**SUPPLEMENTAL UTILITY SERVICE CHARGES**

---

The charges shown on this sheet are not subject to approval by the Commission. Changes will be made by the Company from time-to-time to include current prices for the services offered.

**METER TEST CHARGE**

The charge for a gas meter test is \$75.00 when applicable pursuant to Rule B1, Technical Standards for Gas Service, Rule R 460.2351, Meters and Associated Metering Devices; Inspections and Tests. (Authorized by Rule C6, Metering and Metering Equipment.)

**SERVICE LINE AND/OR METER RELOCATION CHARGE**

The charge for service alterations, when requested by the customer or made necessary by the customer, is \$485.00, plus time and materials.

**CUT AND CAP CHARGE**

The charge for a routine residential service rate Cut and Cap of a gas service line, when requested by the residential customer or for the purpose of a demolition, is \$720.00.

The charge for a reconnect for the same customer, after a demo cut, is \$580.00.

The charge for a non-routine, commercial or industrial Cut and Cap of a gas service line, when requested by the customer, is the greater of \$720.00 or time and materials.

**CARBON MONOXIDE (CO) ALARM CHARGE**

The charge for responding to a CO alarm service call is \$130.00, if done during regular working hours, or \$150.00, if done after regular working hours.

**CGI (CAN'T GET IN) CHARGE**

The charge for a CGI incident relating to supplemental utility service, when the Company has met its time commitment, is \$30.00.

**INSIDE LEAK REPAIR CHARGE**

The charge for an Inside Leak Repair is \$74.00, when repair is requested by the customer.

**GAS CONNECTION CHARGE**

*The charge for the connection of white goods gas appliance is the greater of \$74 or time and material, when repair is requested by the customer.*

**C1. CHARACTERISTICS OF SERVICE (Contd.)**

**C1.2 Contracts**

Prospective Customers for residential, small commercial and small industrial consumption are required to sign a form of Contract. This contract is not limited as to time.

Prospective Customers for gas for use in qualifying schools and university buildings are required to sign a form of Contract limited as to time. All such Contracts must be approved and executed by the President or a Vice President of Company, or a designated representative, before they shall be binding upon Company.

Large volume Customers, taking gas under General Service Rate GS-2, are required to sign (in addition to the Application for Gas) a Contract limited as to time. All such large volume Contracts must be approved and executed by the President or a Vice President of Company, or a designated representative, before they shall be binding upon Company.

Customers taking service under Transportation Service Rate ST, LT, XLT, TOS-F, TOS-I, CS-F or CS-I are required to sign a Contract for service incorporating the General Provisions and Definitions contained in Section E. All such Contracts shall have a minimum term of one year unless Company, in its sole discretion, allows a term less than the one-year minimum.

Any Contract to which Company is a party for the provision of services under any Rate Schedule in Company's Rate Book for Natural Gas Service is governed by the laws of the State of Michigan.

The contracts above-mentioned shall not be inconsistent with these Rules and Regulations and shall be, respectively, only in such form as shall be first approved by the Commission. The contracts shall be uniform in the case of all customers of the same class and type of service.

**C2. CONTROLLED SERVICE (Contd.)**

**C2.3 Approval**

- A. As the Company is able to contract for gas supplies at reasonable and prudent prices, terms, and conditions, applications for gas sales service will be approved subject to the following conditions:
- (1) Approval will be on a first-come, first-served basis within each Controlled Service Priority.
  - (2) The Company will open the highest priority first. If all the applicants within that priority are granted gas sales service, and sufficient supply is available, the next highest priority will be opened.
  - (3) If the available supply is committed before granting all applicants gas sales service, then those applicants who do not receive gas sales service shall have their standing reserved within their priority, but will not receive preference over a later applicant who qualifies for a higher priority, when gas again becomes available and priorities are again opened.
- B. An applicant whose Controlled Service Priority is open at the time of application may be granted approval provided such applicant demonstrates to the satisfaction of the Company that the construction and installation of the necessary equipment will proceed in a timely manner.
- C. An applicant whose Controlled Service Priority is closed at the time of application, such that gas sales service is not initially granted, shall have his application for gas sales service kept on file by Controlled Service Priority and date application is received.
- D. Notification of approval shall specify the date within which service must be commenced.
- E. The Company may not grant gas sales service to new customers or permit the attachment of additional gas burning equipment by existing customers in a service area, if:
- (1) The Company is curtailing any customers under Rule C3.2, Curtailment of Gas Service During an Emergency, in that service area.
  - (2) The Company is curtailing any customers under C3.2, Curtailment of Gas Service for Gas Supply Deficiency, in that service area; except that the Company may attach new residential customers provided no customers in Curtailment Priority Two are being curtailed.
- F. The Company reserves the right to attach new interruptible loads.

**C2. CONTROLLED SERVICE (Contd.)**

**C2.8 Penalties for Violation**

Any gas used by a customer in additional equipment installed by an existing gas sales customer following the declaration of a controlled service condition and for which the customer has not received authorization, shall, during the period when a gas controlled service condition has been instituted pursuant to this Rule, be subject to excess use charges of \$10 per Mcf plus the highest city-gate price reported in Gas Daily for locations in the East North Central Region of the United States during the month in which the infraction occurred, with such charges being in addition to the rates set forth in the applicable Company Rate Schedule. Failure of the customer to pay such excess use charges when due shall constitute sufficient cause for the Company to shut off gas service to such customer. The Company reserves the right to shut off service to any customer who violates any of the provisions of this Rule.

**C3. CURTAILMENT OF GAS SERVICE**

**C3.1 Curtailment of Gas Service for Gas Supply Deficiency**

The following terms used in this rule shall have the meanings hereinafter set forth:

**Commercial gas requirements** shall include all service to customers engaged primarily in the furnishing or sale of goods or services including schools, local, state and federal government agencies and other public or private institutions for use other than those involving manufacturing or electric power generation.

**Customers**, unless otherwise specified, shall mean system supply customer.

**Industrial gas requirements** shall include all service to customers engaged primarily in a process which creates or changes raw or unfinished materials into another form or product including the generation of electric power.

**Residential gas requirements** shall include all direct natural gas usage for space heating, cooking, water heating, and other residential uses in a single family dwelling or in an individual flat or apartment; or to two or more households served by a single meter (one customer) in a multiple family dwelling, or portion thereof. A multiple family dwelling includes such living facilities as, for example, cooperatives, condominiums and apartments; provided each household within such multiple family dwelling has the normal household facilities such as bathroom, individual cooking and kitchen sink. A multiple family dwelling does not include such living facilities as, for example, penal or corrective institutions, motels, hotels, dormitories, nursing homes, tourist homes, military barracks, hospitals, special care facilities or any other facilities primarily associated with the purchase, sale or supplying (for profit or otherwise) of a commodity, product or service by a public or private person, entity, organization or institution.

**System supply customer** shall mean those customers who purchase all of their natural gas requirements from the Company.

### C3. CURTAILMENT OF GAS SERVICE (Contd.)

#### C3.2 Curtailment of Gas Service During an Emergency

The following terms used in this rule shall have the meanings hereinafter set forth:

**Blanket certificate customer** is a transportation customer who has contracted with the Company to transport gas in interstate commerce pursuant to a blanket certificate issued to the Company by the Federal Energy Regulatory Commission (FERC).

**Capacity deficiency** shall mean emergency situations whereby load temporarily exceeds the capacity of the Company's pipeline system to deliver volumes commensurate with such load, but such that the full design capacity of the system is unaffected. See Section C3.3D(3) of this Rule.

**Capacity restriction** shall mean restriction due to force majeure or other damage to the Company's facilities such that the full design capacity of the pipeline system is not available. See Section C3.3D(1) of this Rule.

**Commercial gas requirements** shall include all service to customers engaged primarily in the furnishing or sale of goods or services including schools, local, state and federal government agencies and other public or private institutions for use other than those involving manufacturing or electric power generation.

**Customers**, unless otherwise specified, shall mean sales customers, transportation customers and storage customers.

**Deliveries** shall mean both transportation and sales volumes.

**End use customer** is a customer under the Company's sales and transportation Rate Schedules where the gas is used or consumed on the customer's premises to which the gas was delivered.

**C3. CURTAILMENT OF GAS SERVICE (Contd.)**

**C3.2 Curtailment of Gas Service During an Emergency (Contd.)**

**Residential gas requirements** shall include all direct natural gas usage for space heating, cooking, water heating, and other residential uses in a single family dwelling or in an individual flat or apartment; or to two or more households served by a single meter (one customer) in a multiple family dwelling, or portion thereof. A "multiple family dwelling" includes such living facilities as, for example, cooperatives, condominiums and apartments; provided each household within such multiple family dwelling has the normal household facilities such as bathroom, individual cooking and kitchen sink. A "multiple family dwelling" does not include such living facilities as, for example, penal or corrective institutions, motels, hotels, dormitories, nursing homes, tourist homes, military barracks, hospitals, special care facilities or any other facilities primarily associated with the purchase, sale or supplying (for profit or otherwise) of a commodity, product or service by a public or private person, entity, organization or institution.

**Supply deficiency** shall mean emergency situations whereby the Company is temporarily unable to procure gas supplies commensurate with its system requirements.

**A. Company's Rights to Curtail**

The Company recognizes its primary public service obligation is to maintain gas service to its customers. If, in the event of an emergency arising out of extreme cold weather or other causes referred to as force majeure situations the Company determines that its ability to deliver gas may become inadequate to support continuous service to its customers on its system, the Company shall have the right to partially or completely curtail service to each of its customers in accordance with the order of curtailment set forth below, irrespective of the contracts in force. This plan applies to all gas sales, transportation and storage service provided by the Company except for gas moving on the Company's gathering systems. The Company will implement this curtailment plan throughout its system to the extent necessary and possible, consistent with its practical operation, considering such factors as system capacity and the extent to which curtailment of customers in a specific portion of the Company's system may remedy the emergency.

(Continued from [Sheet No. C-19.00](#))

**C3. CURTAILMENT OF GAS SERVICE (Contd.)**

**C3.2 Curtailment of Gas Service During an Emergency (Contd.)**

- (3) The residual firm capacity which is allocated to the Other Customers shall be curtailed in accordance with the curtailment priority categories set forth in Section F of this Rule, beginning with Curtailment Priority Five and proceeding to the next highest priority category.
- (a) Curtailments may be simultaneously instituted in more than one curtailment priority category provided that gas usage falling within a lower priority category is being completely curtailed.
- (b) If system deliverability permits only partial delivery of gas to a given priority category of use, curtailment will be effected on the basis of a pro rata sharing using the base period deliveries to customers for that priority category. If a customer has entered into an arrangement for voluntary reduction of use and/or increase in deliveries pursuant to Paragraph B(6) above, the volumes associated with such voluntary reductions of use or increase in deliveries shall be attributed to that customer's pro rata share.
- (c) Upon notice of a curtailment, the Company shall give customers with multiple locations, the option to select which location will be subject to the curtailment, consistent with the practical and physical operational constraints of the Company's system.
- (4) If curtailment becomes necessary due to an emergency situation resulting in a supply deficiency, with no associated capacity deficiency, the Company shall curtail gas service in accordance with Section C3.3D(3)(b), subject to the following conditions.
- (a) Transportation customers shall have the option of having electronic remote metering installed or of establishing a means acceptable to the Company and the customer of determining daily consumption at the customer's expense. Negative daily imbalances incurred shall be curtailed pursuant to priorities determined as in Section C3.3E, Base Period. Usage in balance with deliveries (flowing pipeline supplies) on a daily basis is exempt from curtailment under this paragraph.
- (b) Blanket certificate customers are exempt from curtailment.

**C3. CURTAILMENT OF GAS SERVICE (Contd.)**

**C3.2 Curtailment of Gas Service During an Emergency (Contd.)**

- (5) If curtailment becomes necessary due to an emergency situation resulting in a capacity deficiency, the Company shall curtail gas service in accordance with Section C3.3D(3)(b).

Blanket certificate customers are exempt from curtailment.

**E. Base Period**

- (1) For the purpose of determining the customer's volumes within each curtailment priority category, a twelve month base period shall be established. Such base period shall be fixed for the term of the curtailment. The base period volumes shall consist of the twelve consecutive monthly deliveries ending June of each year. In those instances where the customer has encountered strikes, interruption of gas service or unavoidable operational abnormalities, the Company shall make reasonable adjustments to normalize the customer's requirements. Base period volumes shall be adjusted for equipment added or deleted and new loads.
- (2) In determining monthly deliveries, the Company shall determine the gas used during each month of the period described above for all buildings, parts of buildings, and equipment associated with each customer's gas billing in accordance with the Company's Rules and Regulations. Volumes specified in Curtailment Priorities One through Five shall apply in the aggregate for all equipment of the same end use rather than on a unit of equipment basis.
- (3) The monthly deliveries so determined, with such adjustments as provided above, shall then be used as the monthly requirement specified in the Curtailment Priority Categories. In determining a customer's Curtailment Priority Category, the applicable monthly requirement in the base period shall be used.

**C3. CURTAILMENT OF GAS SERVICE (Contd.)**

**C3.2 Curtailment of Gas Service During an Emergency (Contd.)**

- (3) The Company shall, when acting reasonably and prudently in accordance with these Rules, not be liable for any loss, cost, damage, injury, or expense (incidental or consequential damages) that may be sustained by customer by reason of partial or complete curtailment of gas service.

**J. Penalties**

Any gas used by an end use customer in excess of the volumes authorized during the period when a curtailment has been instituted pursuant to this Rule may be subject to excess use charges, with such charges being in addition to those normal charges made under the applicable Rate Schedules. The charge for such excess usage shall be \$1.00 per Ccf. Failure to pay an excess use charge when rendered shall subject the customer to termination of gas service.

**C4. APPLICATION OF RATES**

**C4.1 Service to Which Rates Apply**

The characteristics of and limitations on the service to which rates applicable in the Districts covered by these Rules and Regulations apply are described under the caption “Who May Take Service” in the respective Rate Schedules.

**C4.2 Choice of Rates**

Upon request, investigation will be made and assistance will be given to the customer to determine whether the rate under which he is being billed is the most advantageous. The Company does not guarantee that each customer will be served under the most favorable rate at all times, and will not be responsible for notifying the customer of the most advantageous rate.

After the customer has selected the rate under which he elects to take service, the customer will not be permitted to change from that rate to another rate until at least twelve months have elapsed. Neither will the customer be permitted to evade this Rule by temporarily terminating service. However, the Company may, at its option, waive the provisions of this paragraph where it appears that an earlier change is requested for permanent rather than for temporary or seasonal advantage. The intent of this Rule is to prohibit frequent shifts from rate to rate.

**C4. APPLICATION OF RATES (Contd.)**

**C4.3 Gas Not to be Submetered for Resale**

No gas purchased from the Company shall for the purpose of resale, be submetered or remeasured by the customer. The presently existing contracts for or consents to submetering for resale will be terminated at the earliest practicable date.

**C4.4 Centrally Metered Installation**

**A. Definition of a Centrally Metered Installation**

- (1) A centrally metered installation, defined by order of the Commission dated April 29, 1974, as amended June 10, 1974, in Case No. U-4211, is one which meets all of the following conditions:
  - (a) The complex is served by a single meter installation; and
  - (b) The fuel lines are buried underground from the central meter installation to the location at which each fuel line enters each building or mobile home at its outside wall, and
    - (i) where the complex consists of buildings, two or more separate buildings, such as apartments, *multifamily* dwellings, dormitories or similar type buildings are supplied with gas and at least two buildings so supplied contain four or more living units, or
    - (ii) where the complex consists of mobile homes, four or more mobile homes used as living units are supplied with gas.
- (2) A centrally metered installation may also be an individual building served by a single meter installation where gas is provided to multiple living units.
- (3) Multiple living unit usage shall consist of the gas supplied for individual dwelling units under MichCon's *Multifamily* Dwelling Service Rate 2A.

(Continued from [Sheet No. C-28.00](#))

## **C5. CUSTOMER RESPONSIBILITIES**

### **C5.1 Access to Customers' Premises**

The Company's authorized *agents* shall have access to the customers' premises at all reasonable *times* to *install*, inspect, *test*, read, repair, turn off, *relocate* or remove meters *and other property of the* Company *situated on said premises*, and to inspect *and determine the load characteristics of* appliances *installed on said* premises.

### **C5.2 Billing and Estimated Bills**

#### **A. Billing Frequency**

Bills for gas service shall be rendered on approximately a monthly basis, *unless the utility and the customer agree to another billing interval*, and shall be due and payable on or before the due date shown on each bill.

#### **B. Meter Reads**

The Company shall schedule meters to be read on approximately a monthly basis and will attempt to read meters in accordance with such schedule. When the Company is unable to obtain an actual meter reading for any reason, the bill shall be estimated. Prior period(s) estimated bill(s) shall be adjusted as necessary when an actual meter reading is obtained.

#### **C. Estimated Bills**

The consumption for an estimated bill will be calculated using the following methodology approved by the Commission in Case No. U-14523 on August 4, 2005:

(1) For accounts having actual historical usage information:

Consumption will be estimated based on historical average daily usage for the account. The average daily usage is calculated using selected historical data from the current and prior year, adjusted, where applicable, for the impact of the difference in weather between the period being estimated and the weather in the historical periods used to calculate average daily usage.

## **C5. CUSTOMER RESPONSIBILITIES**

### **C5.1 Access to Meters and Appliances**

The Company's authorized representatives shall have free access to the customers' premises at all reasonable hours to inspect, read, repair, turn off or remove the meters, meter connections and regulators owned by the Company and to inspect the appliances on the customers' premises.

### **C5.2 Billing Period and Estimated Bills**

#### **A. Billing Frequency**

Bills for gas service shall be rendered on approximately a monthly basis, and shall be due and payable on or before the due date shown on each bill.

#### **B. Meter Reads**

The Company shall schedule meters to be read on approximately a monthly basis and will attempt to read meters in accordance with such schedule. When the Company is unable to obtain an actual meter reading for any reason, the bill shall be estimated. Prior period(s) estimated bill(s) shall be adjusted as necessary when an actual meter reading is obtained.

(Continued from [Sheet No. C-29.00](#))

**C5. CUSTOMER RESPONSIBILITIES (Contd.)**

**C5.2 Billing Period and Estimated Bills (Contd.)**

- (2) For accounts without sufficient actual historical usage information:

Consumption will be estimated based on the average daily usage for all accounts within that rate or service classification for selected periods during the prior year. The average daily usage is calculated using data from the prior year's actual consumption, adjusted, where applicable, for the impact of the difference in weather between the period being estimated and the weather in the historical periods used to calculate average daily usage.

Estimated bills shall have the same force and effect as those based upon actual meter readings.

**D. Customer Meter Reads**

Any customer may read his/her own meter and provide the readings to the Company using Company authorized and provided forms.

**C5.3 NSF Charges**

Checks remitted by Customers as bill payments and returned because they are not valid are rebilled to Customers' accounts. A \$15.00 charge will be assessed to Customers for handling checks received and returned by banks for reasons of insufficient funds, bank account closed, no account and similar situations.

**C5.4 Where Bills Are Payable**

Bills are payable at an office of Company in the District in which gas service is supplied and at various specified agencies.

**C5.5 Prompt Payment Discount**

None.

**C5. CUSTOMER RESPONSIBILITIES (Contd.)**

**C5.6 Notice to Turn Off Gas**

Customer will be held responsible for all gas supplied to Customer's premises *subject to the provisions of Rule B2, Consumer Standards and Billing Practices for Electric and Gas Residential Service, Part 6, Voluntary Termination of Service.*

**C5.7 Restoration of Service**

A. Charges to offset the costs of restoring service and costs of meter relocation, if applicable, to Customer whose previous service has been discontinued for nonpayment of bills or for any other breach by Customer of Company's Rates, Rules and Regulations, will be collected by Company as follows:

- (1) Where service has been discontinued as a result of theft, a charge of \$500.00 will be collected if service was terminated by cutting and capping the service line.
- (2) If excavation was necessary to shut off service, a restoration charge of \$300.00 shall be collected from Customer.
- (3) Where service has been shut off and restoration does not require excavation, a restoration charge of \$35.00 for restorations done during regular working hours shall be collected from Customer whose service was shut off. If Customer specifically requests restoration of service after working hours and if Customer is advised of the increased charge, a restoration charge of \$45.00 shall be collected.
- (4) As provided under Rule B2, Consumer Standards and Billing Practices for Electric and Gas Residential Service, R 460.116, Meter Accuracy, Meter Errors, Meter Relocations, and R 460.144, Restoration of Service, where a meter has been relocated, a charge of \$250.00 will be collected in addition to the applicable service restoration charge payable under this Rule.

All service restoration charges are charges for gas service and are subject to the same payment requirements applicable thereto.

**C5. CUSTOMER RESPONSIBILITIES (Contd.)**

**C5.8 Restoration of Service (Contd.)**

- B. No service restoration charge shall be collected where Customer is receiving state or federal assistance or a state or federal agency determines that Customer is eligible to receive assistance, and the agency agrees to pay all or a satisfactory part of Customer's arrearage in accordance with the standards set forth in Rule B2, Consumer Standards and Billing Practices for Electric and Gas Residential Service, R 460.143, Shutoff Prohibited.
- C. If Customer elects to pay the energy arrears in full at the time of the shut off, Company's employee shall be authorized to accept the payment. In addition to full payment of arrears, an \$8.00 charge shall be paid by Customer for sending Company's employee to Customer's premises.
- D. For Customers taking service under any of the Sales Rate Schedules, turn on of gas service requested within 12 months of a request to turn off gas service by the same Customer at the same address shall be performed at a charge of **\$50.00 if** done during regular working hours or **\$75.00 if** done during after working hours.

**C6. METERING**

**C6.1 Meter Location**

The location of the meter must be determined after a careful inspection of the premises by an authorized representative of the Company. Wherever possible the meter shall be located on the front wall of the basement. It must be accessible at all reasonable hours and not subject to damage by extreme heat or cold or by objects that may come in contact with it. Meters will not be set in coal bins, under porches, in closets, or in any location difficult *to* access.

House piping must be installed by the customer from the meter location to the appliances.

The customer shall protect from loss or damage the meter (or meters), meter connections, regulators and other property placed on the premises of the customer at the expense of the Company and shall permit no person, other than an authorized representative of the Company, to remove, inspect or tamper with the meter (or meters).

The meter, meter connections and regulators at any time placed in the premises of the customer at the expense of the Company, shall remain the property of the Company and be subject to removal only by the Company or its successors.

**C6. METERING AND METERING EQUIPMENT (Contd.)**

**C6.2 Measurement of Gas (Contd.)**

- C. Except as specified in Rule C13, the sales unit of gas supplied shall be 100 cubic feet. For any other purpose, the heating content of such gas shall be presumed to equal Company's system average heat content based upon the weighted heat content of gas delivered to Company's system for the most recent calendar month for which data are available.

**C7. GAS COST RECOVERY CLAUSE AND STANDARD REFUND PROCEDURES**

**C7.1 Gas Cost Recovery Clause**

**A. Applicability of Clause**

All rates for gas service, unless otherwise provided in the applicable Rate Schedule, shall include a Gas Cost Recovery Factor to allow Company to recover the booked costs of gas sold by Company if incurred under reasonable and prudent policies and practices.

**B. Booked Cost of Gas Sold**

- (1) Booked cost of gas sold as used in this Rule includes the following as expensed on the books of Company:
- (a) Interstate Purchases: Cost for gas service.
  - (b) Intrastate Purchases: Costs for gas service incurred pursuant to all contracts on file with the Commission.
  - (c) Company Produced Natural Gas: Costs which vary with volume produced.
  - (d) Company Produced Substitute Natural Gas: Costs for feedstock used to produce substitute natural gas.

**C7. GAS COST RECOVERY CLAUSE AND STANDARD REFUND PROCEDURES (Contd.)**

**C7.1 Gas Cost Recovery Clause (Contd.)**

- (e) Liquefied Petroleum Air Gas: Costs for propane used to produce a propane-air gas mixture.
  - (f) Storage Gas: Net costs of gas injected and withdrawn from underground storage facilities.
  - (g) Purchases From Other Michigan Utilities: Costs for gas service pursuant to contracts approved by the appropriate regulatory body.
  - (h) Supplier Refunds And Credits: Refunds and credits from suppliers in the period realized.
  - (i) Cashout Mechanism: Net of gas sales and gas purchases pursuant to Section E15.
  - (j) Penalty revenues resulting from unauthorized gas usage, load balancing storage charge, and the September/October storage injection limits.
- (2) Booked cost of gas sold as used in this Rule specifically excludes the following items:
- (a) Gas used by Company, at the annual average booked cost of gas sold.
  - (b) Lost and unaccounted for gas, at the annual average booked cost of gas sold.
  - (c) Gas sold at a price different than Company's gas cost recovery factor, at the incremental cost from Company's suppliers, except gas sold under Company's cashout mechanism.
  - (d) Contract, tariff and other penalties, unless Customers of Company benefit as a result of payment of such penalties.

**C. Billing**

- (1) In applying the Gas Cost Recovery Factor, per Ccf or therm, any fraction of 0.001 cent shall be rounded to the nearest 0.001 cent.

**C7. GAS COST RECOVERY CLAUSE AND STANDARD REFUND PROCEDURES (Contd.)**

**C7.2 Refund Procedure (Contd.)**

**B. Refund Notification**

By January 15th of each year, the Company shall notify the Commission Staff of any pipeline or other supplier refunds received during the prior calendar year. The notification shall be in the form of a letter, and include:

- (1) The amount of each refund.
- (2) Source and reason for each refund.
- (3) Period covered by each refund.
- (4) Date each refund was received.

Additionally, if a portion of any pipeline or other supplier refund is eligible to be refunded to non-GCR customers, an allocation between GCR and non-GCR customers shall be made on the basis of actual consumption during the historical period to which the refund is deemed applicable. This calculation, along with any calculations for deductions from the non-GCR customer portion for Company Use and Lost and Unaccounted For volumes shall also be included.

Failure of the Company to report a refund to the Commission Staff by the January 15th deadline shall result in an interest penalty of 50% over the normal authorized rate of return on common equity for the period of time that the utility fails to comply with the refund notification requirement.

**C. GCR Customer Refunds**

- (1) All pipeline or other supplier refunds allocable to GCR customers shall be reflected as reductions to the GCR Cost of Gas Sold in the month received and should be included in the annual GCR reconciliation in the line captioned "Purchased and Produced."
- (2) Prior year's GCR under or over recoveries and any Commission ordered disallowances associated with the prior year's GCR period shall be reflected in the beginning balance (January 1) in the year ordered by the Commission. The amount reflected in the beginning balance shall include appropriate interest. The amount shall be included in separate lines below the GCR Cost of Gas Sold line.

**C7. GAS COST RECOVERY CLAUSE AND STANDARD REFUND PROCEDURES (Contd.)**

**C7.2 Refund Procedure (Contd.)**

**(4) Refund Completion Reports**

Six months after the completion of a non-GCR customer refund, the Company shall submit a completion report to the Commission Staff showing the amount actually refunded as compared to the authorized refund amount and the date the refund was completed. Any undistributed amounts shall be rolled back into the non-GCR refund liability account to accrue interest until refunded to non-GCR customers in the next refund.

**C8. CUSTOMER ATTACHMENT PROGRAM**

**C8.1 Purpose**

The Company proposes to make extension of its gas mains and/or service lines from time to time, at its own cost, to serve applicants whose requirements will not disturb or impair the service to prior users or will not require an expenditure out of proportion to the expected revenue obtainable therefrom.

The Company reserves the right to delay or deny a request for service under this Rule, if fulfilling such a request could, in the Company's opinion, create conditions potentially adverse to the Company or its customers. Such conditions may include, but are not limited to, safety issues, system operating requirements or capital constraints. The provisions under this Rule are in addition to the existing rules and tariffs for customer gas service.

**C8.2 Customer Contribution**

A customer contribution shall be required equal to the Connection Fee plus any applicable Fixed Monthly Surcharge plus any Excessive Service Line Fee.

**C8.3 Payment of Customer Contribution**

For all customers other than land developers and builders, the Customer Contribution shall be paid as follows:

**C8. CUSTOMER ATTACHMENT PROGRAM (Contd.)**

**C8.3 Payment of Customer Contribution (Contd.)**

*The Company may offer the Fixed Monthly Surcharge as an alternative payment method.* The Fixed Monthly Surcharge shall be payable monthly throughout the surcharge period. The Fixed Monthly Surcharge will commence on the date that the customer receives gas service or six (6) months following the date the service agreement is executed by the customer, whichever occurs first. The customer may at any time elect to pay off the remaining Fixed Monthly Surcharge balance with a lump sum payment equal to the present value of the remaining monthly payments. If the present value of the Fixed Monthly Surcharge is less than **\$300.00**, the Company may require the customer to make a lump sum payment. The Fixed Monthly Surcharge is assessed to the property served such that any subsequent customer requesting gas service at the property address, once notified by the Company of the amount and duration of such surcharge, shall be liable for the Fixed Monthly Surcharge. Such notification may be verbal, written or in the form of a bill which includes the Fixed Monthly Surcharge. Failure of sellers, agents, lessors or other non-company parties to notify a customer of the Fixed Monthly Surcharge shall not relieve the customer's obligation to pay the Fixed Monthly Surcharge. Failure by the customer to timely pay the Fixed Monthly Surcharge shall result in the discontinuation, **shutoff of service** or denial of natural gas service.

**C8.4 Connection Fee**

The Connection Fee is equal to **\$300.00** per meter. The Connection Fee for a multiple metered installation on a single structure that is served from a single service line **and where all meters are set at one time** is equal to **\$150.00** per meter.

**C8.5 Excessive Service Line Fee**

The Excessive Service Line Fee will be assessed to a customer whose service line requirement is in excess of the Service Line Limit. *The Excessive Service Line Fee will be calculated annually to be effective March 1. The Service Line Limit for an individual service line shall be equal to the point at which the cost of the customer's service requirements are greater than the allowance based on the Cost of Service Model. The Company reserves the right to use a different Service Line Limit for different geographic locations and categories of customers. The Service Line Limit will be calculated annually to be effective March 1st. In calculating the average service line length for a project containing more than one customer, the maximum length of each service line to be included in the calculation is the Service Line Limit for a primary residential home.*

*The Company, in its sole discretion, may waive the excessive service line fee or extend the service line limit for all attaching parties based on the economics of a proposed project. Any such waiver or extension shall not be effective unless provided in writing by the Company.*

In Case No. U-15985

(Continued from [Sheet No. C-39.00](#))

**C8. CUSTOMER ATTACHMENT PROGRAM (Contd.)**

**C8.3 Payment of Customer Contribution (Contd.)**

The Connection Fee and the Excessive Service Line Fee are payable in a lump sum at the time the service contract is executed by the customer. The Connection Fee is non-refundable. The Excessive Service Line Fee is refundable if the service line has not been installed. If the service line has been installed, the Excessive Service Line Fee is non-refundable.

The Fixed Monthly Surcharge shall be payable monthly throughout the surcharge period. The Fixed Monthly Surcharge will commence on the date that the customer receives gas service or six (6) months following the date the service agreement is executed by the customer, whichever occurs first. The customer may at any time elect to pay off the remaining Fixed Monthly Surcharge balance with a lump sum payment equal to the present value of the remaining monthly payments. If the present value of the Fixed Monthly Surcharge is less than \$200.00, the Company may require the customer to make a lump sum payment. The Fixed Monthly Surcharge is assessed to the property served such that any subsequent customer requesting gas service at the property address, once notified by the Company of the amount and duration of such surcharge, shall be liable for the Fixed Monthly Surcharge. Such notification may be verbal, written or in the form of a bill which includes the Fixed Monthly Surcharge. Failure of sellers, agents, lessors or other non-company parties to notify a customer of the Fixed Monthly Surcharge shall not relieve the customer's obligation to pay the Fixed Monthly Surcharge. Failure by the customer to timely pay the Fixed Monthly Surcharge shall result in the discontinuation, termination or denial of natural gas service.

For land developers and builders, the customer contribution shall be required in a lump sum in advance of the facility expansion.

**C8.4 Connection Fee**

The Connection Fee is equal to \$200.00 per meter. The Connection Fee for a multiple metered installation on a single structure that is served from a single service line is equal to \$100.00 per meter.

**C8.5 Excessive Service Line Fee**

The Excessive Service Line Fee will be assessed to a customer whose service line requirement is in excess of the Service Line Limit. The Service Line Limit is equal to the greater of 400 feet or 150% of the average length of all service lines within the Project. The Excessive Service Line Fee will equal the cost of the service line footage in excess of the Service Line Limit.

In Case No. U-15152

(Continued from [Sheet No. C-40.00](#))

**C8. CUSTOMER ATTACHMENT PROGRAM (Contd.)**

**C8.6 Fixed Monthly Surcharge**

A Fixed Monthly Surcharge (Surcharge) will be calculated for each Customer Attachment Project (Project). The Surcharge will recover the Revenue Deficiency anticipated from the proposed Project. The Surcharge is calculated such that the present value of the anticipated Surcharges collected from the Project will equal the net present value Revenue Deficiency. The Surcharge will be recoverable over a predetermined time period, not to exceed ten years. The Company will be responsible for determining the appropriate Surcharge time period. The Surcharge will be a fixed dollar amount for all customers within the Project and will expire on the same date for all customers within the Project, regardless of when the Surcharge was initially assessed to the customer. The Surcharge will not be subject to adjustment, reconciliation or refund. A customer who attaches to a Project after the Surcharge period has expired or a customer whose proposed attachment was beyond the scope of the original Project, will be treated as a separate Project.

**C8.7 Customer Attachment Project**

A Project may consist of a single customer, requiring only the installation of a service line and meter, or may consist of numerous customers requiring the installation of mains, service lines and meters. A Project will generally be defined as a customer or group of customers that may be served from the contiguous expansion of new distribution facilities.

**C8.8 Revenue Deficiency**

A discounted cost of service model (Model) will be used to calculate the net present value (NPV) Revenue Deficiency anticipated from a Project. The Model will use the expected incremental revenues and incremental costs associated with the Project for each year of a twenty year period. From this information an annual net revenue excess or deficiency will be calculated. The annual net revenue excess or deficiency will be discounted and summed to determine the NPV Revenue Deficiency of the Project. If the NPV Revenue Deficiency is negative, the discounted revenues exceed the discounted costs, then a NPV Revenue Deficiency of zero will be used.

**C8. CUSTOMER ATTACHMENT PROGRAM (Contd.)**

**C8.9 Model Assumptions**

**A. Incremental Revenues**

The incremental revenues will be calculated based on current rates and a forecast of the timing and number of Customer attachments as well as Customers' annual consumption levels.

**B. Incremental Costs**

**(1) Carrying Cost Rate**

The Carrying Cost Rate will be a pre-tax weighted rate of long-term debt and common equity. The cost will be equal to and weighted in proportion to those authorized in Company's most recent rate order. Based on MichCon's rate order in Case No. ***U-15985***, dated ***June 3, 2010***, the Carrying Cost Rate is equal to ***12.20%***.

**(2) Plant in Service**

Plant in Service shall reflect Company's estimated cost to construct distribution mains, Customer service lines, meters and pressure regulators or regulating facilities for the Project. The timing of the facility investment, primarily service lines, will correspond with the projected timing of Customer attachments.

**(3) Carrying Costs**

The Carrying Costs will be the product of the average of beginning and end-of-year net plant, Plant in Service minus accumulated depreciation minus deferred taxes, multiplied by the Carrying Cost Rate, noted in paragraph (1) above.

**C8.9 Model Assumptions**

**A. Incremental Revenues**

The incremental revenues will be calculated based on current rates and a forecast of the timing and number of Customer attachments as well as Customers' annual consumption levels.

**B. Incremental Costs**

**(1) Carrying Cost Rate**

The Carrying Cost Rate will be a pre-tax weighted rate of long-term debt and common equity. The cost will be equal to and weighted in proportion to those authorized in Company's most recent rate order. Based on MichCon's rate order in Case No. U-13898, dated April 28, 2005, the Carrying Cost Rate is equal to 12.04%.

**(2) Plant in Service**

Plant in Service shall reflect Company's estimated cost to construct distribution mains, Customer service lines, meters and pressure regulators or regulating facilities for the Project. The timing of the facility investment, primarily service lines, will correspond with the projected timing of Customer attachments.

The facility investment for an individual Customer service line will be limited to the greater of 400 feet or 150% of the average length of all service lines within the Project.

**(3) Carrying Costs**

The Carrying Costs will be the product of the average of beginning and end-of-year net plant, Plant in Service minus accumulated depreciation minus deferred taxes, multiplied by the Carrying Cost Rate, noted in paragraph (1) above.

**C8. CUSTOMER ATTACHMENT PROGRAM (Contd.)**

**C8.9 Model Assumptions (Contd.)**

**(4) Depreciation**

Depreciation expense will be the product of Plant in Service multiplied by the appropriate prescribed depreciation rates approved for Company.

**(5) Property Taxes and Other Operating Expenses**

Property Taxes will be the product of Plant in Service multiplied by Company's average property tax rate. All Other Incremental Operating Expenses will be included as identified. Incremental O&M will, at a minimum, include a proportional cost for monthly meter reading, billing and mailing.

**(6) Discount Rate**

The Discount Rate will be a weighted rate of long-term debt and common equity. The cost will be equal to and weighted in proportion to those authorized in Company's most recent rate order. Based on MichCon's rate order in Case No. *U-15985*, dated *June 3, 2010*, the Discount Rate is equal to **8.63%**.

## **C9. MAIN EXTENSION**

Rule C9, Main Extension, has been superseded by Rule C8, Customer Attachment Program, however customers taking service under main and/or service line extension projects initiated pursuant to MichCon's Rules C9, Main Extension, and/or C10, Service Lines, will be grandfathered and will pay the charges applicable under those Rules.

### **C9.1 Main Extensions**

The Company proposes to make extension of its gas mains from time to time within the territory served by it, at its own cost, to serve applicants whose requirements will not disturb or impair the service to prior users or will not require an expenditure out of proportion to the revenue obtainable therefrom.

The Company reserves to itself the right to decide, subject to the Rules and Regulations of the Commission, whether or not any proposed or requested extension of its gas mains shall be made.

Issued under authority of the  
Michigan Public Service Commission  
Dated October 9, 2007  
In Case No. U-15152

(Continued from [Sheet No. C-51.00](#))

**C9. MAIN EXTENSION (Contd.)**

**C9.2 Main Extensions Paid For by the Customer**

**A. Two Inches or Less in Diameter**

- (1) The Company will at no charge to the new customer(s) make a gas main extension equivalent to 0.75 feet of main extension for each Mcf of estimated sales to be received through such gas extension for a period of one (1) year after the completion of the extension. A deposit of \$5.50 per foot may be required for each foot of main extension in excess of the allowance.

- (2) Refund

The deposit received is subject to refund over a five (5) year refund period without interest. The five year refund period will commence on the first day of the billing month following the completion of the main extension. Refunding will not begin until such time as the original customers or equivalent have been connected to the main extension. The total amount refunded shall not exceed the deposit and no additional refund obligation shall be created after the close of the five (5) year refund period.

The amount of the refund shall be determined as follows:

- (a) For Additional Revenues by Customers Originally Served

At the end of the first year, after completion of the main extension, the Company will refund a sum equal to \$4.00 times the excess, if any, of the actual Mcf consumed through such extension for that year over the original estimated Mcf sales.

- (b) For Additional New Customers

The Company will refund to the depositor(s) an amount equal to \$4.00 times the Mcf consumed during the first full year of service from each additional customer who is furnished service from such extension.

**B. Over Two Inches in Diameter**

- (1) When a proposed gas main extension will require an expenditure which exceeds four (4) times the net revenue (estimated annual revenue less the cost of gas), the Company may require the prospective customer or group of customers to deposit with the Company a sum of money equal to the difference between the estimated cost of the required extension and four (4) times the net revenue.

**C9. MAIN EXTENSION (Contd.)**

**C9.2 Main Extensions Paid For by the Customer (Contd.)**

(2) Refund

The deposit received is subject to refund during a five (5) year refund period without interest. The five year refund period will commence on the first day of the billing month following the completion of the main extension. Refunding will not begin until such time as the original customers or equivalent have been connected to the main extension. The total amount refunded shall not exceed the deposit and no additional refund obligation shall be created after the close of the five (5) year refund period.

The amount of the refund shall be determined annually as follows:

(a) For Additional Revenues by Customers Originally Served

At the end of the first year, after completion of the main extension, the Company will refund a sum equal to four (4) times the net revenues (gross revenues less cost of gas), if any, of actual Mcf of gas consumed through such extension for that year over the original estimated Mcf consumed.

(b) For Additional New Customers

The Company will refund to the depositor(s) an amount equal to four (4) times the net revenue (gross revenue less cost of gas) times the Mcf of gas consumed during the first full year of service from each additional customer who is furnished service from such extension within five (5) years after the date of its construction.

**C. Additional Charges for All Applicants**

An additional non-refundable charge may also be required for:

- (1) Winter construction (construction between December 15 and March 15) at the rate of \$2.00 per foot; and
- (2) The customer shall pay for any permits and inspection fees required by state or local ordinances for cutting streets or highways or for converting or connecting any gas utilization equipment.

**C9. MAIN EXTENSION (Contd.)**

**C9.2 Main Extensions Paid For by the Customer (Contd.)**

**D. Area Expansion Program Exemption**

Customers requesting service in areas specified in Rule C9.3, Area Expansion Program, shall not be required to make any of the payments described in provisions A, B, and C above.

**C9.3 Area Expansion Program (AEP)**

**A.** Area Expansion Program (AEP) charges have expired.

**B.** In accordance with the Commission's Order in Case No. U-7248, on or before May 31st of each year, the Company shall make a single filing containing reconciliations of all AEP costs and charge revenues for each existing AEP area for the 12 months ending the previous March 31 and any prior periods, and proposing revisions, if necessary, for any AEP charge which has been in effect for six months or more; such revisions to go into effect for billings rendered on or after August 1. Includable costs shall be limited to those in excess of: (1) the allowances without charge ordinarily available under Rule B9.2; and (2) any payments toward main construction cost made by prospective customers prior to receiving service.

**C.** If the reconciliation for any expansion area of total AEP costs and revenues shows the total AEP commodity charge revenues have exceeded all includable AEP expenses previously incurred, such excess shall be refunded to AEP customers based upon their historical consumption for the last 12 months during which AEP charges were in effect.

## **C10. SERVICE LINES**

Rule C10, Service Lines, has been superseded by Rule C8, Customer Attachment Program, however customers taking service under main and/or service line extension projects initiated pursuant to MichCon's Rules C9, Main Extensions and/or C10, Service Lines, will be grandfathered and will pay the charges applicable under those Rules.

### **C10.1 General Provisions**

Installation of a service line from the main to the meter location will be performed by the Company. The service line will include the outside above grade riser and valve, service regulator, including the inlet, outlet and by-pass valves, if required and all other parts of the meter set assembly. The customer shall pay for any permits required by state or local ordinances. Service lines shall at all times be owned and maintained by the Company.

### **C10.2 Service Lines Less Than Two Inches in Diameter**

The charge to the prospective customer shall be determined by measuring the horizontal distance over the service line, as installed, from the lot line (or main in the case of mobile homes) to the meter location established by the Company and applying the applicable flat and unit charges. A sum of money equal to the estimated charge may be required from the customer at the time the application is accepted by the Company.

#### **A. All Applicants Other Than Mobile Home Applicants in Mobile Home Courts**

A \$200.00 flat charge for the first 50 feet or less. A \$4.00 charge per foot for each foot in excess of 50 feet to 150 feet. A \$1.00 charge per foot for all footage in excess of 150 feet.

#### **B. Mobile Home Applicants in Mobile Home Courts**

For service lines to individual mobile homes, when installed with necessary gas mains in easements provided by mobile home court operators. A \$100.00 flat charge for the first 25 feet or less. A \$4.00 charge per foot for each foot in excess of 25 feet.

**C10. SERVICE LINES (Contd.)**

**C10.3 Additional Charges for All Applicants**

- A. \$2.00 additional charge per foot for each foot from lot line (or main in the case of mobile homes) to meter location to cover additional costs incurred during winter construction from December 15 to March 15.
- B. The customer shall pay for any permits and inspection fees required by state or local ordinances for cutting streets or highways or for converting or connecting any gas utilization equipment.

**C10.4 Service Lines Two Inches or Larger in Diameter**

- A. The charges to the prospective customer shall be equal to the Company's estimated total cost for all facilities between the prospective customer's property line and the meter location, as well as the estimated cost of a curb valve and curb box, a tap on a main or pipeline operating at a pressure of more than 60 psig, and any required upstream regulators, pressure relief and limiting devices, whether installed on public or private property.
- B. A sum of money equal to the estimated charge for the service line installation may be required from the customer at the time the application is accepted by the Company.

**SECTION C - PART II**  
**COMPANY RULES AND REGULATIONS**  
**(FOR NONRESIDENTIAL CUSTOMERS AND RESIDENTIAL MULTIPLE**  
**FAMILY DWELLING SERVICE RATE 2A CUSTOMERS)**

**INTENT OF SECTION C - PART II**

These General Rules and Regulations for nonresidential customers and Residential Multiple Family Dwelling Service Rate 2A customers are not to supersede but are in addition to Rule B1, Technical Standards for Gas Service, and Rule B4, Commercial and Industrial Billing Practices.

**C11. SHUTOFF OF SERVICE**

Rule B1, Technical Standards for Gas Service, R 460.2373, Shutoff of Service, provides the Company the right to shut off gas service without prior customer notification if a hazardous condition exists. In case of any other breach of the Rate Book for Natural Gas Service by the customer, the Company shall have the right to shut off service pursuant to the customer notification procedures as provided in Rule B4, Commercial and Industrial Billing Practices, R 460.2084, Discontinuation, Termination or Denial of Service.

**C12. MEASUREMENT OF GAS**

Gas may be supplied without meter measurement for use as a fuel in infrared heaters installed in shelters erected on public property adjacent to the public streets for the accommodation of patrons of transportation systems serving the general public, provided that any customer purchasing gas for such purpose shall permit gas to be metered to at least one infrared heater of identical size in each municipality in which such shelters are maintained, and provided further that all infrared heaters of such customer located in bus shelters and supplied with gas, either with or without meter measurement, shall be adjusted to a fixed outdoor temperature of 45°F and sealed prior to operation. When gas is supplied in this manner for such purpose, payment, therefore, shall be made monthly on the basis that each infrared heater located in a municipality shall have consumed the same volume of gas as the customer's sealed infrared heater or heaters of identical size to which gas is metered in the same municipality. Gas supplied to separate shelters shall not be combined for billing.

### **C13. AGGREGATION OF ACCOUNTS**

#### **C13.1 Contiguous Facilities**

When an industrial or commercial Customer purchasing gas under Rate Schedule GS-2, Rate Schedule S (School Rate), or a commercial and/or industrial transportation Customer transporting gas under Transportation Rate Schedule ST, LT, or XLT occupies a group of buildings or parts of buildings which are exclusively used by such Customer as a unitary enterprise under a common ownership or leasehold, the quantities of gas supplied to such buildings or parts of buildings under the same Rate Schedule will be added for the purpose of determining the amount of the bill which such Customer shall receive for service, provided:

- A. The buildings or parts of buildings are situated upon the same parcel or contiguous parcels of land and are exclusively occupied and used by Customer as a unitary enterprise at one location and under one management; or
- B. The buildings or parts of buildings, separated by a public street or alley (but not including a limited-access highway), are situated upon parcels of land which occupy wholly or in part immediately opposite street frontages on the same street or alley and are exclusively occupied and used by Customer as a unitary enterprise at one location and under one management.

#### **C13.2 Master Account**

Customer, receiving gas service at multiple facilities that are under common ownership by Customer, may elect to aggregate the quantities of gas supplied to such facilities, subject to all of the following conditions:

- A. Customer must designate one of the facilities as the master account. Upon aggregation, the master account must receive service under an End User Transportation Rate Schedule account (ST, LT, or XLT).
- B. Only subsidiary accounts will be eligible for aggregation with the master account. To qualify as a subsidiary account, a facility must be served under a Gas Sales Rate Schedule (Rate A, AS, 2A, GS, or S) or Transportation Rate Schedule (ST, LT, or XLT). Customer, or Customer's agent, must specify which of Customer's facilities will be designated as subsidiary account(s). Customer may designate some or all of its facilities as subsidiary accounts.

**C13. AGGREGATION OF ACCOUNTS (Contd.)**

**C13.2 Master Account (Contd.)**

- C. The facility designated as the master account shall be subject to and billed under the provisions of its End User Transportation Rate Schedule. Facilities designated as subsidiary accounts shall be subject to all of the terms and conditions of the master account End User Transportation Rate Schedule, except that the subsidiary accounts will pay the monthly Customer service charge and distribution charge in effect for its designated sales or transportation rate rather than the monthly Customer service charge and distribution transportation charge in effect for the master account. All other charges applicable to the master account as identified under Rate Schedule ST, LT, or XLT apply to the subsidiary accounts. The master account will receive a volumetric credit equal to the Gas in Kind percent applicable to the master account or all volumes transported by the subsidiary accounts that are served under a Gas Sales Rate Schedule.
- D. The master account and the subsidiary accounts shall be treated as one account for the purpose of nominations and determining ACQ, MDQ, storage availability and penalties (including unauthorized gas usage and excess storage). Company will provide a single aggregated ACQ and MDQ for the master and subsidiary accounts determined in a consistent manner as identified within the ST, LT and XLT Rate Schedules. A separate Transportation Service Agreement consistent with those for ST, LT and XLT transportation services must be executed by Customer. The Transportation Service Agreement will identify the master and subsidiary account delivery points, applicable charges, aggregated ACQ and MDQ, and contract term, plus any other agreed upon terms and conditions.
