance with the terms and conditions of the Company's General Service Energy-Only Streetlighting Rate L-1, which is attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation(s) under this Agreement shall be as indicated in Part I. Additions to the Customer-owned, operated and maintained streetlighting system may be made by the Customer from time to time of any type, and when made shall be operated and maintained under the terms and conditions hereof and the attached Streetlighting Rate for Energy-Only Streetlighting Service, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned, operated and maintained streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.
7. The Company agrees to operate the Customer-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. Additions to the Customer-owned streetlighting system may be made by the Customer from time to time of any type for which the Company has an available streetlighting rate, and when made, shall be operated and maintained under the terms and conditions hereof and of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved

by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.

8. The Company agrees to operate the Company-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. The Company will operate under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Any additional Company-owned streetlighting equipment for which the Company has available streetlighting rates at such locations may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A), provided that the additional equipment shall conform with the provisions in such rates.
9. Further, the Company will, under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time and at such locations as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (Exhibit A), relocate any streetlighting equipment which is included in the initial Company-owned installation or in the additional Company-owned streetlighting equipment identified in Part I, provided that:
 - (a) Upon relocation of any of such streetlighting equipment, the Customer shall reimburse the Company for the Company's actual costs of such relocation regardless of the time period that such equipment has been installed, and
 - (b) The relocated equipment shall conform with the provisions in such application rates.
10. In addition, the Company will, upon termination of this Agreement for any reason, remove all of the aforesaid Company-owned streetlighting equipment which is then installed and not thereupon covered by another streetlighting contract. Upon removal of all of such streetlighting equipment, upon termination of this Agreement as aforesaid, the Customer shall reimburse the Company for the Company's actual costs of removing such equipment regardless of the time period that such equipment has been installed. The Company reserves the right to require special contractual arrangements respecting the replacement of any of the Company-owned streetlighting equipment or the removal thereof prior to the termination of this Agreement.
11. This Agreement shall become effective on the Effective Date of Agreement identified in Part I and shall continue in effect for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent or upon twelve months' written notice given by either party to the other. This Agreement, when effective, shall supersede all existing contracts with relation to the streetlighting service herein provided for.

STANDARD STREETLIGHTING CONTRACT
TERMS AND CONDITIONS
PART II

1. The Company agrees to furnish the Customer with streetlighting service respecting the luminaires, lamps and other equipment constituting the installation(s) listed in Part I and also to furnish streetlighting service respecting any additional luminaires, lamps and other equipment to be installed hereunder as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract, attached to and made a part of this Agreement as Exhibit A.
2. The Company's service lines necessary to supply the energy for said streetlighting equipment shall be constructed in the public streets and highways of the Customer, or on private property, as mutually agreed between the Company and the Customer. In cases where such lines are to be constructed upon private property, the Customer shall obtain and furnish to the Company adequate written easements granting permission to install and maintain such lines.
3. Neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereof as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy of said Schedule of Rates Governing the Sale of Electric Service will be furnished to the Customer upon request.
4. The Customer shall pay the Company for the streetlighting service herein provided for in accordance with the Company's Streetlighting Rates, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time.
5. The Company shall render to the Customer, as soon as possible after the first day of each month, a bill for all streetlighting service furnished hereunder during the preceding month. Such bills shall be due and payable within twenty-one days after their issuance.
6. The Company agrees to furnish energy-only streetlighting service for the Customer-owned, operated and maintained streetlighting system in accordance with the terms and conditions of the Company's General Service Energy-Only Streetlighting Rate L-1, which is attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation(s) under this Agreement shall be as indicated in Part I. Additions to the Customer-owned, operated and maintained streetlighting system may be made by the Customer from time to time of any type, and when made shall be operated and maintained under the terms and conditions hereof and the attached Streetlighting Rate for Energy-Only Streetlighting Service, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned, operated and maintained streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.
7. The Company agrees to operate the Customer-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. Additions to the Customer-owned streetlighting system may be made by the Customer from time to time of any type for which the Company has an available streetlighting rate, and when made, shall be operated and maintained under the terms and conditions hereof and of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved

by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.

8. The Company agrees to operate the Company-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. The Company will operate under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Any additional Company-owned streetlighting equipment for which the Company has available streetlighting rates at such locations may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A), provided that the additional equipment shall conform with the provisions in such rates.
9. Further, the Company will, under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time and at such locations as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (Exhibit A), relocate any streetlighting equipment which is included in the initial Company-owned installation or in the additional Company-owned streetlighting equipment identified in Part I, provided that:
 - (a) Upon relocation of any of such streetlighting equipment, the Customer shall reimburse the Company for the Company's actual costs of such relocation regardless of the time period that such equipment has been installed, and
 - (b) The relocated equipment shall conform with the provisions in such application rates.
10. In addition, the Company will, upon termination of this Agreement for any reason, remove all of the aforesaid Company-owned streetlighting equipment which is then installed and not thereupon covered by another streetlighting contract. Upon removal of all of such streetlighting equipment, upon termination of this Agreement as aforesaid, the Customer shall reimburse the Company for the Company's actual costs of removing such equipment regardless of the time period that such equipment has been installed. The Company reserves the right to require special contractual arrangements respecting the replacement of any of the Company-owned streetlighting equipment or the removal thereof prior to the termination of this Agreement.
11. This Agreement shall become effective on the Effective Date of Agreement identified in Part I and shall continue in effect for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent or upon twelve months' written notice given by either party to the other. This Agreement, when effective, shall supersede all existing contracts with relation to the streetlighting service herein provided for.

**STANDARD STREETLIGHTING CONTRACT
TERMS AND CONDITIONS
PART II**

1. The Company agrees to furnish the Customer with streetlighting service respecting the luminaires, lamps and other equipment constituting the installation(s) listed in Part I and also to furnish streetlighting service respecting any additional luminaires, lamps and other equipment to be installed hereunder as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract, attached to and made a part of this Agreement as Exhibit A.
2. The Company's service lines necessary to supply the energy for said streetlighting equipment shall be constructed in the public streets and highways of the Customer, or on private property, as mutually agreed between the Company and the Customer. In cases where such lines are to be constructed upon private property, the Customer shall obtain and furnish to the Company adequate written easements granting permission to install and maintain such lines.
3. Neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereof as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy of said Schedule of Rates Governing the Sale of Electric Service will be furnished to the Customer upon request.
4. The Customer shall pay the Company for the streetlighting service herein provided for in accordance with the Company's Streetlighting Rates, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time.
5. The Company shall render to the Customer, as soon as possible after the first day of each month, a bill for all streetlighting service furnished hereunder during the preceding month. Such bills shall be due and payable within twenty-one days after their issuance.
6. The Company agrees to furnish energy-only streetlighting service for the Customer-owned, operated and maintained streetlighting system in accordance with the terms and conditions of the Company's General Service Energy-Only Streetlighting Rate L-1, which is attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation(s) under this Agreement shall be as indicated in Part I. Additions to the Customer-owned, operated and maintained streetlighting system may be made by the Customer from time to time of any type, and when made shall be operated and maintained under the terms and conditions hereof and the attached Streetlighting Rate for Energy-Only Streetlighting Service, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned, operated and maintained streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.
7. The Company agrees to operate the Customer-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. Additions to the Customer-owned streetlighting system may be made by the Customer from time to time of any type for which the Company has an available streetlighting rate, and when made, shall be operated and maintained under the terms and conditions hereof and of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service

Commission from time to time. Deletions from the Customer-owned streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.

8. The Company agrees to operate the Company-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. The Company will operate under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Any additional Company-owned streetlighting equipment for which the Company has available streetlighting rates at such locations may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A), provided that the additional equipment shall conform with the provisions in such rates.
9. Further, the Company will, under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time and at such locations as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (Exhibit A), relocate any streetlighting equipment which is included in the initial Company-owned installation or in the additional Company-owned streetlighting equipment identified in Part I, provided that:
 - (a) Upon relocation of any of such streetlighting equipment, the Customer shall reimburse the Company for the Company's actual costs of such relocation regardless of the time period that such equipment has been installed, and
 - (b) The relocated equipment shall conform with the provisions in such application rates.
10. In addition, the Company will, upon termination of this Agreement for any reason, remove all of the aforesaid Company-owned streetlighting equipment which is then installed and not thereupon covered by another streetlighting contract. Upon removal of all of such streetlighting equipment, upon termination of this Agreement as aforesaid, the Customer shall reimburse the Company for the Company's actual costs of removing such equipment regardless of the time period that such equipment has been installed. The Company reserves the right to require special contractual arrangements respecting the replacement of any of the Company-owned streetlighting equipment or the removal thereof prior to the termination of this Agreement.
11. This Agreement shall become effective on the Effective Date of Agreement identified in Part I and shall continue in effect for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent or upon twelve months' written notice given by either party to the other. This Agreement, when effective, shall supersede all existing contracts with relation to the streetlighting service herein provided for.
12. _____

**STANDARD STREETLIGHTING CONTRACT
TERMS AND CONDITIONS
PART II**

1. The Company agrees to furnish the Customer with streetlighting service respecting the luminaires, lamps and other equipment constituting the installation(s) listed in Part I and also to furnish streetlighting service respecting any additional luminaires, lamps and other equipment to be installed hereunder as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract, attached to and made a part of this Agreement as Exhibit A.
2. The Company's service lines necessary to supply the energy for said streetlighting equipment shall be constructed in the public streets and highways of the Customer, or on private property, as mutually agreed between the Company and the Customer. In cases where such lines are to be constructed upon private property, the Customer shall obtain and furnish to the Company adequate written easements granting permission to install and maintain such lines.
3. Neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereof as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy of said Schedule of Rates Governing the Sale of Electric Service will be furnished to the Customer upon request.
4. The Customer shall pay the Company for the streetlighting service herein provided for in accordance with the Company's Streetlighting Rates, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time.
5. The Company shall render to the Customer, as soon as possible after the first day of each month, a bill for all streetlighting service furnished hereunder during the preceding month. Such bills shall be due and payable within twenty-one days after their issuance.
6. The Company agrees to furnish energy-only streetlighting service for the Customer-owned, operated and maintained streetlighting system in accordance with the terms and conditions of the Company's General Service Energy-Only Streetlighting Rate L-1, which is attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation(s) under this Agreement shall be as indicated in Part I. Additions to the Customer-owned, operated and maintained streetlighting system may be made by the Customer from time to time of any type, and when made shall be operated and maintained under the terms and conditions hereof and the attached Streetlighting Rate for Energy-Only Streetlighting Service, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned, operated and maintained streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.
7. The Company agrees to operate the Customer-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. Additions to the Customer-owned streetlighting system may be made by the Customer from time to time of any type for which the Company has an available streetlighting rate, and when made, shall be operated and maintained under the terms and conditions hereof and of the Company's General Service Customer-Owned Streetlighting Rate L-2, which are attached, and in accordance with

such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.

8. The Company agrees to operate the Company-owned streetlighting system in accordance with the terms and conditions of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached to and made a part of this Agreement, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this Agreement are as indicated in Part I. The Company will operate under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Any additional Company-owned streetlighting equipment for which the Company has available streetlighting rates at such locations may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A), provided that the additional equipment shall conform with the provisions in such rates.

9. Further, the Company will, under the terms and conditions hereof and of the Company's General Service Company-Owned Streetlighting Rate L-3, which are attached, and such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time and at such locations as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (Exhibit A), relocate any streetlighting equipment which is included in the initial Company-owned installation or in the additional Company-owned streetlighting equipment identified in Part I, provided that:

(a) Upon relocation of any of such streetlighting equipment, the Customer shall reimburse the Company for the Company's actual costs of such relocation regardless of the time period that such equipment has been installed, and

(b) The relocated equipment shall conform with the provisions in such application rates.

10. In addition, the Company will, upon termination of this Agreement for any reason, remove all of the aforesaid Company-owned streetlighting equipment which is then installed and not thereupon covered by another streetlighting contract. Upon removal of all of such streetlighting equipment, upon termination of this Agreement as aforesaid, the Customer shall reimburse the Company for the Company's actual costs of removing such equipment regardless of the time period that such equipment has been installed. The Company reserves the right to require special contractual arrangements respecting the replacement of any of the Company-owned streetlighting equipment or the removal thereof prior to the termination of this Agreement.

11. This Agreement shall become effective on the Effective Date of Agreement identified in Part I and shall continue in effect for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent or upon twelve months' written notice given by either party to the other. This Agreement, when effective, shall supersede all existing contracts with relation to the streetlighting service herein provided for.

COUNTY OF _____)

I, _____, Clerk of the City Village Township of _____ do hereby certify that the foregoing resolution was duly adopted by the Commission Council Board of said municipality, at the meeting held therein on the _____ day of _____, 19____.

 City Village Township Clerk

Dated:

STANDARD STREETLIGHTING CONTRACT

AGREEMENT, made this _____ day of _____, 19____, between the CITY-VILLAGE-TOWNSHIP of _____, a municipal corporation, located in _____ County, Michigan, herein referred to as the "Customer," as first party, and CONSUMERS POWER COMPANY, a Michigan corporation with general offices in the City of Jackson, Michigan, its successors and assigns, herein referred to as the "Company," as second party.

WITNESSETH:

That said parties, in consideration of the mutual covenants herein, agree as follows:

In consideration of the payments hereinafter provided for, to be paid by the Customer to the Company, the Company agrees to furnish the Customer with streetlighting service respecting the luminaires, lamps and other equipment constituting the installation(s) hereinafter listed and also to furnish streetlighting service respecting any additional luminaires, lamps and other equipment to be installed hereunder as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A).

The Company's service lines necessary to supply the energy for said streetlighting equipment shall be constructed in the public streets and highways of the Customer, or on private property, as mutually agreed between the Company and the Customer. In cases where such lines are to be constructed upon private property, the Customer shall obtain and furnish to the Company adequate written easements granting permission to install and maintain such lines.

Neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in the Company's Standard Electric Rules and Regulations as filed with and approved by the Michigan Public Service Commission, and such amendments thereof as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy of said Standard Electric Rules and Regulations will be furnished to the Customer upon request.

The Customer shall pay the Company for the streetlighting service herein provided for in accordance with the Company's Standard Streetlighting Rates, which are attached to and made a part of this contract, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time.

The Company shall render to the Customer, as soon as possible after the first day of each month, a bill for all streetlighting service furnished hereunder during the preceding month. Such bills shall be due and payable within twenty-one days after their issuance.

ENERGY-ONLY STREETLIGHTING SERVICE
(CUSTOMER-OWNED AND CUSTOMER-MAINTAINED SYSTEM CONTRACT RATE "L-1")

The Company agrees to furnish energy-only streetlighting service for the Customer-owned, operated and maintained streetlighting system in accordance with the terms and conditions of the Company's Energy-Only Streetlighting Service Rate (Customer-Owned and Customer-Maintained System Contract Rate "L-1") which is attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation(s) under this contract shall consist of the following:

<u>Number of Luminaires</u>	<u>Luminaire Nominal Kilowatts</u>	<u>Light Source</u>	<u>Voltage Service</u>	<u>Point of Attachment With Company's Distribution System</u>	<u>Location of Luminaires</u>
-----------------------------	------------------------------------	---------------------	------------------------	---	-------------------------------

Additions to the Customer-owned, operated and maintained streetlighting system may be made by the Customer from time to time of any type, and when made shall be operated and maintained under the terms and conditions hereof and the Streetlighting Rate for Energy-Only Streetlighting Service which is attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned, operated and maintained streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.

CUSTOMER-OWNED STREETLIGHTING SYSTEM

The Company agrees to operate the Customer-owned streetlighting system in accordance with the terms and conditions of the Company's Standard Streetlighting Rates for Customer-Owned Systems, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this contract shall consist of the following:

<u>Number of</u> <u>Luminaires</u>	<u>Nominal</u> <u>Lumen Rating</u>	<u>Light</u> <u>Source</u>	<u>Location</u>
---------------------------------------	---------------------------------------	-------------------------------	-----------------

Additions to the Customer-owned streetlighting system may be made by the Customer from time to time of any type for which the Company has an available streetlighting rate, and when made, shall be operated and maintained under the terms and conditions hereof and of the Company's Standard Streetlighting Rates for Customer-Owned Systems, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.

Form 548 3-79

COMPANY-OWNED STREETLIGHTING SYSTEM

The Company agrees to operate the Company-owned streetlighting system in accordance with the terms and conditions of the Company's Standard Streetlighting Rates for Company-Owned Systems, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this contract shall consist of the following:

<u>Number of</u> <u>Luminaires</u>	<u>Nominal</u> <u>Lumen Rating</u>	<u>Light</u> <u>Source</u>	<u>Location</u>
---------------------------------------	---------------------------------------	-------------------------------	-----------------

The Company will operate under the terms and conditions hereof and of the Company's Standard Streetlighting Rates for Company-Owned Systems, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time, any additional Company-owned streetlighting equipment for which the Company has available streetlighting rates at such locations as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A), provided that the additional equipment shall conform with the provisions in such rates.

Further, the Company will, under the terms and conditions hereof and of the Company's Standard Streetlighting Rates for Company-Owned Systems which are attached, and such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time and at such locations as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A), relocate any streetlighting equipment which is included in the initial Company-owned installation or in the additional Company-owned streetlighting equipment referred to above in this contract, provided that:

(a) Upon relocation of any of such streetlighting equipment, the Customer shall reimburse the Company for the Company's actual costs of such relocation regardless of the time period that such equipment has been installed, and

(b) The relocated equipment shall conform with the provisions in such applicable rates.

In addition, the Company will, upon termination of this contract for any reason, remove all of the aforesaid Company-owned streetlighting equipment which is then installed and not thereupon covered by another streetlighting contract. Upon removal of all of such streetlighting equipment, upon termination of this contract as aforesaid, the Customer shall reimburse the Company for the Company's actual costs of removing such equipment regardless of the time period that such equipment has been installed. The Company reserves the right to require special contractual arrangements respecting the replacement of any of the Company-owned streetlighting equipment or the removal thereof prior to the termination of this contract.

This contract shall become effective upon the first day of _____, 19____, and shall continue in effect for a period of _____ years from said date, and thereafter from year to year until terminated by mutual consent or upon twelve months' written notice given by either party to the other. This contract, when effective, shall supersede all existing contracts with relation to the streetlighting service herein provided for.

IN WITNESS WHEREOF, the Customer has caused this agreement to be executed by its _____ and Clerk, acting on authority of the Customer's Commission-Council-Board, and the Company has caused the same to be executed by its duly authorized representative, as of the day and year first above written.

STANDARD STREETLIGHTING CONTRACT

AGREEMENT, made this _____ day of _____, 19___, between the CITY-VILLAGE-TOWNSHIP of _____, a municipal corporation, located in _____ County, Michigan, herein referred to as the "Customer," as first party, and CONSUMERS POWER COMPANY, a Michigan corporation with general offices in the City of Jackson, Michigan, its successors and assigns, herein referred to as the "Company," as second party.

WITNESSETH:

That said parties, in consideration of the mutual covenants herein, agree as follows:

In consideration of the payments hereinafter provided for, to be paid by the Customer to the Company, the Company agrees to furnish the Customer with streetlighting service respecting the luminaires, lamps and other equipment constituting the installation(s) hereinafter listed and also to furnish streetlighting service respecting any additional luminaires, lamps and other equipment to be installed hereunder as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A).

The Company's service lines necessary to supply the energy for said streetlighting equipment shall be constructed in the public streets and highways of the Customer, or on private property, as mutually agreed between the Company and the Customer. In cases where such lines are to be constructed upon private property, the Customer shall obtain and furnish to the Company adequate written easements granting permission to install and maintain such lines.

Neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in the Company's Standard Electric Rules and Regulations as filed with and approved by the Michigan Public Service Commission, and such amendments thereof as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy of said Standard Electric Rules and Regulations will be furnished to the Customer upon request.

The Customer shall pay the Company for the streetlighting service herein provided for in accordance with the Company's Standard Streetlighting Rates, which are attached to and made a part of this contract, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time.

The Company shall render to the Customer, as soon as possible after the first day of each month, a bill for all streetlighting service furnished hereunder during the preceding month. Such bills shall be due and payable within twenty-one days after their issuance.

ENERGY-ONLY STREETLIGHTING SERVICE
(CUSTOMER-OWNED AND CUSTOMER-MAINTAINED SYSTEM CONTRACT RATE "L-1")

The Company agrees to furnish energy-only streetlighting service for the Customer-owned, operated and maintained streetlighting system in accordance with the terms and conditions of the Company's Energy-Only Streetlighting Service Rate (Customer-Owned and Customer-Maintained System Contract Rate "L-1") which is attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation(s) under this contract shall consist of the following:

<u>Number of Luminaires</u>	<u>Luminaire Nominal Kilowatts</u>	<u>Light Source</u>	<u>Voltage Service</u>	<u>Point of Attachment With Company's Distribution System</u>	<u>Location of Luminaires</u>
---------------------------------	--	-------------------------	----------------------------	---	-------------------------------

Additions to the Customer-owned, operated and maintained streetlighting system may be made by the Customer from time to time of any type, and when made shall be operated and maintained under the terms and conditions hereof and the Streetlighting Rate for Energy-Only Streetlighting Service which is attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned, operated and maintained streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.

CUSTOMER-OWNED STREETLIGHTING SYSTEM

The Company agrees to operate the Customer-owned streetlighting system in accordance with the terms and conditions of the Company's Standard Streetlighting Rates for Customer-Owned Systems, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this contract shall consist of the following:

<u>Number of Luminaires</u>	<u>Nominal Lumen Rating</u>	<u>Light Source</u>	<u>Location</u>
---------------------------------	---------------------------------	-------------------------	-----------------

Additions to the Customer-owned streetlighting system may be made by the Customer from time to time of any type for which the Company has an available streetlighting rate, and when made, shall be operated and maintained under the terms and conditions hereof and of the Company's Standard Streetlighting Rates for Customer-Owned Systems, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. Deletions from the Customer-owned streetlighting system may also be made from time to time by the Customer. All such additions and deletions shall be authorized by an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A) executed by the Customer.

COMPANY-OWNED STREETLIGHTING SYSTEM

The Company agrees to operate the Company-owned streetlighting system in accordance with the terms and conditions of the Company's Standard Streetlighting Rates for Company-Owned Systems, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The luminaires included in the initial installation under this contract shall consist of the following:

<u>Number of</u> <u>Luminaires</u>	<u>Nominal</u> <u>Lumen Rating</u>	<u>Light</u> <u>Source</u>	<u>Location</u>
---------------------------------------	---------------------------------------	-------------------------------	-----------------

The Company will operate under the terms and conditions hereof and of the Company's Standard Streetlighting Rates for Company-Owned Systems, which are attached, and in accordance with such revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time, any additional Company-owned streetlighting equipment for which the Company has available streetlighting rates at such locations as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A), provided that the additional equipment shall conform with the provisions in such rates.

Further, the Company will, under the terms and conditions hereof and of the Company's Standard Streetlighting Rates for Company-Owned Systems which are attached, and such revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time and at such locations as may be authorized by the Customer through execution of an Authorization for Change in Standard Streetlighting Contract (attached Exhibit A), relocate any streetlighting equipment which is included in the initial Company-owned installation or in the additional Company-owned streetlighting equipment referred to above in this contract, provided that:

(a) Upon relocation of any of such streetlighting equipment, the Customer shall reimburse the Company for the Company's actual costs of such relocation regardless of the time period that such equipment has been installed, and

(b) The relocated equipment shall conform with the provisions in such applicable rates.

In addition, the Company will, upon termination of this contract for any reason, remove all of the aforesaid Company-owned streetlighting equipment which is then installed and not thereupon covered by another streetlighting contract. Upon removal of all of such streetlighting equipment, upon termination of this contract as aforesaid, the Customer shall reimburse the Company for the Company's actual costs of removing such equipment regardless of the time period that such equipment has been installed. The Company reserves the right to require special contractual arrangements respecting the replacement of any of the Company-owned streetlighting equipment or the removal thereof prior to the termination of this contract.

This contract shall become effective upon the first day of _____, 19____, and shall continue in effect for a period of _____ years from said date, and thereafter from year to year until terminated by mutual consent or upon twelve months' written notice given by either party to the other. This contract, when effective, shall supersede all existing contracts with relation to the streetlighting service herein provided for.

IN WITNESS WHEREOF, the Customer has caused this agreement to be executed by its _____ and Clerk, acting on authority of the Customer's Commission-Council-Board, and the Company has caused the same to be executed by its duly authorized representative, as of the day and year first above written.

1. The Company shall deliver electric energy to the Customer, and the Customer agrees to purchase from the Company, all of the electric energy required for the operation of the Customer's plant(s) which are listed in Part I. The Customer agrees to use electric power for the entire operation of said plant(s).
2. The supply of electric energy to be furnished to the Customer shall be 60 hertz, alternating current; and the applicable phase and approximate supply voltage for each plant location shall be as indicated in Part I. Said energy shall be metered at the approximate metering voltage for each plant location as indicated in Part I, by meters furnished, installed and maintained by the Company. A location for its metering equipment, suitable to the Company, shall be provided by the Customer at each plant location and adequate protection afforded to avoid damage thereto or any tampering or interference with such metering equipment. The Company shall make periodic tests of its meters, and keep them within accepted standards of accuracy. It shall have access to its said metering equipment, by its representatives, for the purpose of installing, replacing, removing, inspecting and maintaining such equipment.
3. The Customer agrees to pay for such electric energy delivered at each plant location in accordance with the Company's Rate for such plant location as indicated in Part I, a copy of which rate(s) is hereto attached and made a part hereof, and in accordance with such future revisions and amendments thereof, supplements thereto, or substitutes therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The Company shall bill the Customer monthly for service furnished hereunder at each location. Each bill shall cover a period of approximately thirty days and be issued as soon as reasonably possible after the end of the period covered by said bill.
4. Delivery of energy by the Company to the Customer shall be made at a mutually agreeable point upon the Customer's premises at each Plant location listed in Part I.
5. It is further agreed that:
- (a) Such service is for the sole use of the Customer for the purpose or purposes aforesaid, and shall not be transmitted elsewhere or shared or resold or used as auxiliary or standby to any other source of power supply except as may be herein specifically provided. It is agreed that the energy furnished hereunder may be used by the Customer for the lighting and other general use of said plant or plants as well as power purposes therein.
 - (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) Except as to the Customer charges payable by the Customer, prescribed in said rate(s), neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm, or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawful established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure, or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) The Customer shall furnish, install and maintain all apparatus, appliances or equipment required to control, regulate or utilize such energy after its delivery.
 - (e) The Customer shall furnish, without cost to the Company, a suitable site on its premises at each plant location listed in Part I for the Company's transmission lines, substations, and/or distribution facilities as may be required to provide such service to said premises. If, during the term hereof, the Customer's use of said premises makes necessary the relocation of said facilities, from the site presently furnished, to another site on said premises, the Company shall relocate the same at the Customer's request, and the Customer shall reimburse the Company for the cost thereby incurred. The Company, its agents, employees, and authorized contractors shall have full right and authority of

ingress and egress at all times on and across said premises of the Customer, for the purpose of constructing, operating, maintaining, replacing, repairing, moving and removing its said facilities. Said right of ingress and egress, however, shall not unreasonably interfere with the use of the Customer's said premises.

(f) This Agreement will become effective on the date identified in Part I and will extend for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least twelve months' written notice of its desire to terminate the same at the expiration of said initial term or at the expiration of any yearly period thereafter. This Agreement, when effective, shall supersede all existing agreements between said parties with relation to the supply of electric service for any purpose aforesaid.

STANDARD PUMPING CONTRACT

TERMS AND CONDITIONS

PART II

1. The Company agrees to furnish to the Customer, and the Customer agrees to purchase from the Company, all of the electric energy for the operation of the Customer's plant(s) which are listed in Part I. The Customer agrees to use electric power acquired hereunder for the entire operation of said plant(s).
2. The supply of electric energy to be furnished to the Customer shall be 60 hertz, alternating current; and the applicable phase and approximate supply voltage for each plant location shall be as indicated in Part I. Said energy shall be metered at the approximate metering voltage for each plant location as indicated in Part I, by meters furnished, installed and maintained by the Company. A location for its metering equipment, suitable to the Company, shall be provided by the Customer at each plant location and adequate protection afforded to avoid damage thereto or any tampering or interference with such metering equipment. The Company shall make periodic tests of its meters, and keep them within accepted standards of accuracy. It shall have access to its said metering equipment, by its representatives, for the purpose of installing, replacing, removing, inspecting and maintaining such equipment.
3. The Customer agrees to pay for such electric energy delivered at each plant location in accordance with the Company's Rate for such plant location as indicated in Part I, a copy of which rate(s) is hereto attached and made a part hereof, and in accordance with such future revisions and amendments thereof, supplements thereto, or substitutes therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The Company shall bill the Customer monthly for service furnished hereunder at each location. Each bill shall cover a period of approximately thirty days and be issued as soon as reasonably possible after the end of the period covered by said bill.
4. Delivery of energy by the Company to the Customer shall be made at a mutually agreeable point upon the Customer's premises at each Plant location listed in Part I.
5. It is further agreed that:
 - (a) Such service is for the sole use of the Customer for the purpose or purposes aforesaid, and shall not be transmitted elsewhere or shared or resold or used as auxiliary or standby to any other source of power supply except as may be herein specifically provided. It is agreed that the energy furnished hereunder may be used by the Customer for the lighting and other general use of said plant or plants as well as power purposes therein.
 - (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) Except as to the Customer charges payable by the Customer, prescribed in said rate(s), neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm, or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawful established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure, or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) The Customer shall furnish, install and maintain all apparatus, appliances or equipment required to control, regulate or utilize such energy after its delivery.
 - (e) The Customer shall furnish, without cost to the Company, a suitable site on its premises at each plant location listed in Part I for the Company's transmission lines, substations, and/or distribution facilities as may be required to provide such service to said premises. If, during the term hereof, the Customer's use of said premises makes necessary the relocation of said facilities, from the site presently furnished, to another site on said premises, the Company shall relocate the same

at the Customer's request, and the Customer shall reimburse the Company for the cost thereby incurred. The Company, its agents, employees, and authorized contractors shall have full right and authority of ingress and egress at all times on and across said premises of the Customer, for the purpose of constructing, operating, maintaining, replacing, repairing, moving and removing its said facilities. Said right of ingress and egress, however, shall not unreasonably interfere with the use of the Customer's said premises.

(f) This Agreement will become effective on the date identified in Part I and will extend for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least twelve months' written notice of its desire to terminate the same at the expiration of said initial term or at the expiration of any yearly period thereafter. This Agreement, when effective, shall supersede all existing agreements between said parties with relation to the supply of electric service for any purpose aforesaid.

TERMS AND CONDITIONS

PART II

1. The Company agrees to furnish to the Customer, and the Customer agrees to purchase from the Company, all of the electric energy for the operation of the Customer's plant(s) which are listed in Part I. The Customer agrees to use electric power acquired hereunder for the entire operation of said plant(s).
2. The supply of electric energy to be furnished to the Customer shall be 60 hertz, alternating current; and the applicable phase and approximate supply voltage for each plant location shall be as indicated in Part I. Said energy shall be metered at the approximate metering voltage for each plant location as indicated in Part I, by meters furnished, installed and maintained by the Company. A location for its metering equipment, suitable to the Company, shall be provided by the Customer at each plant location and adequate protection afforded to avoid damage thereto or any tampering or interference with such metering equipment. The Company shall make periodic tests of its meters, and keep them within accepted standards of accuracy. It shall have access to its said metering equipment, by its representatives, for the purpose of installing, replacing, removing, inspecting and maintaining such equipment.
3. The Customer agrees to pay for such electric energy delivered at each plant location in accordance with the Company's Rate for such plant location as indicated in Part I, a copy of which rate(s) is hereto attached and made a part hereof, and in accordance with such future revisions and amendments thereof, supplements thereto, or substitutes therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The Company shall bill the Customer monthly for service furnished hereunder at each location. Each bill shall cover a period of approximately thirty days and be issued as soon as reasonably possible after the end of the period covered by said bill.
4. Delivery of energy by the Company to the Customer shall be made at a mutually agreeable point upon the Customer's premises at each Plant location listed in Part I.
5. It is further agreed that:
 - (a) Such service is for the sole use of the Customer for the purpose or purposes aforesaid, and shall not be transmitted elsewhere or shared or resold or used as auxiliary or standby to any other source of power supply except as may be herein specifically provided. It is agreed that the energy furnished hereunder may be used by the Customer for the lighting and other general use of said plant or plants as well as power purposes therein.
 - (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) Except as to the Customer charges payable by the Customer, prescribed in said rate(s), neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm, or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawful established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure, or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) The Customer shall furnish, install and maintain all apparatus, appliances or equipment required to control, regulate or utilize such energy after its delivery.
 - (e) The Customer shall furnish, without cost to the Company, a suitable site on its premises at each plant location listed in Part I for the Company's transmission lines, substations, and/or distribution facilities as may be required to provide such service to said premises. If, during the term hereof, the Customer's use of said premises makes necessary the relocation of said facilities, from the site presently furnished, to another site on said premises, the Company shall

Form 554 11-95

relocate the same at the Customer's request, and the Customer shall reimburse the Company for the cost thereby incurred. The Company, its agents, employees, and authorized contractors shall have full right and authority of ingress and egress at all times on and across said premises of the Customer, for the purpose of constructing, operating, maintaining, replacing, repairing, moving and removing its said facilities. Said right of ingress and egress, however, shall not unreasonably interfere with the use of the Customer's said premises.

(f) This Agreement will become effective on the date identified in Part I and will extend for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least twelve months' written notice of its desire to terminate the same at the expiration of said initial term or at the expiration of any yearly period thereafter. This Agreement, when effective, shall supersede all existing agreements between said parties with relation to the supply of electric service for any purpose aforesaid.

(g) _____

RESOLUTION

RESOLVED, that is hereby deemed advisable to enter into a contract with Consumers Power Company of Jackson, Michigan, for furnishing pumping service within the City Village Township of _____ for a period of _____ years and thereafter from year to year, in accordance with the terms of the contract heretofore submitted to and considered by this Commission Council Board; and

RESOLVED, further, that the _____ and the Clerk be and are authorized and directed to execute such contract on behalf of the City Village Township.

STATE OF MICHIGAN)
) ss
COUNTY OF _____)

I, _____, Clerk of the City Village Township of _____ do hereby certify that the foregoing resolution was duly adopted by the Commission Council Board of said municipality, at the meeting held therein on the _____ day of _____, _____.

 City Village Township Clerk

Dated:

STANDARD PUMPING CONTRACT

AGREEMENT, made this _____ day of _____, 19____, between the CITY - VILLAGE - TOWNSHIP of _____, a municipal corporation, located in _____ County, Michigan, herein referred to as the Customer, and CONSUMERS POWER COMPANY, a Michigan corporation, of the City of Jackson, Michigan, herein referred to as the Company.

WITNESSETH:

1. The Company agrees to furnish to the Customer, and the Customer agrees to purchase from the Company, all of the electric energy for the operation of the Customer's _____ plant or plants which are listed in Section 4 hereof. The Customer agrees to use electric power acquired hereunder for the entire operation of its said plant or plants.

2. The supply of electric energy to be furnished to the Customer shall be 60 hertz, alternating current; and the applicable phase and approximate supply voltage for each plant location shall be as indicated in Section 4 hereof. Said energy shall be metered, at the approximate metering voltage for each plant location as indicated in said Section 4, by meters furnished, installed, and maintained by the Company. A location for its metering equipment, suitable to the Company, shall be provided by the Customer at each plant location and adequate protection afforded to avoid damage thereto or any tampering or interference with such metering equipment. The Company shall make periodic tests of its meters, and keep them within accepted standards of accuracy. It shall have access to its said metering equipment, by its representatives, for the purpose of installing, replacing, removing, inspecting and maintaining such equipment.

3. The Customer agrees to pay for such electric energy delivered at each plant location in accordance with the Company's Rate for such plant location as indicated in Section 4 hereof, a copy of which rate(s) is hereto attached and made a part hereof, and in accordance with such future revisions and amendments thereof, supplements thereto, or substitutes therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The Company shall bill the Customer monthly for service furnished hereunder at each location. Each bill shall cover a period of approximately 30 days and be issued as soon as reasonably possible after the end of period covered by said bill.

4. Delivery of energy by the Company to the Customer shall be made at a mutually agreeable point upon the Customer's premises at each plant location listed below:

<u>Plant Location</u>	<u>Approximate Supply Voltage</u>	<u>Phase</u>	<u>Approximate Metering Voltage</u>	<u>Rate</u>
-----------------------	---	--------------	---	-------------

5. It is further agreed that:

(a) Such service is for the sole use of the Customer for the purpose or purposes aforesaid, and shall not be transmitted elsewhere or shared or resold or used as auxiliary or standby to any other source of power supply except as may be herein specifically provided. It is agreed that the energy furnished hereunder may be used by the Customer for the lighting and other general use of said plant or plants as well as power purposes therein.

(b) Such service shall be governed by the Company's Standard Electric Rules and Regulations as filed with the Michigan Public Service Commission and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by said Commission from time to time. A copy thereof will be furnished to the Customer upon request.

(c) Except as to the Customer charges payable by the Customer, prescribed in said rate(s), neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm, or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawful established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure, or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.

(d) The Customer shall furnish, install and maintain all apparatus, appliances or equipment required to control, regulate or utilize such energy after its delivery.

(e) The Customer shall furnish, without cost to the Company, a suitable site on its premises at each plant location listed in Section 4 hereof for the Company's transmission lines, substations, and/or distribution facilities as may be required to provide such service to said premises. If, during the term hereof, the Customer's use of said premises makes necessary the relocation of said facilities, from the site presently furnished, to another site on said premises, the Company shall relocate the same at the Customer's request, and the Customer shall reimburse the Company for the cost thereby incurred. The Company, its agents and employees, shall have full right and authority of ingress and egress at all times on and across said premises of the Customer, for the purpose of constructing, operating, maintaining, replacing, repairing, moving and removing its said facilities. Said right of ingress and egress, however, shall not unreasonably interfere with the use of the Customer's said premises.

(f) This agreement will extend for an initial term of _____
year(s) from the _____

_____ day of _____, 19____, and from year to year thereafter
until terminated by mutual consent or by either party giving the other at least twelve (12)
months' written notice of its desire to terminate the same at the expiration of said initial term
or at the expiration of any yearly period thereafter. This agreement, when effective, shall
supersede all existing agreements between said parties with relation to the supply of electric
service for any purpose aforesaid.

IN WITNESS WHEREOF, the Customer has caused this agreement to be executed
by its _____ and Clerk, acting
on authority of the Customer's Commission - Council - Board, and the Company has caused
the same to be executed by its duly authorized representative as of the day and year first
aforesaid.

STANDARD PUMPING CONTRACT

SUPPLEMENTAL AGREEMENT NO. _____

This SUPPLEMENTAL AGREEMENT NO. _____, made this _____ day of _____, 19____, between the CITY - VILLAGE - TOWNSHIP of _____, a municipal corporation, located in _____ County, Michigan, herein referred to as the Customer, and CONSUMERS POWER COMPANY, a Michigan corporation, of the City of Jackson, Michigan, herein referred to as the Company.

WHEREAS, the parties hereto have entered into a pumping Contract dated _____, 19____, wherein the Company agreed to furnish to the Customer, and the Customer agreed to purchase from the Company, all of the electric energy for the operation of a certain plant or plants of the Customer as provided for in said contract; and

WHEREAS, the parties hereto desire to amend said contract as hereinafter set forth.

NOW, THEREFORE, it is agreed as follows:

1. The Customer agrees to pay for such electric energy delivered at each plant location listed below, which are either already listed in Section 4 of said contract or are hereby added to Section 4 of said contract, in accordance with the Company's Rate for such plant location as indicated below, a copy of which rate(s) is either hereto attached and made a part of said contract or is already attached to and a part of said contract, and in accordance with such future revisions and amendments thereof, supplements thereto, substitutes therefor or options therefor available to and chosen by the Customer as may be filed with and approved by the Michigan Public Service Commission from time to time.

<u>Plant Location</u>	<u>Approximate Supply Voltage</u>	<u>Phase</u>	<u>Approximate Metering Voltage</u>	<u>Rate</u>
-----------------------	-----------------------------------	--------------	-------------------------------------	-------------

2. The following plant location or plant locations are hereby deleted from those listed in Section 4 of said contract:

<u>Plant Location</u>	<u>Approximate Supply Voltage</u>	<u>Phase</u>	<u>Approximate Metering Voltage</u>	<u>Rate</u>
-----------------------	---	--------------	---	-------------

3. The above provisions shall be effective as of the _____ day of _____, 19____.

4. In all other respects, the terms and conditions of said contract (as supplemented by previous Supplemental Agreements, if any) shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the Customer has caused this Supplemental Agreement to be executed by its _____ and Clerk, acting on authority of the Customer's Commission-Council-Board, and the Company has caused the same to be executed by its duly authorized representative as of the day and year first aforesaid.

CONTRACT FOR ELECTRIC SERVICE

For Operation of Private Street or Roadway Lighting in Mobile Home Park

TERMS AND CONDITIONS

PART II

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's photoelectric controlled luminaires to be installed on the Customer's poles for private street or roadway lighting in the Customer's mobile home park located as stated in Part I. Each of the Customer's said luminaires shall be actuated by photoelectric control equipment mounted on each luminaire, so that each luminaire will be operating during nighttime hours and will turn on when the natural general level of illumination is from one to three footcandles and will turn off when the natural general level of illumination is ten footcandles or less. The Customer shall promptly repair or replace the photocell in any of the photoelectric control equipment which fails to actuate said luminaires as set forth above. The location of each of the Customer's said luminaires, the size and kind of lamp installed therein, and the approximate route of the Customer's underground wiring serving each luminaire, shall conform to the sketch which is attached hereto and made a part hereof as Exhibit A.
2. The electric energy to be supplied shall be alternating current, single phase, 60 cycles per second, at nominal 120 volts. Delivery of such energy to the Customer shall be made at the meter socket or trough on the line side of the Company's meters installed for the individual mobile homes located within said mobile home park, as designated on said Exhibit A hereto, provided that not more than one unmetered service connection shall be made to each meter socket or trough. The service entrance conductor to each meter socket or trough shall be #12 Awg stranded copper which shall terminate in a weather tight switched and fused service entrance device mounted on the meter pedestal. The fuse shall be of the time lag type S and shall be rated at not more than five amperes. The connection of the unmetered service in each meter socket or trough shall be made by the Company after the Customer's entire lighting system has been inspected, for determination of the total connected load thereof, by the Company and after its approval by the local inspection authorities. The entire lighting system, including poles, luminaires, service entrances, conductors, circuits, connections and photoelectric control equipment, shall be installed, owned and maintained by the Customer.
3. Because the connected load of the Customer's lighting system will be constant during the hours of its operation and the hours of its operation will be automatically controlled by photoelectric control equipment mounted on each luminaire, it is deemed unnecessary to meter the service to be furnished hereunder. Accordingly, such service shall be unmetered and, in accordance with the provisions hereinafter set forth, the monthly billing for such service shall be based upon the Company's General Secondary Service Rate "B", a copy of which is attached hereto and made a part hereof, and upon such amendments thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. The sum of the capacity requirements in watts of all components of the Customer's lighting system shall be multiplied by 350 hours (being 1/12 of an average annual operation of 4,200 hours) and the aforesaid rate shall be applied to the resultant kilowatt-hours for purposes of determining the monthly billing for such service. The capacity requirements of all components of the Customer's lighting system shall be determined by the Company from the specifications furnished by the manufacturers of said components, provided that the Company shall have the right to test such capacity requirements from time to time through the use of its test meters, and in the event that said tests shall show capacity requirements different from those indicated by the manufacturers' specifications, the capacity requirements shown by said tests shall control. The Customer agrees that it will not change the capacity requirements of said components without first notifying the Company in writing of such changes and the date that they will be made.
4. It is further agreed that:
 - (a) Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.

- (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
- (c) Neither party shall be liable to the other under this Agreement for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
- (d) This Agreement will become effective on the date identified in Part I and will extend for an initial period of one year, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.
- (e) This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to the electric service provided for in this Agreement except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

(f) _____

CONTRACT FOR ELECTRIC SERVICE
For Operation of Private Street or Roadway
Lighting in Mobile Home Courts

AGREEMENT, made this _____ day of _____, 19____, between
CONSUMERS POWER COMPANY (_____ Region), herein termed the Company,
and _____
of the _____ of _____, Michigan, herein termed the
Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the
electric energy for the operation of the Customer's photoelectric controlled luminaires to be installed on
the Customer's poles for private street or roadway lighting in the Customer's mobile home court located
at _____ Street, in the _____ of _____,
Michigan. Each of the Customer's said luminaires shall be actuated by photoelectric control equipment,
mounted on each luminaire, so that each luminaire will be operating during nighttime hours and will
turn on when the natural general level of illumination is from one to three footcandles and will turn off
when the natural general level of illumination is ten footcandles or less. The Customer shall promptly
repair or replace the photocell in any of the photoelectric control equipment which fails to actuate said
luminaires as set forth above. The location of each of the Customer's said luminaires, the size and kind
of lamp installed therein, and the approximate route of the Customer's underground wiring serving each
luminaire, shall conform to the sketch which is attached hereto and made a part hereof as Exhibit A.

2. The electric energy to be supplied shall be alternating current, single phase, 60 cycles per
second, at nominal 120 volts. Delivery of such energy to the Customer shall be made at the meter socket
or trough on the line side of the Company's meters installed for the individual mobile homes located
within said mobile home court, as designated on said Exhibit A hereto, provided that not more than one
unmetered service connection shall be made to each meter socket or trough. The service entrance
conductor to each meter socket or trough shall be #12 Awg stranded copper which shall terminate in a
weathertight switched and fused service entrance device mounted on the meter pedestal. The fuse shall be
of the time-lag type S and shall be rated at not more than five amperes. The connection of the
unmetered service in each meter socket or trough shall be made by the Company after the Customer's
entire lighting system has been inspected, for determination of the total connected load thereof, by the
Company and after its approval by the local inspection authorities. The entire lighting system, including
poles, luminaires, service entrances, conductors, circuits, connections and photoelectric control equipment,
shall be installed, owned and maintained by the Customer.

3. Because the connected load of the Customer's lighting system will be constant during the
hours of its operation and the hours of its operation will be automatically controlled by photoelectric
control equipment mounted on each luminaire, it is deemed unnecessary to meter the service to be
furnished hereunder. Accordingly, such service shall be unmetered and, in accordance with the provisions
hereinafter set forth, the monthly billing for such service shall be based upon the Company's General
Secondary Service Rate "B", a copy of which is attached hereto and made a part hereof, and upon such
amendments thereto or substitutions therefor as may be filed with and approved by the Michigan Public

Service Commission during the term of this agreement. The sum of the capacity requirements in watts of all components of the Customer's lighting system shall be multiplied by 350 hours (being 1/12 of an average annual operation of 4,200 hours) and the aforesaid rate shall be applied to the resultant kilowatt-hours for purposes of determining the monthly billing for such service. The capacity requirements of all components of the Customer's lighting system shall be determined by the Company from the specifications furnished by the manufacturers of said components, provided that the Company shall have the right to test such capacity requirements from time to time through the use of its test meters, and in the event that said tests shall show capacity requirements different from those indicated by the manufacturers' specifications, the capacity requirements shown by said tests shall control. The Customer agrees that it will not change the capacity requirements of said components without first notifying the Company in writing of such changes and the date that they will be made.

4. It is further agreed that:

(a) Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.

(b) Such service shall be governed by the Company's Standard Electric Rules and Regulations and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this agreement. A copy thereof will be furnished to the Customer upon request.

(c) Neither party shall be liable to the other under this agreement for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.

(d) This agreement will extend for an initial term of one year from the _____ day of _____, 19____, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.

(e) This agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to the electric service provided for in this agreement except as contained herein. This agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

IN WITNESS WHEREOF, said parties have executed this agreement, in duplicate, by their duly authorized representatives.

Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the
electric energy for the operation of the Customer's photoelectric controlled luminaires to be installed on
the Customer's poles for private street or roadway lighting in the Customer's mobile home court located
at _____ Street, in the _____ of _____,
Michigan. Each of the Customer's said luminaires shall be actuated by photoelectric control equipment,
mounted on each luminaire, so that each luminaire will be operating during nighttime hours and will
turn on when the natural general level of illumination is from one to three footcandles and will turn off
when the natural general level of illumination is ten footcandles or less. The Customer shall promptly
repair or replace the photocell in any of the photoelectric control equipment which fails to actuate said
luminaires as set forth above. The location of each of the Customer's said luminaires, the size and kind
of lamp installed therein, and the approximate route of the Customer's underground wiring serving each
luminaire, shall conform to the sketch which is attached hereto and made a part hereof as Exhibit A.

2. The electric energy to be supplied shall be alternating current, single phase, 60 cycles per
second, at nominal 120 volts. Delivery of such energy to the Customer shall be made at the meter socket
or trough on the line side of the Company's meters installed for the individual mobile homes located
within said mobile home court, as designated on said Exhibit A hereto, provided that not more than one
unmetered service connection shall be made to each meter socket or trough. The service entrance
conductor to each meter socket or trough shall be #12 Awg stranded copper which shall terminate in a
weathertight switched and fused service entrance device mounted on the meter pedestal. The fuse shall be
of the time-lag type S and shall be rated at not more than five amperes. The connection of the
unmetered service in each meter socket or trough shall be made by the Company after the Customer's
entire lighting system has been inspected, for determination of the total connected load thereof, by the
Company and after its approval by the local inspection authorities. The entire lighting system, including
poles, luminaires, service entrances, conductors, circuits, connections and photoelectric control equipment,
shall be installed, owned and maintained by the Customer.

3. Because the connected load of the Customer's lighting system will be constant during the
hours of its operation and the hours of its operation will be automatically controlled by photoelectric
control equipment mounted on each luminaire, it is deemed unnecessary to meter the service to be
furnished hereunder. Accordingly, such service shall be unmetered and, in accordance with the provisions
hereinafter set forth, the monthly billing for such service shall be based upon the Company's General
Secondary Service Rate "B", a copy of which is attached hereto and made a part hereof, and upon such
amendments thereto or substitutions therefor as may be filed with and approved by the Michigan Public

RECEIVED BY _____ 46300

REMOVED BY _____

Service Commission during the term of this agreement. The sum of the capacity requirements in watts of all components of the Customer's lighting system shall be multiplied by 350 hours (being 1/12 of an average annual operation of 4,200 hours) and the aforesaid rate shall be applied to the resultant kilowatt-hours for purposes of determining the monthly billing for such service. The capacity requirements of all components of the Customer's lighting system shall be determined by the Company from the specifications furnished by the manufacturers of said components, provided that the Company shall have the right to test such capacity requirements from time to time through the use of its test meters, and in the event that said tests shall show capacity requirements different from those indicated by the manufacturers' specifications, the capacity requirements shown by said tests shall control. The Customer agrees that it will not change the capacity requirements of said components without first notifying the Company in writing of such changes and the date that they will be made.

4. It is further agreed that:

(a) Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.

(b) Such service shall be governed by the Company's Standard Electric Rules and Regulations and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this agreement. A copy thereof will be furnished to the Customer upon request.

(c) Neither party shall be liable to the other under this agreement for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.

(d) This agreement will extend for an initial term of one year from the _____ day of _____, 19____, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.

(e) This agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to the electric service provided for in this agreement except as contained herein. This agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

IN WITNESS WHEREOF, said parties have executed this agreement, in duplicate, by their duly authorized representatives.

AGREEMENT FOR UNMETERED LIGHTING SERVICE

TERMS AND CONDITIONS

PART II

1. The Customer's luminaires shall be actuated by photoelectric control equipment, so that the luminaire will be operating during nighttime hours only and will turn on when the natural general level of illumination is from one to three footcandles and will turn off when the natural general level of illumination is ten footcandles or less. The Customer shall promptly repair or replace the photocell in any of the photoelectric control equipment which fails to actuate said luminaires as set forth above.
2. The electric energy to be supplied shall be alternating current, single phase, 60 hertz, at nominal 120/240 volts. The Customer will provide protection sized to meet National Electric Code requirements for the load being served. The connection of the unmetered service shall be made by the Company after the Customer's entire lighting system has been inspected, for verification of the total connected load, by the Company and after its approval by the local inspection authorities. The entire lighting system, including but not limited to, poles, luminaires, service entrances, conductors, circuits, connections and photoelectric control equipment, shall be installed, owned and maintained by the Customer.
3. Because the connected load of the Customer's lighting system will be constant during the hours of its operation and the hours of its operation will be automatically controlled by photoelectric control equipment, it is deemed unnecessary to meter the service. The sum of the capacity requirements in watts of all components of the Customer's lighting system shall be multiplied by 350 hours (being 1/12 of an average annual operation of 4,200 hours) and the aforesaid rate shall be applied to the resultant kilowatt-hours for purposes of determining the monthly billing for such service. The capacity requirements of the Customer's lighting system set forth in this Agreement were determined from the specifications furnished by the manufacturers of said components. The Company shall have the right to test such capacity requirements from time to time through the use of its test meters, and in the event that the tests shall show capacity requirements different from those indicated in this Agreement, the capacity requirements shown by the tests shall control. The Customer shall not change the capacity requirements of the components without first notifying the Company in writing of such changes and the date that they will be made.
4. It is further agreed that:
 - (a) Such service is for the sole use of the Customer for the purpose of lighting, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than lighting.
 - (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) Neither party shall be liable to the other under this Agreement for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in the Company's Schedule of Rates Governing the Sale of Electric Service.
5. The obligations under this Agreement shall be binding upon and all rights and obligations hereunder shall extend to the parties hereto and their successors and assigns.

 - (a) Such service is for the sole use of the Customer for the purpose of lighting, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than lighting.
 - (b) Such service shall be governed by the Standard Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) Neither party shall be liable to the other under this Agreement for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm, flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.
5. The obligations under this Agreement shall be binding upon and all rights and obligations hereunder shall extend to the parties hereto and their successors and assigns.

Agreement, made this _____ day of _____, _____, between CONSUMERS ENERGY COMPANY, herein termed the Company, and _____

herein termed the Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's CATV Power Supply Units which are listed in Section 4 hereof. Said CATV Power Supply Units shall be used for the sole purpose of energizing the Customer's audio and/or video signal amplifying equipment. Said CATV Power Supply Units are to be installed by the Customer on poles owned by the Company or on poles (herein called "foreign poles") owned by other parties, on which electric distribution facilities are now or hereafter installed by the Company. Said poles are listed in Section 4 hereof. Notwithstanding the forgoing, nothing in this agreement shall be deemed to grant the Customer permission to install its said CATV Power Supply Units or any other equipment on poles owned by the Company or on foreign poles, it being the intent hereof that such permission shall be the subject of other agreements between the Customer and the Company and between the Customer and the owners of the foreign poles.
2. The electric energy to be supplied shall be alternating current, single phase, 60 hertz, at nominal 120 volts. Delivery shall be made at one mutually agreeable location on each pole listed in Section 4 hereof. All energy transmitted by the Customer from its said CATV Power Supply Units shall be transmitted at a voltage not in excess of 65 volts.
3. The Customer shall pay for such energy in accordance with the Company's Unmetered Service Rate "UR", a copy of which is attached hereto and made a part hereof, and in accordance with such future revisions and amendments thereof, supplements thereto or substitutes therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The Customer agrees that it will not change the capacity requirements of its said CATV Power Supply Units without first notifying the Company in writing of such changes and the date that they will be made.
4. Delivery of energy by the Company to the Customer shall be made at the locations and for the CATV Power Supply Units listed below:

Location of Poles	Quantity, Manufacturer and Identification (Type, Model, Etc)	Manufacturer's Rated Input Capacity of Each Power Supply Unit in Watts

5. It is further agreed that:

- a. Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.
- b. Such service shall be governed by the Company's Standard Electric Rules and Regulations and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy thereof will be furnished to the Customer upon request.
- c. Except as to any minimum charges payable by the Customer, prescribed in said rate, neither party shall be liable to the other under this agreement for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.
- d. This agreement will extend for an initial term of one year from the _____ day of _____, _____, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty (60) days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.
- e. This agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to the electric service provided for in this agreement except as contained herein. This agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

IN WITNESS WHEREOF, said parties have executed this agreement, in duplicate, by their duly authorized representatives.

CONTRACT FOR ELECTRIC SERVICE - CATV

AGREEMENT, made this _____ day of _____, 19____, between CONSUMERS ENERGY COMPANY, herein termed the Company, and _____

herein termed the Customer, as follows:

- 1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's CATV Power Supply Units which are listed in Section 4 hereof. Said CATV Power Supply Units shall be used for the sole purpose of energizing the Customer's audio and/or video signal amplifying equipment. Said CATV Power Supply Units are to be installed by the Customer on poles owned by the Company or on poles (herein called "foreign poles") owned by other parties, on which electric distribution facilities are now or hereafter installed by the Company. Said poles are listed in Section 4 hereof. Notwithstanding the foregoing, nothing in this agreement shall be deemed to grant the Customer permission to install its said CATV Power Supply Units or any other equipment on poles owned by the Company or on foreign poles, it being the intent hereof that such permission shall be the subject of other agreements between the Customer and the Company and between the Customer and the owners of the foreign poles.
2. The electric energy to be supplied shall be alternating current, single phase, 60 hertz, at nominal 120 volts. Delivery shall be made at one mutually agreeable location on each pole listed in Section 4 hereof. All energy transmitted by the Customer from its said CATV Power Supply Units shall be transmitted at a voltage not in excess of 65 volts.
3. The Customer shall pay for such energy in accordance with the Company's Unmetered Service Rate "UR", a copy of which is attached hereto and made a part hereof, and in accordance with such future revisions and amendments thereof, supplements thereto or substitutes therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The Customer agrees that it will not change the capacity requirements of its said CATV Power Supply Units without first notifying the Company in writing of such changes and the date that they will be made.
4. Delivery of energy by the Company to the Customer shall be made at the locations and for the CATV Power Supply Units listed below:

Table with 3 columns: Location of Poles, Quantity, Manufacturer and Identification (Type, Model, Etc), and Manufacturer's Rated Input Capacity of Each Power Supply Unit in Watts.

Form 640 3-97

5. It is further agreed that:

- a. Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.
- b. Such service shall be governed by the Company's Standard Electric Rules and Regulations and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy thereof will be furnished to the Customer upon request.
- c. Except as to any minimum charges payable by the Customer, prescribed in said rate, neither party shall be liable to the other under this agreement for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.
- d. This agreement will extend for an initial term of one year from the _____ day of _____, 19____, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty (60) days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.
- e. This agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to the electric service provided for in this agreement except as contained herein. This agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

IN WITNESS WHEREOF, said parties have executed this agreement, in duplicate, by their duly authorized representatives.

CONSUMERS ENERGY COMPANY _____

Its

CONTRACT FOR ELECTRIC SERVICE - CATV

AGREEMENT, made this _____ day of _____, 19____, between CONSUMERS POWER COMPANY, herein termed the Company, and _____

herein termed the Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's CATV Power Supply Units which are listed in Section 4 hereof. Said CATV Power Supply Units shall be used for the sole purpose of energizing the Customer's audio and/or video signal amplifying equipment. Said CATV Power Supply Units are to be installed by the Customer on poles owned by the Company or on poles (herein called "foreign poles") owned by other parties, on which electric distribution facilities are now or hereafter installed by the Company. Said poles are listed in Section 4 hereof. Notwithstanding the foregoing, nothing in this agreement shall be deemed to grant the Customer permission to install its said CATV Power Supply Units or any other equipment on poles owned by the Company or on foreign poles, it being the intent hereof that such permission shall be the subject of other agreements between the Customer and the Company and between the Customer and the owners of the foreign poles.
2. The electric energy to be supplied shall be alternating current, single phase, 60 hertz, at nominal 120 volts. Delivery shall be made at one mutually agreeable location on each pole listed in Section 4 hereof. All energy transmitted by the Customer from its said CATV Power Supply Units shall be transmitted at a voltage not in excess of 65 volts.
3. The Customer shall pay for such energy in accordance with the Company's Unmetered Service Rate "UR", a copy of which is attached hereto and made a part hereof, and in accordance with such future revisions and amendments thereof, supplements thereto or substitutes therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. The Customer agrees that it will not change the capacity requirements of its said CATV Power Supply Units without first notifying the Company in writing of such changes and the date that they will be made.
4. Delivery of energy by the Company to the Customer shall be made at the locations and for the CATV Power Supply Units listed below:

Location of Poles	Quantity, Manufacturer and Identification (Type, Model, Etc)	Manufacturer's Rated Input Capacity of Each Power Supply Unit in Watts

Form 640 3-95

5. It is further agreed that:

- a. Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.
- b. Such service shall be governed by the Company's Standard Electric Rules and Regulations and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission from time to time. A copy thereof will be furnished to the Customer upon request.
- c. Except as to any minimum charges payable by the Customer, prescribed in said rate, neither party shall be liable to the other under this agreement for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.
- d. This agreement will extend for an initial term of one year from the _____ day of _____, 19____, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty (60) days' written notice of its desire to terminate the same at the expiration of any monthly period, which notice may be given at any time.
- e. This agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to the electric service provided for in this agreement except as contained herein. This agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

POLE LICENSE AGREEMENT

THIS AGREEMENT, made as of the ____ day of _____ by and between CONSUMERS ENERGY COMPANY, a Michigan corporation, having its principal office in the City of Jackson, Michigan, hereinafter called "the Owner," and _____ located at hereinafter called the "Licensee,"

WITNESSETH:

WHEREAS, the Licensee represents that it is the holder of all necessary governmental permits to erect and maintain aerial cables, wires and associated equipment for the purpose of transmitting communications in the _____ for hereinafter called "the municipality," it being understood that references to "the municipality" herein mean only such portions of the _____ and

WHEREAS, the Licensee desires to attach such aerial cables, wires and associated equipment to pole(s) of the Owner located in said municipality in order to avoid expensive and unnecessary duplication of facilities; and

WHEREAS, the Owner is willing to permit, to the extent it may lawfully do so, the attachment of such aerial cables, wires and associated equipment to its poles in the municipality for the above stated purposes, upon the terms and conditions hereinafter set forth;

NOW, THEREFORE, in consideration of their respective undertakings herein, the parties agree as follows:

ARTICLE I
AVAILABILITY OF POLES FOR LICENSEE'S ATTACHMENTS

To the extent permitted by law, by the provisions of presently existing joint-use contracts, and by the terms of all necessary permits, licenses, easements, franchises or consents from property Owners and governmental authorities having jurisdiction, all of the Owner's poles in the municipality shall be available to the Licensee for the attachment of aerial cables, wires and associated equipment constituting a portion of the Licensee's system in accordance with the terms of this agreement, if and to the extent that such use, in the Owner's judgement, will not interfere with the Owner's service requirements, including, but not by way of limitation, considerations of safety and economy. No payment for facility alterations (including, but not limited to, contributions toward the cost of replacement poles) or use of the Owner's poles under this agreement, however extended, shall create or vest in the Licensee any ownership or property rights in such facilities or poles, and the Licensee's rights in said poles shall be and remain a mere license.

ARTICLE II
SPECIFICATIONS

All of the Licensee's cables, wires and associated equipment herein provided for shall be erected and maintained in accordance with the requirements, specifications and other applicable rules or orders of the Michigan Public Service Commission and other authorities having jurisdiction, and such other specifications, not less restrictive than the foregoing, as the parties may agree upon from time to time. Drawings showing certain of such requirements and specifications are attached hereto and made a part hereof as Exhibit A, Pages 1 through 11.

All of the Licensee's cables, wires and associated equipment shall be erected and maintained by properly trained, skilled workers who are fully qualified to perform such work in proximity to electric lines and equipment.

The Owner may specify the location on its pole or poles at which attachments are to be made. In the event an attachment at the location specified by the Owner would violate any applicable law, rule, regulation, ordinance or order of any governmental authority or regulatory

body, including the Michigan Public Service Commission, the Licensee shall so advise the Owner and obtain its authorization to make such attachment at a location which does not violate any such law, rule, regulation, ordinance or order. It shall be the sole responsibility of the Licensee to determine if the making or maintaining of attachments at the specified location or locations will violate any such law, rule, regulation, ordinance or order. No attachment shall be made or maintained at a location that violates any such law, rule, regulation, ordinance or order.

ARTICLE III APPLICATION AND PERMIT PROCEDURE

Whenever the Licensee desires to make an attachment to any pole or poles of the Owner, the Licensee shall prepare and submit to the Owner three (3) copies of an application (accompanied by the application fee required by Paragraph (1) of Article VII hereof) on an Application and Permit form, a copy of which is attached hereto and made a part hereof as Exhibit B, including any sketch and other information necessary to clearly show the location of such pole or poles. As soon as reasonably possible after a properly prepared and submitted Application and Permit is furnished to the Owner, the Owner shall either deny or grant permission for such attachment as follows:

- (1) If, in the Owner's judgement, such pole or poles or any of them are unavailable for attachment, such Application and Permit shall be ineffective and the Owner shall notify the Licensee in writing of such unavailability.
- (2) If, in the Owner's judgement, such pole or poles are available for attachment, and the Licensee is not to be charged for any cost of facility alterations in connection therewith, the Owner shall complete, execute and furnish to the Licensee one (1) copy of such Application and Permit, which shall thereupon be effective as a Permit.
- (3) If, in the Owner's judgement, such pole or poles are available for attachment, and the Licensee is to be charged for the cost of facility alterations in connection therewith, the Owner shall complete, execute and furnish to the Licensee two (2) copies of such Application and Permit, setting forth the estimated cost of such

facility alterations. The Licensee, if it desires to proceed with the permitted attachments subject to payment of the cost of such facility alterations as provided in Article V hereof, shall endorse its authorization of such facility alterations on the Application and Permit and return one (1) copy thereof to the Owner within ten (10) days after the time the executed copies of the Application and Permit were furnished to the Licensee by the Owner. Such Application and Permit shall be effective as a Permit upon the furnishing of written notice to the Licensee that all necessary facility alterations have been completed. If the Licensee does not return the Application and Permit containing its endorsed authorization of such facility alterations within the time specified herein, such Application and Permit shall be ineffective.

The Licensee shall make no attachments to any pole of the Owner as to which there does not exist an effective Permit, and as to which all necessary permits, licenses, easements, franchises and consents have not been secured by the Licensee as required by or pursuant to Article IV hereof.

If any cable, wire or equipment of Licensee shall be found on a pole for which no permit is outstanding, the Owner, without prejudice to its other rights or remedies under this agreement or otherwise, may (1) impose a charge, and (2) require Licensee to remove such cable, wire or equipment forthwith or the Owner may remove them without liability 30 days after having given written notice to the Licensee of their unauthorized attachment and the expense of removal shall be borne by Licensee. In the latter event, the Licensee shall reimburse the Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties) resulting from such unauthorized attachment and the removal thereof. For the purpose of determining the charge, in the absence of satisfactory evidence to the contrary, the unlicensed use shall be treated as having existed for a period of three (3) years prior to its discovery; and the fee, at the appropriate rate as shown in Article VII hereof, for each year and for any portion of a year contained in such period, shall be due and payable forthwith. Any such fee imposed by the Owner shall be in addition to its rights to any other sums due and payable and to any claims or damages under this agreement or

otherwise. No act or failure to act by the Owner with regard to said fee or said unlicensed use shall be deemed as a ratification, or the licensing, of the unlicensed use, and if any permit should subsequently be issued, after application and payment of the application fee therefor, said permit shall not operate retroactively or constitute a waiver by the Owner of any of its rights or privileges under this agreement or otherwise.

ARTICLE IV RIGHT OF WAY FOR LICENSEE'S ATTACHMENTS

The Licensee shall be responsible for securing from property owners and governmental authorities having jurisdiction all necessary permits, licenses, easement, franchises and consents relating to the Licensee's erection and maintenance of aerial cables, wires and associated equipment at any pole location proposed to be utilized, and for submitting satisfactory evidence of the same to the Owner if requested so to do, before making an attachment at such pole location.

Upon the execution of this agreement, the Licensee shall submit to the Owner satisfactory evidence of the Licensee's right to erect and maintain aerial cables, wires and associated equipment in the streets, alleys and other public places of the municipality.

ARTICLE V FACILITY ALTERATIONS FOR LICENSEE'S ATTACHMENTS

If the Licensee, by endorsement of an Application and Permit as provided in Article III hereof, indicates its desire to make a pole attachment, which in the Owner's judgement will require a facility alteration, such endorsement shall constitute authorization for the making of the alteration by the Owner or others. The alterations, including replacement of inadequate poles, shall be made with reasonable promptness after receipt of the Licensee's authorization, and notice of completion shall be given to the Licensee within ten (10) days after completion. The Licensee shall pay the Owner for such facility alterations in accordance with Article VII hereof.

The Licensee shall also reimburse the Owner or Owners of any other facilities attached to the existing pole pursuant to joint use or pole license agreements for their respective costs of altering their attached facilities, including where applicable the cost of transferring said facilities from the existing pole to the replacement pole, except to the extent, if any, that such Owner(s) has agreed to pay for same.

The time and manner of the making of any such payment to the Owner or Owners of any such facilities shall be as agreed between the Licensee and said Owner or Owners.

ARTICLE VI MAINTENANCE OF LICENSEE'S ATTACHMENTS AND INSPECTION

The Licensee shall make and maintain its attachments in safe condition and in thorough repair, at its own expense, and in such manner, suitable to the Owner, that said attachments will not conflict with the use of poles by the Owner or other authorized parties, or interfere with the operation or use of facilities which are or which may from time to time be placed thereon. The Licensee shall at any time, at its own expense, upon notice from the Owner, relocate, replace or renew its facilities placed on said poles, transfer its facilities to replacement poles, or perform any other work in connection with said facilities: (a) that may be required by the Owner in the maintenance, replacement, removal or relocation of said poles or the facilities which are or which may from time to time be placed thereon, or (b) that may be required for the service needs of the Owner. If the Licensee neglects or refuses to comply with the directives of such a notice, or in cases of emergency, the Owner shall have the right to remove, relocate, replace or renew the facilities placed on said poles by the Licensee, transfer such facilities to replacement poles, or perform any other work in connection with said facilities and the Licensee shall, on demand, reimburse the Owner for the costs thereby incurred as a result of the Licensee's failure or refusal to act in compliance with such notice.

The Licensee shall be solely responsible for eliminating any and all inductive interference. The Owner will, if requested by the Licensee, cooperate with the Licensee in eliminating such interference; however, the Licensee shall pay all costs of any work or operations performed by the Owner to eliminate or reduce inductive interference.

The Owner reserves the right to inspect each new installation and to make periodic inspections of any part of the cable, wires and equipment of Licensee on the Owner's poles and in the vicinity thereof; and the Licensee shall reimburse the Owner for the expense of such inspections. Inspections will not be made more often than once a year unless, in the Owner's judgement, such inspections are required for reasons involving safety or are required because of a violation of the terms of this agreement by Licensee. The charge for the inspection shall be in accordance with the terms and conditions of Article VII hereof. The making of such inspections or the failure to do so shall not operate to relieve Licensee of any responsibility, obligation or liability assumed under this agreement.

ARTICLE VII FEES AND CHARGES

The provisions of the Owner's Pole Attachment and Conduit Use Rate "PA" ("Rate PA") pertaining to fees, charges and payments, including any amendments thereto, which may be made from time to time, shall apply to this agreement to the same extent as if this agreement were governed by said Rate PA.

- (1) The Licensee shall pay the Owner an Application Fee in the amount provided for in Rate PA, as the same may be amended from time to time, for each application for a license. Said Fee must accompany the Application.
- (2) The Licensee shall pay the Owner an Annual Fee in the amount provided for in Rate PA, as the same may be amended from time to time. For each pole covered by a Permit granted after July 1 of any contract year, the Licensee shall, within twenty-one (21) days after issuance of the Permit for said pole, pay the pro rata portion of the Annual Fee for the remainder of the contract year.
- (3) The Licensee shall pay the Owner:
 - (a) The Owner's cost (including, but not limited to, the cost of inspection, engineering, rearranging the existing facilities, guying of the pole, tree

trimming and/or replacement of the pole) of making alterations of its facilities to permit an attachment by the Licensee when the Licensee has authorized such alteration pursuant to this agreement. The cost of replacing an inadequate pole shall include (i) that portion of the cost of such replacement pole that exceeds the current cost of a pole of the same type, class and size as the existing pole, plus (ii) the undepreciated portion of the original cost of labor of installing the existing pole and the unaccumulated portion of the cost of labor of removing the existing pole, plus (iii) the cost of installation of the replacement pole, plus (iv) the cost of transferring facilities from the existing pole to the replacement pole.

- (b) The Owner's cost of making any inspection or inspections pursuant to Article VI hereof.

- (4) In the event that any present or future Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls prevent the Owner from charging all or any part of the Application Fee provided for in Paragraph (1) of this Article VII or any part of the Annual Fee provided for in Paragraph (2) of this Article VII, the Licensee shall, during the time or times that the Owner is prevented from making such charges, pay the portion of said Application Fee and/or Annual Fee which is permissible under such Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls.

- (5) When any charge to the Licensee provided for in this agreement is to be based upon the Owner's cost, said cost shall be determined in accordance with the Owner's regular and customary method of determining such costs unless otherwise expressly provided herein.

- (6) The Owner may at its option require the Licensee to pay the estimated cost of any facility alteration, to be paid by it pursuant to Paragraph (3)(a) of this Article VII,

prior to the commencement of engineering and/or other work on said alterations. If the actual cost of any such alterations is not equal to the advance payment made by the Licensee for said alterations, the Owner will, after completion of said alteration, submit to the Licensee a bill for the amount by which the cost of said alterations exceeded said advance payment or will grant the Licensee a credit for the amount by which said advance payment exceeded the actual cost of said alteration.

ARTICLE VIII TERMINATION OF ATTACHMENT PERMITS

Upon notice from the Owner to Licensee that the use of any pole is not authorized by Federal, State, County or Municipal authorities or private property owners, the license covering the use of such pole shall immediately terminate and shall be surrendered and Licensee shall remove its cables, equipment and facilities at once from the affected pole or poles.

Upon notice from the Owner to the Licensee that the Owner intends to abandon any pole, the Permit covering said pole shall, unless otherwise provided in the notice, terminate and cease to be effective as to said pole. To the extent that it may legally do so under prior agreements or otherwise, the Owner may sell to the Licensee, at any time within thirty (30) days after such notice, at the then value thereof in place or such other equitable sum as may be agreed upon between the parties, any pole which the Owner has given notice of intent to abandon.

If at any time the Owner, or other party under the terms of a joint use or pole license agreement executed prior to the date of this agreement, desires to make additional attachments to any pole (except a pole replaced at the Licensee's expense under Article V hereof) carrying attachments of the Licensee, or otherwise to use for its own service needs the space occupied by the Licensee's attachments, and in the Owner's judgement the existing pole is inadequate under applicable requirements and specifications to support such additional attachments or use, the Owner shall give the Licensee notice to that effect and the Permit covering said pole shall terminate and cease to be effective as to said pole unless within ten (10) days after such notice the Owner receives

authorization from the Licensee agreeing to pay the entire cost (as provided in Paragraph (3)(a) of Article VII hereof) to the Owner of replacing the inadequate pole with a pole adequate to support such additional attachments or use together with the attachments of the Licensee and the existing attachments of the Owner that are to remain, and the existing attachments of other parties if made pursuant to joint use or pole license agreements executed prior to the date of this agreement. If the existing pole would be adequate but for the attachments of other parties made pursuant to joint use or pole license agreements executed after the date of this agreement, the Licensee shall not be liable for any portion of the cost of a replacement pole therefor.

The Licensee may at any time terminate any Permit or Permits by removing its attachments from any pole or poles and by notice to the Owner in duplicate on the Termination of Attachments by Licensee form attached hereto and made a part hereof as Exhibit C; the Permit or Permits covering the use of such pole or poles shall thereupon terminate and cease to be effective.

Any Permit granted hereunder for attachment to the Owner's poles shall terminate without further notice to Licensee as to individual poles covered by the Permit to which Licensee has not attached within sixty (60) days from the date that Owner has notified Licensee that such poles are available for attachment of the facilities of Licensee.

All Permits shall automatically terminate and cease to be effective upon the termination of this agreement.

ARTICLE IX TERMINATION FOR DEFAULT

If the Licensee shall neglect or refuse to comply with any of the provisions of this agreement, including the specifications and requirements referred to in Article II hereof, or default on any of its obligations hereunder, and shall fail within ten (10) days after written notice from the Owner to correct such neglect, refusal or default, the Owner may at its option, in addition to any other remedy available to it, forthwith terminate this agreement or the Permit or Permits covering the pole or poles as to which such neglect, refusal or default shall have occurred.

**ARTICLE X
REMOVAL UPON TERMINATION**

The Licensee shall remove from any pole or poles its facilities, the Permit or Permits for which have been terminated, within thirty (30) days (except as otherwise provided in the first paragraph of Article VIII hereof) after the time such Permit or Permits cease to be effective, failing which the Owner shall have the right to remove the Licensee's facilities from said pole or poles without notice or liability of any kind to the Licensee; in the latter event, the Licensee shall reimburse the Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties), resulting from such removal.

**ARTICLE XI
LIABILITY AND INSURANCE**

The Owner reserves to itself, its successors and assigns, the right to maintain its poles and to operate its facilities thereon in such manner as will best enable it to fulfill its own service requirements. The Owner shall not be liable to the Licensee for any interruption in service furnished by the Owner to the Licensee or to other customers of the Owner, or in service furnished by the Licensee to customers of the Licensee, or for any interference, including, but not limited to, inductive interference, with the operation of facilities of the Licensee or of customers of the Owner or of the Licensee, which may arise in any manner out of the Licensee's use of the Owner's pole or other facilities, whether by negligence of the Owner or otherwise.

The Licensee shall exercise special precautions to avoid damage to facilities of the Owner and of others on the Owner's poles, and the Licensee hereby assumes responsibility for any and all damage to such facilities arising out of or caused by the conduct or property of the Licensee, whether by the negligence of the Licensee or otherwise. The Licensee shall make an immediate report to the Owner or Owners of any such facilities of the occurrence of any such damage and shall reimburse such Owner or Owners for expenses incurred by them in making necessary repairs and replacements.

The Licensee hereby assumes all responsibility for bodily injury to persons, including death or damages, sustained or claimed by its employees, the employees of the Owner, or by any other person, and also for damage to property, including property of the Licensee, the Owner, or any other person, and also for any interruptions to electric or community antenna television or other communications service, which may occur or allegedly occur because of, or result from, or in any manner are connected with or directly or indirectly arise out of or are caused in whole or in part by the erection, maintenance, presence, replacement, use or removal of the Licensee's facilities hereunder or by the proximity of the Licensee's cables, wires and associated equipment and those of the Owner or other users of the Owner's poles, or by any action, operation or omission of the Licensee, its agents, contractors or employees, under this agreement; and the Licensee shall assume all responsibility for and shall indemnify and save the Owner harmless from and against all losses, liabilities, claims, demands, payments, actions, legal proceedings, recoveries, costs, expenses, attorney fees, settlements, judgements, orders and decrees of every nature and description brought or recovered against, or incurred by, the Licensee, the Owner, or both of them, by reason of any such bodily injury to persons, damage to property, or interruptions to service.

Licensee shall also pay or reimburse the Owner for any and all claims and demands of whatever kind which arise directly or indirectly from the operation of Licensee's facilities including taxes, special charges by others, claims and demands for damages or loss for infringement of copyright, for libel and slander, for unauthorized use of other program material, and all claims and demands for infringement of patents with respect to the manufacture, use and operation of Licensee's equipment whether arising from the use of Licensee's equipment in combination with Owner's poles or otherwise.

The Licensee shall at its sole expense secure and maintain in force in the name of the Licensee during the entire life of this Agreement, policies of insurance of the following types:

- (a) Workers' Compensation Insurance with Michigan statutory limits.

- (b) Commercial General Liability Insurance, including contractual liability, with a minimum combined bodily injury and property damage single limit of \$1,000,000 per occurrence. Such insurance shall name the Owner, its Directors, Officers, and Employees as additional insureds as their interest may appear; and such coverage shall be primary to any insurance maintained by owner.
- (c) Automobile Liability Insurance with a minimum combined bodily injury and property damage single limit of \$500,000 per occurrence, providing coverage for owned, non-owned and hired vehicles.

Such policies of insurance shall be in a form and with companies satisfactory to the Owner and shall be obtained and become effective prior to the attachment of facilities of the Licensee to any pole or poles of the Owner hereunder. A copy of the policy shall be furnished to the Owner at the Owner's request.

The Licensee shall submit Certificates of Insurance to Owner prior to the attachment of facilities of the Licensee to any pole or poles of the Owner. The Certificate of Insurance shall be on the form furnished by the Owner or any other form approved by the Owner's Corporate Insurance Department. The Certificate shall require that the Insurance Company give at least thirty (30) days prior written notice of cancellation or material change in any such policy.

The Certificate of Insurance shall be submitted to:

Consumers Energy
Corporate Insurance Department
212 West Michigan Avenue
Jackson, Michigan 49201

The above requirements as to policies of insurance may be varied by written amendment to this agreement.

**ARTICLE XII
RIGHTS OF OTHER PARTIES**

Nothing contained herein shall be construed as affecting any rights or privileges, heretofore granted by the Owner by contract or otherwise to any other parties, to use any poles covered by this agreement, and the Owner shall have the right to continue, modify and extend any such rights or privileges in accordance with the terms of any such rights or privileges. The attachment privileges granted herein shall be subject to such previously granted rights or privileges. Moreover, nothing contained herein shall be construed as affecting any rights or privileges hereafter granted by the Owner by contract or otherwise to any other parties, to use any poles covered by this agreement, and the Owner shall have the right to initiate, continue, modify and extend any such rights or privileges in any manner not inconsistent with the performance of its obligations hereunder.

**ARTICLE XIII
ASSIGNMENT**

This agreement shall be personal to the Licensee, and any assignment or other transfer by the Licensee, in whole or in part, of its rights or privileges hereunder, without the prior written consent of the Owner, shall be void and not merely voidable. Subject to the foregoing, this agreement shall extend to and bind the successors and assigns of the parties hereto.

**ARTICLE XIV
WAIVER OF TERMS AND CONDITIONS**

Failure of the Owner to enforce or insist upon compliance with any of the terms or conditions of this agreement shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in full force and effect.

**ARTICLE XV
BILLS AND PAYMENTS**

Unless otherwise expressly provided herein, bills under this agreement shall be payable within twenty-one (21) days after presentation. Nonpayment of bills within said period shall be deemed to be a default within the meaning of Article IX hereof. Any bill not paid when due shall be subject to the Late Payment Charge provided in Rate PA, as the same may be amended from time to time.

**ARTICLE XVI
MICHIGAN PUBLIC SERVICE COMMISSION**

This agreement is subject to all applicable present and future rules, regulations and orders of the Michigan Public Service Commission. To the extent that any provision of this agreement is in conflict with any such rule, regulation or order, such rule, regulation or order shall control.

**ARTICLE XVII
TERM OF AGREEMENT**

This agreement shall take effect on _____ and unless sooner terminated in accordance with the provisions of Article IX hereof, shall continue in effect until terminated by mutual consent, or by either party giving the other at least six months' advance written notice of its desire to terminate the same at any time hereafter.

**ARTICLE XVIII
NOTICES AND DOCUMENTS**

Except as otherwise provided in this agreement, the giving or furnishing of any notice or document in connection with this agreement shall be deemed to occur (a) in the case of delivery of such notice or document, on the date of such delivery, (b) in the case of mailing of such notice or document by registered or certified mail, on the date of receipt of such registered or certified mail, or

in the case of mailing of such notice or document by regular mail, on the second business day following the date of postmark of such mailing.

Notices or other documents to be given or furnished to the Owner shall be delivered or mailed to:

Consumers Energy Company
Att: DLeMons, M-495
212 West Michigan Ave.
Jackson, Michigan 49201

Notices or other documents to be given or furnished to the Licensee shall be delivered or mailed to:

Either party may at any time change a designation of the individual or address to which notices or other documents are to be delivered or mailed by giving notice in writing of such change of designation to the other party.

ARTICLE XIX SEVERABILITY

The invalidity or unenforceability of any provision of this agreement shall not in any way affect any other provision or provisions hereof. This agreement shall remain in effect and be construed in all respects as if such invalid or unenforceable provision were omitted.

ARTICLE XX HEADINGS

Headings are provided for convenience only. They are not a part of this agreement and shall not affect the construction or interpretation thereof.

**ARTICLE XXI
PREVIOUS AGREEMENTS**

With respect to the subject matter hereof, this agreement supersedes all previous representations, understandings and negotiations, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement between the parties.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed in duplicate by their duly authorized representatives.

Its

POLE LICENSE AGREEMENT

THIS AGREEMENT, made as of the _____ day of _____, 19____, by and between CONSUMERS POWER COMPANY, a Michigan corporation, having its principal office in the City of Jackson, Michigan, hereinafter called "the Owner," and _____

hereinafter called "the Licensee,"

WITNESSETH:

WHEREAS, the Licensee represents that it is the holder of all necessary governmental permits to erect and maintain aerial cables, wires and associated equipment in the streets, alleys and other public places of _____

_____, Michigan (hereinafter called "the municipality") for the purpose of transmitting communications and/or electricity; and

WHEREAS, the Licensee desires to attach such aerial cables, wires and associated equipment to three or more poles of the Owner located in said municipality in order to avoid expensive and unnecessary duplication of facilities; and

WHEREAS, the Owner is willing to permit, to the extent it may lawfully do so, the attachment of such aerial cables, wires and associated equipment to its poles in the municipality for the above stated purposes, upon the terms and conditions hereinafter set forth;

NOW, THEREFORE, in consideration of their respective undertakings herein, the parties agree as follows:

ARTICLE I AVAILABILITY OF POLES FOR LICENSEE'S ATTACHMENTS

To the extent permitted by law, by the provisions of presently existing joint-use contracts, and by the terms of all necessary permits, licenses, easements, franchises or consents from property owners and governmental authorities having jurisdiction, all of the Owner's poles in the municipality shall be available to the Licensee for the attachment of aerial cables, wires and associated equipment constituting a portion of the Licensee's system in accordance with the terms of this agreement, if and to the extent that such use, in the Owner's judgment, will not interfere with the Owner's service requirements, including, but not by way of limitation, considerations of safety and economy. No payment for facility alterations (including, but not limited to, contributions toward the cost of replacement poles) or use of the Owner's poles under this agreement, however extended, shall create or vest in the Licensee any ownership or property rights in such facilities or poles, and the Licensee's rights in said poles shall be and remain a mere license.

ARTICLE II SPECIFICATIONS

All of the Licensee's cables, wires and associated equipment herein provided for shall be erected and maintained in accordance with the requirements and specifications of Michigan Public Service Commission Order No. 1679, as amended, other applicable rules or orders of the Michigan Public Service Commission and other authorities having jurisdiction, and such other specifications, not less restrictive than the foregoing, as the parties may agree upon from time to time. Drawings showing certain of such requirements and specifications are attached hereto and made a part hereof as Exhibit A, Pages 1 through 7.

All of the Licensee's cables, wires and associated equipment shall be erected and maintained by properly trained, skilled workmen who are fully qualified to perform such work in proximity to electric lines and equipment.

The Owner may specify the location on its pole or poles at which attachments are to be made. In the event an attachment at the location specified by the Owner would violate any applicable law, rule, regulation, ordinance or order of any governmental authority or regulatory body, including the Michigan Public Service Commission, the Licensee shall so advise the Owner and obtain its authorization to make such attachment at a location which does not violate any such law, rule, regulation, ordinance or order. It shall be the sole responsibility of the Licensee to determine if the making or maintaining of attachments at the specified location or locations will violate any such law, rule, regulation, ordinance or order. No attachment shall be made or maintained at a location that violates any such law, rule, regulation, ordinance or order.

ARTICLE III APPLICATION AND PERMIT PROCEDURE

Whenever the Licensee desires to make an attachment to any pole or poles of the Owner, the Licensee shall prepare and submit to the Owner three (3) copies of an application (accompanied by the application fee required by Paragraph (1) of Article VII hereof) on an Application and Permit form, a copy of which is attached hereto and made a part hereof as Exhibit B, including any sketch and other information necessary to clearly show the location of such pole or poles. As soon as reasonably possible after a properly prepared and submitted Application and Permit is furnished to the Owner, the Owner shall either deny or grant permission for such attachment as follows:

- (1) If, in the Owner's judgment, such pole or poles or any of them, are unavailable for attachment, such Application and Permit shall be ineffective and the Owner shall notify the Licensee in writing of such unavailability.
- (2) If, in the Owner's judgment, such pole or poles are available for attachment, and the Licensee is not to be charged for any cost of facility alterations in connection therewith, the Owner shall complete, execute and furnish to the Licensee one (1) copy of such Application and Permit, which shall thereupon be effective as a Permit.
- (3) If, in the Owner's judgment, such pole or poles are available for attachment, and the Licensee is to be charged for the cost of facility alterations in connection therewith, the Owner shall complete, execute and furnish to the Licensee two (2) copies of such Application and Permit, setting forth the estimated cost of such facility alterations. The Licensee, if it desires to proceed with the permitted attachments subject to payment of the cost of such facility alterations as provided in Article V hereof, shall endorse its authorization of such facility alterations on the Application and Permit and return one (1) copy thereof to the Owner within ten (10) days after the time the executed copies of the Application and Permit were furnished to the Licensee by the Owner. Such Application and Permit shall be effective as a Permit upon the furnishing of written notice to the Licensee that all necessary facility alterations have been completed. If the Licensee does not return the Application and Permit containing its endorsed authorization of such facility alterations within the time specified herein, such Application and Permit shall be ineffective.

The Licensee shall make no attachments to any pole of the Owner as to which there does not exist an effective Permit, and as to which all necessary permits, licenses, easements, franchises and consents have not been secured by the Licensee as required by or pursuant to Article IV hereof.

If any cable, wire or equipment of Licensee shall be found on a pole for which no license is outstanding, the Owner, without prejudice to its other rights or remedies under this agreement or otherwise, may (1) impose a charge, and (2) require Licensee to remove such cable, wire or equipment forthwith or the Owner may remove them without liability 30 days after having given written notice to the Licensee of their unauthorized attachment and the expense of removal shall be borne by Licensee. In the latter event, the Licensee shall reimburse the Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties) resulting from such

unauthorized attachment and the removal thereof. For the purpose of determining the charge, in the absence of satisfactory evidence to the contrary, the unlicensed use shall be treated as having existed for a period of three (3) years prior to its discovery; and the fee, at the appropriate rate as shown in Article VII hereof, for each year and for any portion of a year contained in such period, shall be due and payable forthwith. Any such fee imposed by the Owner shall be in addition to its rights to any other sums due and payable and to any claims or damages under this agreement or otherwise. No act or failure to act by the Owner with regard to said fee or said unlicensed use shall be deemed as a ratification, or the licensing, of the unlicensed use, and if any license should subsequently be issued, after application and payment of the application fee therefor, said license shall not operate retroactively or constitute a waiver by the Owner of any of its rights or privileges under this agreement or otherwise.

**ARTICLE IV
RIGHT OF WAY FOR LICENSEE'S ATTACHMENTS**

It is agreed that the Licensee shall be responsible for securing from property owners and governmental authorities having jurisdiction all necessary permits, licenses, easements, franchises and consents relating to the Licensee's erection and maintenance of aerial cables, wires and associated equipment at any pole location proposed to be utilized, and for submitting satisfactory evidence of the same to the Owner if requested so to do, before making an attachment at such pole location.

It is also agreed that upon the execution of this agreement, the Licensee shall submit to the Owner satisfactory evidence of the Licensee's right to erect and maintain aerial cables, wires and associated equipment in the streets, alleys and other public places of the municipality.

**ARTICLE V
FACILITY ALTERATIONS FOR LICENSEE'S ATTACHMENTS**

If the Licensee, by endorsement of an Application and Permit as provided in Article III hereof, indicates its desire to make a pole attachment which in the Owner's judgment will require a facility alteration, such endorsement shall constitute authorization for the making of the alteration by the Owner or others. The alterations, including replacement of inadequate poles, shall be made with reasonable promptness after receipt of the Licensee's authorization, and notice of completion shall be given to the Licensee within ten (10) days after completion. The Licensee shall pay the Owner for such facility alterations in accordance with Article VII hereof.

The Licensee shall also reimburse the owner or owners of any other facilities attached to the existing pole pursuant to joint use or pole license agreements for their respective costs of altering their attached facilities, including where applicable the cost of transferring said facilities from the existing pole to the replacement pole, except to the extent, if any, that such owner(s) has agreed to pay for same.

The time and manner of the making of any such payment to the owner or owners of any such other facilities shall be as agreed between the Licensee and said owner or owners.

**ARTICLE VI
MAINTENANCE OF LICENSEE'S ATTACHMENTS AND INSPECTION**

The Licensee agrees to make and maintain its attachments in safe condition and in thorough repair, at its own expense, and in such a manner, suitable to the Owner, that said attachments will not conflict with the use of poles by the Owner or other authorized parties, or interfere with the operation or use of facilities which are or which may from time to time be placed thereon. The Licensee shall at any time, at its own expense, upon notice from the Owner, relocate, replace or renew its facilities placed on said poles, transfer its facilities to replacement poles, or perform any other work in connection with said facilities that may be required by the Owner in the maintenance, replacement, removal or relocation of said poles or the facilities which are or which may from time to time be placed thereon, or that may be required for the service needs of the Owner. If the Licensee neglects or

Form 645 5-86

refuses to comply with the directives of such a notice, or in cases of emergency, the Owner shall have the right to remove, relocate, replace or renew the facilities placed on said poles by the Licensee, transfer such facilities to replacement poles, or perform any other work in connection with said facilities and the Licensee shall, on demand, reimburse the Owner for the costs thereby incurred as a result of the Licensee's failure or refusal to act in compliance with such notice.

The Licensee shall be solely responsible for eliminating any and all inductive interference. The Owner will, if requested by the Licensee, cooperate with the Licensee in eliminating such interference; however, the Licensee shall pay all costs of any work or operations performed by the Owner to eliminate or reduce inductive interference.

The Owner reserves the right to inspect each new installation and to make periodic inspections of any part of the cable, wires and equipment of Licensee on the Owner's poles and in the vicinity thereof; and Licensee shall reimburse the Owner for the expense of such inspections. Inspections will not be made more often than once a year unless, in the Owner's judgment, such inspections are required for reasons involving safety or are required because of a violation of the terms of this agreement by Licensee. The charge for the inspection shall be in accordance with the terms and conditions of Article VII hereof. The making of such inspections or the failure to do so shall not operate to relieve Licensee of any responsibility, obligation or liability assumed under this agreement.

ARTICLE VII FEES AND CHARGES

- (1) The Licensee agrees to pay the Owner an Application Fee in the amount provided for in Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time, for each application for a license. Said Fee must accompany the Application.
- (2) The Licensee agrees to pay the Owner an Annual Fee in the amount provided for in the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time. For each pole covered by a Permit granted after July 1 of any contract year, the Licensee shall, within twenty-one (21) days after issuance of the Permit for said pole, pay the pro rata portion of the Annual Fee for the remainder of the contract year.
- (3) The Licensee further agrees to pay the Owner:
 - (a) The Owner's cost (including, but not limited to, the cost of inspection, engineering, rearranging the existing facilities, guying of the pole, tree trimming and/or replacement of the pole) of making alterations of its facilities to permit an attachment by the Licensee when the Licensee has authorized such alteration pursuant to this agreement. The cost of replacing an inadequate pole shall include (i) that portion of the cost of such replacement pole that exceeds the current cost of a pole of the same type, class and size as the existing pole, plus (ii) the undepreciated portion of the original cost of labor of installing the existing pole and the unaccumulated portion of the cost of labor of removing the existing pole, plus (iii) the cost of installation of the replacement pole, plus (iv) the cost of transferring facilities from the existing pole to the replacement pole.
 - (b) The Owner's cost of making any inspection or inspections pursuant to Article VI hereof.
- (4) In the event that any present or future Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls prevent the Owner from charging all or any part of the Application Fee provided for in Paragraph (1) of this Article VII or any part of the Annual Fee provided for in Paragraph (2) of this Article VII, the Licensee shall, during the time or times that the Owner is prevented from making such charges, pay the portion of said Application Fee and/or Annual Fee which is permissible under such Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls.

- (5) When any charge to the Licensee provided for in this agreement is to be based upon the Owner's cost, said cost shall be determined in accordance with the Owner's regular and customary method of determining such costs unless otherwise expressly provided herein.
- (6) The Owner may at its option require the Licensee to pay the estimated cost of any facility alteration, to be paid by it pursuant to Paragraph (3)(a) of this Article VII, prior to the commencement of engineering and/or other work on said alterations. If the actual cost of any such alterations is not equal to the advance payment made by the Licensee for said alterations, the Owner will, after completion of said alteration, submit to the Licensee a bill for the amount by which the cost of said alterations exceeded said advance payment or will grant the Licensee a credit for the amount by which said advance payment exceeded the actual cost of said alteration.

**ARTICLE VIII
TERMINATION OF ATTACHMENT PERMITS**

Upon notice from the Owner to Licensee that the use of any pole is not authorized by Federal, State, County or Municipal authorities or private property owners, the license covering the use of such pole shall immediately terminate and shall be surrendered and Licensee shall remove its cables, equipment and facilities at once from the affected pole or poles.

Upon notice from the Owner to the Licensee that the Owner intends to abandon any pole, the Permit covering said pole shall, unless otherwise provided in the notice, terminate and cease to be effective as to said pole. To the extent that it may legally do so under prior agreements or otherwise, the Owner may sell to the Licensee, at any time within thirty (30) days after such notice, at the then value thereof in place or such other equitable sum as may be agreed upon between the parties, any pole which the Owner has given notice of intent to abandon.

If at any time the Owner, or other party under the terms of a joint use or pole license agreement executed prior to the date of this agreement, desires to make additional attachments to any pole (except a pole replaced at the Licensee's expense under Article V hereof) carrying attachments of the Licensee, or otherwise to use for its own service needs the space occupied by the Licensee's attachments, and in the Owner's judgment the existing pole is inadequate under applicable requirements and specifications to support such additional attachments or use, the Owner shall give the Licensee notice to that effect and the Permit covering said pole shall terminate and cease to be effective as to said pole unless within ten (10) days after such notice the Owner receives authorization from the Licensee agreeing to pay the entire cost (as provided in Paragraph (3)(a) of Article VII hereof) to the Owner of replacing the inadequate pole with a pole adequate to support such additional attachments or use together with the attachments of the Licensee and the existing attachments of the Owner that are to remain, and the existing attachments of other parties if made pursuant to joint use or pole license agreements executed prior to the date of this agreement. If the existing pole would be adequate but for the attachments of other parties made pursuant to joint use or pole license agreements executed after the date of this agreement, the Licensee shall not be liable for any portion of the cost of a replacement pole therefor.

The Licensee may at any time terminate any Permit or Permits by removing its attachments from any pole or poles and by notice to the Owner in duplicate on the Termination of Attachments by Licensee form attached hereto and made a part hereof as Exhibit C; the Permit or Permits covering the use of such pole or poles shall thereupon terminate and cease to be effective.

Any Permit granted hereunder for attachment to the Owner's poles shall terminate without further notice to Licensee as to individual poles covered by the Permit to which Licensee has not attached within sixty (60) days from the date that Owner has notified Licensee that such poles are available for attachment of the operating facilities of Licensee.

All Permits shall automatically terminate and cease to be effective upon the termination of this agreement.

Form 645 5-86

**ARTICLE IX
TERMINATION FOR DEFAULT**

If the Licensee shall neglect or refuse to comply with any of the provisions of this agreement, including the specifications and requirements referred to in Article II hereof, or default on any of its obligations hereunder, and shall fail within ten (10) days after written notice from the Owner to correct such neglect, refusal or default, the Owner may at its option, in addition to any other remedy available to it, forthwith terminate this agreement or the Permit or Permits covering the pole or poles as to which such neglect, refusal or default shall have occurred.

**ARTICLE X
REMOVAL UPON TERMINATION**

The Licensee shall remove from any pole or poles its facilities, the Permit or Permits for which have been terminated, within thirty (30) days (except as otherwise provided in the first paragraph of Article VIII hereof) after the time such Permit or Permits cease to be effective, failing which the Owner shall have the right to remove the Licensee's facilities from said pole or poles without notice or liability of any kind to the Licensee; in the latter event, the Licensee shall reimburse the Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties), resulting from such removal.

**ARTICLE XI
LIABILITY AND INSURANCE**

The Owner reserves to itself, its successors and assigns, the right to maintain its poles and to operate its facilities thereon in such manner as will best enable it to fulfill its own service requirements. The Owner shall not be liable to the Licensee for any interruption in service furnished by the Owner to the Licensee or to other customers of the Owner, or in service furnished by the Licensee to customers of the Licensee, or for any interference, including, but not limited to, inductive interference, with the operation of facilities of the Licensee or of customers of the Owner or of the Licensee, which may arise in any manner out of the Licensee's use of the Owner's poles or other facilities, whether by the negligence of the Owner or otherwise.

The Licensee agrees to exercise special precautions to avoid damage to facilities of the Owner and of others on the Owner's poles, and the Licensee hereby assumes responsibility for any and all damage to such facilities arising out of or caused by the conduct or property of the Licensee, whether by the negligence of the Licensee or otherwise. The Licensee shall make an immediate report to the owner or owners of any such facilities of the occurrence of any such damage and hereby agrees to reimburse such owner or owners for expenses incurred by them in making necessary repairs and replacements.

The Licensee shall assume all responsibility for bodily injury to persons, including death or damages, sustained or claimed by its employees, the employees of the Owner, or by any other person, and also for damage to property, including property of the Licensee, the Owner, or any other person, and also for any interruptions to electric or community antenna television or other communications service, which may occur or allegedly occur because of, or result from, or in any manner are connected with or directly or indirectly arise out of or are caused in whole or in part by the erection, maintenance, presence, replacement, use or removal of the Licensee's facilities hereunder or by the proximity of the Licensee's cables, wires and associated equipment and those of the Owner or other users of the Owner's poles, or by any action, operation or omission of the Licensee, its agents, contractors or employees, under this agreement; and the Licensee shall assume all responsibility for and shall indemnify and save the Owner harmless from and against all losses, liabilities, claims, demands, payments, actions, legal proceedings, recoveries, costs, expenses, attorney fees, settlements, judgments, orders and decrees of every nature and description brought or recovered against, or incurred by, the Licensee, the Owner, or both of them, by reason of any such bodily injury to persons, damage to property, or interruptions to service. Notwithstanding the foregoing, the Licensee shall not be required to indemnify the Owner against liability for damages arising out of bodily injury to persons,

damage to property or interruptions to service caused by or resulting from the sole negligence of the Owner, its agents, or employees.

Licensee shall also indemnify, protect and save harmless Owner from any and all claims and demands of whatever kind which arise directly or indirectly from the operation of Licensee's facilities including taxes, special charges by others, claims and demands for damages or loss for infringement of copyright, for libel and slander, for unauthorized use of other program material, and from and against all claims and demands for infringement of patents with respect to the manufacture, use and operation of Licensee's equipment whether arising from the use of Licensee's equipment in combination with Owner's poles or otherwise.

Without limiting the foregoing, the Licensee agrees at the request of the Owner to defend at the Licensee's expense any suit or proceeding brought against the Owner for any of the above-named reasons.

The Licensee shall at its sole expense secure and maintain in force in the name of the Licensee during the entire life of this agreement, policies of insurance of the following types:

- (a) Workers' Compensation Insurance with Michigan statutory limits.
- (b) Comprehensive General Liability Insurance with a minimum combined bodily injury and property damage single limit of \$500,000 per occurrence. The Owner shall be included as an Additional Insured under Premises-Operations and Completed Operations, as its interests may appear.
- (c) Contractual Liability Insurance specifically endorsed to cover liability assumed by the Licensee under this agreement with the Owner.
- (d) Automobile Liability Insurance with a minimum combined bodily injury and property damage single limit of \$100,000 per occurrence, providing coverage for owned, nonowned and hired vehicles. The Owner shall be included as an Additional Insured as its interest may appear.

Such policies of insurance shall be in a form and with companies satisfactory to the Owner and each policy shall include, by endorsement, the following Cancellation or Change Clause:

"This insurance will not be canceled by this Insurance Company nor any changes made in the policy which materially change, restrict, or reduce the insurance provided, or change the name of the Insured, as respects contracts or subcontracts performed by the Insured for Consumers Power Company, without first giving ten days' notice in writing to Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201; Attention Insurance Department."

Either a certificate of insurance, on a form to be supplied by the Owner, or certified copies of the policies must be filed with and approved by the Owner prior to the attachment of facilities of the Licensee to any pole or poles of the Owner hereunder.

The above requirements as to policies of insurance may be varied by written amendment to this agreement.

ARTICLE XII RIGHTS OF OTHER PARTIES

Nothing contained herein shall be construed as affecting any rights or privileges, heretofore granted by the Owner by contract or otherwise to any other parties, to use any poles covered by this agreement, and the Owner shall have the right to continue, modify and extend any such rights or privileges in accordance with the terms of any such rights or privileges. The attachment privileges granted herein shall be subject to such previously granted rights or privileges. Moreover, nothing contained herein shall be construed as affecting any rights or privileges hereafter

Form 645 5-86

granted by the Owner by contract or otherwise to any other parties, to use any poles covered by this agreement, and the Owner shall have the right to initiate, continue, modify and extend any such rights or privileges in any manner not inconsistent with the performance of its obligations hereunder.

**ARTICLE XIII
ASSIGNMENT**

This agreement shall be personal to the Licensee, and any assignment or other transfer by the Licensee, in whole or in part, of its rights or privileges hereunder, without the prior written consent of the Owner, shall be void and not merely voidable. Subject to the foregoing, this agreement shall extend to and bind the successors and assigns of the parties hereto.

**ARTICLE XIV
WAIVER OF TERMS AND CONDITIONS**

Failure of the Owner to enforce or insist upon compliance with any of the terms or conditions of this agreement shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in full force and effect.

**ARTICLE XV
BILLS AND PAYMENTS**

Unless otherwise expressly provided herein, bills under this agreement shall be payable within twenty-one (21) days after presentation. Nonpayment of bills within said period shall be deemed to be a default within the meaning of Article IX hereof. Any bill not paid when due shall be subject to the Late Payment Charge provided in the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time.

**ARTICLE XVI
MICHIGAN PUBLIC SERVICE COMMISSION**

This agreement is subject to all applicable rules, regulations and orders of the Michigan Public Service Commission and to the terms of the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time. To the extent that any provision of this agreement is in conflict with any such rule, regulation, order or rate, such rule, regulation, order or rate shall control.

**ARTICLE XVII
TERM OF AGREEMENT**

This agreement shall take effect on _____, 19 ____ and, unless sooner terminated in accordance with the provisions of Article IX hereof, shall continue in effect until terminated by mutual consent, or by either party giving the other at least six months' advance written notice of its desire to terminate the same at any time hereafter.

**ARTICLE XVIII
NOTICES AND DOCUMENTS**

Except as otherwise provided in this agreement, the giving or furnishing of any notice or document in connection with this agreement shall be deemed to occur (a) in the case of personal delivery of such notice or document, on the date of such delivery, (b) in the case of mailing of such notice or document by registered or certified mail, on the date of receipt of such registered or certified mail, or (c) in the case of mailing of such notice or document by regular mail, on the second business day following the date of postmark of such mailing.

Notices or other documents to be given or furnished to the Owner shall be delivered or mailed to:

Consumers Power Company

_____, Michigan _____

Attention: Region Energy Services Manager

Notices or other documents to be given or furnished to the Licensee shall be delivered or mailed to:

Attention: _____

Either party may at any time change a designation of the individual or address to which notices or other documents are to be delivered or mailed by giving notice in writing of such change of designation to the other party.

**ARTICLE XIX
PREVIOUS AGREEMENTS**

With respect to the subject matter hereof, this agreement supersedes all previous representations, understandings and negotiations, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement between the parties.

**ARTICLE XX
TRANSFER**

The existing pole attachment contract dated _____ between the parties hereto for _____ is hereby terminated as of the effective date of this agreement. As to any municipalities covered by this agreement: (1) all valid permits under said terminated contract shall become permits under this agreement as of the effective date hereof; and (2) all outstanding permit applications under said terminated contract shall be deemed to be applications for permits under this agreement.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed in duplicate by their duly authorized representatives as of the day and year hereinabove first written.

CONSUMERS POWER COMPANY

By _____ Vice President

(Licensee)

By _____

Type Name _____

Title _____

POLE LICENSE AGREEMENT

THIS AGREEMENT, made as of the _____ day of _____, 19____, by and between CONSUMERS POWER COMPANY, a Michigan corporation, having its principal office in the City of Jackson, Michigan, hereinafter called "the Owner," and _____

hereinafter called "the Licensee,"

WITNESSETH:

WHEREAS, the Licensee represents that it is the holder of all necessary governmental permits to erect and maintain aerial cables, wires and associated equipment in the streets, alleys and other public places of _____

_____, Michigan (hereinafter called "the municipality") for the purpose of transmitting communications and/or electricity; and

WHEREAS, the Licensee desires to attach such aerial cables, wires and associated equipment to three or more poles of the Owner located in said municipality in order to avoid expensive and unnecessary duplication of facilities; and

WHEREAS, the Owner is willing to permit, to the extent it may lawfully do so, the attachment of such aerial cables, wires and associated equipment to its poles in the municipality for the above stated purposes, upon the terms and conditions hereinafter set forth;

NOW, THEREFORE, in consideration of their respective undertakings herein, the parties agree as follows:

ARTICLE I AVAILABILITY OF POLES FOR LICENSEE'S ATTACHMENTS

To the extent permitted by law, by the provisions of presently existing joint-use contracts, and by the terms of all necessary permits, licenses, easements, franchises or consents from property owners and governmental authorities having jurisdiction, all of the Owner's poles in the municipality shall be available to the Licensee for the attachment of aerial cables, wires and associated equipment constituting a portion of the Licensee's system in accordance with the terms of this agreement, if and to the extent that such use, in the Owner's judgment, will not interfere with the Owner's service requirements, including, but not by way of limitation, considerations of safety and economy. No payment for facility alterations (including, but not limited to, contributions toward the cost of replacement poles) or use of the Owner's poles under this agreement, however extended, shall create or vest in the Licensee any ownership or property rights in such facilities or poles, and the Licensee's rights in said poles shall be and remain a mere license.

ARTICLE II SPECIFICATIONS

All of the Licensee's cables, wires and associated equipment herein provided for shall be erected and maintained in accordance with the requirements and specifications of Michigan Public Service Commission Order No. 1679, as amended, other applicable rules or orders of the Michigan Public Service Commission and other authorities having jurisdiction, and such other specifications, not less restrictive than the foregoing, as the parties may agree upon from time to time. Drawings showing certain of such requirements and specifications are attached hereto and made a part hereof as Exhibit A, Pages 1 through 7.

REMOVED BY 46300
MAR 24 1981
REMOVED BY [Signature]

All of the Licensee's cables, wires and associated equipment shall be erected and maintained by properly trained, skilled workmen who are fully qualified to perform such work in proximity to electric lines and equipment.

The Owner may specify the location on its pole or poles at which attachments are to be made. In the event an attachment at the location specified by the Owner would violate any applicable law, rule, regulation, ordinance or order of any governmental authority or regulatory body, including the Michigan Public Service Commission, the Licensee shall so advise the Owner and obtain its authorization to make such attachment at a location which does not violate any such law, rule, regulation, ordinance or order. It shall be the sole responsibility of the Licensee to determine if the making or maintaining of attachments at the specified location or locations will violate any such law, rule, regulation, ordinance or order. No attachment shall be made or maintained at a location that violates any such law, rule, regulation, ordinance or order.

ARTICLE III APPLICATION AND PERMIT PROCEDURE

Whenever the Licensee desires to make an attachment to any pole or poles of the Owner, the Licensee shall prepare and submit to the Owner three (3) copies of an application (accompanied by the application fee required by Paragraph (1) of Article VII hereof) on an Application and Permit form, a copy of which is attached hereto and made a part hereof as Exhibit B, including any sketch and other information necessary to clearly show the location of such pole or poles. As soon as reasonably possible after a properly prepared and submitted Application and Permit is furnished to the Owner, the Owner shall either deny or grant permission for such attachment as follows:

- (1) If, in the Owner's judgment, such pole or poles or any of them, are unavailable for attachment, such Application and Permit shall be ineffective and the Owner shall notify the Licensee in writing of such unavailability.
- (2) If, in the Owner's judgment, such pole or poles are available for attachment, and the Licensee is not to be charged for any cost of facility alterations in connection therewith, the Owner shall complete, execute and furnish to the Licensee one (1) copy of such Application and Permit, which shall thereupon be effective as a Permit.
- (3) If, in the Owner's judgment, such pole or poles are available for attachment, and the Licensee is to be charged for the cost of facility alterations in connection therewith, the Owner shall complete, execute and furnish to the Licensee two (2) copies of such Application and Permit, setting forth the estimated cost of such facility alterations. The Licensee, if it desires to proceed with the permitted attachments subject to payment of the cost of such facility alterations as provided in Article V hereof, shall endorse its authorization of such facility alterations on the Application and Permit and return one (1) copy thereof to the Owner within ten (10) days after the time the executed copies of the Application and Permit were furnished to the Licensee by the Owner. Such Application and Permit shall be effective as a Permit upon the furnishing of written notice to the Licensee that all necessary facility alterations have been completed. If the Licensee does not return the Application and Permit containing its endorsed authorization of such facility alterations within the time specified herein, such Application and Permit shall be ineffective.

The Licensee shall make no attachments to any pole of the Owner as to which there does not exist an effective Permit, and as to which all necessary permits, licenses, easements, franchises and consents have not been secured by the Licensee as required by or pursuant to Article IV hereof.

If any cable, wire or equipment of Licensee shall be found on a pole for which no license is outstanding, the Owner, without prejudice to its other rights or remedies under this agreement or otherwise, may (1) impose a charge, and (2) require Licensee to remove such cable, wire or equipment forthwith or the Owner may remove them without liability 30 days after having given written notice to the Licensee of their unauthorized attachment and the expense of removal shall be borne by Licensee. In the latter event, the Licensee shall reimburse the Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties) resulting from such

unauthorized attachment and the removal thereof. For the purpose of determining the charge, in the absence of satisfactory evidence to the contrary, the unlicensed use shall be treated as having existed for a period of three (3) years prior to its discovery; and the fee, at the appropriate rate as shown in Article VII hereof, for each year and for any portion of a year contained in such period, shall be due and payable forthwith. Any such fee imposed by the Owner shall be in addition to its rights to any other sums due and payable and to any claims or damages under this agreement or otherwise. No act or failure to act by the Owner with regard to said fee or said unlicensed use shall be deemed as a ratification, or the licensing, of the unlicensed use, and if any license should subsequently be issued, after application and payment of the application fee therefor, said license shall not operate retroactively or constitute a waiver by the Owner of any of its rights or privileges under this agreement or otherwise.

ARTICLE IV RIGHT OF WAY FOR LICENSEE'S ATTACHMENTS

It is agreed that the Licensee shall be responsible for securing from property owners and governmental authorities having jurisdiction all necessary permits, licenses, easements, franchises and consents relating to the Licensee's erection and maintenance of aerial cables, wires and associated equipment at any pole location proposed to be utilized, and for submitting satisfactory evidence of the same to the Owner if requested so to do, before making an attachment at such pole location.

It is also agreed that upon the execution of this agreement, the Licensee shall submit to the Owner satisfactory evidence of the Licensee's right to erect and maintain aerial cables, wires and associated equipment in the streets, alleys and other public places of the municipality.

ARTICLE V FACILITY ALTERATIONS FOR LICENSEE'S ATTACHMENTS

If the Licensee, by endorsement of an Application and Permit as provided in Article III hereof, indicates its desire to make a pole attachment which in the Owner's judgment will require a facility alteration, such endorsement shall constitute authorization for the making of the alteration by the Owner or others. The alterations, including replacement of inadequate poles, shall be made with reasonable promptness after receipt of the Licensee's authorization, and notice of completion shall be given to the Licensee within ten (10) days after completion. The Licensee shall pay the Owner for such facility alterations in accordance with Article VII hereof.

The Licensee shall also reimburse the owner or owners of any other facilities attached to the existing pole pursuant to joint use or pole license agreements for their respective costs of altering their attached facilities, including where applicable the cost of transferring said facilities from the existing pole to the replacement pole, except to the extent, if any, that such owner(s) has agreed to pay for same.

The time and manner of the making of any such payment to the owner or owners of any such other facilities shall be as agreed between the Licensee and said owner or owners.

ARTICLE VI MAINTENANCE OF LICENSEE'S ATTACHMENTS AND INSPECTION

The Licensee agrees to make and maintain its attachments in safe condition and in thorough repair, at its own expense, and in such a manner, suitable to the Owner, that said attachments will not conflict with the use of poles by the Owner or other authorized parties, or interfere with the operation or use of facilities which are or which may from time to time be placed thereon. The Licensee shall at any time, at its own expense, upon notice from the Owner, relocate, replace or renew its facilities placed on said poles, transfer its facilities to replacement poles, or perform any other work in connection with said facilities that may be required by the Owner in the maintenance, replacement, removal or relocation of said poles or the facilities which are or which may from time to time be placed thereon, or that may be required for the service needs of the Owner. If the Licensee neglects or

refuses to comply with the directives of such a notice, or in cases of emergency, the Owner shall have the right to remove, relocate, replace or renew the facilities placed on said poles by the Licensee, transfer such facilities to replacement poles, or perform any other work in connection with said facilities and the Licensee shall, on demand, reimburse the Owner for the costs thereby incurred as a result of the Licensee's failure or refusal to act in compliance with such notice.

The Licensee shall be solely responsible for eliminating any and all inductive interference. The Owner will, if requested by the Licensee, cooperate with the Licensee in eliminating such interference; however, the Licensee shall pay all costs of any work or operations performed by the Owner to eliminate or reduce inductive interference.

The Owner reserves the right to inspect each new installation and to make periodic inspections of any part of the cable, wires and equipment of Licensee on the Owner's poles and in the vicinity thereof; and Licensee shall reimburse the Owner for the expense of such inspections. Inspections will not be made more often than once a year unless, in the Owner's judgment, such inspections are required for reasons involving safety or are required because of a violation of the terms of this agreement by Licensee. The charge for the inspection shall be in accordance with the terms and conditions of Article VII hereof. The making of such inspections or the failure to do so shall not operate to relieve Licensee of any responsibility, obligation or liability assumed under this agreement.

ARTICLE VII FEES AND CHARGES

- (1) The Licensee agrees to pay the Owner an Application Fee in the amount provided for in Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time, for each application for a license. Said Fee must accompany the Application.
- (2) The Licensee agrees to pay the Owner an Annual Fee in the amount provided for in the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time. For each pole covered by a Permit granted after July 1 of any contract year, the Licensee shall, within twenty-one (21) days after issuance of the Permit for said pole, pay the pro rata portion of the Annual Fee for the remainder of the contract year.
- (3) The Licensee further agrees to pay the Owner:
 - (a) The Owner's cost (including, but not limited to, the cost of inspection, engineering, rearranging the existing facilities, guying of the pole, tree trimming and/or replacement of the pole) of making alterations of its facilities to permit an attachment by the Licensee when the Licensee has authorized such alteration pursuant to this agreement. The cost of replacing an inadequate pole shall include (i) that portion of the cost of such replacement pole that exceeds the current cost of a pole of the same type, class and size as the existing pole, plus (ii) the undepreciated portion of the original cost of labor of installing the existing pole and the unaccumulated portion of the cost of labor of removing the existing pole, plus (iii) the cost of installation of the replacement pole, plus (iv) the cost of transferring facilities from the existing pole to the replacement pole.
 - (b) The Owner's cost of making any inspection or inspections pursuant to Article VI hereof.
- (4) In the event that any present or future Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls prevent the Owner from charging all or any part of the Application Fee provided for in Paragraph (1) of this Article VII or any part of the Annual Fee provided for in Paragraph (2) of this Article VII, the Licensee shall, during the time or times that the Owner is prevented from making such charges, pay the portion of said Application Fee and/or Annual Fee which is permissible under such Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls.

- (5) When any charge to the Licensee provided for in this agreement is to be based upon the Owner's cost, said cost shall be determined in accordance with the Owner's regular and customary method of determining such costs unless otherwise expressly provided herein.
- (6) The Owner may at its option require the Licensee to pay the estimated cost of any facility alteration, to be paid by it pursuant to Paragraph (3)(a) of this Article VII, prior to the commencement of engineering and/or other work on said alterations. If the actual cost of any such alterations is not equal to the advance payment made by the Licensee for said alterations, the Owner will, after completion of said alteration, submit to the Licensee a bill for the amount by which the cost of said alterations exceeded said advance payment or will grant the Licensee a credit for the amount by which said advance payment exceeded the actual cost of said alteration.

ARTICLE VIII TERMINATION OF ATTACHMENT PERMITS

Upon notice from the Owner to Licensee that the use of any pole is not authorized by Federal, State, County or Municipal authorities or private property owners, the license covering the use of such pole shall immediately terminate and shall be surrendered and Licensee shall remove its cables, equipment and facilities at once from the affected pole or poles.

Upon notice from the Owner to the Licensee that the Owner intends to abandon any pole, the Permit covering said pole shall, unless otherwise provided in the notice, terminate and cease to be effective as to said pole. To the extent that it may legally do so under prior agreements or otherwise, the Owner may sell to the Licensee, at any time within thirty (30) days after such notice, at the then value thereof in place or such other equitable sum as may be agreed upon between the parties, any pole which the Owner has given notice of intent to abandon.

If at any time the Owner, or other party under the terms of a joint use or pole license agreement executed prior to the date of this agreement, desires to make additional attachments to any pole (except a pole replaced at the Licensee's expense under Article V hereof) carrying attachments of the Licensee, or otherwise to use for its own service needs the space occupied by the Licensee's attachments, and in the Owner's judgment the existing pole is inadequate under applicable requirements and specifications to support such additional attachments or use, the Owner shall give the Licensee notice to that effect and the Permit covering said pole shall terminate and cease to be effective as to said pole unless within ten (10) days after such notice the Owner receives authorization from the Licensee agreeing to pay the entire cost (as provided in Paragraph (3)(a) of Article VII hereof) to the Owner of replacing the inadequate pole with a pole adequate to support such additional attachments or use together with the attachments of the Licensee and the existing attachments of the Owner that are to remain, and the existing attachments of other parties if made pursuant to joint use or pole license agreements executed prior to the date of this agreement. If the existing pole would be adequate but for the attachments of other parties made pursuant to joint use or pole license agreements executed after the date of this agreement, the Licensee shall not be liable for any portion of the cost of a replacement pole therefor.

The Licensee may at any time terminate any Permit or Permits by removing its attachments from any pole or poles and by notice to the Owner in duplicate on the Termination of Attachments by Licensee form attached hereto and made a part hereof as Exhibit C; the Permit or Permits covering the use of such pole or poles shall thereupon terminate and cease to be effective.

Any Permit granted hereunder for attachment to the Owner's poles shall terminate without further notice to Licensee as to individual poles covered by the Permit to which Licensee has not attached within sixty (60) days from the date that Owner has notified Licensee that such poles are available for attachment of the operating facilities of Licensee.

All Permits shall automatically terminate and cease to be effective upon the termination of this agreement.

**ARTICLE IX
TERMINATION FOR DEFAULT**

If the Licensee shall neglect or refuse to comply with any of the provisions of this agreement, including the specifications and requirements referred to in Article II hereof, or default on any of its obligations hereunder, and shall fail within ten (10) days after written notice from the Owner to correct such neglect, refusal or default, the Owner may at its option, in addition to any other remedy available to it, forthwith terminate this agreement or the Permit or Permits covering the pole or poles as to which such neglect, refusal or default shall have occurred.

**ARTICLE X
REMOVAL UPON TERMINATION**

The Licensee shall remove from any pole or poles its facilities, the Permit or Permits for which have been terminated, within thirty (30) days (except as otherwise provided in the first paragraph of Article VIII hereof) after the time such Permit or Permits cease to be effective, failing which the Owner shall have the right to remove the Licensee's facilities from said pole or poles without notice or liability of any kind to the Licensee; in the latter event, the Licensee shall reimburse the Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties), resulting from such removal.

**ARTICLE XI
LIABILITY AND INSURANCE**

The Owner reserves to itself, its successors and assigns, the right to maintain its poles and to operate its facilities thereon in such manner as will best enable it to fulfill its own service requirements. The Owner shall not be liable to the Licensee for any interruption in service furnished by the Owner to the Licensee or to other customers of the Owner, or in service furnished by the Licensee to customers of the Licensee, or for any interference, including, but not limited to, inductive interference, with the operation of facilities of the Licensee or of customers of the Owner or of the Licensee, which may arise in any manner out of the Licensee's use of the Owner's poles or other facilities, whether by the negligence of the Owner or otherwise.

The Licensee agrees to exercise special precautions to avoid damage to facilities of the Owner and of others on the Owner's poles, and the Licensee hereby assumes responsibility for any and all damage to such facilities arising out of or caused by the conduct or property of the Licensee, whether by the negligence of the Licensee or otherwise. The Licensee shall make an immediate report to the owner or owners of any such facilities of the occurrence of any such damage and hereby agrees to reimburse such owner or owners for expenses incurred by them in making necessary repairs and replacements.

The Licensee shall assume all responsibility for bodily injury to persons, including death or damages, sustained or claimed by its employees, the employees of the Owner, or by any other person, and also for damage to property, including property of the Licensee, the Owner, or any other person, and also for any interruptions to electric or community antenna television or other communications service, which may occur or allegedly occur because of, or result from, or in any manner are connected with or directly or indirectly arise out of or are caused in whole or in part by the erection, maintenance, presence, replacement, use or removal of the Licensee's facilities hereunder or by the proximity of the Licensee's cables, wires and associated equipment and those of the Owner or other users of the Owner's poles, or by any action, operation or omission of the Licensee, its agents, contractors or employees, under this agreement; and the Licensee shall assume all responsibility for and shall indemnify and save the Owner harmless from and against all losses, liabilities, claims, demands, payments, actions, legal proceedings, recoveries, costs, expenses, attorney fees, settlements, judgments, orders and decrees of every nature and description brought or recovered against, or incurred by, the Licensee, the Owner, or both of them, by reason of any such bodily injury to persons, damage to property, or interruptions to service. Notwithstanding the foregoing, the Licensee shall not be required to indemnify the Owner against liability for damages arising out of bodily injury to persons,

damage to property or interruptions to service caused by or resulting from the sole negligence of the Owner, its agents, or employees.

Licensee shall also indemnify, protect and save harmless Owner from any and all claims and demands of whatever kind which arise directly or indirectly from the operation of Licensee's facilities including taxes, special charges by others, claims and demands for damages or loss for infringement of copyright, for libel and slander, for unauthorized use of other program material, and from and against all claims and demands for infringement of patents with respect to the manufacture, use and operation of Licensee's equipment whether arising from the use of Licensee's equipment in combination with Owner's poles or otherwise.

Without limiting the foregoing, the Licensee agrees at the request of the Owner to defend at the Licensee's expense any suit or proceeding brought against the Owner for any of the above-named reasons.

The Licensee shall at its sole expense secure and maintain in force in the name of the Licensee during the entire life of this agreement, policies of insurance of the following types:

- (a) Workers' Compensation Insurance with Michigan statutory limits.
- (b) Comprehensive General Liability Insurance with a minimum combined bodily injury and property damage single limit of \$500,000 per occurrence. The Owner shall be included as an Additional Insured under Premises-Operations and Completed Operations, as its interests may appear.
- (c) Contractual Liability Insurance specifically endorsed to cover liability assumed by the Licensee under this agreement with the Owner.
- (d) Automobile Liability Insurance with a minimum combined bodily injury and property damage single limit of \$100,000 per occurrence, providing coverage for owned, nonowned and hired vehicles. The Owner shall be included as an Additional Insured as its interest may appear.

Such policies of insurance shall be in a form and with companies satisfactory to the Owner and each policy shall include, by endorsement, the following Cancellation or Change Clause:

"This insurance will not be canceled by this Insurance Company nor any changes made in the policy which materially change, restrict, or reduce the insurance provided, or change the name of the Insured, as respects contracts or subcontracts performed by the Insured for Consumers Power Company, without first giving ten days' notice in writing to Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201; Attention Insurance Department."

Either a certificate of insurance, on a form to be supplied by the Owner, or certified copies of the policies must be filed with and approved by the Owner prior to the attachment of facilities of the Licensee to any pole or poles of the Owner hereunder.

The above requirements as to policies of insurance may be varied by written amendment to this agreement.

**ARTICLE XII
RIGHTS OF OTHER PARTIES**

Nothing contained herein shall be construed as affecting any rights or privileges, heretofore granted by the Owner by contract or otherwise to any other parties, to use any poles covered by this agreement, and the Owner shall have the right to continue, modify and extend any such rights or privileges in accordance with the terms of any such rights or privileges. The attachment privileges granted herein shall be subject to such previously granted rights or privileges. Moreover, nothing contained herein shall be construed as affecting any rights or privileges hereafter

PREPARED BY: 116300
 INDEX
 MAR 24 1981
 ENDORSED BY: [Signature]

granted by the Owner by contract or otherwise to any other parties, to use any poles covered by this agreement, and the Owner shall have the right to initiate, continue, modify and extend any such rights or privileges in any manner not inconsistent with the performance of its obligations hereunder.

**ARTICLE XIII
ASSIGNMENT**

This agreement shall be personal to the Licensee, and any assignment or other transfer by the Licensee, in whole or in part, of its rights or privileges hereunder, without the prior written consent of the Owner, shall be void and not merely voidable. Subject to the foregoing, this agreement shall extend to and bind the successors and assigns of the parties hereto.

**ARTICLE XIV
WAIVER OF TERMS AND CONDITIONS**

Failure of the Owner to enforce or insist upon compliance with any of the terms or conditions of this agreement shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in full force and effect.

**ARTICLE XV
BILLS AND PAYMENTS**

Unless otherwise expressly provided herein, bills under this agreement shall be payable within twenty-one (21) days after presentation. Nonpayment of bills within said period shall be deemed to be a default within the meaning of Article IX hereof. Any bill not paid when due shall be subject to the Late Payment Charge provided in the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time.

**ARTICLE XVI
MICHIGAN PUBLIC SERVICE COMMISSION**

This agreement is subject to all applicable rules, regulations and orders of the Michigan Public Service Commission and to the terms of the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time. To the extent that any provision of this agreement is in conflict with any such rule, regulation, order or rate, such rule, regulation, order or rate shall control.

**ARTICLE XVII
TERM OF AGREEMENT**

This agreement shall take effect on _____, 19 ____ and, unless sooner terminated in accordance with the provisions of Article IX hereof, shall continue in effect until terminated by mutual consent, or by either party giving the other at least six months' advance written notice of its desire to terminate the same at any time hereafter.

**ARTICLE XVIII
NOTICES AND DOCUMENTS**

Except as otherwise provided in this agreement, the giving or furnishing of any notice or document in connection with this agreement shall be deemed to occur (a) in the case of personal delivery of such notice or document, on the date of such delivery, (b) in the case of mailing of such notice or document by registered or certified mail, on the date of receipt of such registered or certified mail, or (c) in the case of mailing of such notice or document by regular mail, on the second business day following the date of postmark of such mailing.

Notices or other documents to be given or furnished to the Owner shall be delivered or mailed to:

Consumers Power Company

_____, Michigan _____

Attention: Region Energy Services Manager

Notices or other documents to be given or furnished to the Licensee shall be delivered or mailed to:

Attention: _____

Either party may at any time change a designation of the individual or address to which notices or other documents are to be delivered or mailed by giving notice in writing of such change of designation to the other party.

**ARTICLE XIX
PREVIOUS AGREEMENTS**

With respect to the subject matter hereof, this agreement supersedes all previous representations, understandings and negotiations, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement between the parties.

**ARTICLE XX
TRANSFER**

The existing pole attachment contract dated _____ between the parties hereto for _____ is hereby terminated as of the effective date of this agreement. As to any municipalities covered by this agreement: (1) all valid permits under said terminated contract shall become permits under this agreement as of the effective date hereof; and (2) all outstanding permit applications under said terminated contract shall be deemed to be applications for permits under this agreement.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed in duplicate by their duly authorized representatives as of the day and year hereinabove first written.

**CENTRAL POINT DISTRIBUTION FACILITIES
FOR FARM CUSTOMERS**

GENERAL

1. Consumers Energy Company will, under the conditions outlined below, install its meter and permit a farm customer to install his service entrance wiring and equipment on the Company-owned pole. The pole should be at a point centrally located to the residence and farm buildings in the immediate area. It may be either an existing pole owned by the Company or a new pole that must be set to provide adequate service to the customer.
2. The pole will be owned and maintained by the Company and will be known as a "Central Point Distribution Pole." It may also support such other customer-owned wires and equipment to adequately provide for his requirements for electricity on his premises. Refer to attached drawings. Contact Company representative if there are any questions.

AVAILABILITY

1. Central point distribution facilities are available only to farm customers where a permanent residence exists.
2. An established customer can qualify for central point distribution if his load has increased beyond the capacity of his original service entrance and the customer is willing and ready to rewire for greater capacity.
3. A new customer can qualify for this type of service if his demand (present or future) requires a 3-wire, 120/240 volt service entrance rated 200 amperes or more.

REQUIREMENTS

1. The capacity of the customer's service entrance conductors installed on a Central Point Distribution Pole shall be 200 amperes or more.
2. All material, workmanship and location of equipment on the Central Point Distribution Pole must meet the approval of the Company before final service connections will be made by the Company.
3. Customer's wires shall be installed to meet the minimum clearance requirement specified in Article 230-24(b), "Services," of the National Electrical Code. In general, these are as follows:
 - 10' above ground at all points including the drip loop
 - 10' above ways accessible to pedestrians only
 - 12' above residential property and driveways, and those commercial areas not subject to truck traffic
 - 18' above public streets, alleys, roads, parking areas subject to truck traffic, driveways on other than residential property, and other land traversed by vehicles such as cultivated, grazing, forest and orchard
 - Special requirements exist for electric lines near swimming pools as specified in Articles 680-8 and 680-10 of the National Electrical Code
4. The National Electrical Safety Code requires two-foot clearance where power wires cross over and a four-foot clearance where they cross under telephone wires.
5. Radio, television and CB antennas are not permitted on the Central Point Distribution Pole.
6. No customer's wiring or equipment, other than that shown on drawings, will be permitted on a Central Point Distribution Pole without the approval of the Company.
7. A Facility License Agreement, Form 650, shall be prepared for each Central Point Distribution Pole Installation and shall be signed by the customer before service is rendered.

as second party:

WITNESSETH:

In consideration of the terms hereof, the Company hereby grants to the Licensee the right and privilege of attaching to the certain Central Point Distribution Pole of the Company, the location of which is shown on the sketch on the reverse side hereof and made a part hereof, the certain electrical equipment and wires owned by the Licensee; consisting of one or more of the following: Flood Light, Weatherproof Deadfront Service Switch, Vertical Service Conductors consisting of conductors in conduit or electrical metallic tubing, from point of connection to Company's service wires or transformer secondary terminals to the meter and from the service switch to a point of connection to service drop wires to Licensee's buildings or structures and Service Drop Wires from the pole to said buildings or structures, including Switch Wires, necessary supports, and any grounding facilities, which said equipment and wires may be attached to and maintained by the Licensee on the pole above referred to. No pole steps, radio aerial, or other attachment not herein specifically enumerated shall be placed on said pole by Licensee. The Licensee agrees that no buildings or other structures will be placed under the Company's wires extending to or from said pole without the written consent of the Company.

It is expressly agreed that in making the Licensee's said attachments and maintaining the same under the terms hereof, Licensee shall comply with all local and state wiring codes and with the rules and requirements of the Michigan Public Service Commission as the same shall from time to time be in force and effect. Said pole shall be maintained by the Company, and the attachments and other property of the Licensee shall be solely maintained by Licensee; the Company, however, reserving the right to designate the particular locations at which the attachments of the Licensee shall be made.

The Licensee assumes all risk of damage to its property attached hereunder or connected therewith, whether caused by the wires and other apparatus and property of the Company or by some other cause; and the Licensee also agrees to indemnify and save the Company harmless from all claims, demands, rights of action or expense for injury or damage to persons or property arising on account or out of the exercise of the privilege and permission hereby granted, and during the duration of this license.

The grant of the privilege hereby made is gratuitous on the part of the Company, and constitutes the consideration for the Licensee indemnifying the Company against loss or damage arising as aforesaid. Said privilege may be terminated upon thirty (30) days' notice given by the Company or its authorized representative, and upon receipt of said notice, or in case the Licensee shall desire to discontinue the exercise of the privilege hereby granted, the Licensee shall forthwith remove its wires and attachments from the Company's pole.

IN WITNESS WHEREOF, said parties have caused this instrument to be executed in duplicate, as of the day and year first aforesaid.

GREEN POWER PROGRAM ENROLLMENT

Date:

Customer Name:
Mailing Address:

Service Address:

Account Number:

I agree to participate in the Green Power Program at the level specified below. I understand that I will pay the green power surcharge amount shown in addition to the price I already pay for electricity.

- 10% Green Power Surcharge: An additional \$.0032/kWh for all kWh
- 50% Green Power Surcharge: An additional \$.016/kWh for all kWh
- 100% Green Power Surcharge: An additional \$.032/kWh for all kWh
- _____ kWh per month (an additional \$.032/kWh)

_____ Number of years you agree to purchase green power

I understand that once my enrollment is effective (when I begin paying the surcharge), I must continue paying the Green Power surcharge for the length of time indicated above. I may increase my level of participation after 12 months of service if there is an adequate supply of green power available. Any changes to my participation in the program will carry a 12-month minimum obligation. Service under this program does not extend for more than the length of time indicated above. Once this time period expires, I may request Consumers Energy to add my name to their Green Power Program waiting list.

- * Customers who participate in the Electric Customer Choice Program and customers on certain electric rates are not eligible to participate in the Green Power Program. See the Consumers Energy Website (www.consumersenergy.com) for further details.
- * The terms and conditions governing this program are set forth in Consumers Energy's tariffs that have been approved by the Michigan Public Service Commission.

CONSUMERS ENERGY COMPANY
212 W Michigan Avenue

ELECTRIC LINE
EXTENSION AGREEMENT

TERMS AND CONDITIONS
PART II

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaries therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.

2. The Applicant shall pay to the Company, upon the execution hereof, the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule B15.2 of the General Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Section 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.

3. The Company will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area. In regard to any amount identified as "Line Extension Deposit Subject to Refund" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.

4. If the underground electric line extension or any portion thereof is to be installed between December 15 and April 15, the Applicant shall pay the Company, prior to installation of said

ELECTRIC LINE
EXTENSION AGREEMENT

extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and April 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

6. For any underground facilities included in the line extension, the Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.

7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may,

ELECTRIC LINE
EXTENSION AGREEMENT

upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Line Extension Deposit Subject to Refund" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Line Extension Deposit Subject to Refund" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.

10. All notices require hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.

11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

REMOVED BY K.B.

upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Line Extension Deposit Subject to Refund" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Line Extension Deposit Subject to Refund" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.

10. All notices require hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.

11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

ELECTRIC LINE
EXTENSION AGREEMENT

TERMS AND CONDITIONS
PART II

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaries therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.

2. The Applicant shall pay to the Company, upon the execution hereof, the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule B15.2 of the General Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Section 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.

3. The Company will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area. In regard to any amount identified as "Line Extension Deposit Subject to Refund" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.

4. If the underground electric line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said

extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgement, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

6. For any underground facilities included in the line extension, the applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.

7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgement of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may,

upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgement of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Line Extension Deposit Subject to Refund" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Line Extension Deposit Subject to Refund" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.

10. All notices require hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.

11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AGREEMENT
TERMS AND CONDITIONS**

PART II

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaires therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.
2. The Applicant shall pay to the Company, upon the execution hereof, the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule B15.2 of the General Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. The Company will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area. In regard to any amount identified as "Line Extension Deposit Subject to Refund" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the underground electric line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the

Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. For any underground facilities included in the line extension, the Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Line Extension Deposit Subject to Refund" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Line Extension Deposit Subject to Refund" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes

in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AGREEMENT
TERMS AND CONDITIONS**

PART II

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaires therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.
2. The Applicant shall pay to the Company, upon the execution hereof, the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule B15.2 of the General Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the underground electric line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in

determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. For any underground facilities included in the line extension, the Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the

Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

ELECTRIC LINE EXTENSION AGREEMENT
PART II

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaires therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.
2. The Applicant shall pay to the Company, upon the execution hereof, the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule B15.2 of the General Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the underground electric line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said

extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

- 5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
- 6. For any underground facilities included in the line extension, the Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
- 7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may,

upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

ELECTRIC LINE EXTENSION AGREEMENT
PART II

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaires therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.
2. The Applicant shall pay to the Company, upon the execution hereof, the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule B15.2 of the General Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the underground electric line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said

extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. For any underground facilities included in the line extension, the Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may,

- upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
 9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
 10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
 11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

ELECTRIC LINE EXTENSION AGREEMENT
PART II

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaires therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.
2. The Applicant shall pay to the Company, upon the execution hereof, the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule B15.2 of the General Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the underground electric line extension or any portion thereof is to be installed during the months of January and February, both inclusive, the Applicant shall pay the Company, prior

to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed during the months of January and February, both inclusive, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. For any underground facilities included in the line extension, the Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may,

ORDER FILED BY

APR 10 1996

REMOVED BY

upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AGREEMENT
PART II**

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaires therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule B15.2 of the General Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the underground electric line extension or any portion thereof is to be installed during the months of January and February, both inclusive, the Applicant shall pay the Company, prior

to installation of said extension or portion thereof, an additional nonrefundable contribution during said period. The winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed during the months of January and February, both inclusive, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. For any underground facilities included in the line extension, the Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of

electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AGREEMENT
PART II****TERMS AND CONDITIONS**

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaires therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule B15.2 of the General Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service (Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the underground electric line extension or any portion thereof is to be installed during the months of January and February, both inclusive, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The

Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed during the months of January and February, both inclusive, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. For any underground facilities included in the line extension, the Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice

- thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
 9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
 10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
 11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AGREEMENT
PART II**

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground or overhead line extension facilities which are required in connection therewith, but not including secondary service connections, to make available alternating current, 60 hertz, electric service to Applicant's service location identified in Part I. If the line extension is to serve a residential subdivision, the Applicant shall record the plat of the subdivision in the office of the Register of Deeds in the County where the subdivision is located, if it is not already so recorded. The facilities included in the line extension and its approximate location, or in the case of a residential subdivision the location of the subdivision, are shown on the drawing attached as Exhibit A. If said line extension is to serve a residential subdivision, it shall be designed and installed so that the Company may serve streetlighting luminaires therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the line extension shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension system shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement. Further, secondary service connections between such line extension and any buildings or other facilities to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, if an underground line extension is included under this Agreement, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule 26 of the Standard Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service ("Standard Rules and Regulations") as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.

4. If an underground electric line extension or any portion thereof is to be installed during the months of January and February, both inclusive, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed during the months of January and February, both inclusive, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said line extension is to serve a residential subdivision, said easements shall include, but not by way of limitation, rights of way for streetlighting in the subdivision by means of underground facilities, notwithstanding that the Company does not undertake to provide streetlighting facilities and service as a part of this Agreement. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. For any underground facilities included in the line extension, the Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. If said line extension is to serve a residential subdivision, after rough grading, the Applicant shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the subdivision. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Standard Rules and Regulations, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to

the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Standard Rules and Regulations, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Standard Rules and Regulations as may be applicable including Rule 25, "Overhead Extension Policy," and Rule 26, "Underground Distribution Systems and Service Connections," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT**

**TERMS AND CONDITIONS
PART II**

1. The Company, subject to the provisions of this agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specification prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.

2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Section 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.

3. The Company will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area. In regard to any amount identified as "Line Extension Deposit Subject to Refund" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.

4. If the line extension or any portion thereof is to be installed between December 15 and April 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and April 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

**ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT**

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

6. The Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.

7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Company's Electric Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution (Residential)," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Line Extension Deposit Subject to Refund" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

ELECTRIC LINE EXTENSION AND SERVICE CONNECTION AGREEMENT

TERMS AND CONDITIONS PART II

1. The Company, subject to the provisions of this agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specification prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.

2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Section 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.

3. The Company will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area. In regard to any amount identified as "Line Extension Deposit Subject to Refund" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.

4. If the line extension or any portion thereof is to be installed between December 15 and April 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and April 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT

TERMS AND CONDITIONS
PART II

1. The Company, subject to the provisions of this agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specification prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.

2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Section 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.

3. The Company will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area. In regard to any amount identified as "Line Extension Deposit Subject to Refund" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.

4. If the line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

6. The Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.

7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Company's Electric Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution (Residential)," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Line Extension Deposit Subject to Refund" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Line Extension Deposit Subject to Refund" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Company's Electric Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.

10. All notices require hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.

11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT

TERMS AND CONDITIONS
PART II

1. The Company, subject to the provisions of this agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specification prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.

2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Section 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.

3. The Company will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area. In regard to any amount identified as "Line Extension Deposit Subject to Refund" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.

4. If the line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgement, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

6. The applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.

7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Company's Electric Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgement of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution (Residential)," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgement of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Line Extension Deposit Subject to Refund" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Line Extension Deposit Subject to Refund" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Rate Schedule, the applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Company's Electric Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.

10. All notices require hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.

11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT
FOR MOBILE HOME PARK**

TERMS AND CONDITIONS

PART II

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. The Company will backfill and place excavated earth over any area of construction; the Customer is responsible for the final restoration of the construction area. In regard to any amount identified as "Line Extension Deposit Subject to Refund" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all

payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. The Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Company's Electric Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Line Extension Deposit Subject to Refund" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Line Extension Deposit Subject to Refund" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Company's Electric Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

**ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT
FOR MOBILE HOME PARK**

TERMS AND CONDITIONS

PART II

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. The Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Company's Electric Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty (30) days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Company's Electric Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Company's Electric Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement

and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.

10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT
FOR MOBILE HOME PARK
PART II**

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the

nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during contribution. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. The Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Company's Electric Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve

months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Company's Electric Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment of the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Company's Electric Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT
FOR MOBILE HOME PARK
PART II

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the line extension or any portion thereof is to be installed between December 15 and March 15, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed between December 15 and March 15, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the

- nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during contribution. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
 6. The Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
 7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Company's Electric Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve

Form 862 2-96

months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Company's Electric Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment of the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Company's Electric Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT
FOR MOBILE HOME PARK
PART II**

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the line extension or any portion thereof is to be installed during the months of January and February, both inclusive, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed during the months of January and February, both inclusive, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during contribution. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional
co

contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. The Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Company's Electric Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due

due to changes in the Company's Electric Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment of the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Company's Electric Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT
FOR MOBILE HOME PARK
PART II**

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," computed in accordance with Rule B13.5 and Rule B15.2 of the Schedule of Rates Governing the Sale of Electric Service (Electric Rate Schedule) as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the line extension or any portion thereof is to be installed during the months of January and February, both inclusive, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed during the months of January and February, both inclusive, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during contribution. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional

contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. The Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Company's Electric Rate Schedule, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution (Residential)," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease

due to changes in the Company's Electric Rate Schedule, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment of the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Company's Electric Rate Schedule as may be applicable including Rule B15.1, "Overhead Extension Policy," and B15.2, "Underground Policy," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**ELECTRIC LINE EXTENSION AND
SERVICE CONNECTION AGREEMENT
FOR MOBILE HOMES IN COURTS
PART II**

TERMS AND CONDITIONS

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an underground electric line extension consisting of primary and secondary cables, transformers, power terminals, primary service connections and associated equipment and any other underground line extension facilities which are required in connection therewith including secondary service connections, (herein collectively referred to as "line extension"), to make available alternating current, single phase, 60 hertz, electric service to Applicant's service location identified in Part I. The Applicant shall provide, own, install and maintain all meter pedestals which shall be of a design satisfactory to the Company and installed in mutually agreeable locations. The approximate location of the line extension and lots are shown on the drawing attached as Exhibit A. The character and location of all equipment constituting the line extension shall conform to specifications prepared by the Company. Said line extension shall be used for furnishing the Company's electric service to the Applicant and to such other persons along such line extension, or beyond the same, as may become customers of the Company; provided, however, that such line extension shall remain a separate, distinct unit for purposes of this Agreement and any further extension therefrom shall have no effect upon this Agreement.
2. The Applicant shall pay to the Company, upon the execution hereof (unless otherwise provided in Section 12 hereof), the "Total Payment" as set forth in Part I and in the "Computation of Electric Distribution System Line Extension Deposit and Contribution" attached, it being the Applicant's share of the cost, after deducting the allowance for the investment which the Company is warranted in making under its line extension policy. It is recognized that the cost to the Company of installing an underground line extension is substantially greater than the cost of installing an overhead line extension. Accordingly, said "Total Payment" includes a nonrefundable contribution as stated in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," computed in accordance with Rule 24 and Rule 26 of the Standard Rules and Regulations included in the Company's Schedule of Rates Governing the Sale of Electric Service ("Standard Rules and Regulations") as now filed with the Michigan Public Service Commission. No portion of said contribution, nor of any other contribution required hereunder, shall be refunded (except as otherwise provided in Sections 4, 5, 7 and 8 hereof) nor any interest paid thereon by the Company.
3. In regard to any amount identified as "Refundable Line Extension Deposit" in said "Computation of Electric Distribution System Line Extension Deposit and Contribution," the Company will refund to the Applicant in accordance with the attached "Schedule of Refunds." No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12 months' period next succeeding the month during which the line extension is completed, shall be retained by the Company.
4. If the line extension or any portion thereof is to be installed during the months of January and February, both inclusive, the Applicant shall pay the Company, prior to installation of said extension or portion thereof, an additional nonrefundable contribution (winter charge) per trench foot as stated in Part I for the portion of said line extension installed during said period. The Applicant will receive a credit for any part of said winter charge paid by other utilities for joint use of the trench or paid by the Applicant for installation, by the Company, of gas pipe in the same trench. No portion of said line extension will be installed during the months of January and February, both inclusive, unless the Applicant has paid such additional contribution. Further, a nonrefundable contribution in addition to that provided for herein may be required where, in the Company's judgment, practical

difficulties (not considered in determining the nonrefundable contribution included herein) such as water conditions or rock near the surface are encountered during construction. If the Customer does not make the additional contribution within 15 days after written notice of the amount of the additional contribution, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.

5. Prior to the installation of the line extension, and as a condition precedent thereto, the Applicant shall secure and deliver to the Company, at no expense to the Company, recordable easements, in form and substance satisfactory to the Company, granting all necessary rights of way for installation and maintenance of said line extension. If said easements are not secured and delivered to the Company within thirty (30) days after execution of this Agreement, the Company may, at its option, refund all payments made to it hereunder by the Applicant, without interest, and with reasonable expenses incurred by the Company on account of this Agreement deducted therefrom, and this Agreement shall thereupon terminate.
6. The Applicant shall provide, at no expense to the Company, rough grading (not more than three inches below finished grade) so that the underground facilities can be properly installed in relation to the finished grade level. Applicant shall maintain the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility thereafter at a level not to exceed twelve inches above or three inches below the grade level established at the time of installation of said underground facilities. Further, Applicant shall maintain the ground surface elevation in an area four feet wide around any transformer pad, subsurface transformer, junction vault or other support at an elevation of not less than three inches and not more than six inches below the base of any transformer mounted on a pad or other support and not more than six inches below the top of any subsurface transformer or junction vault; provided, however, that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company.
7. Upon execution of this Agreement and compliance in full by the Applicant with all conditions to be performed by him as contained herein and in the Standard Rules and Regulations, the Company, subject to weather, labor disputes, availability of necessary materials, and any other cause beyond the reasonable control of the Company, shall construct such line extension so as to make electric service available to the customers to be served by such extension on or about the completion date stated in Part I. Notwithstanding the foregoing, if, in the sole judgment of the Company, it does not appear that all of the customers (or their equivalent) upon which the "Free Footage Allowances" and/or the "Company's Share of Cost" (as the case may be) is based, as stated in said "Computation of Line Extension Deposit and Contribution," will in fact require and be prepared to receive electric service upon completion of such line extension, the Company may, upon notice thereof to the Customer, postpone construction of said extension until such time as, in the sole judgment of the Company, permanent customers requiring such quantity of electricity will require and be prepared to receive electric service. In the event of such postponement by the Company the Applicant may, upon notice thereof to the Company, cancel this Agreement at any time prior to the commencement of installation of said line extension by the Company. If prior to the end of any such postponement by the Company, the "Refundable Line Extension Deposit" required for installation of such line extension increases or decreases due to changes in the estimated cost, the Company may, prior to construction of such line extension, require the Applicant to (1) execute an amendment to this Agreement reflecting said changes in cost and (2) pay such additional cost. If the Applicant fails to execute such amendment and pay such additional costs within thirty days after presentation of such amendment to the Applicant, or if any such postponement of construction continues for more than twelve months, the Company may, upon notice thereof to the Applicant, cancel this Agreement. In the event of such cancellation either by the Applicant or by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.

Form 862 4-90

8. If at any time more than sixty (60) days after the date of this Agreement and prior to commencement of installation of said line extension by the Company the "Refundable Line Extension Deposit" and/or nonrefundable contribution(s) required for installation of such line extension increase or decrease due to changes in the Standard Rules and Regulations, the Applicant will be required, prior to installation of such line extension, to (1) execute an amendment to this Agreement reflecting said changes, and (2) pay any additional amounts required by the Company as a result of said changes. If the Applicant fails to execute such amendment and pay such additional amounts, if any, within thirty (30) days after presentation of such amendment to the Applicant the Company may, upon notice to the Applicant, cancel this Agreement. In the event of such cancellation by the Company as aforesaid, the Company shall refund all payments made to it hereunder by the Applicant, without interest.
9. The Applicant shall have no ownership in said line extension by reason of any payment made hereunder. This Agreement and the installation and operation of said line extension shall be subject to the Standard Rules and Regulations as may be applicable including Rule 25, "Overhead Extension Policy," and Rule 26, "Underground Distribution Systems and Service Connections," copies of which will be furnished to the Applicant upon his request. This Agreement and the benefits and obligations thereof may be transferred by the Applicant only upon the Company's prior written consent. Any other attempted transfer by Applicant shall be void.
10. All notices required hereunder shall be in writing and shall be sent by United States mail or delivered in person to the parties at their respective addresses as set forth in Part I. Either party may at any time change the addressee or address to which notices to it are to be mailed or delivered by giving notice of such change to the other party.
11. With respect to the subject matter hereof, this Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement of the parties.

**CONTRACT FOR ELECTRIC SERVICE
SPECIAL MINIMUM CHARGES**

TERMS AND CONDITIONS

PART II

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's Facility described in Part I.
2. The electric energy to be supplied hereunder shall be alternating current and shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point as hereinafter provided. Energy shall be metered by meters furnished, installed and maintained by the Company. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.
3. The Customer shall pay for such energy in accordance with the Company's General Service Rate identified in Part I, a copy of which is attached hereto and made a part hereof, and in accordance with such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. By reason of the character of the proposed use of service, it is also subject to the provisions of Rule D 4, Special Minimum Charges, of the Company's Schedule of Rates Governing the Sale of Electric Service herein referred to, a copy of which is attached hereto and made a part hereof.
4. It is further agreed that:
 - (a) Such service is for the sole use of the Customer, for the purpose aforesaid, and shall not be transmitted elsewhere, or shared or resold, or used as auxiliary or standby as to any other source of power supply, except as may be herein provided.
 - (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) In accordance with said Rate and Schedule, an annual minimum charge as identified in Part I, based upon the transformer(s)' capacity as identified in Part I and to be installed and maintained by either Customer or Company as specified in Part I, shall apply to this service, and the difference, if any, between such amount and the aggregate net bills, excluding the service charges included in the Rate, rendered during any contract year, shall be payable at the end of such contract year.
 - (d) Unless otherwise provided herein, the terminus of the Company's electric line for such service shall constitute the point of delivery of energy hereunder. The Company's responsibility as to such energy shall cease at such point of delivery, but it shall maintain its equipment, if any, located beyond the point of delivery. In case any extension of its system shall be required hereunder, the Company will erect the same in accordance with its Standard Extension Policy.
 - (e) Except as to the minimum charges payable by the Customer, prescribed in said rate and in Paragraph 4(c) above, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.

- (f) This Agreement will become effective on the date identified in Part I and will extend for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least thirty days' written notice of its desire to terminate the same at the expiration of any yearly period.
- (g) This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the location stated in Part I except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

**CONTRACT FOR ELECTRIC SERVICE
SPECIAL MINIMUM CHARGES**

TERMS AND CONDITIONS

PART II

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's Facility described in Part I.
2. The electric energy to be supplied hereunder shall be alternating current and shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point as hereinafter provided. Energy shall be metered by meters furnished, installed and maintained by the Company. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.
3. The Customer shall pay for such energy in accordance with the Company's General Service Rate identified in Part I, a copy of which is attached hereto and made a part hereof, and in accordance with such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. By reason of the character of the proposed use of service, it is also subject to the provisions of Rule D 4, Special Minimum Charges, of the Company's Schedule of Rates Governing the Sale of Electric Service herein referred to; a copy of which is attached hereto and made a part hereof.
4. It is further agreed that:
 - (a) Such service is for the sole use of the Customer, for the purpose aforesaid, and shall not be transmitted elsewhere, or shared or resold, or used as auxiliary or standby as to any other source of power supply, except as may be herein provided.
 - (b) Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.
 - (c) In accordance with said Rate and Schedule, an annual minimum charge as identified in Part I, based upon the transformer(s)' capacity as identified in Part I and to be installed and maintained by either Customer or Company as specified in Part I, shall apply to this service, and the difference, if any, between such amount and the aggregate net bills, excluding the service charges included in the Rate, rendered during any contract year, shall be payable at the end of such contract year.
 - (d) Unless otherwise provided herein, the terminus of the Company's electric line for such service shall constitute the point of delivery of energy hereunder. The Company's responsibility as to such energy shall cease at such point of delivery, but it shall maintain its equipment, if any, located beyond the point of delivery. In case any extension of its system shall be required hereunder, the Company will erect the same in accordance with its Standard Extension Policy.
 - (e) Except as to the minimum charges payable by the Customer, prescribed in said rate and in Paragraph 4(c) above, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.

- (f) This Agreement will become effective on the date identified in Part I and will extend for an initial term as stated in Part I and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least thirty days' written notice of its desire to terminate the same at the expiration of any yearly period.
- (g) This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the location stated in Part I except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

(h) _____

CONTRACT FOR ELECTRIC SERVICE
SPECIAL MINIMUM CHARGES

AGREEMENT, made this ___ day of ___, 19___, between
CONSUMERS POWER COMPANY (___ Region), herein termed the Company, and
of the ___ of ___, Michigan,
herein termed the Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric
energy for the operation of the Customer's ___
located at ___ Street, in the ___ of
___, Michigan.

2. The electric energy to be supplied shall be alternating current, ___ phase, 60 cycles per
second, at approximately ___ volts. Delivery shall be made at one mutually agreeable point as
hereinafter provided. Energy shall be metered by meters furnished, installed and maintained by the Company. The
Company shall make periodic tests of its meters, and keep them within accepted standards of accuracy.

3. The Customer shall pay for such energy in accordance with the Company's Rate ___, a copy
of which is attached hereto and made a part hereof, and in accordance with such amendments thereto as may be
filed with and approved by the Michigan Public Service Commission during the term of this contract. By reason of
the character of the proposed use of service, it is also subject to the provisions of Rule 17, Special Minimum Charges,
of the Company's Standard Electric Rules and Regulations herein referred to. A copy of Sheet A 28 containing said
Rule is also hereto attached.

4. It is further agreed that:

(a) Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be
transmitted elsewhere or shared or resold or used as auxiliary or standby as to any other source of power supply
except as may be herein specifically provided.

(b) Such service shall be governed by the Company's Standard Electric Rules and Regulations as filed
with the Michigan Public Service Commission, and such amendments thereof as may be filed during the term hereof.
A copy thereof will be furnished to the Customer upon request.

(c) In accordance with said rate and rules, an annual minimum charge of \$ ___, based
upon transformer(s) of ___ kVA capacity to be installed and maintained by the ___,
shall apply to this service, and the difference, if any, between such amount and the aggregate net bills, excluding the
service charges included in the rate, rendered during any contract year, shall be payable at the end of such contract
year.

(d) Unless otherwise provided herein, the terminus of the Company's electric line for such service shall
constitute the point of delivery of energy hereunder. The Company's responsibility as to such energy shall cease at
such point of delivery, but it shall maintain its equipment, if any, located beyond the point of delivery. In case any
extension of its system shall be required hereunder, the Company will erect the same in accordance with its Standard
Extension Policy.

(e) Except as to the minimum charges payable by the Customer, prescribed in said rate and in Paragraph 4(c) hereof, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military, or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.

(f) This agreement will extend for an initial term of _____ year(s) from the _____ day of _____, 19____, and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least thirty (30) days' written notice of its desire to terminate the same at the expiration of any yearly period.

(g) This agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the above location except as contained herein. This agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

IN WITNESS WHEREOF, said parties have executed this agreement, in duplicate, by their duly authorized representatives.

**CONTRACT FOR ELECTRIC SERVICE
RESALE TO TENANTS**

TERMS AND CONDITIONS

PART II

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's Facility described in Part I.
2. The electric energy to be supplied hereunder shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy sold by the Company to said Customer shall be metered by meters furnished, installed and maintained by the Company. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.
3. The Customer shall pay for such energy in accordance with the Company's General Service Resale Rate identified in Part I, a copy of which is attached hereto and made a part hereof, and in accordance with such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term of the term of this contract.
4. It is agreed that as to all or a portion of the energy delivery hereunder, said Customer may resell the same to tenants of the Customer upon said premises, upon condition that the service to each tenant shall be separately metered, that said tenants shall be served and charged for such service at a rate identical to the Company's Residential Service Rate A-1 for residential use or the appropriate General Service Rate applicable in the Company's Schedule of Rates Governing the Sale of Electric Service available for similar service under like conditions, and that all of the energy used in said premises shall be purchased from the Company.
5. Said Customer shall furnish, install and maintain, or shall cause to be furnished, installed and maintained, all electrical facilities, including poles, wires, conduits, transformers, meters, instrument transformers and enclosures, required for the delivery and measurement of the energy which is resold by the Customer to tenants. The Customer shall be responsible for the testing of the tenants' meters whether purchased new or used, before installation, at least once every three years after installation, and upon removal from service. Instrument transformers, when used, shall be tested before being placed in service, when removed from service, upon complaint, and when there is evidence of damage. The accuracy of such meters and instrument transformers shall be maintained within the limits as prescribed by Michigan Public Service Commission in its Regulations Governing Service Supplied by Electric Utilities as found in the Schedule of Rates Governing the Sale of Electric Service. Records of all test results shall be maintained by the Customer during its use of the meters and for an additional period of one year thereafter. When requested, the Customer shall submit certified copies of the meter test results and meter records to the Company.
6. Said Customer shall render a bill once during each billing month to each tenant in accordance with an approved rate schedule of the Company. Every bill rendered by the Customer shall specify the following information: the amount due for energy use, the amount due for other authorized charges, the rate code, the due date, the beginning and ending meter readings of the billing period and dates thereof, the difference between the meter readings, the power supply cost recovery factor, the subtotal of the bill before taxes, amount of sales tax, other local taxes where applicable, any previous balance and the total amount due. The due date shall be twenty-one days following the date of rendering the bill.
7. The billing of each of the Customer's tenants shall be audited once every nine to fifteen months. At the election of the Customer, the audit shall be conducted either by the Company or by an independent auditing firm approved by the Company. The Company shall notify the Customer in writing of the audit requirement approximately ninety calendar days prior to the final date when the audit report must be filed with the Company. Within thirty calendar days after receiving such notification from the Company, the Customer shall notify the Company in writing as to whether it elects to have such audit conducted by the Company or by an independent auditing firm approved by the Company. Where the audit is conducted by an independent auditing firm, the Customer shall submit a copy of the results of such audit to the Company in a form approved by the Company.
8. At the request of a tenant, and not more frequently than once every twelve months, the Customer shall review the tenant's usage of electrical service to determine if the tenant is being billed on the appropriate rate. When the review of nonresidential tenant usage requires the use of test metering equipment, the test will be made by installing appropriate

demand and kilowatt-hour meters of assured accuracy for a period of not less than fifteen calendar days. The results of such reviews shall be made available to the Company upon request.

9. In order to assure that each tenant will receive service from the Customer similar to that which would be available from the Company under like conditions, the Customer agrees that:
- (a) Each tenant shall be supplied with an electrical system adequate to meet the needs of said tenant with respect to the nature of service, voltage level and other conditions of service.
 - (b) Examination copies of the rates applicable to the service supplied to each tenant will be made available on request.
 - (c) Each tenant may receive the advisory services of the Company in matters involving the application of rates and utilization of electric energy for any purpose.
10. The service rates charged the Customer's tenants pursuant to Paragraph 4 above will be the sole charges assessed to the tenants for electric service. Costs incurred by the Customer in testing tenants' meters, in auditing tenants' billings, in load testing for the determination of appropriate tenant rates, in enlarging tenants' service entrances, and any other costs incurred by the Customer in offering tenants service similar to that available from the Company under like conditions shall be borne by the Customer.
11. It is further agreed that:
- (a) Electric service furnished hereunder shall not be transmitted off the Customer's premises or shared or resold by the Customer other than to the Customer's said tenants occupying said premises, nor shall such energy be used as auxiliary or standby to any other source of power supply.
 - (b) Service to the Customer shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term hereof. A copy of Rule B13.4 thereof entitled "Resale" is hereto attached. Upon request, the Company will furnish to the Customer a copy of the Company's current Schedule of Rates Governing the Sale of Electric Service, which includes copies of the Company's current standard rates applicable to the service supplied to the Customer's tenants.
 - (c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said attached rate, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) This Agreement will extend for an initial term of one year from the effective date of this Agreement and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period.
 - (e) This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the above location except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

TERMS AND CONDITIONS

PART II

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's Facility described in Part I.
2. The electric energy to be supplied hereunder shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy sold by the Company to said Customer shall be metered by meters furnished, installed and maintained by the Company. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.
3. The Customer shall pay for such energy in accordance with the Company's General Service Resale Rate identified in Part I, a copy of which is attached hereto and made a part hereof, and in accordance with such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term of the term of this contract.
4. It is agreed that as to all or a portion of the energy delivery hereunder, said Customer may resell the same to tenants of the Customer upon said premises, upon condition that the service to each tenant shall be separately metered, that said tenants shall be served and charged for such service at a rate identical to the Company's Residential Service Rate A-1 for residential use or the appropriate General Service Rate applicable in the Company's Schedule of Rates Governing the Sale of Electric Service available for similar service under like conditions, and that all of the energy used in said premises shall be purchased from the Company.
5. Said Customer shall furnish, install and maintain, or shall cause to be furnished, installed and maintained, all electrical facilities, including poles, wires, conduits, transformers, meters, instrument transformers and enclosures, required for the delivery and measurement of the energy which is resold by the Customer to tenants. The Customer shall be responsible for the testing of the tenants' meters whether purchased new or used, before installation, at least once every three years after installation, and upon removal from service. Instrument transformers, when used, shall be tested before being placed in service, when removed from service, upon complaint, and when there is evidence of damage. The accuracy of such meters and instrument transformers shall be maintained within the limits as prescribed by Michigan Public Service Commission in its Regulations Governing Service Supplied by Electric Utilities as found in the Schedule of Rates Governing the Sale of Electric Service. Records of all test results shall be maintained by the Customer during its use of the meters and for an additional period of one year thereafter. When requested, the Customer shall submit certified copies of the meter test results and meter records to the Company.
6. Said Customer shall render a bill once during each billing month to each tenant in accordance with an approved rate schedule of the Company. Every bill rendered by the Customer shall specify the following information: the amount due for energy use, the amount due for other authorized charges, the rate code, the due date, the beginning and ending meter readings of the billing period and dates thereof, the difference between the meter readings, the power supply cost recovery factor, the subtotal of the bill before taxes, amount of sales tax, other local taxes where applicable, any previous balance and the total amount due. The due date shall be twenty-one days following the date of rendering the bill.
7. The billing of each of the Customer's tenants shall be audited once every nine to fifteen months. At the election of the Customer, the audit shall be conducted either by the Company or by an independent auditing firm approved by the Company. The Company shall notify the Customer in writing of the audit requirement approximately ninety calendar days prior to the final date when the audit report must be filed with the Company. Within thirty calendar days after receiving such notification from the Company, the Customer shall notify the Company in writing as to whether it elects to have such audit conducted by the Company or by an independent auditing firm approved by the Company. Where the audit is conducted by an independent auditing firm, the Customer shall submit a copy of the results of such audit to the Company in a form approved by the Company.

8. At the request of a tenant, and not more frequently than once every twelve months, the Customer shall review the tenant's usage of electrical service to determine if the tenant is being billed on the appropriate rate. When the review of nonresidential tenant usage requires the use of test metering equipment, the test will be made by installing appropriate demand and kilowatt-hour meters of assured accuracy for a period of not less than fifteen calendar days. The results of such reviews shall be made available to the Company upon request.
9. In order to assure that each tenant will receive service from the Customer similar to that which would be available from the Company under like conditions, the Customer agrees that:
 - (a) Each tenant shall be supplied with an electrical system adequate to meet the needs of said tenant with respect to the nature of service, voltage level and other conditions of service.
 - (b) Examination copies of the rates applicable to the service supplied to each tenant will be made available on request.
 - (c) Each tenant may receive the advisory services of the Company in matters involving the application of rates and utilization of electric energy for any purpose.
10. The service rates charged the Customer's tenants pursuant to Paragraph 4 above will be the sole charges assessed to the tenants for electric service. Costs incurred by the Customer in testing tenants' meters, in auditing tenants' billings, in load testing for the determination of appropriate tenant rates, in enlarging tenants' service entrances, and any other costs incurred by the Customer in offering tenants service similar to that available from the Company under like conditions shall be borne by the Customer.
11. It is further agreed that:
 - (a) Electric service furnished hereunder shall not be transmitted off the Customer's premises or shared or resold by the Customer other than to the Customer's said tenants occupying said premises, nor shall such energy be used as auxiliary or standby to any other source of power supply.
 - (b) Service to the Customer shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term hereof. A copy of Rule B13.4 thereof entitled "Resale" is hereto attached. Upon request, the Company will furnish to the Customer a copy of the Company's current Schedule of Rates Governing the Sale of Electric Service which includes copies of the Company's current standard rates applicable to the service supplied to the Customer's tenants.
 - (c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said attached rate, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) This Agreement will extend for an initial term of one year from the effective date of this Agreement and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period.

The accuracy of such meters and instrument transformers shall be maintained within the limits as prescribed by Michigan Public Service Commission in its Regulations Governing Service Supplied by Electric Utilities as found in the Schedule of Rates Governing the Sale of Electric Service. Records of all test results shall be maintained by the Customer during its use of the meters and for an additional period of one year thereafter. When requested, the Customer shall submit certified copies of the meter test results and meter records to the Company.
6. Said Customer shall render a bill once during each billing month to each tenant in accordance with an approved rate schedule of the Company. Every bill rendered by the Customer shall specify the following information: the amount due for energy use, the amount due for other authorized charges, the rate code, the due date, the beginning and ending meter readings of the billing period and dates thereof, the difference between the meter readings, the power supply cost recovery factor, the subtotal of the bill before taxes, amount of sales tax, other local taxes where applicable, any previous balance and the total amount due. The due date shall be twenty-one days following the date of rendering the bill.
7. The billing of each of the Customer's tenants shall be audited once every nine to fifteen months. At the election of the Customer, the audit shall be conducted either by the Company or by an independent auditing firm approved by the Company. The Company shall notify the Customer in writing of the audit requirement approximately ninety calendar days prior to the final date when the audit report must be filed with the Company. Within thirty calendar days after receiving such notification from the Company, the Customer shall notify the Company in writing as to whether it elects to have such audit conducted by the Company or by an independent auditing firm approved by the Company. Where the audit is conducted by an independent auditing firm, the Customer shall submit a copy of the results of such audit to the Company in a form approved by the Company.

8. At the request of a tenant, and not more frequently than once every twelve months, the Customer shall review the tenant's usage of electrical service to determine if the tenant is being billed on the appropriate rate. When the review of nonresidential tenant usage requires the use of test metering equipment, the test will be made by installing appropriate demand and kilowatt-hour meters of assured accuracy for a period of not less than fifteen calendar days. The results of such reviews shall be made available to the Company upon request.
9. In order to assure that each tenant will receive service from the Customer similar to that which would be available from the Company under like conditions, the Customer agrees that:
 - (a) Each tenant shall be supplied with an electrical system adequate to meet the needs of said tenant with respect to the nature of service, voltage level and other conditions of service.
 - (b) Examination copies of the rates applicable to the service supplied to each tenant will be made available on request.
 - (c) Each tenant may receive the advisory services of the Company in matters involving the application of rates and utilization of electric energy for any purpose.
10. The service rates charged the Customer's tenants pursuant to Paragraph 4 above will be the sole charges assessed to the tenants for electric service. Costs incurred by the Customer in testing tenants' meters, in auditing tenants' billings, in load testing for the determination of appropriate tenant rates, in enlarging tenants' service entrances, and any other costs incurred by the Customer in offering tenants service similar to that available from the Company under like conditions shall be borne by the Customer.
11. It is further agreed that:
 - (a) Electric service furnished hereunder shall not be transmitted off the Customer's premises or shared or resold by the Customer other than to the Customer's said tenants occupying said premises, nor shall such energy be used as auxiliary or standby to any other source of power supply.
 - (b) Service to the Customer shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term hereof. A copy of Rule B13.4 thereof entitled "Resale" is hereto attached. Upon request, the Company will furnish to the Customer a copy of the Company's current Schedule of Rates Governing the Sale of Electric Service which includes copies of the Company's current standard rates applicable to the service supplied to the Customer's tenants.
 - (c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said attached rate, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) This Agreement will extend for an initial term of one year from the effective date of this Agreement and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period.
 - (e) This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the above location except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

**CONTRACT FOR ELECTRIC SERVICE
RESALE TO TENANTS**

TERMS AND CONDITIONS

PART II

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's Facility described in Part I.
2. The electric energy to be supplied hereunder shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy sold by the Company to said Customer shall be metered by meters furnished, installed and maintained by the Company. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.
3. The Customer shall pay for such energy in accordance with the Company's General Service Resale Rate identified in Part I, a copy of which is attached hereto and made a part hereof, and in accordance with such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term of the term of this contract.
4. It is agreed that as to all or a portion of the energy delivery hereunder, said Customer may resell the same to tenants of the Customer upon said premises, upon condition that the service to each tenant shall be separately metered, that said tenants shall be served and charged for such service at a rate identical to the Company's Residential Service Rate A-1 for residential use or the appropriate General Service Rate applicable in the Company's Schedule of Rates Governing the Sale of Electric Service available for similar service under like conditions, and that all of the energy used in said premises shall be purchased from the Company.
5. Said Customer shall furnish, install and maintain, or shall cause to be furnished, installed and maintained, all electrical facilities, including poles, wires, conduits, transformers, meters, instrument transformers and enclosures, required for the delivery and measurement of the energy which is resold by the Customer to tenants. The Customer shall be responsible for the testing of the tenants' meters whether purchased new or used, before installation, at least once every three years after installation, and upon removal from service. Instrument transformers, when used, shall be tested before being placed in service, when removed from service, upon complaint, and when there is evidence of damage. The accuracy of such meters and instrument transformers shall be maintained within the limits as prescribed by Michigan Public Service Commission in its Regulations Governing Service Supplied by Electric Utilities as found in the Schedule of Rates Governing the Sale of Electric Service. Records of all test results shall be maintained by the Customer during its use of the meters and for an additional period of one year thereafter. When requested, the Customer shall submit certified copies of the meter test results and meter records to the Company.
6. Said Customer shall render a bill once during each billing month to each tenant in accordance with an approved rate schedule of the Company. Every bill rendered by the Customer shall specify the following information: the amount due for energy use, the amount due for other authorized charges, the rate code, the due date, the beginning and ending meter readings of the billing period and dates thereof, the difference between the meter readings, the power supply cost recovery factor, the subtotal of the bill before taxes, amount of sales tax, other local taxes where applicable, any previous balance and the total amount due. The due date shall be twenty-one days following the date of rendering the bill.
7. The billing of each of the Customer's tenants shall be audited once every nine to fifteen months. At the election of the Customer, the audit shall be conducted either by the Company or by an independent auditing firm approved by the Company. The Company shall notify the Customer in writing of the audit requirement approximately ninety calendar days prior to the final date when the audit report must be filed with the Company. Within thirty calendar days after receiving such notification from the Company, the Customer shall notify the Company in writing as to whether it elects to have such audit conducted by the Company or by an independent auditing firm approved by the Company. Where the audit is conducted by an independent auditing firm, the Customer shall submit a copy of the results of such audit to the Company in a form approved by the Company.

Form 917 11-95

8. At the request of a tenant, and not more frequently than once every twelve months, the Customer shall review the tenant's usage of electrical service to determine if the tenant is being billed on the appropriate rate. When the review of nonresidential tenant usage requires the use of test metering equipment, the test will be made by installing appropriate demand and kilowatt-hour meters of assured accuracy for a period of not less than fifteen calendar days. The results of such reviews shall be made available to the Company upon request.
9. In order to assure that each tenant will receive service from the Customer similar to that which would be available from the Company under like conditions, the Customer agrees that:
 - (a) Each tenant shall be supplied with an electrical system adequate to meet the needs of said tenant with respect to the nature of service, voltage level and other conditions of service.
 - (b) Examination copies of the rates applicable to the service supplied to each tenant will be made available on request.
 - (c) Each tenant may receive the advisory services of the Company in matters involving the application of rates and utilization of electric energy for any purpose.
10. The service rates charged the Customer's tenants pursuant to Paragraph 4 above will be the sole charges assessed to the tenants for electric service. Costs incurred by the Customer in testing tenants' meters, in auditing tenants' billings, in load testing for the determination of appropriate tenant rates, in enlarging tenants' service entrances, and any other costs incurred by the Customer in offering tenants service similar to that available from the Company under like conditions shall be borne by the Customer.
11. It is further agreed that:
 - (a) Electric service furnished hereunder shall not be transmitted off the Customer's premises or shared or resold by the Customer other than to the Customer's said tenants occupying said premises, nor shall such energy be used as auxiliary or standby to any other source of power supply.
 - (b) Service to the Customer shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term hereof. A copy of Rule B13.4 thereof entitled "Resale" is hereto attached. Upon request, the Company will furnish to the Customer a copy of the Company's current Schedule of Rates Governing the Sale of Electric Service which includes copies of the Company's current standard rates applicable to the service supplied to the Customer's tenants.
 - (c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said attached rate, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) This Agreement will extend for an initial term of one year from the effective date of this Agreement and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period.
 - (e) This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the above location except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

Said Customer shall furnish, install and maintain, or shall cause to be furnished, installed and maintained, all electrical facilities, including poles, wires, conduits, transformers, meters, instrument transformers and enclosures, required for the delivery and measurement of the energy which is resold by the Customer to tenants. The Customer shall be responsible for the testing of the tenants' meters whether purchased new or used, before installation, at least once every three (3) years after installation, and upon removal from service. Instrument transformers, when used, shall be tested before being placed in service, when removed from service, upon complaint, and when there is evidence of damage. The accuracy of such meters and instrument transformers shall be maintained within the limits as prescribed by Michigan Public Service Commission in its Regulations Governing Service Supplied by Electric Utilities as found in the Schedule of Rates Governing the Sale of Electric Service. Records of all test results shall be maintained by the Customer during its use of the meters and for an additional period of one year thereafter. When requested, the Customer shall submit certified copies of the meter test results and meter records to the Company.
6. Said Customer shall render a bill once during each billing month to each tenant in accordance with an approved rate schedule of the Company. Every bill rendered by the Customer shall specify the following information: the amount due for energy use, the amount due for other authorized charges, the rate code, the due date, the beginning and ending meter readings of the billing period and dates thereof, the difference between the meter readings, the power supply cost recovery factor, the subtotal of the bill before taxes, amount of sales tax, other local taxes where applicable, any previous balance and the total amount due. The due date shall be twenty-one (21) days following the date of rendering the bill.
7. The billing of each of the Customer's tenants shall be audited once every nine (9) to fifteen (15) months. At the election of the Customer, the audit shall be conducted either by the Company or by an independent auditing firm approved by the Company. The Company shall notify the Customer in writing of the audit requirement approximately ninety (90) calendar days prior to the final date when the audit report must be filed with the Company. Within thirty (30) calendar days after receiving such notification from the Company, the Customer shall notify the Company in writing as to whether it elects to have such audit conducted by the Company or by an independent auditing firm approved by the Company. Where the audit is conducted by an independent auditing firm, the Customer shall submit a copy of the results of such audit to the Company in a form approved by the Company.

8. At the request of a tenant, and not more frequently than once every twelve (12) months, the Customer shall review the tenant's usage of electrical service to determine if the tenant is being billed on the appropriate rate. When the review of nonresidential tenant usage requires the use of test metering equipment, the test will be made by installing appropriate demand and kilowatt-hour meters of assured accuracy for a period of not less than fifteen (15) calendar days. The results of such reviews shall be made available to the Company upon request.
9. In order to assure that each tenant will receive service from the Customer similar to that which would be available from the Company under like conditions, the Customer agrees that:
 - (a) Each tenant shall be supplied with an electrical system adequate to meet the needs of said tenant with respect to the nature of service, voltage level and other conditions of service.
 - (b) Examination copies of the rates applicable to the service supplied to each tenant will be made available on request.
 - (c) Each tenant may receive the advisory services of the Company in matters involving the application of rates and utilization of electric energy for any purpose.
10. The service rates charged the Customer's tenants pursuant to Paragraph 4, above, will be the sole charges assessed to the tenants for electric service. Costs incurred by the Customer in testing tenants' meters, in auditing tenants' billings, in load testing for the determination of appropriate tenant rates, in enlarging tenants' service entrances, and any other costs incurred by the Customer in offering tenants service similar to that available from the Company under like conditions shall be borne by the Customer.
11. It is further agreed that:
 - (a) Electric service furnished hereunder shall not be transmitted off the Customer's premises or shared or resold by the Customer other than to the Customer's said tenants occupying said premises, nor shall such energy be used as auxiliary or standby to any other source of power supply.
 - (b) Service to the Customer shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service as filed with and approved by the Michigan Public Service Commission and such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term hereof. A copy of Rule B13.4 thereof entitled "Resale" is hereto attached. Upon request, the Company will furnish to the Customer a copy of the Company's current Schedule of Rates Governing the Sale of Electric Service which includes copies of the Company's current standard rates applicable to the service supplied to the Customer's tenants.
 - (c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said attached rate, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto, provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
 - (d) This agreement will extend for an initial term of one (1) year from the effective date of this Agreement and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period.

**CONSUMERS POWER COMPANY
CONTRACT FOR ELECTRIC SERVICE –
RESALE TO TENANTS**

AGREEMENT, made this _____ day of _____, 19 __, between
CONSUMERS POWER COMPANY (_____ Region), herein termed the Company and

of the _____ of _____, Michigan, herein termed the Customer,
as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, all of the electric energy for the operation of the Customer's _____, located at _____ Street, in the _____ of _____, Michigan.
2. The electric energy to be supplied hereunder shall be alternating current, _____ phase, 60 Hertz, at approximately _____ volts. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy sold by the Company to said Customer shall be metered by meters furnished, installed and maintained by the Company. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.
3. The Customer shall pay for such energy in accordance with the Company's Resale Service Rate _____, a copy of which is attached hereto and made a part hereof, and in accordance with such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term of this contract.
4. It is agreed that as to all or a portion of the energy delivered hereunder, said Customer may resell the same to tenants of the Customer upon said premises, upon condition that the service to each tenant shall be separately metered, that said tenants shall be served and charged for such service at a rate identical to the Company's Rate "A-1" for residential use or the appropriate General Service or Primary Service Rate applicable in the Company's rate schedule available for similar service under like conditions, and that all of the energy used in said premises shall be purchased from the Company.
5. Said Customer shall furnish, install and maintain, or shall cause to be furnished, installed and maintained, all electrical facilities, including poles, wires, conduits, transformers, meters, instrument transformers and enclosures, required for the delivery and measurement of the energy which is resold by the Customer to tenants. The Customer shall be responsible for the testing of the tenants' meters whether purchased new or used, before installation, at least once every three (3) years after installation, and upon removal from service. Instrument transformers, when used, shall be tested before being placed in service, when removed from service, upon complaint, and when there is evidence of damage. The accuracy of such meters and instrument transformers shall be maintained within the limits as prescribed by Michigan Public Service Commission Order No. 6400, a copy of which can be obtained from the Company or from the Michigan Public Service Commission. Records of all test results shall be maintained by the Customer during his use of the meter and for an additional period of three years thereafter. When requested, the Customer shall submit certified copies of said test results to the Company.
6. Said Customer shall render a bill once during each billing month to each of his tenants in accordance with approved rate schedules of the Company. Every bill rendered by the Customer shall specify the following information: the rate code, the due date, the beginning and ending meter readings of the billing period and dates thereof, the difference between the meter readings, the power supply cost recovery factor, the subtotal of the bill before taxes, amount of sales tax, other local taxes where applicable, any previous balance and the total amount due. The due date shall be twenty-one (21) days following the date of issuing.

7. The billing of each of the Customer's tenants shall be audited once every nine (9) to fifteen (15) months. At the election of the Customer, the audit shall be conducted either by the Company or by an independent auditing firm approved by the Company. The Company shall notify the Customer in writing of the Company's then current audit fee approximately ninety (90) calendar days prior to the beginning of each six (6) month period within which such audit must be made. Within thirty (30) calendar days after receiving such notification from the Company, the Customer shall notify the Company in writing as to whether it elects to have such audit conducted by the Company or by an independent auditing firm approved by the Company. Where the audit is conducted by an independent auditing firm, a certified copy of the results of such audit shall be immediately submitted to the Company in a form approved by the Company.
8. At the request of a tenant, and not more frequently than once every twelve (12) months, the Customer shall review the tenant's usage of electrical service to determine if the tenant is being billed on the appropriate rate. When the review of nonresidential tenant usage requires the use of test metering equipment, the test will be made by installing appropriate demand and kilowatt-hour meters of assured accuracy for a period of not less than fifteen (15) calendar days. The results of such reviews shall be made available to the Company upon request.
9. In order to assure that each tenant will receive service from the Customer similar to that which would be available from the Company under like conditions, the Customer agrees that:
 - (a) Each of his tenants shall be supplied with an electrical system adequate to meet the needs of said tenant with respect to the nature of service, voltage level and other conditions of service.
 - (b) He will make available for tenant examination copies of the rates applicable to the service supplied to his tenants.
 - (c) Each of his tenants may receive the advisory services of the Company in matters involving the application of rates and utilization of electric energy for any purpose.
10. The service rates charged the Customer's tenants pursuant to Paragraph 4, above, will be the sole charges assessed his tenants for electric service. Costs incurred by the Customer in testing tenants' meters, in auditing tenants' billings, in load testing for the determination of appropriate tenant rates, in enlarging tenants' service entrances, and any other costs incurred by the Customer in offering his tenants service similar to that available from the Company under like conditions shall be borne by the Customer.
11. It is further agreed that:
 - (a) Electric service furnished hereunder shall not be transmitted off the Customer's premises or shared or resold by the Customer other than to the Customer's said tenants occupying said premises, nor shall such energy be used as auxiliary or standby to any other source of power supply.
 - (b) Service to the Customer shall be governed by the Company's Standard Electric Rules and Regulations as filed with and approved by the Michigan Public Service Commission and such amendments thereto as may be filed with and approved by the Michigan Public Service Commission during the term hereof. A copy of Rule 23 thereof, entitled "Resale," is hereto attached. Upon request, the Company will furnish to the Customer a copy of the Company's current Standard Electric Rules and Regulations and copies of the Company's current standard rates applicable to the service supplied to the Customer's tenants.
 - (c) Except as to the capacity and minimum charges payable by the Customer, prescribed in said attached rate, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto, provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.

- (d) This agreement will extend for an initial term of one (1) year from the _____ day of _____, 19____, and from month to month thereafter until terminated by mutual consent, or by either party giving the other at least sixty days' written notice of its desire to terminate the same at the expiration of any monthly period.
- (e) This agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the above location except as contained herein. This agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

IN WITNESS WHEREOF, said parties have executed this agreement, in duplicate, by their duly authorized representatives.

**SAMPLE CONTRACT FOR AUXILIARY OR STANDBY CUSTOMER
TAKING ELECTRIC SERVICE UNDER THE PROVISIONS OF RULE D7**

**CONSUMERS POWER COMPANY
CONTRACT FOR ELECTRIC SERVICE - AUXILIARY OR STANDBY SERVICE**

AGREEMENT, made this _____ day of _____, _____, between CONSUMERS POWER COMPANY, (_____ Region), herein termed the Company and _____, of the _____ of _____, Michigan, herein termed the Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, electric energy as auxiliary or standby, to the Customer's electric generating plant located at _____, in _____ of _____, Michigan.

2. The electric energy to be supplied shall be alternating current, _____, 60 hertz, at approximately _____ volts. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to avoid damage thereto, tampering or interference with such metering equipment.

3. The Customer shall pay for such energy in accordance with the Company's Rate _____. By reason of the character of the proposed use of service, it is also subject to the provisions of Rule D7 - Auxiliary or Standby Service, of the Company's Schedule of Rates Governing the Sale of Electric Service herein referred to. A copy of said rate and sheet(s) containing said Rule are also hereto attached and made a part hereof. Said service shall also be subject to amendments of said rate and/or Rule as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement.

4. It is further agreed that:

a. The Customer's firm capacity and standby capacity shall be initially established at _____ kilowatts and _____ kilowatts, respectively. Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.

b. Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service as filed with the Michigan Public Service Commission, and such amendments thereof as may be filed during the term hereof. A copy thereof will be furnished to the Customer upon request.

c. Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate and Rule D7, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Company's Schedule of Rates Governing the Sale of Electric Service.

d. The Customer shall install, prior to commencement of service hereunder, double-throw-over electric switching facilities which isolate the Customer's electric generator from the Consumers Power Company system. The Customer's electric generating facilities are not equipped for parallel operation with the Company's system, are limited to supplying an isolated load, and shall not be operated in parallel with the Company's system.

SAMPLE

e. This Agreement will extend for an initial term of one (1) year from _____, and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least thirty (30) days' written notice of its desire to terminate the same at the expiration of any yearly period.

f. This Agreement inures to and binds the successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the above location except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

IN WITNESS WHEREOF, said parties have executed this Agreement, in duplicate, by their duly authorized representatives.

SAMPLE CONDUIT LICENSE AGREEMENT

THIS AGREEMENT, made as of the _____ day of _____, 19____, by and between
CONSUMERS POWER COMPANY, a Michigan corporation, having its principal office in the City of Jackson,
Michigan, hereinafter called "the Owner," and _____

_____ hereinafter called "the Licensee,"

WITNESSETH:

WHEREAS, the Licensee represents that it is the holder of all necessary governmental permits to erect and
maintain aerial cables, wires and associated equipment in the streets, alleys and other public places of _____

_____, Michigan
(hereinafter called "the municipality") for the purpose of transmitting communications and/or electricity; and

WHEREAS, the Licensee desires to locate such cables, wires and associated equipment in the conduit duct
system of the Owner (hereinafter called "conduit") located in said municipality in order to avoid expensive and
unnecessary duplication of facilities; and

WHEREAS, the Owner is willing to permit, to the extent it may lawfully do so, the use of such cables, wires
and associated equipment in its conduit in the municipality for the above-stated purposes, upon the terms and conditions
hereinafter set forth;

SAMPLE

NOW, THEREFORE, in consideration of their respective undertakings herein, the parties agree as follows:

ARTICLE I
AVAILABILITY OF CONDUIT FOR LICENSEE'S ATTACHMENTS

To the extent permitted by law, by the provisions of presently existing joint-use contracts, and by the terms of all necessary permits, licenses, easements, franchises or consents from property owners and governmental authorities having jurisdiction, all of the Owner's conduit in the municipality shall be available to the Licensee for the attachment of cables, wires and associated equipment constituting a portion of the Licensee's system in accordance with the terms of this agreement, if and to the extent that such use, in the Owner's judgment, will not interfere with the Owner's service requirements, including, but not by way of limitation, considerations of safety and economy. No payment for work to accommodate installations or use of the Owner's conduit under this agreement, however extended, shall create or vest in the Licensee any ownership or property rights in such facilities or conduit, and the Licensee's rights in said conduit shall be and remain a mere license.

ARTICLE II
SPECIFICATIONS

All of the Licensee's cables, wires and associated equipment herein provided for shall be installed and maintained in accordance with the requirements and specifications of Michigan Public Service Commission Order No. 1679, as amended, other applicable rules or orders of the Michigan Public Service Commission and other authorities having jurisdiction, and such other specifications, not less restrictive than the foregoing, as the parties may agree upon from time to time.

All work within the Owner's conduits and manholes shall be performed by licensed electrical contractors and in accordance with the current edition of the National Electrical Safety Code, Michigan Law, Occupational Safety and Health Act, and the rules and specifications of the Owner provided to the Licensee to facilitate proper construction. The

Revised 7/86

SAMPLE

Owner may be present during any installation in conduits or racking in manholes. Inspection by the Owner of each new installation is mandatory. The Owner reserves the right to shut down any installation work that in its sole judgement does not conform to any of the forementioned codes, laws, rules or specifications. The Licensee shall give the Owner at least ten (10) days notice of the commencement of installation.

In the event an installation at the location specified by the Owner would violate any applicable law, rule, regulation, ordinance or order of any governmental authority or regulatory body, including the Michigan Public Service Commission, the Licensee shall so advise the Owner and obtain its authorization to make such installation at a location which does not violate any such law, rule, regulation, ordinance or order. It shall be the sole responsibility of the Licensee to determine if the installation at the specified location or locations will violate any such law, rule, regulation, ordinance or order. No installation shall be made or maintained at a location that violates any such law, rule, regulation, ordinance or order.

Installations in conduit will be limited to space available in Owner's existing facilities as it in its sole discretion determines. Installing parties will be accommodated in order of application date.

ARTICLE III

APPLICATION AND PERMIT PROCEDURE

Whenever the Licensee desires to make installations in any conduit of the Owner, the Licensee shall prepare and submit to the Owner three (3) copies of an application (accompanied by the application fee required by Paragraph (1) of Article VII hereof) on an Application and Permit form, a copy of which is attached hereto and made a part hereof as Exhibit A, including any sketch and other information necessary to clearly show the location of such conduit. As soon as reasonably possible after a properly prepared and submitted Application and Permit is furnished to the Owner, the Owner shall either deny or grant permission for such attachment as follows:

SAMPLE

- (1) If, in the Owner's judgment, such conduit is unavailable for installation, such Application and Permit shall be ineffective and the Owner shall notify the Licensee in writing of such unavailability.

- (2) If, in the Owner's judgment, such conduit is available for installation, and the Licensee is not to be charged for any cost of work to accommodate installations in connection therewith, the Owner shall complete, execute and furnish to the Licensee one (1) copy of such Application and Permit, which shall thereupon be effective as a Permit.

- (3) If, in the Owner's judgment, such conduit is available for installation, and the Licensee is to be charged for the cost of work to accommodate installations in connection therewith, the Owner shall complete, execute and furnish to the Licensee two (2) copies of such Application and Permit, setting forth the estimated cost of such work to accommodate installations. The Licensee, if it desires to proceed with the permitted installation subject to payment of the cost of such work to accommodate installations as provided in Article V hereof, shall endorse its authorization of such work on the Application and Permit and return one (1) copy thereof to the Owner within ten (10) days after the time the executed copies of the Application and Permit were furnished to the Licensee by the Owner. The Application and Permit shall become effective as a Permit upon Licensee's receipt of written notice that all necessary work to accommodate installations has been completed. If the Licensee does not return the Application and Permit containing its endorsed authorization of such work to accommodate installations within the time specified herein, such Application and Permit shall be ineffective.

The Licensee shall make no installation in any conduit of the Owner as to which there does not exist an effective Permit, and as to which all necessary permits, licenses, easements, franchises and consents have not been secured by the Licensee as required by or pursuant to Article IV hereof.

If any cable, wire or equipment of Licensee shall be found in a conduit for which no license is outstanding, the Owner, without prejudice to its other rights or remedies under this agreement or otherwise, may (1) impose a charge, and (2) require Licensee to remove such cable, wire or equipment forthwith or the Owner may remove them without liability 30 days after having given written notice to the Licensee of their unauthorized installation and the expense of removal shall be borne by Licensee. In the latter event, the Licensee shall reimburse the Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties) resulting from such unauthorized installation and the removal thereof. For the purpose of determining the charge, in the absence of satisfactory evidence to the contrary, the unlicensed use shall be treated as having existed for a period of three (3) years prior to its discovery; and the fee, at the appropriate rate as shown in Article VII hereof, for each year and for any portion of a year contained in such period, shall be due and payable forthwith. Any such fee imposed by the Owner shall be in addition to its rights to any other sums due and payable and to any claims or damages under this agreement or otherwise. No act or failure to act by the Owner with regard to said fee or said unlicensed use shall be deemed as a ratification, or the licensing, of the unlicensed use, and if any license should subsequently be issued, after application and payment of the application fee therefor, said license shall not operate retroactively or constitute a waiver by the Owner of any of its rights or privileges under this agreement or otherwise.

ARTICLE IV

RIGHT OF WAY FOR LICENSEE'S INSTALLATIONS

It is agreed that the Licensee shall be solely responsible for securing from property owners and governmental authorities having jurisdiction all necessary permits, licenses, easements, franchises, approvals and consents relating to the Licensee's installation and maintenance of cables, wires and associated equipment at any conduit location proposed to be utilized, and for submitting satisfactory evidence of the same to the Owner if requested so to do, before making an installation in such conduit location.

At the request of Licensee, the Owner may agree to attempt to secure common rights of way from a private property owner or developer for all Licensees when proposing to install new conduit. Should the private property owner

Revised 7/86

SAMPLE

or developer refuse to grant common rights of way to the Owner and Licensee, it is then the sole responsibility of the Licensee to secure their own right of way.

Licensee, for which a common right of way has been secured by the Owner, shall pay the Owner an equal share of the cost to secure the common right of way.

The Owner reserves the right to enter into a separate contractual arrangement providing for other parties to make attachments in any available space of Owner's conduit. Such contract(s) shall include provisions for payment to the Owner for use of the Owner's right of way in addition to any other application, rental, accommodation work or miscellaneous charges.

It is also agreed that upon the execution of this agreement, the Licensee shall submit to the Owner satisfactory evidence of the Licensee's right to install and maintain cables, wires and associated equipment in the streets, alleys and other public places of the municipality.

ARTICLE V

WORK TO ACCOMMODATE LICENSEE'S INSTALLATION

If the Licensee, by endorsement of an Application and Permit as provided in Article III hereof, indicates its desire to make a conduit installation which in the Owner's judgment will require work to accommodate installation, such endorsement shall constitute authorization for the Owner or others to make the necessary accommodations. The work to accommodate installation, in conduit and manholes, may include, but is not limited to, providing copies of the Owner's rules and specifications necessary to facilitate installation, inspection, duct routing, removing Owner's surplus materials from manholes and providing copies of whatever maps of existing facilities are available. The work shall be commenced with reasonable promptness after receipt of the Licensee's authorization, and notice of completion shall be given to the Licensee within ten (10) days after completion. The Licensee shall pay the Owner for such work to accommodate installation in accordance with Article VII hereof.

Revised 7/86

SAMPLE

The Licensee shall also reimburse the owner or owners of any other facilities installed in the existing conduit pursuant to joint use agreement for their respective costs of altering their installed facilities, including where applicable the cost of transferring, rearranging, or replacing its facilities or other added work to accommodate use by the Licensee except to the extent, if any, that such owner(s) has agreed to pay for same.

The time and manner of the making of any such payment to the owner or owners of any such other facilities shall be as agreed between the Licensee and said owner or owners.

ARTICLE VI

MAINTENANCE OF LICENSEE'S INSTALLATIONS AND INSPECTION

The Licensee agrees to make and maintain its installations in safe condition and in thorough repair, at its own expense, and in such a manner, suitable to the Owner, that said installations will not conflict with the use of conduit by the Owner or other authorized parties, or interfere with the operation or use of facilities which are or which may from time to time be placed therein. The Licensee shall at any time, at its own expense, upon notice from the Owner, relocate, remove, replace or renew its facilities, transfer to substituted poles, conduit or perform any other work in connection with said facilities that may be required by the Owner in the maintenance, replacement, removal or relocation of said conduit or the facilities which are or which may from time to time be placed therein, or that may be required for the service needs of the Owner. If the Licensee neglects or refuses to comply with the directives of such a notice, or in cases of emergency, the Owner shall have the right to remove, relocate, replace or renew the facilities placed in said conduit by the Licensee, transfer such facilities to replacement poles, or perform any other work in connection with said facilities and the Licensee shall, on demand, reimburse the Owner for the costs thereby incurred as a result of the Licensee's failure or refusal to act in compliance with such notice.

The Licensee shall be solely responsible for eliminating any and all inductive interference. The Owner will, if requested by the Licensee, cooperate with the Licensee in eliminating such interference; however, the Licensee shall pay all costs of any work or operations performed by the Owner to eliminate or reduce inductive interference.

Revised 7/86

SAMPLE

The Owner shall inspect each new installation and reserves the right to make periodic inspections of any part of the cable, wires and equipment of Licensee in the Owner's conduit and in the vicinity thereof; and Licensee shall reimburse the Owner for the expense of such inspections. Inspections will not be made more often than once a year unless, in the Owner's judgment, such inspections are required for reasons involving safety or are required because of a violation of the terms of this agreement by Licensee. The charge for the inspection shall be in accordance with the terms and conditions of Article VII hereof. The making of such inspections or the failure to do so shall not operate to relieve Licensee of any responsibility, obligation or liability assumed under this agreement.

ARTICLE VII

FEES AND CHARGES

- (1) The Licensee agrees to pay the Owner a nonrefundable Application Fee in the amount provided for in Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time, for each application for a license. Said Fee must accompany the Application.
- (2) The Licensee agrees to pay the Owner an Annual Fee in the amount provided for in the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time. For each foot of conduit covered by a Permit granted after July 1 of any contract year, the Licensee shall, within twenty-one (21) days after issuance of the Permit for said conduit, pay the pro rata portion of the Annual Fee for the remainder of the contract year.
- (3) The Licensee further agrees to pay the Owner:
 - (a) The Owner's cost (including, but not limited to, the cost of an investigation of the Owner's conduit and field book records, field visits, determination of the Owner's current and future requirements, preparing a preliminary cost estimate for the Owner's work to accommodate the Licensee, preparing a written response detailing the results of the conduit investigation, and issuing a permit if granted, engineering and rearranging the existing facilities) of work to

Revised 7/86

SAMPLE

accommodate installations by the Licensee when the Licensee has authorized such work pursuant to this agreement.

- (b) The Owner's cost of making any inspection or inspections pursuant to Articles II and VI hereof.
- (4) In the event that any present or future Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls prevent the Owner from charging all or any part of the Application Fee provided for in Paragraph (1) of this Article VII or any part of the Annual Fee provided for in Paragraph (2) of this Article VII, the Licensee shall, during the time or times that the Owner is prevented from making such charges, pay the portion of said Application Fee and/or Annual Fee which is permissible under such Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls.
- (5) When any charge to the Licensee provided for in this agreement is to be based upon the Owner's cost, said cost shall be determined in accordance with the Owner's regular and customary method of determining such costs unless otherwise expressly provided herein.
- (6) The Owner may at its option require the Licensee to pay the estimated cost of any work to accommodate installations, to be paid by it pursuant to Paragraph (3)(a) of this Article VII, prior to the commencement of any such work to accommodate installations. If the actual cost of any such work is not equal to the advance payment made by the Licensee, the Owner will, after completion of the work, submit to the Licensee a bill for the amount by which the cost of the work exceeded the advance payment or will grant the Licensee a credit for the amount by which the advance payment exceeded the actual cost of the work to accommodate installations.

ARTICLE VIII
TERMINATION OF PERMITS

Upon notice from the Owner to Licensee that the use of any conduit is not authorized by Federal, State, County or Municipal authorities or private property owners, the license covering the use of such conduit shall immediately terminate and shall be surrendered and Licensee shall remove its cables, equipment and facilities at once from the affected conduit.

Upon notice from the Owner to the Licensee that the Owner intends to abandon any conduit, the Permit covering said conduit shall, unless otherwise provided in the notice, terminate and cease to be effective as to said conduit. To the extent that it may legally do so under prior agreements or otherwise, the Owner may sell to the Licensee, at any time within thirty (30) days after such notice, at the then value thereof in place or such other equitable sum as may be agreed upon between the parties, any conduit which the Owner has given notice of intent to abandon.

If at any time the Owner, or other party under the terms of a joint-use agreement executed prior to the date of this agreement, desires to make additional installations to any conduit carrying facilities of the Licensee, or otherwise to use for its own service needs the space occupied by the Licensee's facilities, and in the Owner's judgment the existing conduit is inadequate under applicable requirements and specifications to support such additional facilities or use, the Owner shall give the Licensee notice to that effect and the Permit covering said conduit shall terminate and cease to be effective as to said conduit unless within ten (10) days after such notice the Owner receives authorization from the Licensee agreeing to pay the entire cost (as provided in Paragraph (3)(a) of Article VII hereof) to the Owner of replacing the inadequate conduit with a conduit adequate to support such additional facilities or use together with the facilities of the Licensee and the existing facilities of the Owner that are to remain, and the existing facilities of other parties if made pursuant to joint-use agreements executed prior to the date of this agreement. If the existing conduit would be adequate but for the facilities of other parties made pursuant to joint-use agreements executed after the date of this agreement, the Licensee shall not be liable for any portion of the cost of a replacement conduit therefor.

SAMPLE

The Licensee may at any time terminate any Permit or Permits by removing its facilities from any conduit and by notice to the Owner in duplicate on the Termination Of Use Of Consumers Power Company's Conduit Duct System by Licensee form attached hereto and made a part hereof as Exhibit B; the Permit or Permits covering the use of such conduit shall thereupon terminate and cease to be effective.

Any Permit granted hereunder for installation in the Owner's conduit shall terminate without further notice to Licensee as to individual conduit covered by the Permit to which Licensee has not installed within sixty (60) days from the date that Owner has notified Licensee that such conduit is available for installation of the operating facilities of Licensee.

The Owner may require that all Permits shall automatically terminate and cease to be effective upon the termination of this agreement.

ARTICLE IX TERMINATION FOR DEFAULT

If the Licensee shall neglect or refuse to comply with any of the provisions of this agreement, including the specifications and requirements referred to in Article II hereof, or default on any of its obligations hereunder, and shall fail within ten (10) days after written notice from the Owner to correct such neglect, refusal or default, the Owner may at its option, in addition to any other remedy available to it, forthwith terminate this agreement or the Permit or Permits covering the conduit as to which such neglect, refusal or default shall have occurred.

ARTICLE X REMOVAL UPON TERMINATION

The Licensee shall remove from any conduit its facilities, the Permit or Permits for which have been terminated, within thirty (30) days (except as otherwise provided in the first paragraph of Article VIII hereof) after the time such Permit or Permits cease to be effective, failing which the Owner shall have the right to remove the Licensee's facilities from said conduit without notice or liability of any kind; in the latter event, the Licensee shall reimburse the

Revised 7/86

SAMPLE

Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties), resulting from such removal.

ARTICLE XI
LIABILITY AND INSURANCE

The Owner reserves to itself, its successors and assigns, the right to maintain its conduit and to operate its facilities therein in such manner as will best enable it to fulfill its own service requirements. The Owner shall not be liable to the Licensee for any interruption in service furnished by the Owner to the Licensee or to other customers of the Owner, or in service furnished by the Licensee to customers of the Licensee, or for any interference, including, but not limited to, inductive interference, with the operation of facilities of the Licensee or of customers of the Owner or of the Licensee, which may arise in any manner out of the Licensee's use of the Owner's conduit or other facilities, whether by the negligence of the Owner or otherwise.

The Licensee agrees to exercise special precautions to avoid damage to facilities of the Owner and of others in the Owner's conduit, and the Licensee hereby assumes responsibility for any and all damage to such facilities arising out of or caused by the conduct or property of the Licensee, whether by the negligence of the Licensee or otherwise. The Licensee shall make an immediate report to the owner or owners of any such facilities of the occurrence of any such damage and hereby agrees to reimburse such owner or owners for expenses incurred by them in making necessary repairs and replacements.

The Licensee shall assume all responsibility for bodily injury to persons, including death or damages, sustained or claimed by its employees, the employees of the Owner, or by any other person, and also for damage to property, including property of the Licensee, the Owner, or any other person, and also for any interruptions to electric or community antenna television or other communications service, which may occur or allegedly occur because of, or result from, or in any manner are connected with or directly or indirectly arise out of or are caused in whole or in part by the installation, maintenance, presence, replacement, use or removal of the Licensee's facilities hereunder or by the proximity

Revised 7/86

SAMPLE

of the Licensee's cables, wires and associated equipment and those of the Owner or other users of the Owner's conduit, or by any action, operation or omission of the Licensee, its agents, contractors or employees, under this agreement; and the Licensee shall assume all responsibility for and shall indemnify and save the Owner harmless from and against all losses, liabilities, claims, demands, payments, actions, legal proceedings, recoveries, costs, expenses, attorney fees, settlements, judgments, orders and decrees of every nature and description brought or recovered against, or incurred by, the Licensee, the Owner, or both of them, by reason of any such bodily injury to persons, damage to property, or interruptions to service. Notwithstanding the foregoing, the Licensee shall not be required to indemnify the Owner against liability for damages arising out of bodily injury to persons, damage to property or interruptions to service caused by or resulting from the sole negligence of the Owner, its agents, or employees.

Licensee shall also indemnify, protect and save Owner harmless from any and all claims and demands of whatever kind which arise directly or indirectly from the operation of Licensee's facilities including taxes, special charges by others, claims and demands for damages or loss for infringement of copyright, for libel and slander, for unauthorized use of other program material, and from and against all claims and demands for infringement of patents with respect to the manufacture, use and operation of Licensee's equipment whether arising from the use of Licensee's equipment in combination with Owner's conduit or otherwise.

Without limiting the foregoing, the Licensee agrees at the request of the Owner to defend at the Licensee's expense any suit or proceeding brought against the Owner for any of the above-named reasons.

The Licensee shall at its sole expense secure and maintain in force in the name of the Licensee during the entire life of this agreement, policies of insurance of the following types:

- (a) Workers' Compensation Insurance with Michigan statutory limits.

- (b) **Comprehensive General Liability Insurance with a minimum combined bodily injury and property damage single limit of \$500,000 per occurrence. The Owner shall be included as an Additional Insured under Premises-Operations and Completed Operations, as its interests may appear.**

This insurance must be written so as to cover liability from damage:

- (u) **Resulting in injury to or destruction of wires, conduits, pipes, mains, sewers, tanks, tunnels, any similar property and any apparatus in connection therewith, below the surface of the ground or water caused by and occurring during the use of mechanical equipment for the purpose of grading land, paving, excavating, drilling, borrowing, filling, back-filling or pile driving.**
- (c) **Contractual Liability Insurance specifically endorsed to cover liability assumed by the Licensee under this agreement with the Owner.**
- (d) **Automobile Liability Insurance with a minimum combined bodily injury and property damage single limit of \$100,000 per occurrence, providing coverage for owned, nonowned and hired vehicles. The Owner shall be included as an Additional Insured as its interest may appear.**

Such policies of insurance shall be in a form and with companies satisfactory to the Owner and each policy shall include, by endorsement, the following Cancellation or Change Clause:

"This insurance will not be canceled by this Insurance Company nor any changes made in the policy which materially change, restrict, or reduce the insurance provided, or change the name of the Insured, as respects contracts or subcontracts performed by the Insured for Consumers Power Company, without first giving ten days' notice in writing to Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201; Attention Insurance Department."

Revised 7/86

SAMPLE

Either a certificate of insurance, on a form to be supplied by the Owner, or certified copies of the policies must be filed with and approved by the Owner prior to the installation of facilities of the Licensee in any conduit of the Owner hereunder.

The above requirements as to policies of insurance may be varied by written amendment to this agreement.

ARTICLE XII
RIGHTS OF OTHER PARTIES

Nothing contained herein shall be construed as affecting any rights or privileges, heretofore granted by the Owner by contract or otherwise to any other parties, to use any conduit covered by this agreement, and the Owner shall have the right to continue, modify and extend any such rights or privileges in accordance with the terms of any such rights or privileges. The installation privileges granted herein shall be subject to such previously granted rights or privileges. Moreover, nothing contained herein shall be construed as affecting any rights or privileges hereafter granted by the Owner by contract or otherwise to any other parties, to use any conduit covered by this agreement, and the Owner shall have the right to initiate, continue, modify and extend any such rights or privileges in any manner not inconsistent with the performance of its obligations hereunder.

ARTICLE XIII
ASSIGNMENT

This agreement shall be personal to the Licensee, and any assignment or other transfer by the Licensee, in whole or in part, of its rights or privileges hereunder, without the prior written consent of the Owner, shall be void and not merely voidable. Subject to the foregoing, this agreement shall extend to and bind the successors and assigns of the parties hereto.

ARTICLE XIV
WAIVER OF TERMS AND CONDITIONS

Failure of the Owner to enforce or insist upon compliance with any of the terms or conditions of this agreement shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in full force and effect.

ARTICLE XV
BILLS AND PAYMENTS

Initial annual rental charges shall be paid in advance at such time as the Licensee's permit becomes effective. Thereafter, except as provided otherwise below, annual rental shall be billed quarterly, due in advance on the first day of January, April, July and October.

Bills shall include the following charges or costs when applicable:

- Power Supply Service
- Pole and Conduit Rental
- Rearrangement (Reconstruction or Alteration)
- Inspection
- Other Expenses

Quarterly conduit rental shall be one-quarter of the annual rate and shall be based on the number of conduit feet occupied on the first day of the quarter.

Licensees whose annual rental charges, when calculated in accordance with the Owner's Pole Attachment and Conduit Use Rate PA, are \$60.00 or less per contract are required to pay a minimum annual rental charge of \$60.00.

Revised 7/86

SAMPLE

Initial annual minimum rental charges shall be due in advance concurrent with the date upon which the permit becomes effective. Thereafter, annual minimum rental charges shall be billed annually, due in advance on the first day of April.

Licensees not subject to annual minimum rental charges, but whose annual rental is \$1,000 or less, shall be billed annually, due in advance on the first day of April.

Unless otherwise expressly provided herein, bills under this agreement shall be payable within twenty-one (21) days after presentation. Nonpayment of bills within said period shall be deemed to be a default within the meaning of Article IX hereof. Any bill not paid when due shall be subject to the Late Payment Charge provided in the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time.

ARTICLE XVI

MICHIGAN PUBLIC SERVICE COMMISSION

This agreement is subject to all applicable rules, regulations and orders of the Michigan Public Service Commission and to the terms of the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time. To the extent that any provision of this agreement is in conflict with any such rule, regulation, order or rate, such rule, regulation, order or rate shall control.

ARTICLE XVII

TERM OF AGREEMENT

This agreement shall take effect on _____, 19____ and, unless sooner terminated in accordance with the provisions of Article IX hereof, shall continue in effect until terminated by mutual consent, or by either party giving the other at least six months' advance written notice of its desire to terminate the same at any time hereafter.

ARTICLE XVIII
NOTICES AND DOCUMENTS

Except as otherwise provided in this agreement, the giving or furnishing of any notice or document in connection with this agreement shall be deemed to occur (a) in the case of personal delivery of such notice or document, on the date of such delivery, (b) in the case of mailing of such notice or document by registered or certified mail, on the date of receipt of such registered or certified mail, or (c) in the case of mailing of such notice or document by regular mail, on the second business day following the date of postmark of such mailing.

Notices or other documents to be given or furnished to the Owner shall be delivered or mailed to:

TAKING ELECTRIC SERVICE UNDER THE PROVISIONS OF RULE D7**

**CONSUMERS POWER COMPANY
CONTRACT FOR ELECTRIC SERVICE - AUXILIARY OR STANDBY SERVICE**

AGREEMENT, made this _____ day of _____, _____, between CONSUMERS POWER COMPANY, (_____ Region), herein termed the Company and _____, of the _____ of _____, Michigan, herein termed the Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, electric energy as auxiliary or standby, to the Customer's electric generating plant located at _____, in _____ of _____, Michigan.

2. The electric energy to be supplied shall be alternating current, _____, 60 hertz, at approximately _____ volts. Delivery shall be made at one mutually agreeable point upon the Customer's premises. The electric energy shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to avoid damage thereto, tampering or interference with such metering equipment.

3. The Customer shall pay for such energy in accordance with the Company's Rate _____. By reason of the character of the proposed use of service, it is also subject to the provisions of Rule D7 - Auxiliary or Standby Service, of the Company's Schedule of Rates Governing the Sale of Electric Service herein referred to. A copy of said rate and sheet(s) containing said Rule are also hereto attached and made a part hereof. Said service shall also be subject to amendments of said rate and/or Rule as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement.

4. The Company is presently supplying adequate service by means of _____ transformer banks presently installed in the _____ Substation. The Customer, however, desires additional electric service at _____ volts from said _____ Substation to be furnished by the Company at the Customer's plant and request the Company to make the necessary modifications in its _____ Substation and _____ transmission system to render such service. In order for the Company to provide such additional service, it will be necessary for it to install a _____-volt transformer and associated equipment in the existing Company-owned _____ Substation. The Customer shall pay the Company the sum of _____ for furnishing said facilities, said sum shall be considered to be a contribution in aid of construction and shall not be subject to refund. The title to said facilities shall vest in the Company and the Customer shall have no interest therein by reason of said payment.

5. Should the Customer desire to cancel, defer or otherwise alter the plans for this project, it may do so by giving sixty (60) days' written notice to the Company terminating this Agreement. In the event of such termination, the Company's out-of-pocket costs, unrecoverable cost and cancellation charges for design work done and equipment ordered, purchased and/or installed pursuant to this Agreement shall be deducted from the above payment and the balance of the payment shall be refunded to the Customer without interest.

6. It is further agreed that:

a. The existing _____-volt substation comprised of _____ transformer banks will remain operational upon energization of the new _____-volt substation. Thereafter the Customer will be billed as if all energy delivered through the two substations were delivered through a single meter. The Customer is to complete all cutovers from the existing _____-volt transformers by _____, and shall pay the appropriate special facilities charges after _____ on any portion of the _____-volt transformer that must remain in service as a result of the Customer's cutover not being completed.

b. The Customer's firm capacity and standby capacity shall be initially established at _____ kilowatts and _____ kilowatts, respectively. Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.

c. Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.

d. Except as to the capacity and minimum charges payable by the Customer, prescribed in said Rate _____ and Rule D7, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Company's Schedule of Rates Governing the Sale of Electric Service.

e. Permission is hereby given by the Company to the Customer to operate the Customer's existing generating equipment in parallel with the Company's generating system subject to the provisions of Rule B10.6C. - General Provisions of Service - Parallel Operation Requirements, as stated on Sheet No B-29.00 of the Company's Schedule of Rates Governing the Sale of Electric Service. A copy of said Sheet No B-29.00 containing said Rule is hereto attached and made a part hereof.

The Customer agrees to install and properly maintain suitable approved protective appliances and devices and to provide sufficient trained personnel to protect its equipment and service and the equipment and service of the Company from injury or interruptions which might be caused by a flow of current from the Company's lines to the Customer's connections or from a flow of current from the Customer's generating equipment to the Company's lines and to assume any loss, liability or damage caused by a lack of such protection.

The electric measuring instruments from which information is taken for billing purposes will be equipped with ratchets or attachments to prevent a credit to the Customer for any current which its plant may generate and send back into the Company's lines.

f. The Customer shall furnish, without cost to the Company, a suitable site on said premises for the Company's substation and electric lines. Any subsequent facility relocation at the Customer's request shall be at the expense of the Customer. The Company, its agents and employees shall have full right and authority of ingress and egress at all times on and across said premises of the Customer for the purpose of constructing, maintaining, replacing, repairing, moving and removing the Company's said facilities. Said right of ingress and egress shall not unreasonably interfere with the use of the Customer's said premises. For protection of the Company's lines, no buildings or other structures will be placed within _____ feet on each side of the center line of said lines. The Company shall have the right to cut, trim, remove, destroy or otherwise control all trees or brush now or hereafter standing or growing on said premises within _____ feet on each side of the center line of said lines and all trees in excess of _____ feet in height on said premises within _____ feet on each side of the center line of said lines. If due to the substation location, contamination interferes with the operation and maintenance of the substation, the additional cost to the Company resulting from such contamination including, but not limited to, the cost of removing the contamination shall be paid by the Customer. To avoid payment of such cost in the future, the Customer may purchase the substation from the Company upon mutually acceptable terms and conditions.

SAMPLE

g. This Agreement will extend for a term of two years from the date that energy is first made available hereunder ("Service Date") from said proposed _____-volt substation, which date is estimated to be on or about the _____

The Company may remove all its facilities to provide auxiliary or standby service at the end of the two-year term unless prior to that time the term of this Agreement is extended or a new agreement for auxiliary or standby service is entered into by the parties.

h. The maximum demand charge for the first 11 months under this new Agreement shall be based upon the historical maximum demand created by electric service furnished by the Company at the above location during the current month and the previous 11 months including service under the Contract for Electric Service - Auxiliary or Standby Service dated _____. Similarly, the On-Peak Billing Demand provision of Rate _____ shall apply to the first 11 months under this new Agreement and be based upon the previous standby adjusted demands for 11 months of service provided by the Company at the above location under this Agreement and said _____ agreement.

i. As of the Service Date, said agreement of _____ is hereby terminated.

IN WITNESS WHEREOF, said parties have executed this Agreement, in duplicate, by their duly authorized representatives.

**SAMPLE CONTRACT FOR AUXILIARY OR STANDBY CUSTOMER
TAKING ELECTRIC SERVICE UNDER THE PROVISIONS OF RULE 22**

**CONSUMERS POWER COMPANY
CONTRACT FOR ELECTRIC SERVICE — AUXILIARY OR STANDBY SERVICE**

AGREEMENT, made this _____ day of _____, 1987, between CONSUMERS POWER COMPANY, (_____ Region), herein termed the Company and _____, of the _____ of _____, Michigan, herein termed the Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, electric energy as auxiliary or standby, to the Customer's electric generating plant located at _____, in _____ of _____, Michigan.

2. The electric energy to be supplied shall be alternating current, _____, 60 hertz, at approximately _____ volts. Delivery shall be made at one mutually agreeable point upon the Customer's premises. The electric energy shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to avoid damage thereto, tampering or interference with such metering equipment.

3. The Customer shall pay for such energy in accordance with the Company's Rate _____. By reason of the character of the proposed use of service, it is also subject to the provisions of Rule 22 — Auxiliary or Standby Service, of the Company's Schedule of Rates Governing the Sale of Electric Service herein referred to. A copy of said rate and sheet(s) containing said Rule are also hereto attached and made a part hereof. Said service shall also be subject to amendments of said rate and/or Rule as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement.

4. The Company is presently supplying adequate service by means of _____ transformer banks presently installed in the _____ Substation. The Customer, however, desires additional electric service at _____ volts from said _____ Substation to be furnished by the Company at the Customer's plant and request the Company to make the necessary modifications in its _____ Substation and _____ transmission system to render such service. In order for the Company to provide such additional service, it will be necessary for it to install a _____-volt transformer and associated equipment in the existing Company-owned _____ Substation. The Customer shall pay the Company the sum of _____ for furnishing said facilities, said sum shall be considered to be a contribution in aid of construction and shall not be subject to refund. The title to said facilities shall vest in the Company and the Customer shall have no interest therein by reason of said payment.

5. Should the Customer desire to cancel, defer or otherwise alter the plans for this project, it may do so by giving sixty (60) days' written notice to the Company terminating this Agreement. In the event of such termination, the Company's out-of-pocket costs, unrecoverable cost and cancellation charges for design work done and equipment ordered, purchased and/or installed pursuant to this Agreement shall be deducted from the above payment and the balance of the payment shall be refunded to the Customer without interest.

6. It is further agreed that:

a. The existing _____-volt substation comprised of _____ transformer banks will remain operational upon energization of the new _____-volt substation. Thereafter the Customer will be billed as if all energy delivered through the two substations were delivered through a single meter. The Customer is to complete all cutovers from the existing _____-volt transformers by _____, and shall pay the appropriate special facilities charges after _____ on any portion of the _____-volt transformer that must remain in service as a result of the Customer's cutover not being completed.

b. The Customer's firm capacity and standby capacity shall be initially established at _____ kilowatts and _____ kilowatts, respectively. Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.

c. Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.

d. Except as to the capacity and minimum charges payable by the Customer, prescribed in said Rate _____ and Rule 22, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Company's Schedule of Rates Governing the Sale of Electric Service.

e. Permission is hereby given by the Company to the Customer to operate the Customer's existing generating equipment in parallel with the Company's generating system subject to the provisions of Rule 5 — Use of Service, as stated on Sheet No A23 of the Company's Schedule of Rates Governing the Sale of Electric Service. A copy of said Sheet No A23 containing said Rule is hereto attached and made a part hereof.

The Customer agrees to install and properly maintain suitable approved protective appliances and devices and to provide sufficient trained personnel to protect its equipment and service and the equipment and service of the Company from injury or interruptions which might be caused by a flow of current from the Company's lines to the Customer's connections or from a flow of current from the Customer's generating equipment to the Company's lines and to assume any loss, liability or damage caused by a lack of such protection.

The electric measuring instruments from which information is taken for billing purposes will be equipped with ratchets or attachments to prevent a credit to the Customer for any current which its plant may generate and send back into the Company's lines.

f. The Customer shall furnish, without cost to the Company, a suitable site on said premises for the Company's existing _____-volt substation and _____-volt substation equipment and transmission lines. If, during the term hereof, the Customer's use of said premises makes necessary the relocation of

said facilities from the site presently furnished to another site on said premises, the Company shall relocate the same at the Customer's request, and the Customer shall reimburse the Company for the cost thereby incurred. The Company, its agents and employees, shall have full right and authority of ingress and egress at all times on and across said premises of the Customer, for the purpose of constructing, operating, maintaining, replacing, repairing, moving and removing its said facilities. Said right of ingress and egress, however, shall not unreasonably interfere with the use of the Customer's said premises.

g. This Agreement will extend for a term of two years from the date that energy is first made available hereunder ("Service Date") from said proposed _____-volt substation, which date is estimated to be on or about the _____

The Company may remove all its facilities to provide auxiliary or standby service at the end of the two-year term unless prior to that time the term of this Agreement is extended or a new agreement for auxiliary or standby service is entered into by the parties.

h. The maximum demand charge for the first 11 months under this new Agreement shall be based upon the historical maximum demand created by electric service furnished by the Company at the above location during the current month and the previous 11 months including service under the Contract for Electric Service — Auxiliary or Standby Service dated _____. Similarly, the Rate _____ provision that no on-peak billing demand shall be less than 60 percent of the highest on-peak billing demand of the preceding 11 months shall apply to the first 11 months under this new Agreement and be based upon the previous standby adjusted demands for 11 months of service provided by the Company at the above location under this Agreement and said _____ agreement.

i. As of the Service Date, said agreement of _____ is hereby terminated.

IN WITNESS WHEREOF, said parties have executed this Agreement, in duplicate, by their duly authorized representatives.

**CONSUMERS POWER COMPANY
CONTRACT FOR ELECTRIC SERVICE — AUXILIARY OR STANDBY SERVICE**

AGREEMENT, made this _____ day of _____, 1987, between CONSUMERS POWER COMPANY, (_____ Region), herein termed the Company and _____, of the _____ of _____, Michigan, herein termed the Customer, as follows:

1. The Company agrees to supply, and the Customer agrees to purchase hereunder, electric energy as auxiliary or standby, to the Customer's electric generating plant located at _____, in _____ of _____, Michigan.

2. The electric energy to be supplied shall be alternating current, _____, 60 hertz, at approximately _____ volts. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to avoid damage thereto, tampering or interference with such metering equipment.

3. The Customer shall pay for such energy in accordance with the Company's Rate _____. By reason of the character of the proposed use of service, it is also subject to the provisions of Rule 22 — Auxiliary or Standby Service, of the Company's Schedule of Rates Governing the Sale of Electric Service herein referred to. A copy of said rate and sheet(s) containing said Rule are also hereto attached and made a part hereof. Said service shall also be subject to amendments of said rate and/or Rule as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement.

4. It is further agreed that:

a. The Customer's firm capacity and standby capacity shall be initially established at _____ kilowatts and _____ kilowatts, respectively. Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.

b. Such service shall be governed by the Company's Schedule of Rates Governing the Sale of Electric Service as filed with the Michigan Public Service Commission, and such amendments thereof as may be filed during the term hereof. A copy thereof will be furnished to the Customer upon request.

c. Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate and Rule 22, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Company's Schedule of Rates Governing the Sale of Electric Service.

d. The Customer shall install, prior to commencement of service hereunder, double-throw-over electric switching facilities which isolate the Customer's electric generator from the Consumers Power Company system. The Customer's electric generating facilities are not equipped for parallel operation with the Company's system, are limited to supplying an isolated load, and shall not be operated in parallel with the Company's system.

e. This Agreement will extend for an initial term of one (1) year from _____, and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least thirty (30) days' written notice of its desire to terminate the same at the expiration of any yearly period.

f. This Agreement inures to and binds the successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the above location except as contained herein. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent.

IN WITNESS WHEREOF, said parties have executed this Agreement, in duplicate, by their duly authorized representatives.

_____ hereinafter called "the Licensee,"

WITNESSETH:

WHEREAS, the Licensee represents that it is the holder of all necessary governmental permits to erect and maintain aerial cables, wires and associated equipment in the streets, alleys and other public places of _____

_____, Michigan (hereinafter called "the municipality") for the purpose of transmitting communications and/or electricity; and

WHEREAS, the Licensee desires to locate such cables, wires and associated equipment in the conduit duct system of the Owner (hereinafter called "conduit") located in said municipality in order to avoid expensive and unnecessary duplication of facilities; and

WHEREAS, the Owner is willing to permit, to the extent it may lawfully do so, the use of such cables, wires and associated equipment in its conduit in the municipality for the above-stated purposes, upon the terms and conditions hereinafter set forth;

NOW, THEREFORE, in consideration of their respective undertakings herein, the parties agree as follows:

ARTICLE I
AVAILABILITY OF CONDUIT FOR LICENSEE'S ATTACHMENTS

To the extent permitted by law, by the provisions of presently existing joint-use contracts, and by the terms of all necessary permits, licenses, easements, franchises or consents from property owners and governmental authorities having jurisdiction, all of the Owner's conduit in the municipality shall be available to the Licensee for the attachment of cables, wires and associated equipment constituting a portion of the Licensee's system in accordance with the terms of this agreement, if and to the extent that such use, in the Owner's judgment, will not interfere with the Owner's service requirements, including, but not by way of limitation, considerations of safety and economy. No payment for work to accommodate installations or use of the Owner's conduit under this agreement, however extended, shall create or vest in the Licensee any ownership or property rights in such facilities or conduit, and the Licensee's rights in said conduit shall be and remain a mere license.

ARTICLE II
SPECIFICATIONS

All of the Licensee's cables, wires and associated equipment herein provided for shall be installed and maintained in accordance with the requirements and specifications of Michigan Public Service Commission Order No. 1679, as amended, other applicable rules or orders of the Michigan Public Service Commission and other authorities having jurisdiction, and such other specifications, not less restrictive than the foregoing, as the parties may agree upon from time to time.

All work within the Owner's conduits and manholes shall be performed by licensed electrical contractors and in accordance with the current edition of the National Electrical Safety Code, Michigan Law, Occupational Safety and Health Act, and the rules and specifications of the Owner provided to the Licensee to facilitate proper construction. The Owner may be present during any installation in conduits or racking in manholes. Inspection by the Owner of each new installation is mandatory. The Owner reserves the right to shut down any installation work that in its sole judgement does not conform to any of the forementioned codes, laws, rules or specifications. The Licensee shall give the Owner at least ten (10) days notice of the commencement of installation.

In the event an installation at the location specified by the Owner would violate any applicable law, rule, regulation, ordinance or order of any governmental authority or regulatory body, including the Michigan Public Service Commission, the Licensee shall so advise the Owner and obtain its authorization to make such installation at a location which does not violate any such law, rule, regulation, ordinance or order. It shall be the sole responsibility of the Licensee to determine if the installation at the specified location or locations will violate any such law, rule, regulation, ordinance or order. No installation shall be made or maintained at a location that violates any such law, rule, regulation, ordinance or order.

Installations in conduit will be limited to space available in Owner's existing facilities as it in its sole discretion determines. Installing parties will be accommodated in order of application date.

ARTICLE III
APPLICATION AND PERMIT PROCEDURE

Whenever the Licensee desires to make installations in any conduit of the Owner, the Licensee shall prepare and submit to the Owner three (3) copies of an application (accompanied by the application fee required by Paragraph (1) of Article VII hereof) on an Application and Permit form, a copy of which is attached hereto and made a part hereof as Exhibit A, including any sketch and other information necessary to clearly show the location of such conduit. As soon as reasonably possible after a properly prepared and submitted Application and Permit is furnished to the Owner, the Owner shall either deny or grant permission for such attachment as follows:

- (1) If, in the Owner's judgment, such conduit is unavailable for installation, such Application and Permit shall be ineffective and the Owner shall notify the Licensee in writing of such unavailability.
- (2) If, in the Owner's judgment, such conduit is available for installation, and the Licensee is not to be charged for any cost of work to accommodate installations in connection therewith, the Owner shall complete, execute and furnish to the Licensee one (1) copy of such Application and Permit, which shall thereupon be effective as a Permit.

FO0786-0001A-DI02

CANCELLED BY _____ 47511
 ORDER _____
 OCT 18 1983
 REMOVED BY _____ JES

(3) If, in the Owner's judgment, such conduit is available for installation, and the Licensee is to be charged for the cost of work to accommodate installations in connection therewith, the Owner shall complete, execute and furnish to the Licensee two (2) copies of such Application and Permit, setting forth the estimated cost of such work to accommodate installations. The Licensee, if it desires to proceed with the permitted installation subject to payment of the cost of such work to accommodate installations as provided in Article V hereof, shall endorse its authorization of such work on the Application and Permit and return one (1) copy thereof to the Owner within ten (10) days after the time the executed copies of the Application and Permit were furnished to the Licensee by the Owner. The Application and Permit shall become effective as a Permit upon Licensee's receipt of written notice that all necessary work to accommodate installations has been completed. If the Licensee does not return the Application and Permit containing its endorsed authorization of such work to accommodate installations within the time specified herein, such Application and Permit shall be ineffective.

The Licensee shall make no installation in any conduit of the Owner as to which there does not exist an effective Permit, and as to which all necessary permits, licenses, easements, franchises and consents have not been secured by the Licensee as required by or pursuant to Article IV hereof.

If any cable, wire or equipment of Licensee shall be found in a conduit for which no license is outstanding, the Owner, without prejudice to its other rights or remedies under this agreement or otherwise, may (1) impose a charge, and (2) require Licensee to remove such cable, wire or equipment forthwith or the Owner may remove them without liability 30 days after having given written notice to the Licensee of their unauthorized installation and the expense of removal shall be borne by Licensee. In the latter event, the Licensee shall reimburse the Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties) resulting from such unauthorized installation and the removal thereof. For the purpose of determining the charge, in the absence of satisfactory evidence to the contrary, the unlicensed use shall be treated as having existed for a period of three (3) years prior to its discovery; and the fee, at the appropriate rate as shown in Article VII hereof, for each year and for any portion of a year contained in such period, shall be due and payable forthwith. Any such fee imposed by the Owner shall be in addition to its rights to any other sums due and payable and

to any claims or damages under this agreement or otherwise. No act or failure to act by the Owner with regard to said fee or said unlicensed use shall be deemed as a ratification, or the licensing, of the unlicensed use, and if any license should subsequently be issued, after application and payment of the application fee therefor, said license shall not operate retroactively or constitute a waiver by the Owner of any of its rights or privileges under this agreement or otherwise.

ARTICLE IV
RIGHT OF WAY FOR LICENSEE'S INSTALLATIONS

It is agreed that the Licensee shall be solely responsible for securing from property owners and governmental authorities having jurisdiction all necessary permits, licenses, easements, franchises, approvals and consents relating to the Licensee's installation and maintenance of cables, wires and associated equipment at any conduit location proposed to be utilized, and for submitting satisfactory evidence of the same to the Owner if requested so to do, before making an installation in such conduit location.

At the request of Licensee, the Owner may agree to attempt to secure common rights of way from a private property owner or developer for all Licensees when proposing to install new conduit. Should the private property owner or developer refuse to grant common rights of way to the Owner and Licensee, it is then the sole responsibility of the Licensee to secure their own right of way.

Licensee, for which a common right of way has been secured by the Owner, shall pay the Owner an equal share of the cost to secure the common right of way.

The Owner reserves the right to enter into a separate contractual arrangement providing for other parties to make attachments in any available space of Owner's conduit. Such contract(s) shall include provisions for payment to the Owner for use of the Owner's right of way in addition to any other application, rental, accommodation work or miscellaneous charges.

It is also agreed that upon the execution of this agreement, the Licensee shall submit to the Owner satisfactory evidence of the Licensee's right to install and maintain cables, wires and associated equipment in the streets, alleys and other public places of the municipality.

ARTICLE V

WORK TO ACCOMMODATE LICENSEE'S INSTALLATION

If the Licensee, by endorsement of an Application and Permit as provided in Article III hereof, indicates its desire to make a conduit installation which in the Owner's judgment will require work to accommodate installation, such endorsement shall constitute authorization for the Owner or others to make the necessary accommodations. The work to accommodate installation, in conduit and manholes, may include, but is not limited to, providing copies of the Owner's rules and specifications necessary to facilitate installation, inspection, duct routing, removing Owner's surplus materials from manholes and providing copies of whatever maps of existing facilities are available. The work shall be commenced with reasonable promptness after receipt of the Licensee's authorization, and notice of completion shall be given to the Licensee within ten (10) days after completion. The Licensee shall pay the Owner for such work to accommodate installation in accordance with Article VII hereof.

The Licensee shall also reimburse the owner or owners of any other facilities installed in the existing conduit pursuant to joint use agreement for their respective costs of altering their installed facilities, including where applicable the cost of transferring, rearranging, or replacing its facilities or other added work to accommodate use by the Licensee except to the extent, if any, that such owner(s) has agreed to pay for same.

The time and manner of the making of any such payment to the owner or owners of any such other facilities shall be as agreed between the Licensee and said owner or owners.

ARTICLE VI

MAINTENANCE OF LICENSEE'S INSTALLATIONS AND INSPECTION

The Licensee agrees to make and maintain its installations in safe condition and in thorough repair, at its own expense, and in such a manner, suitable to the Owner, that said installations will not conflict with the use of conduit by the Owner or other authorized parties, or interfere with the operation or use of facilities which are or which may from time to time be placed therein. The Licensee shall at any time, at its own expense, upon notice from the Owner, relocate, remove, replace or renew its facilities, transfer to substituted poles, conduit or perform any other work in connection with said facilities that may be required by the Owner in

the maintenance, replacement, removal or relocation of said conduit or the facilities which are or which may from time to time be placed therein, or that may be required for the service needs of the Owner. If the Licensee neglects or refuses to comply with the directives of such a notice, or in cases of emergency, the Owner shall have the right to remove, relocate, replace or renew the facilities placed in said conduit by the Licensee, transfer such facilities to replacement poles, or perform any other work in connection with said facilities and the Licensee shall, on demand, reimburse the Owner for the costs thereby incurred as a result of the Licensee's failure or refusal to act in compliance with such notice.

The Licensee shall be solely responsible for eliminating any and all inductive interference. The Owner will, if requested by the Licensee, cooperate with the Licensee in eliminating such interference; however, the Licensee shall pay all costs of any work or operations performed by the Owner to eliminate or reduce inductive interference.

The Owner shall inspect each new installation and reserves the right to make periodic inspections of any part of the cable, wires and equipment of Licensee in the Owner's conduit and in the vicinity thereof; and Licensee shall reimburse the Owner for the expense of such inspections. Inspections will not be made more often than once a year unless, in the Owner's judgment, such inspections are required for reasons involving safety or are required because of a violation of the terms of this agreement by Licensee. The charge for the inspection shall be in accordance with the terms and conditions of Article VII hereof. The making of such inspections or the failure to do so shall not operate to relieve Licensee of any responsibility, obligation or liability assumed under this agreement.

ARTICLE VII
FEES AND CHARGES

- (1) The Licensee agrees to pay the Owner a nonrefundable Application Fee in the amount provided for in Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time, for each application for a license. Said Fee must accompany the Application.
- (2) The Licensee agrees to pay the Owner an Annual Fee in the amount provided for in the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time. For each foot of conduit covered by a Permit granted after

FO0786-CG01A-DI02

CANCELLED BY _____ 47511
 ORDER _____
 OCT 18 1983
 REMOVED BY _____ JES

July 1 of any contract year, the Licensee shall, within twenty-one (21) days after issuance of the Permit for said conduit, pay the pro rata portion of the Annual Fee for the remainder of the contract year.

- (3) The Licensee further agrees to pay the Owner:
 - (a) The Owner's cost (including, but not limited to, the cost of an investigation of the Owner's conduit and field book records, field visits, determination of the Owner's current and future requirements, preparing a preliminary cost estimate for the Owner's work to accommodate the Licensee, preparing a written response detailing the results of the conduit investigation, and issuing a permit if granted, engineering and rearranging the existing facilities) of work to accommodate installations by the Licensee when the Licensee has authorized such work pursuant to this agreement.
 - (b) The Owner's cost of making any inspection or inspections pursuant to Articles II and VI hereof.
- (4) In the event that any present or future Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls prevent the Owner from charging all or any part of the Application Fee provided for in Paragraph (1) of this Article VII or any part of the Annual Fee provided for in Paragraph (2) of this Article VII, the Licensee shall, during the time or times that the Owner is prevented from making such charges, pay the portion of said Application Fee and/or Annual Fee which is permissible under such Federal Law, Executive Order or Administrative Rules and Regulations pertaining to Economic Controls.
- (5) When any charge to the Licensee provided for in this agreement is to be based upon the Owner's cost, said cost shall be determined in accordance with the Owner's regular and customary method of determining such costs unless otherwise expressly provided herein.
- (6) The Owner may at its option require the Licensee to pay the estimated cost of any work to accommodate installations, to be paid by it pursuant to Paragraph (3)(a) of this Article VII, prior to the commencement of any such work to accommodate

installations. If the actual cost of any such work is not equal to the advance payment made by the Licensee, the Owner will, after completion of the work, submit to the Licensee a bill for the amount by which the cost of the work exceeded the advance payment or will grant the Licensee a credit for the amount by which the advance payment exceeded the actual cost of the work to accommodate installations.

ARTICLE VIII
TERMINATION OF PERMITS

Upon notice from the Owner to Licensee that the use of any conduit is not authorized by Federal, State, County or Municipal authorities or private property owners, the license covering the use of such conduit shall immediately terminate and shall be surrendered and Licensee shall remove its cables, equipment and facilities at once from the affected conduit.

Upon notice from the Owner to the Licensee that the Owner intends to abandon any conduit, the Permit covering said conduit shall, unless otherwise provided in the notice, terminate and cease to be effective as to said conduit. To the extent that it may legally do so under prior agreements or otherwise, the Owner may sell to the Licensee, at any time within thirty (30) days after such notice, at the then value thereof in place or such other equitable sum as may be agreed upon between the parties, any conduit which the Owner has given notice of intent to abandon.

If at any time the Owner, or other party under the terms of a joint-use agreement executed prior to the date of this agreement, desires to make additional installations to any conduit carrying facilities of the Licensee, or otherwise to use for its own service needs the space occupied by the Licensee's facilities, and in the Owner's judgment the existing conduit is inadequate under applicable requirements and specifications to support such additional facilities or use, the Owner shall give the Licensee notice to that effect and the Permit covering said conduit shall terminate and cease to be effective as to said conduit unless within ten (10) days after such notice the Owner receives authorization from the Licensee agreeing to pay the entire cost (as provided in Paragraph (3)(a) of Article VII hereof) to the Owner of replacing the inadequate conduit with a conduit adequate to support such additional facilities or use together with the facilities of the Licensee and the existing facilities of the Owner that are to remain, and the existing facilities of other parties if made pursuant to joint-use agreements executed

FO0786-0001A-DI02

CANCELLED BY
ORDER 47511
OCT 18 1983
REMOVED BY [Signature]

prior to the date of this agreement. If the existing conduit would be adequate but for the facilities of other parties made pursuant to joint-use agreements executed after the date of this agreement, the Licensee shall not be liable for any portion of the cost of a replacement conduit therefor.

The Licensee may at any time terminate any Permit or Permits by removing its facilities from any conduit and by notice to the Owner in duplicate on the Termination Of Use Of Consumers Power Company's Conduit Duct System by Licensee form attached hereto and made a part hereof as Exhibit B; the Permit or Permits covering the use of such conduit shall thereupon terminate and cease to be effective.

Any Permit granted hereunder for installation in the Owner's conduit shall terminate without further notice to Licensee as to individual conduit covered by the Permit to which Licensee has not installed within sixty (60) days from the date that Owner has notified Licensee that such conduit is available for installation of the operating facilities of Licensee.

The Owner may require that all Permits shall automatically terminate and cease to be effective upon the termination of this agreement.

ARTICLE IX TERMINATION FOR DEFAULT

If the Licensee shall neglect or refuse to comply with any of the provisions of this agreement, including the specifications and requirements referred to in Article II hereof, or default on any of its obligations hereunder, and shall fail within ten (10) days after written notice from the Owner to correct such neglect, refusal or default, the Owner may at its option, in addition to any other remedy available to it, forthwith terminate this agreement or the Permit or Permits covering the conduit as to which such neglect, refusal or default shall have occurred.

ARTICLE X REMOVAL UPON TERMINATION

The Licensee shall remove from any conduit its facilities, the Permit or Permits for which have been terminated, within thirty (30) days (except as otherwise provided in the first paragraph of Article VIII hereof) after the time such Permit or Permits cease to be effective, failing which the Owner shall have the right to remove the Licensee's facilities from said

FO0786-0001A-DI02

conduit without notice or liability of any kind; in the latter event, the Licensee shall reimburse the Owner upon demand for the cost to the Owner of such removal, and shall indemnify and save the Owner harmless from and against all loss, liability or expense (including, but not limited to, claims of third parties), resulting from such removal.

ARTICLE XI
LIABILITY AND INSURANCE

The Owner reserves to itself, its successors and assigns, the right to maintain its conduit and to operate its facilities therein in such manner as will best enable it to fulfill its own service requirements. The Owner shall not be liable to the Licensee for any interruption in service furnished by the Owner to the Licensee or to other customers of the Owner, or in service furnished by the Licensee to customers of the Licensee, or for any interference, including, but not limited to, inductive interference, with the operation of facilities of the Licensee or of customers of the Owner or of the Licensee, which may arise in any manner out of the Licensee's use of the Owner's conduit or other facilities, whether by the negligence of the Owner or otherwise.

The Licensee agrees to exercise special precautions to avoid damage to facilities of the Owner and of others in the Owner's conduit, and the Licensee hereby assumes responsibility for any and all damage to such facilities arising out of or caused by the conduct or property of the Licensee, whether by the negligence of the Licensee or otherwise. The Licensee shall make an immediate report to the owner or owners of any such facilities of the occurrence of any such damage and hereby agrees to reimburse such owner or owners for expenses incurred by them in making necessary repairs and replacements.

The Licensee shall assume all responsibility for bodily injury to persons, including death or damages, sustained or claimed by its employees, the employees of the Owner, or by any other person, and also for damage to property, including property of the Licensee, the Owner, or any other person, and also for any interruptions to electric or community antenna television or other communications service, which may occur or allegedly occur because of, or result from, or in any manner are connected with or directly or indirectly arise out of or are caused in whole or in part by the installation, maintenance, presence, replacement, use or removal of the Licensee's

FO0786-0001A-DI02

facilities hereunder or by the proximity of the Licensee's cables, wires and associated equipment and those of the Owner or other users of the Owner's conduit, or by any action, operation or omission of the Licensee, its agents, contractors or employees, under this agreement; and the Licensee shall assume all responsibility for and shall indemnify and save the Owner harmless from and against all losses, liabilities, claims, demands, payments, actions, legal proceedings, recoveries, costs, expenses, attorney fees, settlements, judgments, orders and decrees of every nature and description brought or recovered against, or incurred by, the Licensee, the Owner, or both of them, by reason of any such bodily injury to persons; damage to property, or interruptions to service. Notwithstanding the foregoing, the Licensee shall not be required to indemnify the Owner against liability for damages arising out of bodily injury to persons, damage to property or interruptions to service caused by or resulting from the sole negligence of the Owner, its agents, or employees.

Licensee shall also indemnify, protect and save Owner harmless from any and all claims and demands of whatever kind which arise directly or indirectly from the operation of Licensee's facilities including taxes, special charges by others, claims and demands for damages or loss for infringement of copyright, for libel and slander, for unauthorized use of other program material, and from and against all claims and demands for infringement of patents with respect to the manufacture, use and operation of Licensee's equipment whether arising from the use of Licensee's equipment in combination with Owner's conduit or otherwise.

Without limiting the foregoing, the Licensee agrees at the request of the Owner to defend at the Licensee's expense any suit or proceeding brought against the Owner for any of the above-named reasons.

The Licensee shall at its sole expense secure and maintain in force in the name of the Licensee during the entire life of this agreement, policies of insurance of the following types:

- (a) Workers' Compensation Insurance with Michigan statutory limits.
- (b) Comprehensive General Liability Insurance with a minimum combined bodily injury and property damage single limit of \$500,000 per occurrence. The Owner shall be included as an Additional Insured under Premises-Operations and Completed Operations, as its interests may appear.

This insurance must be written so as to cover liability from damage:

- (u) Resulting in injury to or destruction of wires, conduits, pipes, mains, sewers, tanks, tunnels, any similar property and any apparatus in connection therewith, below the surface of the ground or water caused by and occurring during the use of mechanical equipment for the purpose of grading land, paving, excavating, drilling, borrowing, filling, back-filling or pile driving.
- (c) Contractual Liability Insurance specifically endorsed to cover liability assumed by the Licensee under this agreement with the Owner.
- (d) Automobile Liability Insurance with a minimum combined bodily injury and property damage single limit of \$100,000 per occurrence, providing coverage for owned, nonowned and hired vehicles. The Owner shall be included as an Additional Insured as its interest may appear.

Such policies of insurance shall be in a form and with companies satisfactory to the Owner and each policy shall include, by endorsement, the following Cancellation or Change Clause:

"This insurance will not be canceled by this Insurance Company nor any changes made in the policy which materially change, restrict, or reduce the insurance provided, or change the name of the Insured, as respects contracts or subcontracts performed by the Insured for Consumers Power Company, without first giving ten days' notice in writing to Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201; Attention Insurance Department."

Either a certificate of insurance, on a form to be supplied by the Owner, or certified copies of the policies must be filed with and approved by the Owner prior to the installation of facilities of the Licensee in any conduit of the Owner hereunder.

The above requirements as to policies of insurance may be varied by written amendment to this agreement.

FO0786-0001A-DI02

ARTICLE XII
RIGHTS OF OTHER PARTIES

Nothing contained herein shall be construed as affecting any rights or privileges, heretofore granted by the Owner by contract or otherwise to any other parties, to use any conduit covered by this agreement, and the Owner shall have the right to continue, modify and extend any such rights or privileges in accordance with the terms of any such rights or privileges. The installation privileges granted herein shall be subject to such previously granted rights or privileges. Moreover, nothing contained herein shall be construed as affecting any rights or privileges hereafter granted by the Owner by contract or otherwise to any other parties, to use any conduit covered by this agreement, and the Owner shall have the right to initiate, continue, modify and extend any such rights or privileges in any manner not inconsistent with the performance of its obligations hereunder.

ARTICLE XIII
ASSIGNMENT

This agreement shall be personal to the Licensee, and any assignment or other transfer by the Licensee, in whole or in part, of its rights or privileges hereunder, without the prior written consent of the Owner, shall be void and not merely voidable. Subject to the foregoing, this agreement shall extend to and bind the successors and assigns of the parties hereto.

ARTICLE XIV
WAIVER OF TERMS AND CONDITIONS

Failure of the Owner to enforce or insist upon compliance with any of the terms or conditions of this agreement shall not constitute a general waiver or relinquishment of any such terms or conditions, but the same shall be and remain at all times in full force and effect.

ARTICLE XV
BILLS AND PAYMENTS

Initial annual rental charges shall be paid in advance at such time as the Licensee's permit becomes effective. Thereafter, except as provided otherwise below, annual rental shall be billed quarterly, due in advance on the first day of January, April, July and October.

FO0786-0001A-DI02

Bills shall include the following charges or costs when applicable:

Power Supply Service
 Pole and Conduit Rental
 Rearrangement (Reconstruction or Alteration)
 Inspection
 Other Expenses

Quarterly conduit rental shall be one-quarter of the annual rate and shall be based on the number of conduit feet occupied on the first day of the quarter.

Licensees whose annual rental charges, when calculated in accordance with the Owner's Pole Attachment and Conduit Use Rate PA, are \$60.00 or less per contract are required to pay a minimum annual rental charge of \$60.00. Initial annual minimum rental charges shall be due in advance concurrent with the date upon which the permit becomes effective. Thereafter, annual minimum rental charges shall be billed annually, due in advance on the first day of April.

Licensees not subject to annual minimum rental charges, but whose annual rental is \$1,000 or less, shall be billed annually, due in advance on the first day of April.

Unless otherwise expressly provided herein, bills under this agreement shall be payable within twenty-one (21) days after presentation. Nonpayment of bills within said period shall be deemed to be a default within the meaning of Article IX hereof. Any bill not paid when due shall be subject to the Late Payment Charge provided in the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time.

ARTICLE XVI

MICHIGAN PUBLIC SERVICE COMMISSION

This agreement is subject to all applicable rules, regulations and orders of the Michigan Public Service Commission and to the terms of the Owner's Pole Attachment and Conduit Use Rate PA, as the same may be amended from time to time. To the extent that any provision of this agreement is in conflict with any such rule, regulation, order or rate, such rule, regulation, order or rate shall control.

FO0786-0001A-DI02

ARTICLE XVII
TERM OF AGREEMENT

This agreement shall take effect on _____, 19____ and, unless sooner terminated in accordance with the provisions of Article IX hereof, shall continue in effect until terminated by mutual consent, or by either party giving the other at least six months' advance written notice of its desire to terminate the same at any time hereafter.

ARTICLE XVIII
NOTICES AND DOCUMENTS

Except as otherwise provided in this agreement, the giving or furnishing of any notice or document in connection with this agreement shall be deemed to occur (a) in the case of personal delivery of such notice or document, on the date of such delivery, (b) in the case of mailing of such notice or document by registered or certified mail, on the date of receipt of such registered or certified mail, or (c) in the case of mailing of such notice or document by regular mail, on the second business day following the date of postmark of such mailing.

Notices or other documents to be given or furnished to the Owner shall be delivered or mailed to:

Consumers Power Company

_____, Michigan _____

Attention: Region Energy Services Manager

Notices or other documents to be given or furnished to the Licensee shall be delivered or mailed to:

Attention: _____

Either party may at any time change a designation of the individual or address to which notices or other documents are to be delivered or mailed by giving notice in writing of such change of designation to the other party.

ARTICLE XIX
PREVIOUS AGREEMENTS

With respect to the subject matter hereof, this agreement supersedes all previous representations, understandings and negotiations, either written or oral, between the parties hereto or their representatives, and constitutes the entire agreement between the parties.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed in duplicate by their duly authorized representatives as of the day and year hereinabove first written.

CONTRACT FOR ELECTRIC SERVICE — AUXILIARY OR STANDBY

AGREEMENT, made as of the _____ day of _____, 19____, between CONSUMERS POWER COMPANY (_____ Region), herein called the "Company," and _____, herein called the "Customer," as follows:

1. The Company shall supply, and the Customer shall purchase hereunder, electric energy as auxiliary or standby to the Customer's existing electric generating plant located at _____

2. The electric energy supplied by the Company shall be alternating current, _____ phase, 60 hertz, at approximately _____ volts. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to prevent tampering with or interference with or damage to such metering equipment. The Company shall make periodic tests of its meters, and keep them within accepted standards of accuracy.

3. The service hereunder shall be governed by the Standard Rules and Regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service (a copy of which will be furnished to the Customer upon request) and by the Company's Electric Service Rate _____, (a copy of which is attached hereto and made a part hereof) and such further revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission. By reason of the character of the proposed use of service, it is subject to the provisions of Rule 22 — Auxiliary or Standby Service, of said Standard Rules and Regulations. A copy of the pages containing said Rule 22 are attached hereto.

4. This agreement will extend for an initial term of one year from the _____ day of _____, 19____, and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least 30 days' written notice of its desire to terminate the same at the expiration of any yearly period.

5. The Customer's firm capacity and standby capacity shall be initially established at _____ kilowatts and _____ kilowatts, respectively. Such service is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.

6. Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate and Rule 22, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Standard Electric Rules and Regulations.

7. Permission is hereby given by the Company to the Customer to operate the Customer's existing generating equipment in parallel with the Company's generating system subject to the provisions of Rule 5 — Use of Service, of said Standard Rules and Regulations. A copy of the page containing said Rule 5 is attached hereto.

Form 954 2-88

The Customer shall install and properly maintain suitable approved protective appliances and devices and provide sufficient trained personnel to protect its equipment and service and the equipment and service of the Company from injury or interruptions which might be caused by a flow of current from the Company's lines to the Customer's connections or from a flow of current from the Customer's generating equipment to the Company's lines and assume any loss, liability or damage caused by a lack of such protection.

The electric measuring instruments from which information is taken for billing purposes will be equipped with ratchets or attachments to prevent a credit to the Customer for any current which its plant may generate and send back into the Company's lines.

8. This agreement inures to and binds the successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the above location except as contained herein. Any attempt by the Customer to assign or otherwise alienate this contract without the Company's prior written consent shall be void.

9. This agreement cancels and supersedes, as of the effective date hereof, the agreement between the Company and the Customer dated _____, 19____, (the "Prior Contract") for the supply of electric energy at the above location.

10. For the purpose of determination of On Peak Billing Demand and Maximum Demand pursuant to said rate and Rule 22 during the first 11 months of service under this contract, demands during the last 11 months of service under the Prior Contract shall be used when applicable.

11.

IN WITNESS WHEREOF, said parties have executed this agreement, in duplicate, by their duly authorized representatives.

Attached is a copy of Consumers Energy's expedited application process for underground electric and/or gas service.

Please complete the three page application and mail or fax it to:

Name
Consumers Energy
Address
City, State Zip
Fax No.

Please complete, sign and return your application with a check or credit card number for the estimated prepayment. I will complete your request, confirm receipt of your application service(s) spot location and prepayment, and attempt to schedule construction prior to your required service date. I will contact you if we are unable to schedule your service for construction prior to your requested date.

Please contact me at phone no. or email address if you have any questions regarding your request.

Thank you,

INFORMATION FOR COMPLETING THE ATTACHED APPLICATION FOR NATURAL GAS AND UNDERGROUND ELECTRIC SERVICE

BEFORE INSTALLATION

- According to public code, your natural gas meter cannot be located under or within 18" of an opening window or within two feet of the side of doors which open or in front of basement windows, and must be at least three feet from a power air intake or any source of ignition.
- Consumers Energy reserves the right to determine the final meter(s) location.
- Meter(s) must be attached to a living unit (residential applications).
- Site must be within three inches of final grade, with footings and foundation constructed and backfilled.
- Meter(s) will be installed between 2' to 6' 6" for gas and between 3'6" to 5' for electric above final grade.
- The service line(s) must be at least three feet away from a septic field and cannot run through it.
- Service(s) should not be located under concrete and must be accessible from property line to meter. However, Consumers Energy is able to bore under sidewalks and driveways, and service(s) may cross under them at an additional charge.
- For safety and accessibility, if the meter(s) are to be located on the driveway-side of the residence, a minimum of four feet is needed between driveway and building.
- Meter(s) cannot be placed on the backside of the residence.

FINAL RESTORATION

- After service(s) are installed, excavation will be backfilled. Final restoration is your responsibility.

METER SET INFORMATION

- Consumers Energy will install the meter(s) within 5 business days of the service installation and inspection.
- The gas meter will be set and prepared to connect to the fuel line. If your fuel lines are tied into the bracket prior to the meter set, Consumers Energy will need access to the home. If the home's gas consumption requires a larger capacity meter or is a multiple meter installation, it will be necessary to call 1-800-477-5050 to have your meter(s) installed. Your fuel lines must be tied into the meter bracket and at least one gas appliance must be connected.
- Your electric service will require electric inspection prior to meter set.

SPECIAL NOTES

- Consumers Energy reserves the right to deny or terminate service to any customer who elects use of an alternate natural or well gas source.
- When converting from bottled gas, natural gas must be exclusively used on the premises.
- If the gas main was financed under a CAP program, or this lot was included as part of a project, an additional lump sum or monthly contribution may apply.
- Certain loads may necessitate extra customer contributions.

TO CALCULATE ESTIMATED COST

Gas Service Less Than 313 Feet * = \$200.00	\$ _____
Electric Service _____ Feet x \$4.50 =	\$ _____
Temporary Underground Electric Service = \$360	\$ _____
If Temporary Service is installed Dec 15 thru Apr 15 will require an additional charge of \$65	
Winter Construction**	\$ _____
(All Trench Footage) _____ Feet x \$3.00 =	\$ _____
Total Prepayment	\$ _____

Consumers Energy reserves the right to bill based on actual trench footage including permit costs and other additional charges.

Temporary Electric Services have a maximum length of 10 ft.

*All service lengths over 313 feet will require Consumers Energy generated cost estimate.

**Winter Construction

An additional construction charge of \$3.00 per foot will be applied to facilities installed December 15 thru April 15. Application for service must be received on or before November 1, the job site must be ready for construction, and estimated payment must be received on or before December 1 to avoid this additional winter construction charge. If you are in the early stages of construction, make sure your basement/foundation is backfilled and the service route from the building to the property line is within 3" of final grade.

SAMPLE DRAWING

- In the drawing:
- A = Measurement (in feet) from corner of building to meter(s) location.
 - B = Total measurement (in feet) from property line to meter(s) location.
 - C = Distance from house to lot line.
 - = Gas Meter Location
 - X = Electric Meter Location
 - W = Water or Well

INFORMATION FOR COMPLETING THE ATTACHED APPLICATION FOR NATURAL GAS AND UNDERGROUND ELECTRIC SERVICE

BEFORE INSTALLATION

- According to public code, your natural gas meter cannot be located under or within 18" of an opening window or within two feet of the side of doors which open or in front of basement windows, and must be at least three feet from a power air intake or any source of ignition.
- Consumers Energy reserves the right to determine the final meter(s) location.
- Meter(s) must be attached to a living unit (residential applications).
- Site must be within three inches of final grade, with footings and foundation constructed and backfilled.
- Meter(s) will be installed between 2' to 6' 6" for gas and between 3'6" to 5' for electric above final grade.
- The service line(s) must be at least three feet away from a septic field and cannot run through it.
- Service(s) should not be located under concrete and must be accessible from property line to meter. However, Consumers Energy is able to bore under sidewalks and driveways, and service(s) may cross under them at an additional charge.
- For safety and accessibility, if the meter(s) are to be located on the driveway-side of the residence, a minimum of four feet is needed between driveway and building.
- Meter(s) cannot be placed on the backside of the residence.

FINAL RESTORATION

- After service(s) are installed, excavation will be backfilled. Final restoration is your responsibility.

METER SET INFORMATION

- Consumers Energy will install the meter(s) within 5 business days of the service installation and inspection.
- The gas meter will be set and prepared to connect to the fuel line. If your fuel lines are tied into the bracket prior to the meter set, Consumers Energy will need access to the home. If the home's gas consumption requires a larger capacity meter or is a multiple meter installation, it will be necessary to call 1-800-477-5050 to have your meter(s) installed. Your fuel lines must be tied into the meter bracket and at least one gas appliance must be connected.
- Your electric service will require electric inspection prior to meter set.

SPECIAL NOTES

- Consumers Energy reserves the right to deny or terminate service to any customer who elects use of an alternate natural or well gas source.
- When converting from bottled gas, natural gas must be exclusively used on the premises.
- If the gas main was financed under a CAP program, or this lot was included as part of a project, an additional lump sum or monthly contribution may apply.
- Certain loads may necessitate extra customer contributions.

TO CALCULATE ESTIMATED COST

Gas Service Less Than 224 Feet * = \$200.00	\$ _____
Electric Service _____ Feet x \$4.50 =	\$ _____
Temporary Underground Electric Service = \$360	\$ _____
If Temporary Service is installed Dec 15 thru	
Apr 15 will require an additional charge of \$65	\$ _____
Winter Construction**	
(All Trench Footage) _____ Feet x \$3.00 =	\$ _____
Total Prepayment	\$ _____

Consumers Energy reserves the right to bill based on actual trench footage including permit costs and other additional charges.

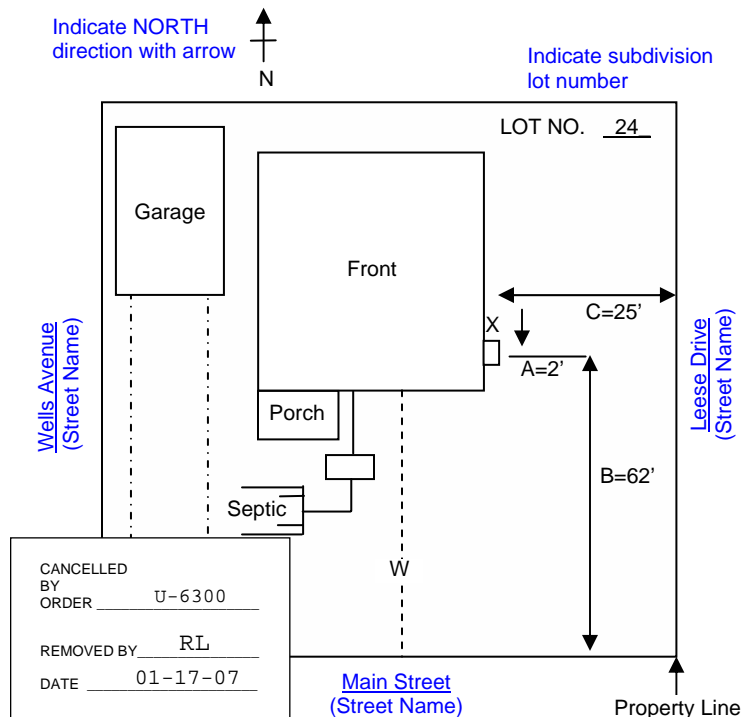

Temporary Electric Services have a maximum length of 10 ft.

*All service lengths over 224 feet will require Consumers Energy generated cost estimate.

****Winter Construction**

An additional construction charge of \$3.00 per foot will be applied to facilities installed December 15 thru April 15. Application for service must be received on or before November 1, the job site must be ready for construction, and estimated payment must be received on or before December 1 to avoid this additional winter construction charge. If you are in the early stages of construction, make sure your basement/foundation is backfilled and the service route from the building to the property line is within 3" of final grade.

SAMPLE DRAWING

In the drawing:
 A = Measurement (in feet) from corner of building to meter(s) location.
 B = Total measurement (in feet) from property line to meter(s) location.
 C = Distance from house to lot line.

For change of inquiry about this application, contact our Energy Request Center.

IMPORTANT INFORMATION - PLEASE READ

1. An underground service may be located on the driveway side of the house if there is a minimum of three feet from edge of drive to house and area is not concrete or blacktop.
2. Your building footings and foundation must be installed and your building site graded within three inches of final grade and clear of obstructions before your underground permanent service can be installed.
3. The underground service trench will be backfilled and the earth neatly placed over the trench by the Company. You will be responsible for the final restoration of the trench.
4. Should our electric facilities (which normally run along the roadway) not reach your property, an additional contribution by you toward the cost of extending the facilities may be required. You will be notified should there be any electric facility extension costs.
5. You will be informed by return mail of your service entrance location and any necessary prepayment charges for the installation of your service.
6. If prepayment of the installation charge is not received within 60 days from the date of your request or if you are not ready to receive service on the service required date indicated on your request, the Company reserves the right to revise or change this proposal.
7. If temporary service is requested for more than one house, Consumers Energy will assign a special house number and it will be the customer's responsibility to request the removal of these facilities.
8. If Consumers Energy facilities are not adjacent to your jobsite, please provide with this application a copy of the legal description or survey of your property. (Legal description may be obtained from tax notice, contract, deed, etc.)

- Indicate your desired electric meter location along the shaded portion. Consumers Energy will confirm by mail (via the Electric Service spot) your finalized meter location. CAUTION: If you proceed with your wiring before you are notified of this location by Consumers Energy, it may result in additional cost to you.
- Your application for service to a new building cannot be processed unless the four corners of the building are staked.
- Underground services shall not be installed in a water service trench or under concrete and shall be readily accessible from property line to meter.
- Check the appropriate box and show on your drawing if you have any other underground facilities:

Septic Field	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Underground Wiring	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Sprinkler System	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Buried LP Tank	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Other	<input type="checkbox"/> Yes	<input type="checkbox"/> No

Consumers Energy will not be liable for damages to your facilities that are not staked.

Remarks and Additional Information (include directions to the building site if outside a platted subdivision) _____

- Underground electric services installed between December 15 and March 15 will be subject to an additional charge due to increased winter construction costs. To avoid these winter construction charges, the application must be received by November 10 and the customer jobsite must be ready for service construction by December 1. Additional charges may result from practical difficulties encountered in construction (examples: rock, mud, water, etc).
- To change or inquire about this application, contact our Energy Request Center.
- SEE BACK OF SHEET FOR ADDITIONAL CONDITIONS AND REQUIREMENTS (OVER)**

IMPORTANT INFORMATION - PLEASE READ

1. An underground service may be located on the driveway side of the house if there is a minimum of three feet from edge of drive to house and area is not concrete or blacktop.
2. Your building footings and foundation must be installed and your building site graded within three inches of final grade and clear of obstructions before your underground permanent service can be installed.
3. The underground service trench will be backfilled and the earth neatly placed over the trench by the Company. You will be responsible for the final restoration of the trench.
4. Should our electric facilities (which normally run along the roadway) not reach your property, an additional contribution by you toward the cost of extending the facilities may be required. You will be notified should there be any electric facility extension costs.
5. You will be informed by return mail of your service entrance location and any necessary prepayment charges for the installation of your service.
6. If prepayment of the installation charge is not received within 60 days from the date of your request or if you are not ready to receive service on the service required date indicated on your request, the Company reserves the right to revise or change this proposal.
7. If temporary service is requested for more than one house, Consumers Energy will assign a special house number and it will be the customer's responsibility to request the removal of these facilities.
8. If Consumers Energy facilities are not adjacent to your jobsite, please provide with this application a copy of the legal description or survey of your property. (Legal description may be obtained from tax notice, contract, deed, etc.)

2. Your application for service to a new building cannot be processed unless the four corners of the building are staked.
3. Underground services shall not be installed in a water service trench or under concrete...
4. Check the appropriate box and show on your drawing if you have any other underground facilities:

Septic Field, Underground Wiring, Sprinkler System, Other. Yes/No checkboxes.

Consumers Power Company will not be liable for damages to your facilities that are not staked.

- 5. Underground electric services installed January through February will be subject to an additional charge...
6. To change or inquire about this application, contact our Energy Request Center.
7. SEE BACK OF SHEET FOR ADDITIONAL CONDITIONS AND REQUIREMENTS.

Remarks and Additional Information (include directions to the building site if outside a platted subdivision)

Blank lines for remarks.

Applicants Signature _____ Date Signed _____

APPLICANT - RETAIN YELLOW COPY

IMPORTANT INFORMATION – PLEASE READ

1. An underground service may be located on the driveway side of the house if there is a minimum of three feet from edge of drive to house and area is not concrete or blacktop.
2. Your building footings and foundation must be installed and your building site graded within three inches of final grade and clear of obstructions before your underground permanent service can be installed.
3. The underground service trench will be backfilled and the earth neatly placed over the trench by the Company. You will be responsible for the final restoration of the trench.
4. Should our electric facilities (which normally run along the roadway) not reach your property, an additional contribution by you toward the cost of extending the facilities may be required. You will be notified should there be any electric facility extension costs.
5. You will be informed by return mail of your service entrance location and any necessary prepayment charges for the installation of your service.
6. If prepayment of the installation charge is not received within 60 days from the date of your request or if you are not ready to receive service on the service required date indicated on your request, the Company reserves the right to revise or change this proposal.
7. If temporary service is requested for more than one house, Consumers Power Company will assign a special house number and it will be the customer's responsibility to request the removal of these facilities.
8. If Consumers Power Company facilities are not adjacent to your jobsite, please provide with this application a copy of the legal description or survey of your property. (Legal description may be obtained from tax notice, contract, deed, etc.)

Estimated Annual Heating Cost \$

Priority	Measures (See Reverse Side for Explanation)	Estimated Annual Range of Savings	
		Percent	Dollars
	1. Water Heater Insulation		\$ to \$
	2. Low-Flow Shower Head		\$ to \$
	3. Caulking	2% to 5%	\$ to \$
	4. Weatherstripping	1% to 2%	\$ to \$
	5. Ceiling Insulation *See reverse side for venting requirements	15% to 25%	\$ to \$
	6. Wall Insulation	10% to 17%	\$ to \$
	7. Band Joist Insulation	1% to 2%	\$ to \$
	8. Floor Insulation	10% to 17%	\$ to \$
	9. Duct Insulation	2% to 4%	\$ to \$
	10. Clock Thermostat	7% to 11%	\$ to \$

ENERGY SAVING TIPS

The following checklist offers some low- and no-cost energy-saving suggestions that you can begin right away:

<input type="checkbox"/> Close registers and doors in unused rooms. If possible, close the heating duct that supplies heat to an unused room. Look for a lever on duct near the furnace and adjust it to close the damper inside the duct.	<input type="checkbox"/> Adjust window locks to secure a tight fit reducing drafts. Use plastic storm windows where glass storms are unavailable.	<input type="checkbox"/> Save energy by air drying dishes. Turn off the dishwasher when the wash and rinse portion of a cycle is finished.
<input type="checkbox"/> Don't block registers with furniture, rugs, etc. Registers should also be cleaned periodically. Dust and dirt buildup will cause your furnace to work harder.	<input type="checkbox"/> Close all drapes and blinds at night to reduce heat loss and drafts near the windows. Place movable insulation in windows seldom used for light.	<input type="checkbox"/> Preheat oven only when necessary. Except for baking, most foods will cook satisfactorily without preheating the oven.
<input type="checkbox"/> Set thermostat to a maximum of 65°F. A 3% savings can be realized for every degree you dial down on your thermostat.	<input type="checkbox"/> Wear two or three layers of light clothing around the house. This will keep you warmer than one heavy sweater.	<input type="checkbox"/> Launder with cold water for certain fabrics and always rinse in cold water to greatly reduce hot water requirements.
<input type="checkbox"/> Insulate and weatherstrip all attic access doors.	<input type="checkbox"/> Lower your water heater temperature to 120°F; 140°F if you use a dishwasher or frequently launder with hot water.	<input type="checkbox"/> Dry loads one after another to make use of stored-up heat in the dryer. Be sure to clean the filter after each load.
<input type="checkbox"/> Plug gaps around ducts, pipes, etc. that pass through wall, ceilings or floors to unheated areas, such as garage, attic, crawl space, or outside.	<input type="checkbox"/> Drain a pail of water from the bottom drain of your water heater twice yearly to remove sediment buildup.	<input type="checkbox"/> Use low-watt light bulbs in areas where bright light is not needed. Turn off all unnecessary lights when leaving a room.
<input type="checkbox"/> Place insulation gaskets on electric plugs or switches that are located on outside walls.	<input type="checkbox"/> Keep condenser coils on refrigerator clean. Be sure there is adequate room for air circulation around refrigerators and freezers.	<input checked="" type="checkbox"/> The booklet "Saving Energy Is A Family Affair" provided as part of this audit offers more helpful facts about how you can conserve energy through the care and proper use of appliances, heating and cooling systems and lighting.
<input type="checkbox"/> Seal all cracks where the first-floor walls meet the foundation.		

I acknowledge receipt of the conservation package provided with the specialized Home Energy Analysis.

Form 1441 10-88

ESTIMATED ANNUAL RANGE OF SAVINGS

Your actual savings may be different from the estimated ranges provided in this analysis. These ranges are based on Department of Energy residential conservation statistics and an analysis of 3,500 residential homes previously audited by Consumers Power Company under the Residential Conservation Services Program.

The percent ranges shown in the third column are multiplied by an estimate of your heating cost to determine a range of annual dollar savings shown in the fourth column.

NOTE: The estimated ranges cannot be added together if you install two or more measures. The total savings is normally less than the sum of the individual savings.

DESCRIPTION OF MEASURES

The percent of range of savings for the conservation measures were calculated in accordance with the following criteria:

Measure	Criteria
1. Water Heater Insulation	Save \$10 to \$15 for a gas water heater. Save \$15 to \$25 for an electric water heater.
2. Low-Flow Shower Head	Save \$10 to \$15 for a gas water heater. Save \$20 to \$25 for an electric water heater.
3. Caulking	Includes all areas around windows, doors, chimneys, foundation, etc.
4. Weatherstripping	Includes areas around windows and doors.
5. Ceiling Insulation	R-19 insulation added to an existing 0 to 3 inches of insulation (R-2 to R-13).
* Venting requirements - One square foot of net ventilation for every 150 square feet of ceiling area, or one square foot of net ventilation for every 300 square feet of ceiling area if a vapor barrier is used.	
6. Wall Insulation	R-11 insulation added to uninsulated walls.
7. Band Joist Insulation	R-11 insulation added to uninsulated band joists.
8. Floor Insulation	R-19 insulation added to uninsulated floor.
9. Duct Insulation	Insulating ducts in unheated areas.
10. Clock Thermostat	Set back 5°F to 10°F for one 8-hour period.

PRIORITIZING CONSERVATION MEASURES

Even though a measure may show a high range of savings, it may not be the most cost-effective measure if it has a high initial cost. The more cost-effective measures are prioritized in Column 1. For example, since a free water heater wrap has been provided, it should be installed before other measures.

NOTES FOR CONSERVATION MEASURES

- (a) The actual installation costs you incur, energy savings you realize and payback period you experience from the installation of these measures may be different from the estimates contained in this Energy Analysis Report. Although the estimates are based on measurements of your house, they are also based on assumptions which may not be totally correct for your household, future costs and future weather conditions.
- (b) Estimated installation costs are based on average market prices of acceptable products in your area. Actual prices may vary depending on your selection of contractors and/or the particular product you choose to install. Also, the total installation cost of two or more measures simultaneously may be less than the total installation cost for each measure individually. Costs do not include modifications or unique adaptations to your particular home.
- (c) The Payback Years are based on escalated energy cost. The actual payback may vary depending on your selection of products and contractors as well as your personal life style. A "25+" indicates that the payback exceeds 25 years.
- (d) The minimum level of insulation applies to those areas that are accessible and presently insulated to a level less than R-19. The maximum level of insulation applies to those areas that are accessible and presently insulated to a level less than R-30 or R-38. The Consultant performing this Energy Analysis will tell you which value applies to your home. This analysis only evaluates maximum ceiling insulation levels if the R-value difference between the existing and proposed levels is R-11 or greater.
- (e) Only open wall areas are considered as do-it-yourself projects for wall insulation.
- (f) In conjunction with insulation of a floor over a crawl space, the crawl space should have both proper ventilation and a ground cover vapor barrier. Floor insulation for a mobile home means skirting to enclose the space under the home or insulation applied to the underside of the mobile home. For slab-on-grade homes, floor insulation means insulation material installed around the perimeter of or on the slab.
- (g) Although some of these measures may require annual maintenance, this analysis assumes that their installation would cause no significant change in your home maintenance costs.

PART II

1. The Company shall supply, and the Customer shall purchase hereunder, electric energy as standby for the operation of Customer's facility at the Service Address described in Part I.
2. The electric energy to be supplied hereunder shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy sold by the Company to said Customer shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment that is suitable to the Company shall be provided by the Customer and adequate protection afforded to avoid damage to or tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within standards of accuracy required by the Michigan Public Service Commission.
3. The Company may at any time install special meters or other instrumentation as it desires to monitor the parallel operation of the two systems or as the Company deems necessary to protect the safety of the customer, the Company's employees or the Company's system.
4. The service hereunder shall be governed by the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service (a copy of which will be furnished to the Customer upon request) and by the Company's Residential Service Rate and General Service Rate identified in Part I (a copy of which is attached hereto and made a part hereof) and such further revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission.
5. This agreement will extend for an initial term identified in Part I, from the effective date identified in Part I, and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least 30 days' written notice of its desire to terminate the same at the expiration of any yearly period.
6. The Customer's standby capacity shall be initially established as provided in Part I. Such capacity is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.
7. Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate identified in Part I and attached hereto, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto, provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
8. Operation of the Customer's existing generating equipment in parallel with the Company's generating system is agreed to by the Company subject to the provisions of Rule B10.6C - General Provisions of Service - Parallel Operation Requirements. A copy of the page containing said Rule B10.6C is attached hereto. Customer's protective equipment specifications and design shall be consistent with Consumers' Protective Relaying, Metering, and Telemetering Guidelines for Independently Owned Generation, and any successor documents.

- 9. The Customer shall provide the Company with detailed electrical diagrams and other necessary data on the Customer's generating system, including interfacing devices, for the Company's review. Any facility alteration deemed necessary by the Company for either the safety of the Customer or the protection of the Company's system shall be made by the Customer at the Customer's expense.
- 10. The Customer shall provide a control system which will automatically separate the Customer's generator(s) from the Company's electric system in the event of a loss of power from the Company's electric system. A lockable disconnecting device shall be installed by the Customer between the Customer's generator(s) and the Company's electric system.
- 11. The Company shall make a final inspection of the Customer's electric interconnection facilities before the Customer takes service under this contract. The Customer shall obtain approval from the Company prior to making any revisions to the Customer's energy source, control system or the interface between the two power systems after this final inspection.
- 12. Should the parallel operation of the Customer's generator(s) cause interference with the Company's system or other customers' service, the Customer shall immediately discontinue parallel operation upon notification by the Company. If the Customer fails to discontinue operation upon notice by the Company, the Company may immediately disconnect the Customer's system from the Company's system.
- 13. The electric measuring instruments from which information is taken for billing purposes will be equipped with ratchets or attachments to prevent a credit to the Customer for any current which its plant may generate and send back into the Company's lines.
- 14. This contract inures to and binds the successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the service location indicated in Part I except as contained herein. Any attempt by the Customer to assign or otherwise alienate this contract without the Company's prior written consent shall be void.
- 15. This agreement cancels and supersedes, as of the effective date identified in Part I, the agreement between the Company and the Customer dated _____, 19__ (the prior agreement) for the supply of electric energy at the Service Address.

Form 1811 8-94

TERMS AND CONDITIONS

PART II

1. The Company shall supply, and the Customer shall purchase hereunder, electric energy as standby for the operation of Customer's facility at the Service Address described in Part I.
2. The electric energy to be supplied hereunder shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy sold by the Company to said Customer shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment that is suitable to the Company shall be provided by the Customer and adequate protection afforded to avoid damage to or tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within standards of accuracy required by the Michigan Public Service Commission.
3. The Company may at any time install special meters or other instrumentation as it desires to monitor the parallel operation of the two systems or as the Company deems necessary to protect the safety of the customer, the Company's employees or the Company's system.
4. The service hereunder shall be governed by the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service (a copy of which will be furnished to the Customer upon request) and by the Company's Residential Service Rate and General Service Rate identified in Part I (a copy of which is attached hereto and made a part hereof) and such further revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission.
5. This agreement will extend for an initial term identified in Part I, from the effective date identified in Part I, and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least 30 days' written notice of its desire to terminate the same at the expiration of any yearly period.
6. The Customer's standby capacity shall be initially established as provided in Part I. Such capacity is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.
7. Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate identified in Part I and attached hereto, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto, provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
8. Operation of the Customer's existing generating equipment in parallel with the Company's generating system is agreed to by the Company subject to the provisions of Rule B10.6C - General Provisions of Service - Parallel Operation Requirements. A copy of the page containing said Rule B10.6C is attached hereto. Customer's protective equipment specifications and design shall be consistent with Consumers' Protective Relaying, Metering, and Telemetering Guidelines for Independently Owned Generation, and any successor documents.

Form 1811 8-94

9. The Customer shall provide the Company with detailed electrical diagrams and other necessary data on the Customer's generating system, including interfacing devices, for the Company's review. Any facility alteration deemed necessary by the Company for either the safety of the Customer or the protection of the Company's system shall be made by the Customer at the Customer's expense.
10. The Customer shall provide a control system which will automatically separate the Customer's generator(s) from the Company's electric system in the event of a loss of power from the Company's electric system. A lockable disconnecting device shall be installed by the Customer between the Customer's generator(s) and the Company's electric system.
11. The Company shall make a final inspection of the Customer's electric interconnection facilities before the Customer takes service under this contract. The Customer shall obtain approval from the Company prior to making any revisions to the Customer's energy source, control system or the interface between the two power systems after this final inspection.
12. Should the parallel operation of the Customer's generator(s) cause interference with the Company's system or other customers' service, the Customer shall immediately discontinue parallel operation upon notification by the Company. If the Customer fails to discontinue operation upon notice by the Company, the Company may immediately disconnect the Customer's system from the Company's system.
13. The electric measuring instruments from which information is taken for billing purposes will be equipped with ratchets or attachments to prevent a credit to the Customer for any current which its plant may generate and send back into the Company's lines.
14. This contract inures to and binds the successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the service location indicated in Part I except as contained herein. Any attempt by the Customer to assign or otherwise alienate this contract without the Company's prior written consent shall be void.
15. This agreement cancels and supersedes, as of the effective date identified in Part I, the agreement between the Company and the Customer dated _____, 19____ (the prior agreement) for the supply of electric energy at the Service Address.
16. Special Terms and Conditions _____

AGREEMENT FOR AUXILIARY OR STANDBY ELECTRIC SECONDARY SERVICE

AGREEMENT, made this _____ day of _____, 19____, between CONSUMERS POWER COMPANY (_____ Region), herein termed the Company, and _____ of the _____ of _____, Michigan, herein termed the Customer, as follows:

1. The Company shall supply, and the Customer shall purchase hereunder, electric energy as auxiliary or standby to the Customer's parallel-operated, _____ powered electric generating plant located at _____, in _____ of _____, Michigan.

2. The service hereunder shall be governed by the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service (a copy of which will be furnished to the Customer upon request) and by the Company's Electric Service Rate _____, (a copy of which is attached hereto and made a part hereof) and such further revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission.

3. The electric service supplied by the Company shall be alternating current, _____ phase, 60 hertz, secondary service at approximately _____ volts. Delivery shall be made at a mutually agreeable point upon the Customer's premises. Electric service supplied to the Customer by the Company shall be metered by meters furnished, installed and maintained by and at the expense of the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to prevent tampering with or interference with or damage to such metering equipment.

4. The Customer shall provide the Company with detailed electrical diagrams and other necessary data on the generating system, including interfacing devices, for the Company's review. Any facility alteration deemed necessary by the Company for either the safety of the Customer or the protection of the Company's system shall be made at the Customer's expense.

5. The Customer shall provide, at his expense, a control system which will automatically separate the Customer's generator(s) from the Company's system in the event of a loss of power from the Company's electric system. A lockable disconnecting device shall be installed by the Customer between the meter and the generator.

6. The Company shall make a complete final inspection and test of the Customer's electric interconnection facilities before the Customer takes service under this Agreement. The Customer shall obtain approval from the Company prior to making any revisions to his energy source, its control systems or the interface between the two power systems after this final installation and test.

7. The Company may at any time install special meters or other instrumentation as it desires to monitor the parallel operation of the two systems or as the Company deems necessary to protect the safety of the Customer, the Company's employees or the Company's system.

8. Should the parallel operation of the Customer's generator(s) cause interference with the Company's system or other customers' service, the Customer shall immediately discontinue parallel operation upon notification by the Company. If the Customer fails to discontinue operation upon notice by the Company, the Company may immediately disconnect the Customer's system from the Company's system.

9. Electric service provided under this Agreement shall be for the sole use of the Customer and shall not be transmitted elsewhere, shared or resold by the Customer.

10. Neither party to this Agreement shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm, flood, explosion, breakage or accident to machinery or equipment, or by any other cause beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party to this Agreement; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service.

11. This Agreement will extend for an initial term of one year from the date above and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least thirty (30) days' written notice of its desire to terminate this Agreement at the expiration of any yearly period.

12. This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between the parties to this Agreement in relation to electric service at the above location except as contained in this Agreement. Any attempted transfer or assignment of this Agreement or any rights thereunder by the Customer without the Company's prior written consent shall be void.

*A Power Purchase Agreement is required for customers desiring to sell energy to the Company under Rate CG.

Form 1812 4-97

TERMS AND CONDITIONS

PART II

1. The Company shall supply, and the Customer shall purchase hereunder, electric energy as standby for the operation of Customer's facility at the Service Address described in Part I.
2. The electric energy to be supplied hereunder shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy sold by the Company to said Customer shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment that is suitable to the Company shall be provided by the Customer and adequate protection afforded to avoid damage to or tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within standards of accuracy required by the Michigan Public Service Commission.
3. The Company may at any time install special meters or other instrumentation as it desires to monitor the parallel operation of the two systems or as the Company deems necessary to protect the safety of the customer, the Company's employees or the Company's system.
4. The service hereunder shall be governed by the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service (a copy of which will be furnished to the Customer upon request) and by the Company's General Service Rate identified in Part I (a copy of which is attached hereto and made a part hereof) and such further revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission.
5. This agreement will extend for an initial term identified in Part I, from the effective date identified in Part I, and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least 30 days' written notice of its desire to terminate the same at the expiration of any yearly period.
6. The Customer's firm capacity and standby capacity shall be initially established as provided in Part I. Such capacity is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.
7. The Customer's standby start level is the level of output of the customer's generator, below which standby service may begin to be supplied. The standby start level shall be equal to or less than the nameplate rating of the generator and equal to or greater than the standby capacity described in Part I.
8. Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate identified in Part I and attached hereto, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto, provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
9. Operation of the Customer's existing generating equipment in parallel with the Company's generating system is agreed to by the Company subject to the provisions of Rule B10.6C - General Provisions of Service - Parallel Operation Requirements. A copy of the page containing said Rule B10.6C is attached hereto. Customer's protective equipment specifications and design shall be consistent with Consumers' Protective Relaying, Metering, and Telemetering Guidelines for Independently Owned Generation, and any successor documents.

- 10. The Customer shall provide the Company with detailed electrical diagrams and other necessary data on the Customer's generating system, including interfacing devices, for the Company's review. Any facility alteration deemed necessary by the Company for either the safety of the Customer or the protection of the Company's system shall be made by the Customer at the Customer's expense.
- 11. The Customer shall provide a control system which will automatically separate the Customer's generator(s) from the Company's electric system in the event of a loss of power from the Company's electric system. A lockable disconnecting device shall be installed by the Customer between the Customer's generator(s) and the Company's electric system.
- 12. The Company shall make a final inspection of the Customer's electric interconnection facilities before the Customer takes service under this contract. The Customer shall obtain approval from the Company prior to making any revisions to the Customer's energy source, control system or the interface between the two power systems after this final inspection.
- 13. Should the parallel operation of the Customer's generator(s) cause interference with the Company's system or other customers' service, the Customer shall immediately discontinue parallel operation upon notification by the Company. If the Customer fails to discontinue operation upon notice by the Company, the Company may immediately disconnect the Customer's system from the Company's system.
- 14. The electric measuring instruments from which information is taken for billing purposes will be equipped with ratchets or attachments to prevent a credit to the Customer for any current which its plant may generate and send back into the Company's lines.
- 15. This contract inures to and binds the successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the service location indicated in Part I except as contained herein. Any attempt by the Customer to assign or otherwise alienate this contract without the Company's prior written consent shall be void.
- 16. This agreement cancels and supersedes, as of the effective date identified in Part I, the agreement between the Company and the Customer dated _____, 19____ (the prior agreement) for the supply of electric energy at the Service Address.

Form 1812 3-95

TERMS AND CONDITIONS

PART II

1. The Company shall supply, and the Customer shall purchase hereunder, electric energy as standby for the operation of Customer's facility at the Service Address described in Part I.
2. The electric energy to be supplied hereunder shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy sold by the Company to said Customer shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment that is suitable to the Company shall be provided by the Customer and adequate protection afforded to avoid damage to or tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within standards of accuracy required by the Michigan Public Service Commission.
3. The Company may at any time install special meters or other instrumentation as it desires to monitor the parallel operation of the two systems or as the Company deems necessary to protect the safety of the customer, the Company's employees or the Company's system.
4. The service hereunder shall be governed by the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service (a copy of which will be furnished to the Customer upon request) and by the Company's General Service Rate identified in Part I (a copy of which is attached hereto and made a part hereof) and such further revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission.
5. This agreement will extend for an initial term identified in Part I, from the effective date identified in Part I, and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least 30 days' written notice of its desire to terminate the same at the expiration of any yearly period.
6. The Customer's firm capacity and standby capacity shall be initially established as provided in Part I. Such capacity is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.
7. The Customer's standby start level is the level of output of the customer's generator, below which standby service may begin to be supplied. The standby start level shall be equal to or less than the nameplate rating of the generator and equal to or greater than the standby capacity described in Part I.
8. Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate identified in Part I and attached hereto, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto, provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
9. Operation of the Customer's existing generating equipment in parallel with the Company's generating system is agreed to by the Company subject to the provisions of Rule B10.6C - General Provisions of Service - Parallel Operation Requirements. A copy of the page containing said Rule B10.6C is attached hereto. Customer's protective equipment specifications and design shall be consistent with Consumers' Protective Relaying, Metering, and Telemetering Guidelines for Independently Owned Generation, and any successor documents.

Form 1812 3-95

10. The Customer shall provide the Company with detailed electrical diagrams and other necessary data on the Customer's generating system, including interfacing devices, for the Company's review. Any facility alteration deemed necessary by the Company for either the safety of the Customer or the protection of the Company's system shall be made by the Customer at the Customer's expense.
11. The Customer shall provide a control system which will automatically separate the Customer's generator(s) from the Company's electric system in the event of a loss of power from the Company's electric system. A lockable disconnecting device shall be installed by the Customer between the Customer's generator(s) and the Company's electric system.
12. The Company shall make a final inspection of the Customer's electric interconnection facilities before the Customer takes service under this contract. The Customer shall obtain approval from the Company prior to making any revisions to the Customer's energy source, control system or the interface between the two power systems after this final inspection.
13. Should the parallel operation of the Customer's generator(s) cause interference with the Company's system or other customers' service, the Customer shall immediately discontinue parallel operation upon notification by the Company. If the Customer fails to discontinue operation upon notice by the Company, the Company may immediately disconnect the Customer's system from the Company's system.
14. The electric measuring instruments from which information is taken for billing purposes will be equipped with ratchets or attachments to prevent a credit to the Customer for any current which its plant may generate and send back into the Company's lines.
15. This contract inures to and binds the successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the service location indicated in Part I except as contained herein. Any attempt by the Customer to assign or otherwise alienate this contract without the Company's prior written consent shall be void.
16. This agreement cancels and supersedes, as of the effective date identified in Part I, the agreement between the Company and the Customer dated _____, 19__ (the prior agreement) for the supply of electric energy at the Service Address.
17. Special Terms and Conditions _____

AGREEMENT FOR AUXILIARY OR
STANDBY ELECTRIC SECONDARY SERVICE AND
FOR SALE OF EXCESS ENERGY TO THE COMPANY

AGREEMENT, made this _____ day of _____, 19____, between
CONSUMERS POWER COMPANY (_____ Region), herein termed the Company, and
_____, of the _____ of _____
_____, Michigan, herein termed the Customer, as follows:

1. The Company shall supply, and the Customer shall purchase hereunder, electric energy as auxiliary or standby to the Customer's parallel-operated, _____ powered electric generating plant located at _____, in _____ of _____, Michigan. The Company shall purchase from the Customer excess energy from the Customer's generating plant that is available and which the customer desires to supply to the Company.
2. The service hereunder shall be governed by the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service (a copy of which will be furnished to the Customer upon request) and by the Company's Electric Service Rate(s) _____, (copies of which are attached hereto and made a part hereof) and such further revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission.
3. The electric service supplied by and to the Company shall be alternating current, _____ phase, 60 hertz, secondary service at approximately _____ volts. Delivery shall be made at a mutually agreeable point upon the Customer's premises. Electric service supplied to and from the Customer shall be metered by meters furnished, installed and maintained by and at the expense of the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to prevent tampering with or interference with or damage to such metering equipment.
4. The Customer shall provide the Company with detailed electrical diagrams and other necessary data on the generating system, including interfacing devices, for the Company's review. Any facility alteration deemed necessary by the Company for either the safety of the Customer or the protection of the Company's system shall be made at the Customer's expense.
5. The Customer shall provide, at his expense, a control system which will automatically separate the Customer's generator(s) from the Company's system in the event of a loss of power from the Company's electric system. A lockable disconnecting device shall be installed by the Customer between the meter and the generator.
6. The Company shall make a complete final inspection and test of the Customer's electric interconnection facilities before the Customer takes service under this Agreement. The Customer shall obtain approval from the Company prior to making any revisions to his energy source, its control systems or the interface between the two power systems after this final installation and test.
7. The Company may at any time install special meters or other instrumentation as it desires to monitor the parallel operation of the two systems or as the Company deems necessary to protect the safety of the Customer, the Company's employees or the Company's system.
8. Should the parallel operation of the Customer's generator(s) cause interference with the Company's system or other customers' service, the Customer shall immediately discontinue parallel operation upon notification by the Company. If the Customer fails to discontinue operation upon notice by the Company, the Company may immediately disconnect the Customer's system from the Company's system.
9. Electric service provided under this Agreement shall be for the sole use of the Customer and shall not be transmitted elsewhere, shared or resold by the Customer.

Form 1812 9-92

- 10. Neither party to this Agreement shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm, flood, explosion, breakage or accident to machinery or equipment, or by any other cause beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party to this Agreement; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service.
- 11. This Agreement will extend for an initial term of one year from the date above and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least thirty (30) days' written notice of its desire to terminate this Agreement at the expiration of any yearly period.
- 12. This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between the parties to this Agreement in relation to electric service at the above location except as contained in this Agreement. Any attempted transfer or assignment of this Agreement or any rights thereunder by the Customer without the Company's prior written consent shall be void.

AGREEMENT FOR AUXILIARY OR STANDBY ELECTRIC SECONDARY SERVICE AND FOR SALE OF EXCESS ENERGY TO THE COMPANY

AGREEMENT, made this _____ day of _____, 19____, between CONSUMERS POWER COMPANY (_____ Region), herein termed the Company, and _____ of the _____ of _____, Michigan, herein termed the Customer, as follows:

1. The Company shall supply, and the Customer shall purchase hereunder, electric energy as auxiliary or standby to the Customer's parallel-operated, _____ powered electric generating plant located at _____, in _____ of _____, Michigan. The Company shall purchase from the Customer excess energy from the Customer's generating plant that is available and which the customer desires to supply to the Company.

2. The service hereunder shall be governed by the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service (a copy of which will be furnished to the Customer upon request) and by the Company's Electric Service Rate _____, (a copy of which is attached hereto and made a part hereof) and such further revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission.

3. The electric service supplied by and to the Company shall be alternating current, _____ phase, 60 hertz, secondary service at approximately _____ volts. Delivery shall be made at a mutually agreeable point upon the Customer's premises. Electric service supplied to and from the Customer shall be metered by meters furnished, installed and maintained by and at the expense of the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to prevent tampering with or interference with or damage to such metering equipment.

4. The Customer shall provide the Company with detailed electrical diagrams and other necessary data on the generating system, including interfacing devices, for the Company's review. Any facility alteration deemed necessary by the Company for either the safety of the Customer or the protection of the Company's system shall be made at the Customer's expense.

5. The Customer shall provide, at his expense, a control system which will automatically separate the Customer's generator(s) from the Company's system in the event of a loss of power from the Company's electric system. A lockable disconnecting device shall be installed by the Customer between the meter and the generator.

6. The Company shall make a complete final inspection and test of the Customer's electric interconnection facilities before the Customer takes service under this Agreement. The Customer shall obtain approval from the Company prior to making any revisions to his energy source, its control systems or the interface between the two power systems after this final installation and test.

7. The Company may at any time install special meters or other instrumentation as it desires to monitor the parallel operation of the two systems or as the Company deems necessary to protect the safety of the Customer, the Company's employees or the Company's system.

8. Should the parallel operation of the Customer's generator(s) cause interference with the Company's system or other customers' service, the Customer shall immediately discontinue parallel operation upon notification by the Company. If the Customer fails to discontinue operation upon notice by the Company, the Company may immediately disconnect the Customer's system from the Company's system.

9. Electric service provided under this Agreement shall be for the sole use of the Customer and shall not be transmitted elsewhere, shared or resold by the Customer.

Form 1812 8-87

CANCELLED BY ORDER 49754 OCT 2 1992 REMOVED BY [Signature]

10. Neither party to this Agreement shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm, flood, explosion, breakage or accident to machinery or equipment, or by any other cause beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party to this Agreement; provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service.

11. This Agreement will extend for an initial term of one year from the date above and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least thirty (30) days' written notice of its desire to terminate this Agreement at the expiration of any yearly period.

12. This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between the parties to this Agreement in relation to electric service at the above location except as contained in this Agreement. Any attempted transfer or assignment of this Agreement or any rights thereunder by the Customer without the Company's prior written consent shall be void.

Form 1812 8-94

TERMS AND CONDITIONS

PART II

1. The Company shall supply, and the Customer shall purchase hereunder, electric energy as standby for the operation of Customer's facility at the Service Address described in Part I.
2. The electric energy to be supplied hereunder shall have the characteristics identified in Part I. Delivery shall be made at one mutually agreeable point upon the Customer's premises. Energy sold by the Company to said Customer shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment that is suitable to the Company shall be provided by the Customer and adequate protection afforded to avoid damage to or tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within standards of accuracy required by the Michigan Public Service Commission.
3. The Company may at any time install special meters or other instrumentation as it desires to monitor the parallel operation of the two systems or as the Company deems necessary to protect the safety of the customer, the Company's employees or the Company's system.
4. The service hereunder shall be governed by the rules and regulations set forth in the Company's Schedule of Rates Governing the Sale of Electric Service (a copy of which will be furnished to the Customer upon request) and by the Company's General Service Rate identified in Part I (a copy of which is attached hereto and made a part hereof) and such further revisions and amendments thereof, supplements thereto or substitutions therefor as may be filed with and approved by the Michigan Public Service Commission.
5. This agreement will extend for an initial term identified in Part I, from the effective date identified in Part I, and from year to year thereafter until terminated by mutual consent, or by either party giving the other at least 30 days' written notice of its desire to terminate the same at the expiration of any yearly period.
6. The Customer's standby capacity shall be initially established as provided in Part I. Such capacity is for the sole use of the Customer for the purpose aforesaid, and shall not be transmitted elsewhere or shared or resold by the Customer, or used for any other purpose than as herein provided.
7. Except as to the capacity and minimum charges payable by the Customer, prescribed in said rate identified in Part I and attached hereto, neither party shall be liable to the other for damages for any act, omission or circumstance occasioned by or in consequence of any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, or by any other cause or causes beyond such party's control, including any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or by the making of necessary repairs upon the property or equipment of either party hereto, provided, however, that the Company's responsibility for interruptions in the service, phase failure or reversal, or variations in the service characteristics shall be as provided in said Schedule of Rates Governing the Sale of Electric Service.
8. Operation of the Customer's existing generating equipment in parallel with the Company's generating system is agreed to by the Company subject to the provisions of Rule B10.6C - General Provisions of Service - Parallel Operation Requirements. A copy of the page containing said Rule B10.6C is attached hereto. Customer's protective equipment specifications and design shall be consistent with Consumers' Protective Relaying, Metering, and Telemetering Guidelines for Independently Owned Generation, and any successor documents.

9. The Customer shall provide the Company with detailed electrical diagrams and other necessary data on the Customer's generating system, including interfacing devices, for the Company's review. Any facility alteration deemed necessary by the Company for either the safety of the Customer or the protection of the Company's system shall be made by the Customer at the Customer's expense.
10. The Customer shall provide a control system which will automatically separate the Customer's generator(s) from the Company's electric system in the event of a loss of power from the Company's electric system. A lockable disconnecting device shall be installed by the Customer between the Customer's generator(s) and the Company's electric system.
11. The Company shall make a final inspection of the Customer's electric interconnection facilities before the Customer takes service under this contract. The Customer shall obtain approval from the Company prior to making any revisions to the Customer's energy source, control system or the interface between the two power systems after this final inspection.
12. Should the parallel operation of the Customer's generator(s) cause interference with the Company's system or other customers' service, the Customer shall immediately discontinue parallel operation upon notification by the Company. If the Customer fails to discontinue operation upon notice by the Company, the Company may immediately disconnect the Customer's system from the Company's system.
13. The electric measuring instruments from which information is taken for billing purposes will be equipped with ratchets or attachments to prevent a credit to the Customer for any current which its plant may generate and send back into the Company's lines.
14. This contract inures to and binds the successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric service at the service location indicated in Part I except as contained herein. Any attempt by the Customer to assign or otherwise alienate this contract without the Company's prior written consent shall be void.
15. This agreement cancels and supersedes, as of the effective date identified in Part I, the agreement between the Company and the Customer dated _____, 19____ (the prior agreement) for the supply of electric energy at the Service Address.
16. Special Terms and Conditions _____

Customer Name and Address _____

ACCOUNT

Customers of Consumers Energy who use a high amount of electricity each month due to life support equipment benefit from our Life Support Rate. We offer this reduced rate to our customers to assist in offsetting the high cost of operating such equipment. This rate is not intended for equipment that uses a small amount of electricity or for equipment that provides comfort or mobility, such as air conditioning, air filters, whirlpools or similar devices.

It appears that the Life Support Rate would be to your advantage. If you would like your rate changed, please have your physician complete the form below and return this letter to us using the enclosed envelope.

Please call our office if you would like any other information relating to this rate. We are available to take your call 24 hours a day, seven days a week.

PHYSICIAN'S CERTIFICATION FORM FOR MEDICALLY NECESSARY LIFE SUPPORT DEVICE

In its Schedule of Rates Governing the Sale of Electric Service, Consumers Power Company has a life support rate for customers who use electricity for **medically necessary life support devices**. The rate schedule requires a physician's certification that the patient is dependent on an electrically operated device for continuing life support. The intent of this rate is to prevent customers from paying a higher kilowatt-hour charge because of the necessity for a life support device that consumes a large amount of electric energy.

In certifying this patient, these guidelines should be followed:

1. The device **must be medically necessary to support the patient's life** on a continuing basis. The Michigan Public Service Commission in its rate order presumed these to be such devices as iron lungs, respirators and kidney dialysis machines.
2. Items incidental to the patient's comfort or mobility are **not** considered as life support devices. This would normally **exclude** air conditioners, electronic air filters, pool heaters, whirlpools, rocking beds, medicine refrigeration equipment and electric wheelchairs. Certification of such devices may require further investigation by a Company-approved physician.
3. The device **must consume a reasonable amount of energy**. For example, certain monitors may be considered life support in nature but they use so little energy as not to be a financial burden on the patient. Certification of such devices may require further investigation by a Company-approved physician. The Company reserves the right to accept or reject customers on the life support rate who utilize devices with minimum kWh consumption.
4. The Company has not given blanket certification to any particular device or manufacturer. Certification is for a specific patient and specific device.

PHYSICIAN'S CERTIFICATION

I certify _____ (Patient's Name)

_____ (Patient's Address)

_____ (Patient's City, State and ZIP Code)

requires the use of a _____, for treatment

of _____ as a medically necessary life support device in accordance with the above guidelines.

IF YOU ARE REQUESTING ELECTRIC SERVICE, YOU OR YOUR ELECTRICIAN ARE RESPONSIBLE FOR OBTAINING ALL ELECTRICAL PERMITS AND INSPECTIONS BEFORE SERVICE CONNECTIONS CAN BE MADE. WIRING SHOULD COMPLY WITH ALL LOCAL AND STATE WIRING CODES.

PARTY TO BILL FOR CUSTOMER CONTRIBUTION IF DIFFERENT THAN ABOVE	OUR ELECTRIC SERVICE IS PLANNED TO TERMINATE ON YOUR PREMISES AT	
	FEET ABOVE FINAL GRADE	APPROXIMATELY FT
MAILING ADDRESS/CITY/ZIP CODE	OF THE CORNER OF YOUR BUILDING	

If your request is for gas service, please note the following:

1. After the service is installed and you have permanently connected at least one gas appliance, please call us to have the meter installed and the gas turned on. (To avoid any inconvenience, we would appreciate a 12-hour advance notice.)
2. Gas service usage must begin within two (2) years following service installation or the service will be disconnected from our system. Following disconnection, any request for gas service will require the payment of a reconnection charge plus the cost of any new service pipe installed.

YOUR SERVICE ENTRANCE EQUIPMENT SHOULD BE LOCATED AS MARKED "X" IN THE SKETCH SHOWN ABOVE. IF FOR SOME REASON THIS IS NOT POSSIBLE OR IF ADDITIONAL INFORMATION IS REQUIRED, PLEASE CALL.

If your request is for underground service(s), please stake the location of any underground facilities on your property which could be damaged when installing the new service. The route of the underground service should be free of all obstacles (lumber, brick, etc) prior to commencing of our work. The ground elevation along the route of your underground service must be established at not more than 3 inches above final grade before we can install your underground service. The underground service trench will be backfilled and the earth placed over the trench by the Company. You will be responsible for the final restoration of the trench. Underground service(s) installed during the calendar months of January and February will be subject to an additional charge due to increased winter construction costs. To avoid these winter construction charges, the application must be received by November 10 and the customer jobsite must be ready for construction by December 1.

DEAR CUSTOMER:
THANK YOU FOR YOUR REQUEST FOR ELECTRIC SERVICE. WE UNDERSTAND THAT APPLYING FOR NEW SERVICE CAN BE CONFUSING. TO HELP, WE HAVE DEVELOPED A LIST OF REQUIREMENTS THAT MUST BE MET BEFORE WE CAN INSTALL YOUR NEW SERVICE.

CUSTOMER RESPONSIBILITIES

- 1) SERVICE LOCATION: YOUR SERVICE ENTRANCE EQUIPMENT SHOULD BE LOCATED AS INDICATED IN THE SKETCH ABOVE. IF FOR SOME REASON THIS IS NOT POSSIBLE, OR IF ADDITIONAL INFORMATION IS REQUIRED, PLEASE CALL.
- 2) METER SOCKET: YOU MAY OBTAIN A METER SOCKET FREE OF CHARGE AT ANY OF THE LOCATIONS ON THE ENCLOSED LIST.
- 3) DEPOSIT: IF A DEPOSIT IS REQUIRED, YOU WILL BE NOTIFIED PRIOR TO THE INSTALLATION OF YOUR SERVICE.
- 4) SITE CONDITIONS: THE SITE MUST BE WITHIN 3 INCHES OF FINAL GRADE BEFORE WE CAN START OUR WORK. FOR AN UNDERGROUND SERVICE, CLEAR A 12 FOOT EQUIPMENT PATH OF BUILDING MATERIALS, BRUSH, TREES, SHRUBS, ETC. ALONG THE PROPOSED SERVICE ROUTE TO AVOID DELAYS. ALSO, YOUR METER SOCKET MUST BE INSTALLED AND INSPECTED (SEE ELECTRICAL INSPECTION). WHEN WE FINISH, WE WILL BACKFILL AND PLACE EXCAVATED EARTH OVER THE TRENCH. YOU ARE RESPONSIBLE FOR THE FINAL RESTORATION OF THE TRENCH.
- 5) STAKING: TO AVOID DAMAGE, YOU MUST MARK (STAKE) YOUR EXISTING UNDERGROUND FACILITIES SUCH AS: WELL, SEPTICE SYSTEMS, SPRINKLER SYSTEMS, AND UNDERGROUND WIRES, OR OTHER UNUSUAL BURIED FACILITIES. THESE STAKES MUST BE APPARENT WHEN WE ARRIVE TO INSTALL THE SERVICE. WE CANNOT PAY FOR DAMAGES TO FACILITIES THAT ARE NOT PROPERLY STAKED.
- 6) MOBILE HOME OR TEMPORARY ELECTRIC: IF YOU REQUESTED SERVICE TO A MOBILE HOME OR TEMPORARY ELECTRIC SERVICE, YOU WILL BE REQUIRED TO SET YOUR OWN POLE OR INSTALL A PIPE FOR UNDERGROUND SERVICE.
- 7) CONSTRUCTION REPAIR: IF ADDITIONAL LINE WORK IS REQUIRED TO REACH YOUR LOCATION DUE TO DESIGN PROBLEMS OR OTHER UNUSUAL CIRCUMSTANCES, EXTRA CHARGES MAY BE INCURRED. THESE CHARGES WILL BE COMMUNICATED TO YOU IN ADVANCE OF CONSTRUCTION.
- 8) ELECTRICAL INSPECTION: YOU OR YOUR ELECTRICIAN ARE RESPONSIBLE FOR OBTAINING ALL ELECTRICAL PERMITS AND INSPECTIONS. THIS MUST BE DONE BEFORE SERVICE CONNECTIONS CAN BE MADE. WIRING SHOULD COMPLY WITH LOCAL AND STATE WIRING CODES.
- 9) WINTER CHARGES: UNDERGROUND SERVICES INSTALLED FROM DECEMBER THROUGH MARCH MAY BE SUBJECT TO AN ADDITIONAL CHARGE. ANY QUESTIONS, PLEASE CALL.
- 10) JOINT TRENCHING: DISCOUNTS FOR INSTALLATION OF ELECTRIC AND GAS SERVICE IN THE SAME TRENCH (JOINT TRENCH) ARE APPLIED IN CALCULATING THE GAS SERVICE CONTRIBUTION.

PLEASE KEEP THESE PROCEDURES TO REVIEW AS WE PROCEED WITH DESIGNING YOUR SERVICE AND CONSTRUCTING THE JOB. TO AVOID ANY DELAY, PLEASE CALL US WITH ANY QUESTION YOU HAVE REGARDING THESE REQUIREMENTS. ALSO, IF THERE ARE ANY CHANGES IN PLANS, WE WOULD APPRECIATE HEARING FROM YOU.

TOTAL BILLABLE FT.		TOTAL ESTIMATE	\$ 0.00	

DEAR CUSTOMER:

THANK YOU FOR YOUR REQUEST FOR ELECTRIC SERVICE. WE UNDERSTAND THAT APPLYING FOR NEW SERVICE CAN BE CONFUSING. TO HELP, WE HAVE DEVELOPED A LIST OF REQUIREMENTS THAT MUST BE MET BEFORE WE CAN INSTALL YOUR NEW SERVICE.

CUSTOMER RESPONSIBILITIES

- 1) SERVICE LOCATION: YOUR SERVICE ENTRANCE EQUIPMENT SHOULD BE LOCATED AS INDICATED IN THE SKETCH ABOVE. IF FOR SOME REASON THIS IS NOT POSSIBLE, OR IF ADDITIONAL INFORMATION IS REQUIRED, PLEASE CALL.
- 2) METER SOCKET: YOU MAY OBTAIN A METER SOCKET FREE OF CHARGE AT ANY OF THE LOCATIONS ON THE ENCLOSED LIST.
- 3) DEPOSIT: IF A DEPOSIT IS REQUIRED, YOU WILL BE NOTIFIED PRIOR TO THE INSTALLATION OF YOUR SERVICE.
- 4) SITE CONDITIONS: THE SITE MUST BE WITHIN 3 INCHES OF FINAL GRADE BEFORE WE CAN START OUR WORK. FOR AN UNDERGROUND SERVICE, CLEAR A 12 FOOT EQUIPMENT PATH OF BUILDING MATERIALS, BRUSH, TREES, SHRUBS, ETC. ALONG THE PROPOSED SERVICE ROUTE TO AVOID DELAYS. ALSO, YOUR METER SOCKET MUST BE INSTALLED AND INSPECTED (SEE ELECTRICAL INSPECTION). WHEN WE FINISH, WE WILL BACKFILL AND PLACE EXCAVATED EARTH OVER THE TRENCH. YOU ARE RESPONSIBLE FOR THE FINAL RESTORATION OF THE TRENCH.
- 5) STAKING: TO AVOID DAMAGE, YOU MUST MARK (STAKE) YOUR EXISTING UNDERGROUND FACILITIES SUCH AS: WELL, SEPTIC SYSTEMS, SPRINKLER SYSTEMS, AND UNDERGROUND WIRES, OR OTHER UNUSUAL BURIED FACILITIES. THESE STAKES MUST BE APPARENT WHEN WE ARRIVE TO INSTALL THE SERVICE. WE CANNOT PAY FOR DAMAGES TO FACILITIES THAT ARE NOT PROPERLY STAKED.
- 6) MOBILE HOME OR TEMPORARY ELECTRIC: IF YOU REQUESTED SERVICE TO A MOBILE HOME OR TEMPORARY ELECTRIC SERVICE, YOU WILL BE REQUIRED TO SET YOUR OWN POLE OR INSTALL A PIPE FOR UNDERGROUND SERVICE.
- 7) CONSTRUCTION REPAIR: IF ADDITIONAL LINE WORK IS REQUIRED TO REACH YOUR LOCATION DUE TO DESIGN PROBLEMS OR OTHER UNUSUAL CIRCUMSTANCES, EXTRA CHARGES MAY BE INCURRED. THESE CHARGES WILL BE COMMUNICATED TO YOU IN ADVANCE OF CONSTRUCTION.
- 8) ELECTRICAL INSPECTION: YOU OR YOUR ELECTRICIAN ARE RESPONSIBLE FOR OBTAINING ALL ELECTRICAL PERMITS AND INSPECTIONS. THIS MUST BE DONE BEFORE SERVICE CONNECTIONS CAN BE MADE. WIRING SHOULD COMPLY WITH LOCAL AND STATE WIRING CODES.
- 9) WINTER CHARGES: UNDERGROUND SERVICES INSTALLED FROM DECEMBER THROUGH MARCH MAY BE SUBJECT TO AN ADDITIONAL CHARGE. ANY QUESTIONS, PLEASE CALL.

PLEASE KEEP THESE PROCEDURES TO REVIEW AS WE PROCEED WITH DESIGNING YOUR SERVICE AND CONSTRUCTING THE JOB. TO AVOID ANY DELAY, PLEASE CALL US WITH ANY QUESTIONS YOU HAVE REGARDING THESE REQUIREMENTS. ALSO, IF THERE ARE ANY CHANGES IN PLANS, WE WOULD APPRECIATE HEARING FROM YOU.

ADDITIONAL SETTLEMENT AGREEMENT CONDITIONS FOR BUSINESS CUSTOMERS

- If you fail to meet the terms and conditions of this Settlement Agreement, your energy service may be shutoff. Consumers Energy is not required to make any future Settlement Agreements with you until you have met the terms and conditions of any previous Settlement Agreement.
- Future bills are not part of this settlement agreement and are, therefore, subject to collection actions, including disconnection of service, if such bills are not paid.

ADDITIONAL SETTLEMENT AGREEMENT CONDITIONS FOR RESIDENTIAL CUSTOMERS

- Future bills are not part of this settlement agreement and are, therefore, subject to collection actions, including disconnection of service, if such bills are not paid.
- If this agreement includes a bill for which we've mailed a disconnect notice and you fail to meet its terms and conditions within the first 60 days, your service may be shutoff without further written notice.
- Consumers Energy is not required to make future Settlement Agreements with you if you have failed to meet the conditions of any Settlement Agreement within the past two years.

SAFETY NOTES

- Three working days before you or a contractor dig on your property or work near overhead wires, please call MISS DIG at 1-800-482-7171 to have service lines marked for your safety.
- If you see a downed power line, please stay clear and call us immediately at 1-800-477-5050. We'll respond day or night.
- If you smell natural gas, call us immediately at 1-800-477-5050. We'll respond day or night. If the odor of gas is strong, call from a safe location.

SAFETY NOTES

- Three working days before you or a contractor dig on your property or work near overhead wires, please call MISS DIG at 1-800-482-7171 to have service lines marked for your safety.
- If you see a downed power line, please stay clear and call us immediately at 1-800-477-5050. We'll respond day or night.
- If you smell natural gas, call us immediately at 1-800-477-5050. We'll respond day or night. If the odor of gas is strong, call from a safe location.

Environmental Characteristics of Consumers Energy Electricity

APRIL 1, 2003 - MARCH 31, 2004

Fuel source	Percentage of fuel type used to produce Consumers Energy's total electricity	Regional* average fuel mix used to generate electricity
Coal	55.2%	70.4%
Nuclear	17.7%	23.1%
Gas	22.4%	4.5%
Oil	0.6%	0.6%
Hydroelectric	1.2%	0.6%
Biofuel	0%	0%
Biomass	< 0.1%	0.1%
Solar	0%	0%
Solid Waste Incineration	< 0.1%	0.2%
Wind	< 0.1%	0%
Wood	2.8%	0.4%
Other ⁽¹⁾	< 0.1%	0%

Percentage of fuel type used to produce Consumers Energy's total electricity

Emissions/waste in pounds per megawatt-hour	Consumers Energy's emissions/waste for fossil/nuclear generation	Regional* average emissions/waste for fossil/nuclear generation
Sulfur Dioxide	9.16	18.70
Carbon Dioxide	2329.4	2094.50
Oxides of Nitrogen	3.25	7.0
High-level Nuclear Waste ⁽²⁾	0.0066	0.0074

*Regional average fuel mix used to generate electricity

The fuel mix data for the electricity supplied to you by Consumers Energy that appears in this table includes regional average fuel mix data from Michigan, Illinois, Indiana, Ohio and Wisconsin as a proxy for the actual fuel mix of certain electricity purchased by Consumers Energy because the actual fuel mix characteristics of that purchased electricity could not be discerned. Purchased electricity accounted for 4.7% of the electricity supplied by Consumers Energy during the relevant period.

* Regional data compiled from Michigan, Illinois, Indiana, Ohio and Wisconsin.
 (1) "Other" power is produced from the Ludington pumped storage facility.
 (2) The high-level waste generated by Palisades is not discharged to the environment.

SAFETY NOTES

- Three working days before you or a contractor dig on your property or work near overhead wires, please call MISS DIG at 1-800-482-7171 to have service lines marked for your safety.
- If you see a downed power line, please stay clear and call us immediately at 1-800-477-5050. We'll respond day or night.
- If you smell natural gas, call us immediately at 1-800-477-5050. We'll respond day or night. If the odor of gas is strong, call from a safe location.

Purchased electricity accounted for 9.7% of the electricity supplied by Consumers Energy during the relevant period.

* Regional data compiled from Michigan, Illinois, Indiana, Ohio, and Wisconsin.

⁽¹⁾ "Other" power is produced from the Ludington pumped storage facility.

⁽²⁾ The high-level waste generated by Palisades is not discharged to the environment.

Percentage of fuel type used to produce Consumers Energy's total electricity

*Regional average fuel mix used to generate electricity

SAFETY NOTES

- Three working days before you or a contractor dig on your property or work near overhead wires, please call MISS DIG at 1-800-482-7171 to have service lines marked for your safety.
- If you see a downed power line, please stay clear and call us immediately at 1-800-477-5050. We'll respond day or night.
- If you smell natural gas, call us immediately at 1-800-477-5050. We'll respond day or night. If the odor of gas is strong, call from a safe location.

Consumers Energy is regulated by the Michigan Public Service Commission, Lansing, Michigan.

Environmental Characteristics of Consumers Energy Electricity

APRIL 1, 2002 - MARCH 31, 2003

Fuel source	Percentage of fuel type used to produce Consumers Energy's total electricity	Regional* average fuel mix used to generate electricity
Coal	54.2%	70.7%
Nuclear	17.2%	22.6%
Gas	23.2%	4.7%
Oil	0.9%	0.6%
Hydroelectric	1.0%	0.6%
Biofuel	0%	0%
Biomass	0.1%	0.1%
Solar	0%	0%
Solid Waste Incineration	0.7%	0.2%
Wind	0.1%	0%
Wood	2.7%	0.4%
Other ⁽¹⁾	0.1%	0%

Emissions/waste in pounds per megawatt-hour	Consumers Energy's emissions/waste for fossil/nuclear generation	Regional* average emissions/waste for fossil/nuclear generation
Sulfur Dioxide	9.50	19.9
Carbon Dioxide	2230.27	2117.2
Oxides of Nitrogen	3.34	7.9
High-Level Nuclear Waste ⁽²⁾	0.0066	0.0074

The fuel mix data for the electricity supplied to you by Consumers Energy that appears in this table includes regional average fuel mix data from Michigan, Illinois, Indiana, Ohio and Wisconsin as a proxy for the actual fuel mix of certain electricity purchased by Consumers Energy because the actual fuel mix characteristics of that purchased electricity could not be discerned. Purchased electricity accounted for 6.6% of the electricity supplied by Consumers Energy during the relevant period.

* Regional data compiled from Michigan, Illinois, Indiana, Ohio and Wisconsin.
⁽¹⁾ Other power is produced from the Ludington pumped storage facility.
⁽²⁾ The high-level waste generated by Palisades is not discharged to the environment.

Percentage of fuel type used to produce Consumers Energy's total electricity

*Regional average fuel mix used to generate electricity

If you qualify for more than one electric rate, we can help you choose the right one. Rate schedules, explanations of rate schedules, how to calculate your bill and an explanation of the fuel clauses are available upon request. We will provide a record of your energy use for the past 12 months free of charge at your request.

Consumers Energy is regulated by the Michigan Public Service Commission, Lansing, Michigan.

Environmental Characteristics of Consumers Energy Electricity

APRIL 1, 2003 - MARCH 31, 2004

Fuel source	Percentage of fuel type used to produce Consumers Energy's total electricity	Regional* average fuel mix used to generate electricity
Coal	55.2%	70.1%
Nuclear	17.7%	23.1%
Gas	22.4%	4.3%
Oil	0.6%	0.6%
Hydroelectric	1.2%	0.6%
Biofuel	0%	0%
Biomass	0.1%	0.1%
Solar	0%	0%
Solid Waste Incineration	0.1%	0.2%
Wind	0.1%	0%
Wood	2.8%	0.4%
Other ⁽¹⁾	0.1%	0%

Percentage of fuel type used to produce Consumers Energy's total electricity

Emissions/waste in pounds per megawatt-hour	Consumers Energy's emissions/waste for fossil/nuclear generation	Regional* average emissions/waste for fossil/nuclear generation
Sulfur Dioxide	9.16	18.70
Carbon Dioxide	2329.4	2094.50
Oxides of Nitrogen	3.25	7.0
High-level Nuclear Waste ⁽²⁾	0.0069	0.0074

*Regional average fuel mix used to generate electricity

The fuel mix data for the electricity supplied to you by Consumers Energy that appears in this table includes regional average fuel mix data from Michigan, Illinois, Indiana, Ohio and Wisconsin as a proxy for the actual fuel mix of certain electricity purchased by Consumers Energy because the actual fuel mix characteristics of that purchased electricity could not be discerned. Purchased electricity accounted for 4.7% of the electricity supplied by Consumers Energy during the relevant period.

* Regional data compiled from Michigan, Illinois, Indiana, Ohio and Wisconsin.

(1) "Other" power is produced from the Ludington pumped storage facility.

(2) The high-level waste generated by Palisades is not discharged to the environment.

If you qualify for more than one electric rate, we can help you choose the right one. Rate schedules, explanations of rate schedules, how to calculate your bill and an explanation of the fuel clauses are available upon request. We will provide a record of your energy use for the past 12 months free of charge at your request.

**SALES TAX EXEMPTION
CERTIFICATE**

Please complete and return this Sales Tax Exemption Certificate in the enclosed envelope. Thank you.

This certificate is invalid unless all four sections are completed by the purchaser.

The purchaser hereby claims exemption on the purchase of tangible personal property and selected services made under this certificate from Consumers Energy and certifies that this claim is based upon the purchaser's proposed use of the items or services, or the status of the purchaser.

SECTION 1 - BLANKET SALES TAX EXEMPTION FORM

- One-time Purchase
- Blanket Certificate - A blanket certificate is valid for four years from the date of signature unless an earlier expiration date is noted here: _____

SECTION 2 - ITEMS COVERED BY THIS CERTIFICATE

- All Items Purchased
- Limited to the Following Items: _____

SECTION 3 - BASIS FOR EXEMPTION CLAIM

Note the percent of your exemption here: Electricity _____% Gas _____% **REQUIRED**

Check ONE box below:

- For Resale at Retail - Sales Tax Registration # _____
- For Resale at Wholesale - No Number Required
- For Lease - Use Tax Registration # _____
- Agricultural Production - No Number Required (Describe): _____
- Industrial Processing - No Federal ID Number Required
- Government Entity, Nonprofit School, Nonprofit Hospital and Church (Circle type of organization)
- Nonprofit IRC 501(c)(3) and 501(c)(4) Exempt Organizations (Attach copy of IRS letter ruling)
- Nonprofit Organizations with an Exempt letter from the State of Michigan (Attach a copy of State's letter)
- Other (Explain): _____

SECTION 4 - CERTIFICATION

Under penalty of perjury, I declare that the information on this certificate is true, that I have consulted the statutes, administrative rules and other sources of law applicable to my exemption and that I have exercised reasonable care in assuring my claim of exemption is valid under Michigan law. In the event this claim is disallowed, I accept full responsibility for the payment of tax, penalty and any accrued interest, including if necessary reimbursement to Consumers Energy for tax and accrued interest.
