MICHIGAN PUBLIC SERVICE COMMISSION

ANNUAL REPORT OF NATURAL GAS UTILITIES (MAJOR AND NONMAJOR)

This form is authorized by 1919 PA 419, as amended, authorizes this form being MCL 460.51 et seq.; and 1969 PA 306, as amended, being MCL 24.201 et seq. Filing of this form is mandatory. Failure to complete and submit this form will place you in violation of the Acts.

Report submitted for year ending:	December 31, 2008
Present name of respondent:	Michigan Consolidated Gas Company
Present DBA name in Michigan if different from leg	gal name: N/A
Address of principal place of business:	One Energy Plaza
	Detroit, Michigan 48226-1279
Utility representative to whom inquiries regarding t	his report may be directed:
Name: Peter B. Oleksiak	Title: Vice President and Controller, and Chief
Address: One Energy Plaza	Accounting Officer
City: Detroit	State: Michigan Zip Code: 48226-1279
Telephone, Including Area Code:	E-mail:
(313) 235-4000	
If the utility name has been changed during the pa	st year:
Prior Name: N/A	
Date of Change: N/A	
Two copies of the published annual report to stock	kholders: N/A
[] were forwarded to the Commission	
[] will be forwarded to the Commission	
Annual reports to stockholders:	
[] are published	[x] are not published

Michigan Consolidated Gas Company

We have audited the balance sheet—regulatory basis of Michigan Consolidated Gas Company (the "Company") as of December 31, 2008, and the related statements of income—regulatory basis; retained earnings—regulatory basis; cash flows—regulatory basis, and accumulated other comprehensive income, comprehensive income, and hedging activities—regulatory basis for the year ended December 31, 2008, included on pages 110 through 123 (excluding pages 116, 117A and 117B) of the accompanying Michigan Public Service Commission Form P-522. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note B, item 6, these financial statements were prepared in accordance with the accounting requirements of the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, such regulatory-basis financial statements present fairly, in all material respects, the assets, liabilities, and proprietary capital of Michigan Consolidated Gas Company as of December 31, 2008, and the results of its operations and its cash flows for the year ended December 31, 2008, in accordance with the accounting requirements of the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

This report is intended solely for the information and use of the board of directors and management of Michigan Consolidated Gas Company and for filing with the Michigan Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

AN ORIGINAL December 31, 2008 CONTROL OVER RESPONDENT If any conporation, business trust, or similar organization or combination of such organization jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee(s), state name of trustee(s), name of beneficiary or beneficiaries for whom trust was maintained, and purpose of the trust. List any entities which respondent did not control either directly or indirectly and which did not control respondent but which vere associated companies at any time during the year. If the above required information is available from the SEC 10-K Report Form filing, a specific reference reference to the report form (i.e. year and company title) may be listed provided the fiscal years for both the 10-K report and this report are compatible. MichCon Holdings, Inc. is the holding company of the respondent. The attached pages 102a - 102r detail the chain of ownership and control to the main parent company.

I. NATURE OF BUSINESS OF CLAIMANTS AND EVERY SUBSIDIARY THEREOF

Claimant: DTE Energy Company

DTE Energy Company ("Company" or "DTE") is a Michigan corporation. DTE owns, directly and indirectly, three utilities, The Detroit Edison Company ("Detroit Edison"), Michigan Consolidated Gas Company ("MichCon") and Citizens Gas Fuel Company ("Citizens"), and non-regulated subsidiaries engaged in energy marketing and trading, energy services, and various other electricity, coal and gas related businesses. The Company's address is One Energy Plaza, Detroit, Michigan 48226-1279.

Claimant: DTE Enterprises, Inc.

DTE Enterprises, Inc. ("DTEE") owns, directly and indirectly, two utilities, MichCon and Citizens, and non-regulated subsidiaries primarily involved in natural gas production, gathering, processing, transmission, storage, distribution and marketing in the Midwest-to-Northeast corridor. DTEE is organized under the laws of the state of Michigan and has its principal executive offices at One Energy Plaza, Detroit, Michigan 48226-1279.

Claimant: MichCon Holdings, Inc.

MichCon Holdings, Inc. is the holding company for MichCon and MichCon Enterprises, Inc. MichCon is a public utility engaged in the distribution and transmission of natural gas in the state of Michigan. MichCon's principal executive offices are located at One Energy Plaza, Detroit, Michigan 48226-1279. MichCon conducts substantially all of its business in the state of Michigan and is subject to the jurisdiction of the Michigan Public Service Commission ("MPSC") as to various phases of its operations, including gas sales rates, service, and accounting. MichCon Enterprises, Inc. (a non-regulated affiliate) was formed to engage in non-regulated activities.

1. DTE Energy Company

- A. DTE Center Point, Inc. ("Center Point") is a Michigan company with offices at One Energy Plaza, Detroit, Michigan, 48226. This is a wholly owned subsidiary of DTE Energy Company and is an inactive company.
- B. DTE Energy Corporate Services, LLC is a Michigan company with offices at One Energy Plaza, Detroit, Michigan 48226-1279. This company is a wholly owned subsidiary of DTE Energy Company
- C. DTE Energy Resources, LLC ("DTE ER"), formerly DTE Energy Resources, Inc., is a Delaware company. DTE ER is a wholly owned subsidiary of the Company with offices at 414 S. Main, Ann Arbor, Michigan 48104. DTE ER is engaged in energy services, electric generation, electric and gas marketing and trading and landfill gas projects.
 - DTE Biomass Energy, Inc. ("DTE Biomass") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. DTE Biomass is a wholly owned subsidiary of DTE ER and is engaged in landfill gas projects
 - a. Adrian Energy Associates, LLC ("Adrian Energy") is a Michigan company with offices at 29261
 Wall Street, Wixom, Michigan 48393. Adrian Energy is a 50% owned subsidiary of DTB Biomass and is engaged in the production of electricity from landfill gas.
 - b. Adrian Gas Producers, L.L.C. ("Adrian Gas") is a Michigan company with offices at 425S. Main, Ann Arbor, Michigan 48104. Adrian Gas is a 50% owned subsidiary of DTE Biomass and is engaged in landfill gas projects. This entity merged with Adrian Energy Associates, LLC on November 3, 2008 with Adrian Energy Associates, LLC as the surviving entity.

- c. Bellefontaine Gas Producers, L.L.C. ("Bellefontaine Gas") is a Delaware company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Bellefontaine Gas is a 50% owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- d. Bellefontaine Leachate Services, L.L.C. ("Bellefontaine Leachate") is a Delaware company with offices at 6910 Treeline Drive, Brecksville, Ohio 44141. Bellefontaine Leachate is a 50% owned subsidiary of DTE Biomass and is engaged in processing landfill leachate from landfill gas.
- e. Birmingham Gas Producers, L.L.C. ("Birmingham") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Birmingham is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- f. Davidson Gas Producers, LLC ("Davidson"), formerly Sampson Energy Producers, LLC, is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Davidson is a wholly owned subsidiary of DTE Biomass and is engaged in landfill projects.
- g. Denton Power, LLC (Denton) is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Denton is a wholly owned subsidiary of DTE Biomass and is engaged in landfill projects.
- h. DTB Arbor Gas Producers, Inc. ("DTE Arbor") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. DTE Arbor is a wholly owned subsidiary of DTE Biomass
- DTE Methane Resources, L.L.C. ("DTE Methane") is a Michigan company with offices at 425 S.
 Main St., Ann Arbor, Michigan 48104. DTE Methane is a wholly owned subsidiary, 50% by DTE
 Biomass and 50% by DTE Coal Services, and is engaged in coal mine methane projects.
- Enerdyne LTD, LLC is a North Carolina company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Enerdyne LTD is 60% owned by DTE Biomass.
 - Lynchburg Transmission, LLC is a Virginia company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Lynchburg is 100% owned by Enerdyne LTD, LLC.
 - Waverly Gas Producers, LLC is a Virginia company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Waverly is 100% owned by Enerdyne LTD, LLC.
- k. Enerdyne TEN, LLC is a Virginia company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Enerdyne TEN, LLC is 75.5% owned by DTE Biomass.
 - King George Gas Producers, LLC is a Virginia company with offices at 425 S. Main, Ann Arbor, Michigan 48104. King George is 100% owned by Enerdyne TEN, LLC.
- Escambia Gas Producers, Inc. ("Escambia"), formerly ESCA Gas Producers, Inc., is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Escambia is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- m. Fayetteville Gas Producers, L.L.C. ("Fayetteville"), formerly Fayetteville Gas Company, L.L.C. is a North Carolina company with offices located at 425 S. Main, Ann Arbor, Michigan 48104. Fayetteville is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- n. Hillside Gas Producers, L.L.C. ("Hillside") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Hillside is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects. Hillside was dissolved August 6, 2008.

- o. Iredell Landfill Gas, LLC ("Iredell Gas") is a North Carolina company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Iredell Gas is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects. Iredell Gas merged into Iredell Transmission LLC on December 31, 2008 with Iredell Transmission, LLC as the surviving entity.
- p. Iredell Transmission, LLC ("Tredell Trans") is a North Carolina company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Iredell is 100% owned by DTE Biomass and is engaged in landfill gas projects.
- q. Kiefer Landfill Generating II, LLC ("Keifer") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Kiefer is a 10% owned subsidiary of DTE Biomass and is engaged in landfill projects.
- r. Lynchburg Gas Producers, LLC ("Lynchburg:") is a North Carolina company with offices at 425 S. main, Ann Arbor, Michigan, 48104. Lynchburg is a 75.5% owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- s. Middle Peninsula Gas Producers, LLC is a Virginia company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Middle Peninsula is a 75.5% owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- Montgomery Gas Producers, L.L.C. ("Montgomery") is a Michigan company with offices at 425
 S. Main, Ann Arbor, Michigan 48104. Montgomery is a wholly owned subsidiary of DTE
 Biomass and is engaged in landfill gas projects.
- U. Oklahoma Gas Producers, L.L.C. ("Oklahoma") is a Michigan company with offices at 425 S.
 Main, Ann Arbor, Michigan 48104. Oklahoma is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- v. Orlando Gas Producers, Inc. ("Orlando") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Orlando is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- w. Phoenix Gas Producers, L.L.C. ("Phoenix") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Phoenix is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- x. Pinnacle Gas Producers, L.L.C. ("Pinnacle") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Pinnacle is a wholly owned subsidiary of DTE Biomass and is engaged in a landfill gas-to-energy project.
- y. Polk Gas Producers, L.L.C. ("Polk") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Polk is a 99% owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- z. Raleigh Steam Producers, LLC ("Raleigh"), formerly Enerdyne IV, LLC, is a North Carolina company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Raleigh is a 50% owned subsidiary of DTE Biomass and is engaged in production of steam from landfill gas.
- aa. RES Power, Inc. ("RESP") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. RESP is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.

- Riverview Energy Systems ("Riverview") is a Michigan partnership with offices at 29261
 Wall Street, Wixom, Michigan 48393. Riverview is a 50% owned subsidiary of RESP and is
 engaged in the production of electricity from landfill gas.
- bb. Riverview Gas Producers, Inc. ("Riverview") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Riverview is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- cc. Roxana Gas Producers, Inc. ("Roxana") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Roxana is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.

 - DTE Energy Technologies-Canada, Inc., ("DTE ET Canada"), formerly Alliance Energy Systems Canada, Ltd., is an Ontario, Canada corporation, with offices at 2425 Matheson Boulevard East, Mississauga, Canada L4W 5K4. DTE ET Canada is a wholly owned subsidiary of Alliance and is engaged in selling electric generators in the Canadian market. DTE ET Canada was dissolved February 10, 2009.

MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2008 CORPORATIONS CONTROLLED BY RESPONDENT

- Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If Control ceased prior to end of year, give particulars (details) in a footnote.
- If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
- 3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
- 4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the I0-K and this report are compatible.

DEFINITIONS.

- See the Uniform System of Accounts for a definition of control.
- 2. Direct control is that which is exercised without interposition of an intermediary.
- 3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
- 4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

	*** TARAFATAN AND AND AND AND AND AND AND AND AND A		

(1) MichCon Board of Directors held no scheduled meetings during 2008. As permitted by law, the Board acted on numerous matters by written consent.

- 1. (A) Give the names and addresses of the 10 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were then in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.), duration of trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not compiled within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders. (B) Give also the name and indicate the voting powers resulting from ownership of securities of the respondent of each officer and director not included in the list of 10 largest security holders.
- If any security other than stock carries voting rights, explain in a supplemental statement the circumstances whereby such security became vested with voting rights and give other important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent; if contingent, describe the contingency.
- If any class or issue of security has any special privileges in the election of directors, trustees or mamagers, or in the determination of corporate action by any method, explain briefly in a footnote.
- 4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants, or rights were issued on a prorata basis.

Not Applicable

2. State the total number of votes cast at the latest general meeting prior to the end of year for election of directors of the respondent and number of such vote cast by proxy

Not Applicable

3. Give the date and place of such meeting:

MichCon Board of Directors held no scheduled meetings during 2008. As permitted by law, the Board acted on numerous matters by written consent.

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none" or "not applicable" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
- Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give
 names of compenies involved, particulars concerning the transactions, name of the Commission authorizing the transaction,
 and reference to Commission authorization.
- 3. Purchase or sale of an operation unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each cast of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.
- 6. Obligation incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Give reference to Commission authorization if any was required.
- Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- State briefly the status of any materially important legal proceeding pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on page 106, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. Estimated increase or decrease in annual revenues due to important rate changes: State effective date and approximate amount of increase or decrease for each revenue classification. State the number of customers affected.
- 12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instructions 1 to 11 above, such notes may be attached to this page.

MICHICAN CONSOLIDATED GAS COMPANY

AN ORIGINAL

December 31, 2008

STATEMENT OF INCOME FOR THE YEAR

- Report amounts for accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another
 utility column (i,k,m,o) in a similar manner to a utility department. Spread the amount(s) over lines 61 thru 20
 as appropriate. Include these amounts in columns (c) and (d) totals.
- 2. Report amounts in account 414, Other Utility Operating Income, in the same manner as account 412 and 413 above.
- 3. Report data for lines 7, 9, and 10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2.
- 4. Use page 122 for important notes regarding the statement of income or any account thereof.
- 5. Give concise explanations concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover smounts paid with respect to power and gas purchases.

Give concise explanations concerning significant amounts of any refunds made or received during the year resulting

STATEMENT OF INCOME FOR THE YEAR (Continued)

from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases and a summary of the adjustments made to balance sheet, income, and expense accounts.

- If any notes appearing in the report to stockholders are applicable to this Statement of Income, such notes
 may be attached at page 122.
- 8. Enter on page 122 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.
- Explain in a footnote if the previous year's figures are different from that reported in prior reports.
- 10.If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles, lines 1 to 19, and report the information in the blank space on page 122 or in a supplemental statement.

MICHIGAN CONSOLIDATED GAS COMPANY

AN ORIGINAL

December 31, 2008

- STATEMENT OF RETAINED EARNINGS FOR THE YEAR
- 1. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
- 2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
- 3. State the purpose and amount for each reservation or appropriation of retained earnings.
- 4. List first account 439, Adjustments to Retained Earnings reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
- 5. Show dividends for each class and series of capital stock. Show amounts of dividends per share.
- Show separately the state and federal income tax effect of items shown for Account 439, Adjustments to Retained Earnings.
- 7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservation or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.

8. If any notes appearing in the report to stockholders are applicable to this statement, attach them at page 122.

MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2008 NOTES TO FINANCIAL STATEMENTS

- 1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.
- 2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.
- 3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.
- 4. Where Accounts 189, Unamortized Loss on Reacquired Debt and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform Systems of Accounts.
- 5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be attached hereto.

B. These financial statements were prepared in accordance with the accounting requirements of the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published releases. Such requirements and published releases constitute a basis of accounting other than generally accepted accounting principles (GAAP). The principal differences of this basis of accounting from GAAP include: accounting for majority-owned subsidiaries on the equity basis, the classification of certain deferred income taxes and related regulatory assets and liabilities, the exclusion of current maturities of long-term debt from current liabilities, the classification of non-legal removal costs, accounting for the Performance Excellence Process Costs to Achieve, and financial statement presentation of Deferred Environmental Remediation Costs and Long Term Notes Receivable.

The "Notes to the Consolidated Financial Statements" from MichCon's 2008 Consolidated Financial Statements (as furnished to the United States Securities and Exchange Commission (SEC) on a Form 8-K) are filed within this report on pages 123.3 through 123.27.

The consolidation policy discussed in Note 1, Significant Accounting Policies, on page 123.3 of the incorporated notes is not applicable for this report as MichCon's subsidiaries are accounted for using the equity method of accounting for the purpose of this report.

Certain prior year balances were reclassified to match the current year's financial statement presentation.

The 2007 Base Gas gain of \$5,038,125 was reclassified from account 411.6 to 421.1, the corresponding tax of \$1,654,334 was reclassified from account 409.1 to 409.2 and the severance taxes of \$311,456 were reclassified from account 408.1 to 408.2 to consistently present the base gas sale as other income.

Accounting for the Performance Excellence Process (PEP) Cost to Achieve (CTA) Impact of September 12, 2006 in September 2006, the MPSC approved the settlement of Case No. U-14907, MichCon's Performance Excellence Process (PEP) accounting case. Per the order, incremental costs to achieve (CTA) for PEP savings can be deferred effective with 2006 expenses. However, we have not yet requested or received approval to recover the cost in rates. Pending the approval of rate recovery, CTA was included in Administrative and General Expense for the annual financial statements provided to the SEC as follows:

2006	\$ 23,270,648
2007	9,451,720
2008	 6,876,298
Total CTA impact	\$ 39,598,666

MICHIGAN CONSOLIDATED GAS COMPANY

AN ORIGINAL

December 31, 2008

NOTES TO FINANCIAL STATEMENTS (Continued)

For Regulatory Reporting, Miscellaneous Deferred Debits were increased, and Regulatory Liability for Negative Pension was impacted to recognize the approval to defer the incremental CTA with the corresponding tax impact included in Deferred Taxes.

(a) In 2008, the adjustment of the regulatory liability relates to a catch up of the 2006 adjustment.

	_	Deferred Debits	Regulatory Liability Deferred		eferred tax	ed tax CTA defer		
NAME OF THE PROPERTY OF THE PR		Account # 186	Acco	unt #253.41	As	count 283,1		net of tax

End of year	\$ 24,779,128 \$	\$ 19,617,422	\$	\$ 12,080,272

Lost gas is recorded and deferred monthly; it is then amortized to expense based on a rolling 12 month average percentage times the current sendout. For GAAP and for MPSC Form P-522, the current month volumetric Lost gas in included in Cost of Gas. For GAAP and MPSC Form P-522, the additional effect due to the amortization of Lost gas is also included in Cost of Gas. Lost gas is not part of the Gas Cost Recovery mechanism. To have clarity of this rate, MichCon does not show any amount related to lost gas amortization in the Cost of Gas accounts for Form P-522 purposes. Therefore, for regulatory purposes, MichCon reflects the amortization of lost gas in a contra revenue account, thereby adjusting revenue received by the amount of the amortization.

As of January 1, 2007, MichCon adopted Accounting for Uncertainty in Income Taxes-an Interpretation of FASB Statement No. 109, (FiN 48). The MPSC has not adopted FIN 48, therefore, the FIN 48 liabilities are classified in MPSC account 283, Accumulated Deferred Income Taxes-Other. As of December 31, 2007, MichCon had an immaterial amount of FIN 48 liabilities for GAAP purposes. As of December 31,2008, MichCon had approximately \$11 million of FIN 48 liabilities for GAAP purposes. The FIN 48 liabilities were classified in MPSC account 283, Accumulated Deferred Income Taxes-Other.

Therefore, there were no FIN 48 liabilities separately reported for Form P-522 purposes.

MICHIGAN CONSOLIDATED GAS COMPANY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 — SIGNIFICANT ACCOUNTING POLICIES

Corporate Structure

Michigan Consolidated Gas Company (MichCon) is a Michigan corporation organized in 1898. MichCon is an indirect, wholly-owned subsidiary of DTE Enterprises, Inc., and indirectly a wholly-owned subsidiary of DTE Energy Company. MichCon is a public utility subject to regulation by the Michigan Public Service Commission (MPSC). MichCon is engaged in the purchase, storage, transmission, distribution and sale of natural gas to approximately 1.2 million customers throughout Michigan. MichCon also has subsidiaries involved in the gathering and transmission of natural gas in northern Michigan.

References in this report to "we", "us", "our" or "Company" are to MichCon.

Basis of Presentation

The accompanying Consolidated Financial Statements are prepared using accounting principles generally accepted in the United States of America. These accounting principles require us to use estimates and assumptions that impact reported amounts of assets, liabilities, revenues, expenses and the disclosure of contingent assets and liabilities. Actual results may differ from our estimates.

Principles of Consolidation

We consolidate all majority owned subsidiaries and investments in entities in which we have controlling influence. Non-majority owned investments are accounted for using the equity method when the Company is able to influence the operating policies of the investee. Non-majority owned investments include investments in limited liability companies, partnerships or joint ventures. When we do not influence the operating policies of an investee, the cost method is used. We eliminate all intercompany balances and transactions.

For entities that are considered variable interest entities, we apply the provisions of Financial Accounting Standards Board (FASB) Interpretation No. (FIN) 46-R, Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51.

Revenues

Revenues from the sale, delivery and storage of natural gas are recognized as services are provided. We record revenues for gas services provided but unbilled at the end of each month. Our accrued revenues include a component for the cost of gas sold that is recoverable through the gas cost recovery (GCR) mechanism and certain other transactions that may create revenue refund obligations to GCR customers. MichCon presents its revenue net of any revenue refund obligations to GCR customers. Annual GCR proceedings before the MPSC permit MichCon to recover prudent and reasonable supply costs. Any over collection or under collection of costs, including interest, will be reflected in future rates. See Note 4.

Comprehensive Income (Loss)

Comprehensive income (loss) is the change in common shareholder's equity during a period from transactions and events from non-owner sources, including net income. As shown in the following table, amounts recorded to other comprehensive income (loss) include unrealized gains and losses from derivatives accounted for as cash flow hedges.

	Net		Accumulated
	Unrealized		Other
	Gains on	Benefit	Comprehensive
(in Millions)	<u>Derivatives</u>	Obligations	Loss
December 31, 2007	\$ (1)	\$	\$ (1)
Current period change		(1)	(1)
December 31, 2008	<u>\$_(1)</u>	<u>\$_(1)</u>	<u>\$_(2)</u>

Cash Equivalents

Cash and cash equivalents include cash on hand, cash in banks and temporary investments purchased with remaining maturities of three months or less.

Receivables

Accounts receivable are primarily composed of trade receivables and unbilled revenue. Our accounts receivable are stated at net realizable value. Customer accounts are written off based upon approved regulatory and legislative requirements.

The allowance for doubtful accounts is calculated using the aging approach that utilizes rates developed in reserve studies. We establish an allowance for uncollectible accounts based on historical losses and management's assessment of existing economic conditions, customer trends, and other factors. Customer accounts are generally considered delinquent if the amount billed is not received by the time the next bill is issued, typically monthly, however, factors such as assistance programs may delay aggressive action. We assess late payment fees on trade receivables based on contractual past-due terms established with customers.

Unbilled revenues of \$189 million and \$162 million are included in customer accounts receivable at December 31, 2008 and 2007, respectively.

Inventories

We value materials and supplies at average cost.

Gas inventory is determined using the last-in, first-out (LIFO) method. At December 31, 2008, the replacement cost of gas remaining in storage exceeded the \$14 million LIFO cost by \$232 million. During 2008 MichCon liquidated 4.2 billion cubic feet of prior years' LIFO layers. The liquidation reduced 2008 cost of gas by approximately \$21 million, but had no impact on earnings as a result of the GCR mechanism. At December 31, 2007, the replacement cost of gas remaining in storage exceeded the \$32 million LIFO cost by \$288 million. During 2007, MichCon liquidated 9.5 billion cubic feet of prior years' LIFO layers. The liquidation reduced 2007 cost of gas by approximately \$30 million, but had no impact on earnings as a result of the GCR mechanism.

Gas Customer Choice Deferred Asset

Gas Customer Choice Deferred Asset represents gas provided to MichCon by suppliers of gas to customers that participate in the Customer Choice program. As the gas is sold and billed to Customer Choice customers, primarily in the December through March heating season, this asset is reduced. At the end of an April through March cycle each year, any balance is reconciled and settled with the various suppliers.

Property, Retirement and Maintenance, and Depreciation and Depletion

Summary of property by classification as of December 31:

(in Millions)	 2008	A30***	2007
Property, Plant and Equipment			
Distribution	\$ 2,327	\$	2,392
Storage	378		273
Transmission and Other	 1,061	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	<u>924</u>
Total	 3,766		3,589
Less Accumulated Depreciation			
Distribution	(955)		(970)
Storage	(107)		(100)
Transmission and Other	 (587)		(523)
Total	 (1.649)		(1.593)
Net Property, Plant and Equipment	\$ 2,117	\$	1,996

Property is stated at cost and includes construction-related labor, materials, overheads and an allowance for funds used during construction (AFUDC). AFUDC capitalized during 2008 and 2007 was approximately \$6 million and \$9 million, respectively. The cost of properties retired, less salvage value, is charged to accumulated depreciation. Expenditures for maintenance and repairs are charged to expense when incurred.

We base depreciation provisions on straight-line and units-of-production rates approved by the MPSC. The composite depreciation rate was 3.2% in 2008, 3.1% in 2007, and 2.8% in 2006.

The average estimated useful life for gas distribution and transmission property was 40 years and 38 years, respectively, at December 31, 2008. Intangible assets relating to capitalized software are classified as Property, plant and equipment and the related amortization is included in Accumulated depreciation on the Consolidated Statements of Financial Position. We capitalize the costs associated with computer software we develop or obtain for use in our business. We amortize intangible assets on a straight-line basis over the expected period of benefit, primarily 15 years. Intangible assets amortization expense was \$6 million in each of the years 2008, 2007 and 2006. The gross carrying amount and accumulated amortization of intangible assets at December 31, 2008 were \$96 million and \$47 million, respectively. The gross carrying amount and accumulated amortization of intangible assets at December 31, 2007 were \$90 million and \$43 million, respectively. Amortization expense for intangible assets is estimated to be \$6 million annually for 2009 through 2013.

Asset Retirement Obligations

We record asset retirement obligations in accordance with Statement of Financial Accounting Standards (SFAS) No. 143, Accounting for Asset Retirement Obligations and Financial Accounting Standards Board Interpretation No. (FIN) 47, Accounting for Conditional Asset Retirement Obligations, an interpretation of FASB Statement No. 143. We have conditional retirement obligations for gas pipeline retirement costs. To a lesser extent, we have conditional retirement obligations at certain service centers, compressor and gate stations. The Company recognizes such obligations as liabilities at fair market value at the time the associated assets are placed in service. Fair value is measured using expected future cash outflows discounted at our credit-adjusted risk-free rate.

The adoptions of SFAS No. 143 and FIN 47 resulted primarily in timing differences in the recognition of legal asset retirement costs that the Company is currently recovering in rates. We defer such differences under SFAS No. 71, Accounting for the Effects of Certain Types of Regulation.

No liability has been recorded with respect to lead-based paint, as the quantities of lead-based paint in our facilities are unknown. In addition, there is no incremental cost for demolitions of lead-based paint facilities vs. non-lead-based paint facilities and no regulations currently exist requiring any type of special disposal of items containing lead-based paint.

A reconciliation of the asset retirement obligation for 2008 follows:

(in Millions)	
Asset retirement obligations at January 1, 2008	\$ 109
Accretion	6
Liabilities settled	(3)
Asset retirement obligations at December 31, 2008	\$_112

Long-Lived Assets

Our long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. If the carrying amount of the asset exceeds the expected future cash flows generated by the asset, an impairment loss is recognized resulting in the asset being written down to its estimated fair value. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

Excise and Sales Taxes

We record the billing of excise and sales taxes as a receivable with an offsetting payable to the applicable taxing authority, with no impact on the Consolidated Statements of Operations.

Deferred Debt Costs

The costs related to the issuance of long-term debt are deferred and amortized over the life of each debt issue. In accordance with MPSC regulations, the unamortized discount, premium and expense related to debt redeemed with a refinancing are amortized over the life of the replacement issue.

Investments in Debt and Equity Securities

The Company generally classifies investments in debt and equity securities as trading and has recorded such investments at market value with unrealized gains or losses included in earnings.

Asset Gains, net

In 2008 and 2007, we sold base gas resulting in gains of \$22 million and \$5 million, respectively. Proceeds from the 2008 and 2007 base gas sales were received in January 2009 and January 2008, respectively. Also in 2008 and 2007, we sold land for gains of \$2 million and \$1 million, respectively. The 2007 gain was partially offset by \$3 million for the disallowance of certain costs related to the acquisition of pipeline assets. In 2006, we sold certain investment rights related to storage field construction for a \$3 million pre-tax gain. This gain was offset by a \$3 million loss as a result of a reduction to MichCon's 2004 GCR underrecovery related to the accounting treatment of the injected base gas remaining in the New Haven storage field when it was sold in early 2004.

NOTE 2 — NEW ACCOUNTING PRONOUNCEMENTS

Fair Value Accounting

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. It emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Fair value measurement should be determined based on the assumptions that market participants would use in pricing an asset or liability. Effective January 1, 2008, the Company adopted SFAS No. 157. As permitted by FASB Staff Position FAS No. 157-2, the Company has elected to defer the effective date of SFAS No. 157 as it pertains to non-financial assets and liabilities to January 1, 2009. See also Note 9.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities — Including an Amendment of FASB Statement No. 115. This Statement permits an entity to choose to measure many financial instruments and certain other items at fair value. The fair value option established by SFAS No. 159 permits all entities to choose to measure eligible items at fair value at specified election dates. An entity will report in earnings unrealized gains and losses on items, for which the fair value option has been elected, at each subsequent reporting date. The fair value option: (a) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (b) is irrevocable (unless a new election date occurs); and (c) is applied only to entire instruments and not to portions of instruments. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. At January 1, 2008, the Company elected not to use the fair value option for financial assets and liabilities held at that date.

In October 2008, the FASB issued FASB Staff Position (FSP) 157-3, Determining the Fair Value of a Financial Asset in a Market That is Not Active. The FSP clarifies the application of SFAS No. 157, Fair Value Measurements, in an inactive market, and provides an illustrative example to demonstrate how the fair value of a financial asset is determined when the market for that financial asset is inactive. The FSP was effective upon issuance, including prior periods for which financial statements have not been issued. The adoption of the FSP did not have a material impact on the Company's consolidated financial statements.

Business Combinations

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations, to improve the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. To accomplish this, SFAS No. 141(R) requires the acquiring entity in a business combination to recognize all the assets acquired and liabilities assumed in the transaction; establishes the acquired to disclose to investors and other users all of the information needed to evaluate and understand the nature and financial effect of the business combination. SFAS No. 141(R) is applied prospectively to business combinations entered into by the Company after January 1, 2009, with earlier adoption prohibited. The Company will apply the requirements of SFAS No. 141 (R) to business combinations consummated after January 1, 2009.

GAAP Hierarchy

In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles. This statement identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements under GAAP. SFAS No. 162 is effective 60 days following the approval of the Public Company Accounting Oversight Board amendments to AU section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles. The Company will adopt SFAS No. 162 once effective. The adoption is not expected to have a material impact on its consolidated financial statements.

Useful Life of Intangible Assets

In May 2008, the FASB issued FSP 142-3, Determination of the Useful Life of Intangible Assets. This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful

life of a recognized intangible asset under SFAS No. 142, Goodwill and Other Intangible Assets. For a recognized intangible asset, an entity shall disclose information that enables users to assess the extent to which the expected future cash flows associated with the asset are affected by the entity's intent and/or ability to renew or extend the arrangement. This FSP is effective for financial statements issued for fiscal years and interim periods beginning after December 15, 2008. The FSP will not have a material impact on the Company's consolidated financial statements.

Disclosures about Derivative Instruments and Guarantees

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133. This Statement requires enhanced disclosures about an entity's derivative and hedging activities. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. Comparative disclosures for earlier periods at initial adoption are encouraged but not required. The Company will adopt SFAS No. 161 on January 1, 2009.

In September 2008, the FASB issued FSP No. 133-1 and FIN 45-4, Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161. This FSP is intended to improve disclosures about credit derivatives by requiring more information about the potential adverse effects of changes in credit risk on the financial position, financial performance, and cash flows of the sellers of credit derivatives. This FSP also requires additional disclosures about the current status of the payment/performance risk of a guarantee. The provisions of the FSP that amend SFAS No. 133 and FIN 45 are effective for reporting periods ending after November 15, 2008. The FSP also clarifies that the disclosures required by SFAS No. 161 should be provided for any reporting period (annual or interim) beginning after November 15, 2008. The Company has adopted these pronouncements as of December 31, 2008.

Noncontrolling Interests in Consolidated Financial Statements

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements—an Amendment of ARB No. 51. This Statement establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. SFAS No. 160 is effective for fiscal years, and interim periods within those years, beginning on or after December 15, 2008. Earlier adoption is prohibited. This Statement shall be applied prospectively as of the beginning of the fiscal year in which this Statement is initially applied, except for the presentation and disclosure requirements. The presentation and disclosure requirements shall be applied retrospectively for all periods presented. The Company will adopt SFAS No. 160 as of January 1, 2009. Adoption of SFAS No. 160 will not have a material effect on our consolidated financial statements.

Employers' Disclosures about Postretirement Benefit Plan Assets

On December 30, 2008, the FASB issued FASB Staff Position (FSP) FAS 132(R)-1, Employers' Disclosures about Postretirement Benefit Plan Assets. This FSP amends SFAS No. 132 (revised 2003), Employers' Disclosures about Pensions and Other Postretirement Benefits, to provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. The disclosure requirements required by this FSP are effective for fiscal years ending after December 15, 2009. The Company will adopt this FSP on December 31, 2009.

Stock-Based Compensation

Effective January 1, 2006, our parent company, DTE Energy, adopted SFAS No. 123(R), Share-Based Payment, using the modified prospective transition method. We receive an allocation of costs associated with stock compensation and the related impact of cumulative accounting adjustments. Our allocations for 2008, 2007 and 2006 for stock-based compensation expense were approximately \$5 million, \$3 million and \$2 million, respectively. The cumulative effect of the adoption of SFAS 123(R) had an immaterial impact on our operation and maintenance expense.

NOTE 3 - RESTRUCTURING

Performance Excellence Process

In 2005, we initiated a company-wide review of our operations called the Performance Excellence Process. We began a series of focused improvement initiatives within MichCon and associated corporate support functions.

We have incurred costs to achieve (CTA) restructuring expense for employee severance and other costs. Other costs include project management and consultant support. We cannot defer CTA costs at this time because a regulatory recovery mechanism has not been established by the MPSC. We expect to seek a recovery mechanism in our next rate case expected to be filed in 2009.

Amounts expensed are recorded in the Operation and maintenance line on the Consolidated Statements of Operations. Costs incurred in 2008, 2007 and 2006 are as follows:

	Emplo	<u>vee Severanc</u>	e Costs		Other Costs		10.77.74.111.74	Total Cost	1752-Krempusinganara
(in Millious)	2008	2007	2006	2008	2007	2006	2008	2007	2006
Costs incurred	\$	\$3	\$ 17	\$ 7	\$6	\$ 7	\$ 7	\$9	\$ 24

NOTE 4 — REGULATORY MATTERS

Regulation

We are subject to the regulatory jurisdiction of the MPSC, which issues orders pertaining to rates, recovery of certain costs, including the costs of regulatory assets, conditions of service, accounting and operating-related matters.

Regulatory Assets and Liabilities

We apply the provisions of SFAS No. 71, Accounting for the Effects of Certain Types of Regulation. SFAS No. 71 requires the recording of regulatory assets and liabilities for certain transactions that would have been treated as revenue and expense in non-regulated businesses. Continued applicability of SFAS No. 71 requires that rates be designed to recover specific costs of providing regulated services and be charged to and collected from customers. Future regulatory changes or changes in the competitive environment could result in the Company discontinuing the application of SFAS No. 71 for some or all of its business and require the write-off of the portion of any regulatory asset or liability that was no longer probable of recovery through regulated rates. Management believes that currently available facts support the continued application of SFAS No. 71.

The following are the balances of the regulatory assets and liabilities as of December 31:

(in Millions)	2008	2007
Assets		
Deferred environmental costs	\$ 41	\$ 39
Unamortized loss on reacquired debt	33	29
Recoverable pension and postretirement costs		
Pension	373	25
Postretirement costs	178	91
Accrued GCR revenue	1	(Citizenda)
Recoverable uncollectibles expense	122	66
Deferred income taxes — Michigan Business Tax	58	47
-	806	297
Less amount included in current assets	(32)	(25)
•	<u>\$_774</u>	\$ 272

(in Millions) Lia bilities	war.	2008_	, 	2007
Asset removal costs	\$	353	z,	363
Refundable income taxes	*	93	~	104
Accrued GCR refund				70
Negative pension offset		110		71
Deferred income taxes — Michigan Business Tax	-,	53		47
. ***		609		655
Less amount included in current liabilities and other liabilities		****		<u>(70)</u>
	<u>s</u>	609	S	585

As noted below, regulatory assets for which costs have been incurred have been included (or are expected to be included, for costs incurred subsequent to the most recently approved rate case) in MichCon's rate base, thereby providing a return on invested costs. Certain regulatory assets do not result from cash expenditures and therefore do not represent investments included in rate base or have offsetting liabilities that reduce rate base.

ASSETS

- Deferred environmental costs The MPSC approved the deferral and recovery of investigation and remediation
 costs associated with former MGP sites. This asset is offset in working capital by an environmental liability
 reserve. The amortization of the regulatory asset is not included in our current rates because it is offset by the
 recognition of insurance proceeds. We will request recovery of the remaining asset balance in future rate filings
 after the recognition of insurance proceeds is complete. (1)
- Unamortized loss on reacquired debt The unamortized discount, premium and expense related to debt redeemed with a refinancing are deferred, amortized and recovered over the life of the replacement issue.
- Recoverable pension and postretirement costs In 2007, the Company adopted SFAS No. 158 which required, among other things, the recognition in other comprehensive income of the actuarial gains or losses and the prior service costs that arise during the period but that are not immediately recognized as components of net periodic benefit costs. The Company received approval from the MPSC to record the charge related to the additional liability as a regulatory asset since the traditional rate setting process allows for the recovery of pension and postretirement costs. The asset will reverse as the deferred items are recognized as benefit expenses in net income. (1)
- Accrued GCR revenue Receivable for the temporary under-recovery of and return on gas costs incurred by MichCon which are recoverable through the GCR mechanism.
- Recoverable uncollectibles expense Receivable for the MPSC approved uncollectible expense true-up
 mechanism that tracks the difference in the fluctuation in uncollectible accounts and amounts recognized pursuant
 to the MPSC authorization.
- Deferred income taxes Michigan Business Tax (MBT) In July 2007, the MBT was enacted by the State of
 Michigan. State deferred tax liabilities were established for the utility, and offsetting regulatory assets were
 recorded as the impacts of the deferred tax liabilities will be reflected in rates as the related taxable temporary
 differences reverse and flow through current income tax expense. (1)
- (1) Regulatory assets not earning a return.

LIABILITIES

- Asset removal costs The amount collected from customers for the funding of future asset removal activities.
- Refundable income taxes Income taxes refundable to our customers representing the difference in propertyrelated deferred income taxes payable and amounts recognized pursuant to MPSC authorization.

- Accrued GCR refund Liability for the temporary over-recovery of and a return on gas costs incurred by MichCon which are recoverable through the GCR mechanism.
- Negative pension offset The Company's negative pension costs are not included as a reduction to its authorized
 rates; therefore, the Company is accruing a regulatory liability to eliminate the impact on earnings of the negative
 pension expense accrued. This regulatory liability will reverse to the extent the Company's pension expense is
 positive in future years.
- Deferred income taxes Michigan Business Tax In July 2007, the MBT was enacted by the State of Michigan. State deferred tax assets were established, and offsetting regulatory liabilities were recorded as the impacts of the deferred tax assets will be reflected in rates.

Uncollectible Expense True-Up Mechanism (UETM) and Report of Safety and Training-Related Expenditures

2005 UETM — In March 2006, MichCon filed an application with the MPSC for approval of its UETM for 2005. MichCon's 2005 base rates included \$37 million for anticipated uncollectible expenses. Actual 2005 uncollectible expenses totaled \$60 million. The true-up mechanism allowed MichCon to recover 90% of uncollectibles that exceeded the \$37 million base. Under the formula prescribed by the MPSC, MichCon recorded an under-recovery of approximately \$11 million for uncollectible expenses from May 2005 (when the mechanism took effect) through the end of 2005. In December 2006, the MPSC issued an order authorizing MichCon to implement the UETM monthly surcharge for service rendered on and after January 1, 2007.

As part of the March 2006 application with the MPSC, MichCon filed a review of its 2005 annual safety and training-related expenditures. MichCon reported that actual safety and training-related expenditures for the initial period exceeded the pro-rata amounts included in base rates and, based on the under-recovered position, recommended no refund at that time. In the December 2006 order, the MPSC also approved MichCon's 2005 safety and training report. On October 14, 2008, the State of Michigan Court of Appeals rejected the appeal of the Attorney General of the State of Michigan upholding the right of the MPSC to authorize MichCon to charge the 2005 UETM.

2006 UETM — In March 2007, MichCon filed an application with the MPSC for approval of its UETM for 2006 requesting \$33 million of under-recovery plus applicable carrying costs of \$3 million. The March 2007 application included a report of MichCon's 2006 annual safety and training-related expenditures, which showed a \$2 million over-recovery. In August 2007, MichCon filed revised exhibits reflecting an agreement with the MPSC Staff to net the \$2 million over-recovery and associated interest related to the 2006 safety and training-related expenditures against the 2006 UETM under-recovery. An MPSC order was issued in December 2007 approving the collection of \$33 million requested in the August 2007 revised filing. MichCon was authorized to implement the new UETM monthly surcharge for service rendered on and after January 1, 2008.

2007 UETM — In March 2008, MichCon filed an application with the MPSC for approval of its UETM for 2007 requesting approximately \$34 million consisting of \$33 million of costs related to 2007 uncollectible expense and associated carrying charges and \$1 million of under-collections for the 2005 UETM. The March 2008 application included a report of MichCon's 2007 annual safety and training-related expenses, which showed no refund was necessary because actual expenditures exceeded the amount included in base rates. An MPSC order was issued in December 2008 approving the collection of \$34 million requested in the March 2008 filing. MichCon was authorized to implement the new UETM monthly surcharge for service rendered on and after January 1, 2009.

Gas Cost Recovery Proceedings

2005-2006 Plan Year — In June 2006, MichCon filed its GCR reconciliation for the 2005-2006 GCR year. The filing supported a total over-recovery, including interest through March 2006, of \$13 million. MPSC Staff and other intervenors filed testimony regarding the reconciliation in which they recommended disallowances related to MichCon's implementation of its dollar cost averaging fixed price program. In January 2007, MichCon filed testimony rebutting these recommendations. In December 2007, the MPSC issued an order adopting the adjustments proposed by the MPSC Staff, resulting in an \$8 million disallowance. Expense related to the disallowance was recorded in 2007. The MPSC authorized MichCon to roll a net over-recovery, inclusive of interest, of \$20 million into its 2006-2007 GCR reconciliation. In December 2007, MichCon filed an appeal of the case with the Michigan Court of Appeals. MichCon is currently unable to predict the outcome of the appeal.

2006-2007 Plan Year — In June 2007, MichCon filed its GCR reconciliation for the 2006-2007 GCR year. The filing supported a total under-recovery, including interest through March 2007, of \$18 million. In March 2008, the parties reached a settlement agreement that allowed for full recovery of MichCon's GCR costs during the 2006-2007 GCR year. The under-recovery, including interest through March 2007 agreed to under the settlement is \$9 million, which nets the \$18 million under-recovery for the 2006-2007 GCR reconciliation with the roll-forward of the 2005-2006 GCR reconciliation disallowance of \$7.6 million plus related interest, as ordered in the 2005-2006 GCR reconciliation case. The \$9 million under-recovery was included in the 2007-2008 GCR reconciliation. An MPSC order was issued on April 22, 2008 approving the settlement.

2007-2008 Plan Year / Base Gas Sale Consolidated — In August 2006, MichCon filed an application with the MPSC requesting permission to sell base gas that would become accessible with storage facilities upgrades. In December 2006, MichCon filed its 2007-2008 GCR plan case proposing a maximum GCR factor of \$8.49 per Mcf. In August 2007, a settlement agreement in this proceeding was reached by all intervening parties that provided for a sharing with customers of the proceeds from the sale of base gas. In addition, the agreement provided for a rate case filing moratorium until January 1, 2009, unless certain unanticipated changes occur that impact income by more than \$5 million. The settlement agreement was approved by the MPSC in August 2007. Under the settlement terms, MichCon delivered 13.4 Bcf of this gas to its customers through 2007 at a savings to market-priced supplies of approximately \$41 million. This settlement also provided for MichCon to retain the proceeds from the sale of 3.6 Bcf of base gas, of which MichCon sold 0.8 Bcf of base gas in 2007 at a pre-tax gain of \$5 million and 2.8 Bcf in December 2008 at a pre-tax gain of \$22 million. In June 2008, MichCon filed its GCR reconciliation for the 2007-2008 GCR year. The filing supported a total under-recovery, including interest through March 2008, of \$10 million.

2008-2009 Plan Year — In December 2007, MichCon filed its GCR plan case for the 2008-2009 GCR Plan year. MichCon filed for a maximum GCR factor of \$8.36 per Mcf, adjustable by a contingent mechanism. In June 2008, MichCon made an informational filing documenting the increase in market prices for gas since its December 2007 filing and calculating its new maximum factor of \$10.76 per Mcf based on its contingent mechanism. On August 26, 2008, the MPSC approved a partial settlement agreement which includes the establishment of a new maximum base GCR factor of \$11.36 per Mcf that will not be subject to adjustment by contingent GCR factors for the remainder of the 2008-2009 GCR plan year. An MPSC order addressing the remaining issues in this case is expected in 2009.

2009-2010 Plan Year — In December 2008, MichCon filed its GCR plan case for the 2009-2010 GCR Plan year. MichCon filed for a maximum GCR factor of \$8.46 per Mcf, adjustable by a contingent mechanism. An MPSC order in this case is expected in 2009.

2009 Proposed Base Gas Sale — In July 2008, MichCon filed an application with the MPSC requesting permission to sell an additional 4 Bcf of base gas that will become available for sale as a result of better than expected operations at its storage fields. On March 5, 2009, the MPSC approved a settlement agreement that provides for MichCon to retain the profit on 2 Bcf of the base gas to be sold at market prices and for the remaining 2 Bcf of base gas to be held in storage on behalf of GCR customers until utilized as gas supply per the direction of the MPSC. In addition, the settlement agreement provides that MichCon is subject to a moratorium on a general rate case filing until June 1, 2009.

2009 MichCon Depreciation Filing

Depreciation Filing — On June 26, 2007, the MPSC issued its final order in the generic hearings on depreciation for Michigan electric and gas utilities. The MPSC ordered Michigan utilities to file depreciation studies using the current method, a FAS 143 approach that considers the time value of money and an inflation adjusted method proposed by the Company that removes excess escalation. In compliance with the MPSC order MichCon filed its ordered depreciation studies on November 3, 2008. The various required depreciation studies indicate composite depreciation rates from 2.07% to 2.55%. The Company has proposed no change to its current composite depreciation rate of 2.97%. The Company expects an order in this proceeding in the fourth quarter of 2009.

Other

In September 2007, the Court of Appeals of the State of Michigan published its decision with respect to an appeal by MichCon and others of certain provisions of a November 2004 MPSC order, including reversing the MPSC's denial of recovery of merger control premium costs. In its published decision, the Court of Appeals held that MichCon is entitled to recover its allocated share of the merger control premium and remanded this matter to the MPSC for further proceedings to establish the precise amount and timing of this recovery. Other parties have filed requests for leave to appeal to the Michigan Supreme Court from the Court of Appeals September 2007 decision and in September 2008, the Michigan Supreme Court granted the requests to address the merger control premium. However, proceedings resulting from this remand cannot be initiated by the MPSC until appeals by other parties of the September 2007 decision have been resolved by the Michigan Supreme Court. MichCon is unable to predict the financial or other outcome of any such legal or regulatory proceedings at this time.

The Company is unable to predict the outcome of the regulatory matters discussed herein. Resolution of these matters is dependent upon future MPSC orders and appeals, which may materially impact the financial position, results of operations and cash flows of the Company.

NOTE 5 — INCOME TAXES

Income Tax Summary

We are part of the consolidated federal income tax return of DTE Energy. Our federal income tax expense is determined on an individual company basis with no allocation of tax benefits or expenses from other affiliates of DTE Energy. We have an income tax payable of \$2 million at December 31, 2008, and \$10 million at December 31, 2007 due to DTE Energy.

Total income tax expense (benefit) varied from the statutory federal income tax rate for the following reasons:

(Dollars in Millions)	 2008	2007	2006
Income tax expense at 35% statutory rate	\$ 41	\$ 33	\$ 22
Investment tax credit	(1)	(1)	(1)
Depreciation	(7)	(7)	(7)
Employee Stock Ownership Plan dividends	(1)	(1)	(1)
Medicare Part D subsidy	(1)	(1)	(1)
State and local income taxes — net of federal benefit	3	*******	
Life insurance trust	3	(1)	********
Other	 1	1	
Total	\$ _38	\$ 23	\$ 12
	 32.2%	24.5%	18.8%

Components of income tax expense (benefit) were as follows:

(in Millions)	<u> 2008 </u>	2007	2096_
Current income taxes			
Federal	\$ (30)	\$ 16	\$ 47
State and other income tax expense	4		Mederic
Total current income taxes	(26)	16	47
Deferred federal and other income tax expense			
Federal	63	7	(35)
State and other income tax expense	1	-	
Total deferred income taxes	64	7	(35)
Total	<u>\$_38</u>	\$ 23	<u>\$ 12</u>

Investment tax credits are deferred and amortized to income over the average life of the related property.

Deferred tax assets and liabilities are recognized for the estimated future tax effect of temporary differences between the tax basis of assets or liabilities and the reported amounts in the financial statements. Deferred tax assets and liabilities are classified as current or noncurrent according to the classification of the related assets or liabilities. Deferred tax assets and liabilities not related to assets or liabilities are classified according to the expected reversal date of the temporary differences. Consistent with rate making treatment, deferred taxes are offset in the table below for temporary differences which have related regulatory assets and liabilities.

Deferred income tax assets (liabilities) were comprised of the following at December 31:

(in Millions)	2008 2007
Property, plant and equipment	\$ (150) \$ (114)
Pension and benefits	(91) (86)
Other comprehensive income	1 1
Other, net	(10)20
	\$ (250) \$ (179°
Current deferred income tax assets (included in Current Assets — Other)	\$ 40 \$ 16
Long term deferred income tax liabilities	<u>(290)</u> (195
	<u>\$ (250)</u> <u>\$ (179</u>
Deferred income tax liabilities	\$ (704) \$ (595)
Deferred income tax assets	454 416
	\$ (250) \$ (179

The above table excludes unamortized investment tax credits of \$11 million and \$13 million at December 31, 2008 and 2007, respectively.

Uncertain Tax Positions

We adopted the provisions of FIN 48, Accounting for Uncertainty in Income Taxes — an Interpretation of FASB Statement No. 109 (FIN 48) on January 1, 2007. This interpretation prescribes a more-likely-than-not recognition threshold and a measurement attribute for the financial statement reporting of tax positions taken or expected to be taken on a tax return. As a result of the implementation of FIN 48, we recognized an increase in liabilities that was accounted for as a reduction to the January 1, 2007 balance of retained earnings in an immaterial amount. The changes in unrecognized tax benefits during 2007 were not material. A reconciliation of the 2008 beginning and ending amount of unrecognized tax benefits is as follows:

(in Millions)	2008
Balance at January 1	\$
Additions for tax positions of current years	11
Balance at December 31	\$ 11

Unrecognized tax benefits at December 31, 2008, if recognized, would not have a significant impact on our effective rate. During the next twelve months, it is reasonably possible that DTE Energy and its subsidiaries will settle certain federal tax audits. There are no anticipated changes in the unrecognized tax benefits for the Company.

We recognize interest and penalties pertaining to income taxes in Interest expense and Other expenses, respectively, on our Consolidated Statements of Operations. We had no accrued interest and no accrued penalties pertaining to income taxes at December 31, 2007 and December 31, 2008. We had no interest expense in relation to income tax for the years ended December 31, 2008 and 2007.

The U.S. federal income tax returns for years 2004 and subsequent years remain subject to examination by the IRS for DTE Energy and its subsidiaries. The Michigan Business Tax for the year 2008 is subject to examination by the State of Michigan for DTE Energy and its subsidiaries. The Company also files tax returns in various local tax jurisdictions with varying statutes of limitations.

Michigan Business Tax

In July 2007, the Michigan Business Tax (MBT) was enacted by the State of Michigan to replace the Michigan Single Business Tax (MSBT) effective January 1, 2008. The MBT is comprised of an apportioned modified gross receipts tax of 0.8 percent and an apportioned business income tax of 4.95 percent. The MBT provides credits for

Michigan business investment, compensation, and research and development. The MBT is accounted for as an income tax.

In 2007, a state deferred tax liability of \$47 million was recognized by the Company for cumulative differences between book and tax assets and liabilities. Effective September 30, 2007, legislation was adopted by the State of Michigan creating a deduction for businesses that realize an increase in their deferred tax liability due to the enactment of the MBT. Therefore, a deferred tax asset of \$47 million was established related to the future deduction. The deduction will be claimed during the period of 2015 through 2029. The recognition of the enactment of the MBT did not have an impact on our income tax provision for 2007.

The 2007 state deferred tax liability was increased in 2008 by \$6 million to \$53 million to reflect changes in federal income tax temporary differences primarily due to an approved IRS change in accounting method for the Company for tax year 2007. The related one-time deferred tax asset for the tax deduction created for businesses that realize an increase in their deferred tax liability due to enactment of the MBT was also increased by \$6 million to \$53 million. The corresponding regulatory assets and liabilities were also increased by \$6 million to \$53 million in accordance with SFAS No. 71, Accounting for the Effects of Certain Types of Regulation, as the impacts of the deferred tax liabilities and assets recognized upon enactment and amendment of the MBT will be reflected in our rates.

In 2008 the state deferred tax liability increased by \$5 million to \$58 million as of December 31, 2008 and the related regulatory asset increased to \$58 million as of December 31, 2008.

NOTE 6 — LONG-TERM DEBT AND PREFERRED SECURITIES

Long-Term Debt

Our long-term debt outstanding and interest rates of debt outstanding at December 31 were:

(in Millions)	201	08	 :007
First Mortgage Bonds, interest payable semi-annually			
7.06% series due 2012	\$	40	\$ 40
8.25% series due 2014		80	80

Less: amount due within one year			 (275)
Total	\$ 8	82	\$ 440

Substantially all of our net utility property is subject to the lien of our mortgage. Should we fail to timely pay our indebtedness under the mortgage, such failure may create cross defaults in the indebtedness of DTE Energy.

The following table shows the scheduled debt maturities and sinking fund requirements, excluding any unamortized discount or premium on debt:

Debt Retirements and Redemptions

In 2008, the following debt has been retired, through optional redemption or payment at maturity:

(in Millions) Month Retired	Туре	Interest Rate	Maturity	Amount
June	Remarketable Securities (1)	6.45%	2038	75
September	Senior Notes (2)	6.125%	2008	200
				\$_275

⁽¹⁾ These Remarketable Securities were optionally redeemed with proceeds from the issuance of new Senior Notes.

(2) These Senior Notes were redeemed with the proceeds from the issuance of new Senior Notes and short-term debt.

Preferred and Preference Securities — Authorized and Unissued

At December 31, 2008, we had 7 million shares of preferred stock with a par value of \$1 per share and 4 million shares of preference stock with a par value of \$1 per share authorized, with no shares issued.

NOTE 7 — SHORT-TERM CREDIT ARRANGEMENTS AND BORROWINGS

MichCon has a \$244 million, five-year unsecured revolving credit facility expiring in October 2009 and a \$181 million, five-year unsecured revolving credit agreement expiring in October 2010. The five-year credit facilities are with a syndicate of banks and may be utilized for general corporate borrowings, but are intended to provide liquidity support for our commercial paper program. Borrowings under the facilities are available at prevailing short-term interest rates. In addition, MichCon has a \$50 million short-term unsecured bank loan facility expiring in June 2009. The agreements require us to maintain a debt to total capitalization ratio of no more than 0.65 to 1. Should we have delinquent obligations of at least \$50 million to any creditor, such delinquency will be considered a default under our credit agreements. We are currently in compliance with our covenants. Additionally, in December 2008, we issued a \$20 million secured short-term note due in September 2009.

At December 31, 2008, we had outstanding commercial paper of \$272 million and other short-term borrowings of \$220 million, resulting in net availability under the combined facilities of \$3 million. At December 31, 2007, we had outstanding commercial paper of \$354 million and other short-term borrowings of \$100 million.

At February 28, 2009, amounts outstanding totaled \$338 million, resulting in net availability under the combined facilities of \$157 million.

The weighted average interest rates for short-term borrowings was 4.3% and 5.4% at December 31, 2008 and 2007, respectively.

NOTE 8 — OPERATING LEASES

Lessee — We lease certain property under operating lease arrangements expiring at various dates through 2023. Some leases contain renewal options. Future minimum lease payments under non-cancelable leases at December 31, 2008 were:

	Operating
(in Millions)	Leases
2009	\$ 1
2010	1
Total minimum lease payments	<u>\$_2</u>

Rental expense for operating leases was \$1 million in 2008, 2007 and 2006.

Lessor — We lease a portion of our pipeline system to the Vector Pipeline Partnership through a capital lease contract that expires in 2020, with renewal options extending for five years.

The components of the net investment in the capital lease at December 31, 2008 were as follows:

(in Millions)		
2009	\$	9
2010		9
2011		9
2012		9
2013		9
Thereafter		62

Residual value of leased pipeline		40
Less unearned income		(70)
Net investment in direct financing lease		77
Less current portion	And Tribute	_(2)
-	\$_	75

NOTE 9 - FAIR VALUE

Effective January 1, 2008, the Company adopted SFAS No. 157. This Statement defines fair value, establishes a framework for measuring fair value and expands the disclosures about fair value measurements. The Company has elected the option to defer the effective date of SFAS No. 157 as it pertains to non-financial assets and liabilities to January 1, 2009.

SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in a principal or most advantageous market. Fair value is a market-based measurement that is determined based on inputs, which refer broadly to assumptions that market participants use in pricing assets or liabilities. These inputs can be readily observable, market corroborated or generally unobservable inputs. The Company makes certain assumptions it believes that market participants would use in pricing assets or liabilities, including assumptions about risk, and the risks inherent in the inputs to valuation techniques. Credit risk of the Company and its counterparties is incorporated in the valuation of assets and liabilities through the use of credit reserves, the impact of which is immaterial for the year ended December 31, 2008. The Company believes it uses valuation techniques that maximize the use of observable market-based inputs and minimize the use of unobservable inputs.

SFAS No. 157 establishes a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value in three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). In some cases, the inputs used to measure fair value might fall in different levels of the fair value hierarchy. SFAS No. 157 requires that assets and liabilities be classified in their entirety based on the lowest level of input that is significant to the fair value measurement in its entirety. Assessing the significance of a particular input may require judgment considering factors specific to the asset or liability, and may affect the valuation of the asset or liability and its placement within the fair value hierarchy. The Company classifies fair value balances based on the fair value hierarchy defined by SFAS No.157 as follows:

- Level 1 Consists of unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date.
- Level 2 Consists of inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.
- Level 3 Consists of unobservable inputs for assets or liabilities whose fair value is estimated based on
 internally developed models or methodologies using inputs that are generally less readily observable and
 supported by little, if any, market activity at the measurement date. Unobservable inputs are developed based on
 the best available information and subject to cost-benefit constraints.

The following table presents assets and liabilities measured and recorded at fair value on a recurring basis as of December 31, 2008:

(in Millions) Assets:	Level 1	Level 2	Level 3	Net Balance
Cash equivalents	\$ 3	\$	\$	\$ 3
Trust investments (1)	<u> 20 </u>	*****		20
Net Assets at December 31, 2008	<u>\$ 23</u>	\$	<u>\$</u>	<u>\$ 23</u>

⁽¹⁾ Excludes cash surrender value of life insurance investments.

The following table presents the fair value reconciliation of Level 3 derivative assets and liabilities measured at fair value on a recurring basis for 2008:

(in Millions)	<u>Derivatives</u>
Net asset balance as of January 1, 2008	\$
Changes in fair value recorded in income	5
Purchases, issuances and settlements	<u>(5)</u>
Net asset balance as of December 31, 2008	<u>\$</u>
The amount of total gains (losses) included in net income attributed to	
the change in unrealized gains (losses) related to assets and liabilities	
held at December 31, 2008	\$

Cash Equivalents

Cash equivalents include investments with maturities of three months or less when purchased. The cash equivalents shown in the fair value table are comprised of investments in money market funds. The fair values of the shares of these funds are based on observable market prices and, therefore, have been categorized as Level 1 in the fair value hierarchy.

Trust Investments

The trust investments hold debt and equity securities directly and indirectly through commingled funds and institutional mutual funds. Exchange-traded debt and equity securities held directly are valued using quoted market prices on actively traded markets. The commingled funds and institutional mutual funds which hold exchange-traded equity or debt securities are valued using quoted prices in actively traded markets. Non-exchange-traded fixed income securities are valued based upon quotations available from brokers or pricing services. For non-exchange traded fixed income securities, the trustees receive prices from pricing services. A primary price source is identified by asset type, class or issue for each security. The trustees monitor prices supplied by pricing services and may use a supplemental price source or change the primary price source of a given security if the trustees challenge an assigned price and determine that another price source is considered to be preferable. MichCon has obtained an understanding of how these prices are derived, including the nature and observability of the inputs used in deriving such prices. Additionally, MichCon selectively corroborates the fair values of securities by comparison of market-based price sources.

Fair Value of Financial Instruments

The fair value of financial instruments is determined by using various market data and other valuation techniques. The table below shows the fair value relative to the carrying value for long-term debt securities. The carrying value of certain other financial instruments, such as notes payable, customer deposits and notes receivable approximate fair value and are not shown. As of December 31, 2008, we had approximately \$120 million of taxable securities insured by insurers. Overall credit market conditions have resulted in credit rating downgrades and may result in future credit rating downgrades for these insurers. The Company does not expect the impact on interest rates or fair value to be material.

	20	108	2(X07
Y 17 75 1.	Fair Value	Carrying Value	Fair Value	Carrying Value
Long-Term Debt	\$865 million	\$889 million	\$711 million	\$715 million

NOTE 10 — FINANCIAL AND OTHER DERIVATIVE INSTRUMENTS

We comply with SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended and interpreted. Under SFAS No. 133, all derivatives are recognized on the Consolidated Statements of Pinancial Position at their fair value unless they qualify for certain scope exceptions, including normal purchases and normal sales exception. Further, derivatives that qualify and are designated for hedge accounting are classified as either hedges of a forecasted transaction or the variability of cash flows to be received or paid related to a recognized asset or liability (cash flow hedge), or as hedges of the fair value of a recognized asset or liability or of an unrecognized firm commitment (fair value hedge). For cash flow hedges, the portion of the derivative gain or loss that is effective in offsetting the change in the value of the underlying exposure is deferred in Accumulated other comprehensive income and later reclassified into earnings when the underlying transaction occurs. For fair value hedges, changes in fair values for both the derivative and the underlying hedged exposure are recognized in earnings each period. Gains and losses from the ineffective portion of any hedge are recognized in earnings immediately. For derivatives that do not qualify or are not designated for hedge accounting, changes in the fair value are recognized in earnings each period.

Our primary market risk exposure is associated with commodity prices, credit and interest rates. We have risk management policies to monitor and decrease market risks.

Commodity Price Risk

We have fixed-priced contracts for portions of our expected gas supply requirements through 2012. These gas supply contracts are designated and qualify for the normal purchases and sales exemption and are therefore accounted for under the accrual method. We may also sell forward storage and transportation capacity contracts. Forward firm transportation and storage contracts are not derivatives and are therefore accounted for under the accrual method.

Credit Risk

We are exposed to credit risk if customers or counterparties do not comply with their contractual obligations. We maintain credit policies that significantly minimize overall credit risk. These policies include an evaluation of potential customers' and counterparties' financial condition, credit rating, collateral requirements or other credit enhancements such as letters of credit or guarantees. We generally use standardized agreements that allow the netting of positive and negative transactions associated with a single counterparty.

The Company maintains a provision for credit losses based on factors surrounding the credit risk of its customers, historical trends, and other information. Based on the Company's credit policies and its December 31, 2008 provision for credit losses, the Company's exposure to counterparty nonperformance is not expected to result in material effects on the Company's financial statements.

Interest Rate Risk

We occasionally use treasury locks and other interest rate derivatives to hedge the risk associated with interest rate market volatility. In 2004, we entered into an interest rate derivative to limit our sensitivity to market interest rate risk associated with the issuance of long-term debt. Such instrument was designated as a cash flow hedge. We subsequently issued long-term debt and terminated the hedge at a cost that is included in accumulated other comprehensive loss. Amounts recorded in other comprehensive loss will be reclassified to interest expense as the related interest affects earnings through 2033.

NOTE 11 — COMMITMENTS AND CONTINGENCIES

Environmental Matters

Contaminated Sites — Prior to the construction of major interstate natural gas pipelines, gas for heating and other uses was manufactured locally from processes involving coal, coke or oil. We own, or previously owned, 14 such former manufactured gas plant (MGP) sites. Investigations have revealed contamination related to the by-products of gas manufacturing at each site. In addition to the MGP sites, we are also in the process of cleaning up other contaminated sites. Cleanup activities associated with these sites will be conducted over the next several years.

The MPSC has established a cost deferral and rate recovery mechanism for investigation and remediation costs incurred at former MGP sites. Accordingly, we recognize a liability and corresponding regulatory asset for estimated investigation and remediation costs at former MGP sites. During 2008, we spent approximately \$2 million investigating and remediating these former MGP sites. As of December 31, 2008 and 2007, we had \$38 million and \$40 million, respectively, accrued for remediation.

Any significant change in assumptions, such as remediation techniques, nature and extent of contamination and regulatory requirements, could impact the estimate of remedial action costs for the sites and affect the Company's financial position and cash flows. However, we anticipate the cost deferral and rate recovery mechanism approved by the MPSC will prevent environmental costs from having a material adverse impact on our results of operations.

Labor Contracts

There are several bargaining units for our union employees. The majority of our union employees are under contracts that expire in October 2010.

Purchase Commitments

As of December 31, 2008, we were party to numerous long-term purchase commitments relating to a variety of goods and services required for our business. These agreements primarily consist of long-term gas purchase and transportation agreements. We estimate that these commitments will be approximately \$2.3 billion through 2051. We also estimate that 2009 capital expenditures will be approximately \$154 million. We have made certain commitments in connection with expected capital expenditures.

Bankruptcies

We buy and sell gas and gas transportation and storage services to numerous companies operating in the steel, automotive, energy, retail and other industries. Certain of our customers have filed for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code. We regularly review contingent matters relating to these customers and our sale contracts and we record provisions for amounts considered at risk of probable loss. We believe our previously accrued amounts are adequate for probable losses. The final resolution of these matters is not expected to have a material effect on our consolidated financial statements.

We provide services to the domestic automotive industry, including GM, Ford and Chrysler and many of their vendors and suppliers. GM and Chrysler have recently received loans from the U.S. Government to provide them with the working capital necessary to continue to operate in the short term. In February 2009, GM and Chrysler submitted viability plans to the U.S. Government indicating that additional loans were necessary to continue operations in the short term. Further plant closures, bankruptcies or a federal government mandated restructuring program could have a significant impact on our results. As the circumstances surrounding the viability of these entities are dynamic and uncertain, we continue to monitor developments as they occur.

Other Contingencies

We are involved in certain legal, regulatory, administrative and environmental proceedings before various courts, arbitration panels and governmental agencies concerning claims arising in the ordinary course of business. These proceedings include certain contract disputes, additional environmental reviews and investigations, audits, inquiries

from various regulators, and pending judicial matters. We cannot predict the final disposition of such proceedings. We regularly review legal matters and record provisions for claims that we can estimate and are considered probable of loss. The resolution of these pending proceedings is not expected to have a material effect on our operations or financial statements in the period they are resolved.

See Note 4 for a discussion of contingencies related to Regulatory Matters.

NOTE 12 — RETIREMENT BENEFITS AND TRUSTEED ASSETS

Adoption of SFAS No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans

In September 2006, the FASB issued SFAS No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans — an Amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires companies to (1) recognize the over funded or under funded status of defined benefit pension and other postretirement plans in its financial statements, (2) recognize as a component of other comprehensive income, net of tax, the actuarial gains or losses and the prior service costs or credits that arise during the period but are not immediately recognized as components of net periodic benefit cost, (3) recognize adjustments to other comprehensive income when the actuarial gains or losses, prior service costs or credits, and transition assets or obligations are recognized as components of net periodic benefit cost, (4) measure postretirement benefit plan assets and plan obligations as of the date of the employer's statement of financial position, and (5) disclose additional information in the notes to financial statements about certain effects on net periodic benefit cost in the upcoming fiscal year that arise from delayed recognition of the actuarial gains and losses and the prior service cost and credits.

The requirement to recognize the funded status of a postretirement benefit plan and the related disclosure requirements was effective for fiscal years ending after December 15, 2006. The Company adopted this requirement as of December 31, 2006. In 2008, as required by SFAS 158, the Company changed the measurement date of its pension and postretirement benefit plans from November 30 to December 31. As a result, the Company recognized an adjustment of \$3 million (\$2 million after-tax) and \$4 million to retained earnings and regulatory liabilities, respectively, which represents approximately one month of pension and postretirement benefit costs for the period December 1, 2007 to December 31, 2008.

MichCon received approval from the MPSC to record the impact of the adoption of the SFAS No. 158 provisions related to the funded status as a regulatory asset or liability since the traditional rate setting process allows for the recovery of pension and other postretirement plan costs.

Measurement Date

All amounts and balances reported in the following tables as of December 31, 2008 and December 31, 2007 are based on measurement dates of December 31, 2008 and November 30, 2007, respectively.

Pension Plan Benefits

MichCon participates in various plans that provide pension and other postretirement benefits for DTE Energy and its affiliates. MichCon is allocated net periodic benefit costs (credits) for its share of the amounts of the combined plans. In prior years, MichCon served as the plan sponsor for a pension plan for represented employees that changed in 2008 to be sponsored by DTE Energy Corporate Services, LLC (LLC), a subsidiary of DTE Energy, which also became the plan sponsor for all plans of DTE Energy and its affiliates. The changes in plan sponsorship did not change the pension cost or contributions allocated to MichCon, or the benefits of plan participants. Disclosures in the following tables of benefit obligations and plan assets, components of net periodic benefit cost (credit), and changes in benefit obligations and assets include amounts allocated to MichCon for all plans. In conjunction with the plan sponsorship changes, prior period disclosures have been expanded to be consistent with the current disclosures. Subsequent to the change in plan sponsorship, MichCon records regulatory assets or liabilities for its allocations of all plans, including amounts for the funded status previously recorded by the plan sponsor.

The Company's policy is to fund pension cost by contributing amounts consistent with the Pension Protection Act of 2006 provisions and additional amounts we deem appropriate. We did not make a contribution to the pension plan in 2008 and we do not expect to make a contribution in 2009.

In its April 2005 final rate order, the MPSC approved the deferral of the non-capitalized portion of our negative pension expense. In 2008 and 2007, we deferred \$39 million and \$32 million, respectively, as a regulatory liability.

Net pension credit includes the following components:

(in Millions)	2008	2007	2006
Service cost	\$ 10	\$ 11	\$ 12
Interest cost	40	38	39
Expected return on Plan assets	(93)	(88)	(84)

Net actuarial loss	\$ 379 \$ 23
Prior service cost	(4)2
	\$ 375 \$ 25
Regulatory assets	\$ 373 \$ 25
Other comprehensive loss	2
-	\$ 375 \$ 25

Assumptions used in determining the projected benefit obligation and net pension costs are listed below:

	2008	2007	2006
Projected benefit obligation			
Discount rate	6.90%	6.50%	5.70%
Rate of compensation increase	4.00%	4.00%	4.00%
Net pension costs			
Discount rate	6.50%	5.70%	5.90%
Rate of compensation increase	4.00%	4.00%	4.00%
Expected long-term rate of return on Plan assets	8.75%	8.75%	8.75%

At December 31, 2008, the benefits expected to be paid in each of the next five years and in the aggregate for the five fiscal years thereafter are as follows:

										Zŧ	114 &		
(in Millions)	200	9 2	2010	21	111	24)	12	24	013	the	reafter	7	'otal
Amount to be paid	\$ 3	39 \$	40	\$	40	\$	40	S	41	S	209	\$	409

The Company employs a formal process in determining the long-term rate of return for various asset classes. Management reviews historic financial market risks and returns and long-term historic relationships between the asset classes of equities, fixed income and other assets, consistent with the widely accepted capital market principle that asset classes with higher volatility generate a greater return over the long-term. Current market factors such as

inflation, interest rates, asset class risks and asset class returns are evaluated and considered before long-term capital market assumptions are determined. The long-term portfolio return is also established employing a consistent formal process, with due consideration of diversification, active investment management and rebalancing. Peer data is reviewed to check for reasonableness.

The Company employs a total return investment approach whereby a mix of equities, fixed income and other investments are used to maximize the long-term return on plan assets consistent with prudent levels of risk. The intent of this strategy is to minimize plan expenses over the long term. Risk tolerance is established through consideration of future plan cash flows, plan funded status, and corporate financial considerations. The investment portfolio contains a diversified blend of equity, fixed income and other investments. Furthermore, equity investments are diversified across U.S. and non-U.S. stocks, growth and value investment styles, and large and small market capitalizations. Other assets such as private equity and hedge funds are used to enhance long-term returns while improving portfolio diversification. Derivatives may be utilized in a risk controlled manner, to potentially increase the portfolio beyond the market value of invested assets and reduce portfolio investment risk. Investment risk is measured and monitored on an ongoing basis through annual liability measurements, periodic asset/liability studies, and quarterly investment portfolio reviews.

Our plan's weighted-average asset allocations and related targets by asset category at December 31 were as follows:

	2008	2007	larget
U.S. Equity securities	31%	48%	35%
Non U.S. Equity securities	16	18	20
Debt securities	24	19	20
Hedge Funds and Similar Investments	22	12	20
Private Equity and Other	7	3	5
	100%	100%	100%

The Company also participates in defined contribution retirement savings plans for DTE Energy and its affiliates. Participation in one of these plans is available to substantially all represented and non-represented employees. The Company matches employee contributions up to certain predefined limits based upon eligible compensation, the employee's contribution rate and, in some cases, years of credited service. The cost of these plans was \$4 million in 2008. \$4 million in 2007 and \$5 million in 2006.

Other Postretirement Benefits

The Company participates in plans sponsored by LLC that provide certain postretirement health care and life insurance benefits for employees who are eligible for these benefits. The Company's policy is to fund certain trusts to meet our postretirement benefit obligations. Separate qualified Voluntary Employee Beneficiary Association (VEBA) trusts exist for represented and non-represented employees. In 2008, we made a \$40 million cash contribution to our postretirement benefit plans. At the discretion of management, the Company may make up to an additional \$40 million contribution to the VEBA trusts in 2009.

Net postretirement cost includes the following components:

(in Millions)	2008	2007_	2006
Service cost	\$ 14	\$ 14	\$ 14
Interest cost	27	28	26
Expected return on plan assets	(17)	(14)	(12)

The following table reconciles the obligations, assets and funded status of the Company's portion of the plans including amounts recorded as accrued postretirement cost in the Consolidated Statements of Financial Position at December 31:

(in Millions)	*****	2008		2007
Change in accumulated postretirement benefit obligation				
Accumulated postretirement benefit obligation, beginning of year	\$	431	\$	510
December 2007 cash flow		(2)		
Service cost		14		15
Interest cost		27		28
Actuarial (gain) loss		19		(81)
Measurement date change		3		71-79N/AK
Benefits paid and Medicare Part D		(25)		(25)
Plan amendments		(1)		(16)
Accumulated postretirement benefit obligation, end of year	\$	466	\$	431
Change in plan assets				
Plan assets at fair value, beginning of year	\$	175	\$	156
December 2007 VEBA cash flow		(14)		FR000-734
Company contribution		40		20
Measurement date change		2		
Actual return on plan assets		(62)		14
Benefits paid		(23)		(15)
Plan assets at fair value, end of year	\$	_118	\$	175
Funded status of the plans, November 30	\$	3337744	\$	(256)
December adjustment	****	-		(12)
Funded status at fair value, December 31	\$	(348)	\$_	(268)
Noncurrent liabilities	\$	(348)	\$	(268)
Amounts recognized in regulatory assets				
Net loss	\$	159	\$	67
Prior service cost		4		6
Net transition obligation	Eurean,	15		18
Regulatory Asset — postretirement costs	\$	178	\$	91

Assumptions used in determining the projected benefit obligation and net benefit cost are listed below:

	2008	2007	2006
Projected benefit obligation			
Discount rate	6.90%	6.50%	5.70%
Net benefit costs			
Discount rate	6.50%	5.70%	5.90%
Expected long-term rate of return on plan assets	8.75%	8.75%	8.75%
Health care trend rate pre-65	7.00%	8.00%	9.00%
Health care trend rate post-65	6.00%	7.00%	8.00%
Ultimate health care trend rate	5.00%	5.00%	5.00%
Year in which ultimate reached	2011	2011	2011

A one-percentage-point increase in health care cost trend rates would have increased the total service cost and interest cost components of benefit costs by \$6 million and increased the accumulated benefit obligation by \$41 million at December 31, 2008. A one-percentage-point decrease in the health care cost trend rates would have decreased the total service cost and interest cost components of benefit costs by \$7 million and would have decreased the accumulated benefit obligation by \$69 million at December 31, 2008.

At December 31, 2008, the benefits expected to be paid, including prescription drug benefits, in each of the next five years and in the aggregate for the five fiscal years thereafter are as follows:

						2014 &	
(in Millions)	2009	2010	2011	2012	2013	thereafter	Total
Amount to be paid	\$ 31	\$ 31	\$ 33	\$ 34	\$ 34	\$ 174	\$ 337

The process used in determining the long-term rate of return for assets and the investment approach for our other postretirement benefits plans is similar to those previously described for our pension plans.

Our plan's weighted-average asset allocations and related targets by asset category at December 31 were as follows:

	2008	2007	<u>Target</u>
U.S. equity securities	39%	50%	27%
Non U.S. equity securities	17	18	24
Debt securities	26	20	16
Hedge funds and similar	13	11	28
Private equity and other	5	1	5
	100%	<u>100</u> %	<u>100</u> %

In December 2003, the Medicare Act was signed into law which provides for a non-taxable federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least "actuarially equivalent" to the benefit established by law. The effects of the subsidy reduced net periodic postretirement benefit costs by \$3 million in 2008, \$9 million in 2007, and \$2 million in 2006.

At December 31, 2008, the gross amount of federal subsidies expected to be received in each of the next five years and in the aggregate for the five fiscal years thereafter was as follows:

						ZU14 62	
(in Millions)	2009	2010	2011	2012	2013	thereafter	Total
Amount to be paid	\$ 2	\$	\$ 2	\$ 2	\$ 2	\$ 6	\$ 14

Grantor Trust

We maintain a Grantor Trust to fund other postretirement benefit obligations that invests in life insurance contracts and income securities. Employees and retirees have no right, title or interest in the assets of the Grantor Trust, and we can revoke the trust subject to providing the MPSC with prior notification. We account for our investment at fair value with unrealized gains and losses recorded to earnings.

NOTE 13 — RELATED PARTY TRANSACTIONS

We have agreements with affiliated companies to provide transportation and storage services and for the purchase of natural gas. We have an agreement with a DTE Energy affiliate where we are charged for our use of their shared capital assets. Prior to March 31, 2007, under a service agreement with DTE Energy, various DTE Energy affiliates, including MichCon, provide corporate support services inclusive of various financial, auditing, tax, legal, treasury and cash management, human resources, information technology, and regulatory services, which were billed to DTE Energy corporate. As these functions essentially support the entire DTE Energy Company, total administrative and general expenses billed to DTE Energy corporate by MichCon and the other affiliates, along with certain interest and financing costs were then billed to various subsidiaries of DTE Energy, including MichCon. Subsequent to March 31, 2007, a new affiliate company was formed, DTE Energy Corporate Services, LLC, to accumulate the aforementioned corporate support services type expenses, which previously had been recorded on the various operating units of DTE Energy Company, including MichCon. These administrative and general expenses incurred by DTE Energy Corporate Services, LLC were then billed to various subsidiaries of DTE Energy, including MichCon. MichCon participates in a defined benefit retirement plan sponsored by another affiliate of DTE Energy.

The following is a summary of transactions with affiliated companies:

⁽¹⁾ Consists of \$50 million representing a capital contribution from parent company and \$12 million related to the transfer of four carbon dioxide processing facilities from an affiliated company to MichCon.

⁽²⁾ Our accounts receivable from affiliated companies and accounts payable to affiliated companies are payable upon demand and are generally settled in cash within a monthly business cycle.

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2008
GAS PLANT IN SERVICE	(Accounts 101, 102, 103	and 106)

- 1. Report below the original cost of gas plant in service according to the prescribed account.
- In addition to Account 101, Gas Plant in Service (Classified), this page and the next include Account 102, Gas Plant Purchased or Sold; Account 103, Experimental Gas Plant Unclassified; and Account 106, Completed Construction Not Classified - Gas.
- 3. Include in column (c) or (d) as appropriate, corrections of additions and retirements for the current or preceding year.
- Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such amounts.
- 5. Classify Account 106, according to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, include in column (d) a tentative distribution of such retirements on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provisions. Include also in column (d) reversals of tentative distributions of prior year unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns.

- (c) and (d), including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.
- 6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits and credits distributed in column (f) to primary account classifications.
- 7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirements of these pages.

8. For each amount comprising the reported balance and changes in Account 102, state the property purchases or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.

1. List in column (a) the kinds of overheads according to the titles used by the

- respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
- 2. On page 218 furnish information concerning construction overheads.
- 3. A respondent should not report "none" to this page if no overhead apportionments are made, but rather should explain on page 218 the accounting procedures employed and the amounts of engineering, supervision and administrative costs, etc., which are directly charged to construction.

4. Enter on this page engineering, supervision, administrative, and allowance for funds used during construction, etc., which are first assigned to a blanket work order and then prorated to construction jobs.

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

- For each construction overhead explain: (a) the nature and extent of work, etc.,
 the overhead charges are intended to cover, (b) the general procedure for determining
 the amount capitalized, (c) the method of distribution to construction jobs, (d)
 whether different rates are applied to different types of construction, (e) basis of
 differentiation in rates for different types of construction, and (f) whether the
 overhead is directly or indirectly assigned.
- Show below the computation of allowance for funds used during construction rates, if those differ from the overall rate of return authorized by the Michigan Public Service Commission.

General Administration Capitalized

Costs of certain administrative departments (i.e. Legal, Corporate Resources, Corporate Planning) are capitalized monthly based on annual estimates of how much work is applicable to construction work in progress. Amounts capitalized are initially debited to a blanket work order (Account 107). These charges are then transferred to construction work orders based on the current month's charges to these construction work orders.

Supervision, Engineering and Transportation - Joint Expense

Supervision, engineering and transportation costs of certain departments are distributed to operation and maintenance accounts and construction work orders on a pro rata basis to direct labor charges.

Pensions and Employees' Benefits Capitalized

Construction and retirement work orders are debited with costs of pensions and employees' benefits distributed on the basis of direct construction and retirement labor charges. The percentage applied to direct labor includes an additional component which represents amounts applicable to indirect labor.

Allowance for Funds Used During Construction (A.F.U.D.C.)

An allowance for funds used during construction is computed monthly by applying the A.F.U.D.C. rate to accumulated expenditures for specific major projects of all classes of property. The A.F.U.D.C rate is equivalent to the most recently authorized overall rate of return as approved by the Michigan Public Service Commission. The composite A.F.U.D.C. rate for 2008 was 7.19% per annum.

Payroll Taxes

Construction and retirement work orders are debited with costs of payroll taxes (FICA, FUTA, MUTA) distributed on the basis of direct construction and retirement labor charges. The percentage applied to direct labor includes an additional component which represents amounts applicable to indirect labor.

Note: See Page 217 for amounts capitalized.

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Accounts 108 and 110)

- 1. Explain in a footnote any important adjustments during year.
- Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c), and that reported for gas plant in service, pages 202-207, column (d), excluding retirements of non-depreciable property.
- 3. Accounts 108 and 110 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all cost included in retirement work in progress at year end in the appropriate functional classifications.

4. Show separately interest credits under a sinking fund or similar method of depreciation accounting

Notes: (2) OTHER DEBIT AND CREDIT ITEMS CONSISTS OF THE FOLLOWING:

RESERVE ADJUSTMENT FOR FAS 143/FIN 47 ARO Costs DEPRECIATION ON NON-UTILITY PLANT

\$ (2,902,480) (61,351) \$ (2,963,811)

GAS STORED (ACCOUNT 117,164.1,164.2, AND 164.3)

- If during the year adjustment was made to the stored gas inventory (such as to correct cumulative inaccuracies
 of gas measurements), furnish in a footnote an explanation of the reason for the adjustment, the Mcf and dollar
 amount of adjustment, and account charged or credited.
- Give in a footnote a concise statement of the facts and the accounting performed with respect to any encroachment of withdrawals during the year, or restoration of previous encroachment, upon native gas constituting the "gas cushion" of any storage reservoir.
- 3. If the company uses a "base stock" in connection with its inventory accounting, give a concise statement of the basis of establishing such "base stock" and the inventory basis and the accounting performed with respect to any encroachment of withdrawais upon "base stock," or restoration of previous encroachment, including brief particulars of any such accounting during the year.
- 4. If the company has provided accumulated provision for stored gas which may not eventually be fully recovered from any storage project, furnish a statement showing: (a) date of Commission authorization of such accumulated provision, (b) explanation of circumstances requiring such provision, (c) basis of provision and factors of calculation, (d) estimated ultimate accumulated provision accumulation, and (e) a summary showing balance of accumulated provision and entries during year.

5. Report pressure base of gas volumes as 14.65 psia at 60° F.

	SALAHARA					
7	Amount Per Mcf	\$0.52495	\$0.34702			\$0.45407

8 State basis of segregation of inventory between current and noncurrent portions: Current gas is excess over base pressure gas established for each reservoir.

MichCon has put into place additional compression, and therefore, does not require as much Base Gas. In the current year, MichCon removed and sold 2.8 Bcf of Native Base Gas

NONUTILITY PROPERTY (Account 121)

- 1. Give a brief description and state the location of nonutility property included in Account 121.
- Designate with an asterisk any property which is leased to another company. State name of lessee and whether lessee is an associated company.
- 3. Furnish particulars (details) concerning sales, purchases, or transfers of Nonutility Property during the year.
- 4. List separately all property previously devoted to public service and give date of transfer to Account 121, Nonutility Property. These items are separate and distinct from those allowed to be grouped under instruction No. 5.
- 5. Minor items (5% of the Balance at the End of the Year for Account 121) may be grouped.
- 6. Natural gas companies which have oil property should report such property by State, classified as to (a) oil lands and land rights, (b) oil wells, and (c) other oil property. Gasoline plants and other plants for the recovery from natural gas are classifiable as gas plant and should be reported as such and not shown as Nonutility Property.

RECEIVABLES FROM ASSOCIATED COMPANIES (Accounts 145, 146)

- 1. Report particulars of notes and accounts receivable from associated companies * at end of year.
- Provide separate headings and totals for Accounts 145, Notes Receivable from Associated Companies, and 146, Accounts Receivable from Associated Companies, in addition to a total for the combined accounts.
- For notes receivable, list each note separately and state purpose for which received. Show also in column
 (a) date of note, date of maturity and interest rate.
- 4. If any note was received in satisfaction of an open account, state the period covered by such open account.
- Include in column (f) interest recorded as income during the year including interest on accounts and notes held any time during the year.
- Give particulars of any notes pledged or discounted, also of any collateral held as guarantee of payment of any note or account.

* NOTE * Associated companies* means companies or persons that, directly or indirectly, through one or more intermediaries, control, or are controlled by, or are under common control with, the accounting company. This includes related parties.

Control" (including the terms "controlling," "controlled by," and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a company, whether such power is exercised through one or more intermediary companies, or alone, or in conjunction with, or pursuant to an agreement, and whether such power is established through a majority or minority ownership, or voting of securities, common directors, officers, or stockholders, voting trusts, holding trusts, associated companies, contract or any other direct or indirect means.

MATERIALS AND SUPPLIES

For Account 154, report the amount of plant materials and operating supplies under the primary functional
classifications as indicated in column (a); estimates of amounts by function are acceptable. In column (d), designate
the department or departments which use the class of material. Nonmajor companies may report total on line 4.

Give an explanation of important inventory adjustments during year (on a supplemental page) showing general classes of material and supplies and the various accounts (operating expenses, clearing accounts, plant, etc.) affected-debited

or credited. Show separately debits or credits to stores expense-clearing, if applicable.

ADVANCES FOR GAS PRIOR TO INITIAL DELIVERIES OR COMMISSION CERTIFICATION (Accounts 124, 166 and 167)

Report below the information called for concerning all advances for gas, as defined in the text of Account 166,
 Advances for Gas Exploration, Development and Production, and 167, Other Advances for Gas, whether reported in Accounts 166, 167, or reclassified to Account 124, Other Investments. List Account 124 items first.

2. In column (a), give the date the advance was made, the payee (designate associated companies with an asterisk) a brief statement of the purpose, (exploration, development, production, general loan, etc.) and the estimated date of repayment. Do not use the term Indefinite in reporting estimated date of repayment. If advances are made to a payee in connection with different projects with different arrangements for repayments, use separate lines for reporting; otherwise all advances may be grouped by payee, subject to the requirements of instruction 3 below.

3. If the beginning balance shown in column (c) does not agree with the prior year's ending balance, column (g), provide a detailed explanation in a footnote. Show all Advances made during the year in column (d) and all repayments or other credits in column (e). Report amounts shown in column (e) separately by

account, as reported in column (f).

MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2008 CAPITAL STOCK (Accounts 201 and 204)

1. Report below the particulars (details) called for concerning common and preferred stock at end of year, distinguishing separate series of any general class. Show separate totals for common and preferred stock. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form filling, a specific reference to the report form (i.e. year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

2. Entries in column (b) should represent the number of shares authorized by the

	articles of incorporation as amended to end	of year.

OTHER PAID-IN CAPITAL (Accounts 208-211, inc.)

Report below the balance at the end of the year and the information specified below for the respective other paid-in capital accounts. Provide a subheading for each account and show a total for the account, as well as total of all accounts for reconciliation with balance sheet, page 112. Add more columns for any account if deemed necessary. Explain changes made in any account during the year and give the accounting entries entries effecting such change.

- (a) Donations Received from Stockholders (Account 208)-State amount and give brief explanation of the origin and purpose of each donation.
- (b) Reduction in Par or Stated Value of Capital Stock (Account 209)-State amount and give brief explanation of the capital changes which gave rise to amounts reported under this caption including identification with the class and series of stock to which related.
- (c) Gain on Resale or Cancellation of Reacquired Capital Stock (Account 210)-Report balance at beginning of year, credits, debits, and balance at end of year with a designation of the nature of each credit and debit identified by the class and series of stock to which related.

(d) Miscellaneous Paid-In Capital (Account 211)-Classify amounts included in this account according to captions which, together with brief explanations, disclose the general nature of the transactions which gave rise to the reported amounts.

MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

- 1. Report by balance sheet account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.
- 2. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
- 3. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
- 4. For receivers' certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.

- UNAMORTIZED LOSS AND GAIN ON REACQUIRED DEBT (ACCOUNTS 189, 257)

 1. Report under separate subheadings for Unamortized Loss and Unamortized Gain on Reacquired Debt, particulars (details) of gain and loss, including maturity date, on reacquisition applicable to each class and series of long-term debt. If gain or loss resulted from a refunding transaction, include also the maturity date of the new issue.
- 2. In column (c) show the principal amount of bonds or other long-term debt reacquired.
- 3. In column (d) show the net gain or net loss realized on each debt reacquisition as computed in accordance with General Instruction 17 of the Uniform Systems of Accounts.
- 4. Show loss amounts by enclosing the figures in parentheses.
- Explain in a footnote any debits and credits other than amortization debited to Account 428.1, Amortization of Loss on Reacquired Debt, or credited to Account 429.1, Amortization of Gain on Reacquired Debt-Credit.

PAYABLES TO ASSOCIATED COMPANIES (Accounts 233, 234)

- 1. Report particulars of notes and accounts payable to associated companies at end of year.
- 2. Provide separate totals for Accounts 233, Notes Payable to Associated Companies, and 234 Accounts Payable to Associated Companies, in addition to a total for the combined accounts.
- 3. List each note separately and state the purpose for which issued. Show also in column (a) date of note, maturity and interest rate.
- 4. Include in column (f) the amount of any interest expense during the year on notes or accounts that were paid before the end of the year.

5. If collateral has been pledged as security to the payment of any note or account, describe such collateral.

WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however,

### MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2008 TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR

- 1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual or estimated amounts of such taxes are known, show the amounts in a footnote and designate whether estimated or actual amounts.
- Include on this page, taxes paid during the year and charged direct to final
  accounts, (not charged to prepaid or accrued taxes). Enter the amounts in both
  columns (d) and (e). The balancing of this page is not affected by the
  inclusion of these taxes.
- 3. Include in column (d) taxes charged during the year, taxes charged t operations and other accounts through (a) accruals credited to taxes accrued, (b) amounts credited to proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.

4. List the aggregate of each kind of tax in such manner that the total tax for

## MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2008 TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR (Continued)

each State and subdivision can readily be ascertained.

- 5. If any tax (exclude Federal and state income taxes) covers more than one year, show the required information separately for each tax year, identifying the year in column (a).
- Enter all adjustments of the accrued and prepaid tax accounts in column (f) and explain each adjustment in a footnote. Designate debit adjustments by parentheses.
- Do not include on this page entries with respect to deterred income taxes or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.
- 8. Show in columns (i) thru (p) how the taxed accounts were distributed. Show both the utility department and number of account charged. For taxes charged to utility plant, show the number of the appropriate balance sheet plant account or subaccount.

9. For any tax apportioned to more than one utility department or account, state in a footnote the basis (necessity) of apportioning such tax.

### ACCUMULATED DEFERRED INVESTMENT TAX CREDITS (Account 255)

Report below information applicable to Account 255. Where appropriate, segregate the balances
and transactions by utility and non-utility operations. Explain by footnote any correction adjustments
to the account balance shown in column (g). Include in column (j) the average period over which
the tax credits are amortized.

2. Fill in columns for all line items as appropriate.

## MICHIGAN CONSOLIDATED GAS COMPANY

## AN ORIGINAL

December 31, 2008

## OTHER DEFERRED CREDITS (Account 253)

- 1. Report below the particulars (details) called for concerning other deferred credits.
- 2. For any deferred credit being amortized, show the period of amortization.
- 3. Minor items (less than \$10,000) may be grouped by classes.
- 4. For any undelivered gas obligations to customers under take-or-pay clauses of sale agreements, show the total amount on this page and report particulars (details) called for by page 267. Show also on this page, but as a separate item, any advance billings or receipts for gas sales or service classified in Account 253 but not related to take-or-pay arrangements.

	related to take-or-pay arrangements.	<del></del>		· · · · · · · · · · · · · · · · · · ·

## OTHER REGULATORY LIABILITIES

- 1. Report below the particulars (details) called for concerning other regulatory liabilities which are created through the ratemaking actions of regulatory agencies (and not includable in other accounts).
- 2. For regulatory liabilities being amortized, show period of amortization in column (a).
- 3. Minor items (amounts less than \$50,000) may be grouped by classes.

4. Give the number and name of the account(s) where each amount is recorded.

## GAS OPERATING REVENUES (Account 400)

- 1. Report below natural gas operating revenues for each prescribed account, and manufactured gas revenues in total.
- 2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.
- 3. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
- Report quantities of natural gas sold in Mcf (14.73 psia at 60°F). If billings are on a therm basis, give the Btu contents of the gas sold and the sales converted to Mcf.

## RATE AND SALES SECTION

## DEFINITIONS OF CLASSES OF SERVICE AND INSTRUCTIONS PERTAINING TO STATEMENTS ON SALES DATA

In the definitions below, the letters preceding the captions distinguish the main classes from the subclasses. Show the data broken into the subclasses if possible, but if not, report data under the main classes, drawing a dash through the subclass.

When gas measured through a single meter is used for more than one class of service as here defined, as for example, for both commercial and residential purposes, assign the total to the class having the principal use.

Average Number of Customers. Number of customers should be reported on the basis of number of meters, plus number of flat-rate accounts, except that where separate meter readings are added for billing purposes, one customer shall be counted for code group of meters so added. The average number of customers means the average of the 12 figures at the close of each month.

<u>Thousands of Cubic Feet or Therms Sold</u> (indicate which one by crossing out the one that does not apply). Give net figures, exclusive of respondent's own use and losses.

Revenues. This term covers revenues derived from (a) Sale of Gas (exclusive of forfeited discounts and penalties) and (b) Other Gas Revenues, such as rent from gas property, interdepartmental rents, customers' forfeited discounts and penalties, servicing of customers' installations and miscellaneous gas revenues.

- AB. Residential Service. This class includes all sales of gas for residential uses such as cooking, refrigeration, water heating, space heating and other domestic uses.
- A. Residential Service. This class includes all sales of gas for residential uses except space heating.
- B. <u>Residential Space Heating</u>. This class includes all sales of gas for space heating including gas for other residential uses only when measured through the same meter.
- CD. <u>Commercial Service</u>. This class includes service rendered primarily to commercial establishments such as restaurants, hotels, clubs, hospitals, recognized rooming and boarding houses, apartment houses (but not individual tenants therein), garages, churches, warehouses, etc.
- C. Commercial Service. This class includes all sales of gas for commercial use except space heating.
- D. <u>Commercial Space Heating</u>. This class includes all sales of gas for space heating including gas for other commercial uses only when measured through the same meter.
- E. <u>Industrial Service</u>. This class includes service rendered primarily to manufacturing and industrial establishments where gas is used principally for large power, heating and metallurgical purposes.
- F. <u>Public Street and Highway Lighting.</u> Covers service rendered to municipalities or other governmental units for the purpose of lighting streets, highways, parks and other public places.
- G. Other Sales to Public Authorities. Covers service rendered to municipalities or other governmental units for lighting, heating, cooking, water heating and other general uses.
- H. <u>Interdepartmental Sales.</u> This class includes gas supplied by the gas department to other departments of the utility when the charges therefore are at tariff or other specific rates.
- I. Other Sales. This class includes all service to ultimate consumers not included in the foregoing described classifications.
- * A I. Total sales to Ultimate Consumers. This is the total of the foregoing described classifications.
- J. Sales to Other Gas Utilities for Resale. This class includes all sales of gas to other gas utilities or to public authorities for resale to utilimate consumers.
- K. Other Gas Revenues. Revenues derived from operations of the respondent other than sales of gas. They include rent from gas property, interdepartmental rents, customers' forfeited discounts and penalties, services of customers' installations and miscellaneous gas revenues, such as fees and charges for changing, connecting and disconnecting service, profit on sales of materials and supplies not ordinarily purchased for resale, commissions on sales or distribution of others' gas (sold under rates filled by such others), management or supervision fees, sale of steam (except where the respondent furnishes steam-heating service) and rentals from leased property on customers' premises.
- * A K. Total Gas Operating Revenues. The total of all the foregoing accounts.

<u>Separate Schedules for Each State.</u> Separate schedules in this section should be filed for each state in which the respondent operates.

<u>Estimates.</u> If actual figures are not available for the schedules in this section, give estimates. Explain the methods used and the factual basis of the estimates, using supplementary sheets, if necessary.

NOTE: Revenue; columns d, f and g are net of prior period refunds and revenue deferred under certain surcharge programs (see page 305C).

⁽¹⁾ Gas Customer Choice revenue and volumes associated with reconciliation.

## 625-B. SALES DATA BY RATE SCHEDULES FOR THE YEAR

- 1. Report below the distribution of customers, sales and revenue for the year by individual rate schedules. (See definitions on first page of this section).
- Column (a).--List all rate schedules by identification number or symbol. Where the same rate schedule
  designation applies to different rates in different zones, cities or districts, list separately data for each
  such area in which the schedule is available.
- 3. Column (b),—Give the type of service to which the rate schedule is applicable, i.e., cooking, space heating, commercial heating, commercial cooking, etc.
- 4. Column (c).-Using the classification shown in Schedule 625A, column (a), indicate the class or classes of customers served under each rate schedule, e.g., (A) for Residential Service, (B) Heating Service, etc.
- Column (d).—Give the average number of customers billiad under each rate schedule during the year. The total of this column will approximate the total number of ultimate customers, line 12, Schedule 625A, page 305B.
- 6. Columns (e) and (f).—For each rate schedule listed, enter the total number of Mcf sold to, and revenues received from customers billed under that rate schedule. The totals of these columns should equal the totals shown on line 12, Schedule 625A. If the utility sells gas to ultimate customers under special contracts, the totals for such sales should be entered on a line on this page in order to make the totals of columns (e) and (f) check with those entered on line 12 Schedule 625A.
- When a rate schedule was not in effect during the entire year, indicate in a footnote the period in which it was effective.

MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL. December 31, 2008 REVENUE FROM TRANSPORTATION OF GAS OF OTHERS-NATURAL GAS (Account 489)(Continued)

- (1) Point of Receipt: Volumes of gas received from ANH Pipeline Company at their Willow Hun Meter Station, Ypsilanti Township, Washtenaw County Michigan.
- (1) Point of Delivery: Volumes of gas delivered to ANR Pipeline Company at their W.G. Woolfolk Compressor Station, Austin Township, Mecosta County, Michigan.
- (2) Point of Receipt: Volumes of gas received at Willow, Belle River, or Kalkaska.
- (2) Point of Delivery: Volumes of gas delivered at Union Dawn
- (3) Point of Receipt: Volumes of gas received at various locations on the Alpena transmission line
- (3) Point of Delivery: Volumes of gas delivered to Willow, E. Caledonia or Mentor.
- (4) Point of Receipt: Volumes of gas received at Willow
- (4) Point of Delivery: Volumes of gas delivered to the Washington Township
- (5) Point of Receipt: Volumes of gas received from ANR, Great Lakes, Consumers Energy, Shell Oit Company, and PEPL at their various ANR, Belle River, Northville, Kalkaska, and Rouge facilities respectively.
- (5) Point of Delivery: Volumes of gas delivered to Michigan Gas Utilities, Union Gas, Ltd., Great Lakes, or PEPL at their various ANR, Grand Haven, St. Clair, Beile River and Rouge facilities, respectively.
- (6) Point of Receipt: Volumes of gas received at various locations on the Alpena transmission line.
- (6) Point of Delivery: Volumes of gas delivered to West Branch/ Saginaw Bay.
- (7) Point of Receipt: Volumes of gas received from ANR Pipeline Company at their W.G. Woolfolk Compressor Station, Austin Township, Mecosta County, Michigan. (See Page 313C - F.E.R.C. Tariff Schedule ST93-4518)
- (7) Point of Delivery: Volumes of gas delivered to the interconnection between ANR Pipeline Company and Michigan Consolidated in Kalkaska County, Michigan. (See Page 313C - F.E.R.C. Tariff Schedule ST93-4518)
- (8) Includes demand charges that may or may not have volumes associated with the charge.
- Affiliated company

## GAS USED IN UTILITY OPERATIONS - CREDIT (Accounts 810, 811, 812)

- Report below particulars (details) of credits during the year to Accounts 810, 811 and 812 which offset charges to
  operating expenses or other accounts for the cost of gas from the respondent's own supply.
- 2. Natural gas means either natural gas unmixed, or any mixture of natural and manufactured gas.
- 3. If the reported Mcf for any use is an estimated quantity, state such fact in a footnote.
- 4. If any natural gas was used by the respondent for which a charge was not made to the appropriate operating expense or other account, list separately in column (c) the Mcf of gas used, omitting entries in columns (d) and (e).

5. Report pressure base of measurement of gas volumes at 14.73 psia at 60°F.

- For purposes of this schedule a "lease" is defined as a contract or other agreement by which one party (lessor) conveys an intangible right or land or other tangible property and equipment to another (lessee) for a specified period of one year or more for rent.
- 2. Report below, for leases with annual charges of \$25,000 or more, but less than \$250,000 the data called for in columns a, b (descriptions only), f, g and j.
- For leases having annual charges of \$250,000 or more, report the data called for in all the columns below.
- 4. The annual charges referred to in instruction 1 and 2 include the basic lease payment and other payments to or in behalf of the lessor such as taxes, depreciation, assumed interest or dividends on the lease. Securities, cost of property replacements** and other expenditures with respect to leased property except the expenses paid by lessee are to be itemized in column f below.
- 5. Leases of construction equipment in connection with construction work in progress are not required to be reported herein. Continuous, master or open-end leases for EDP or office equipment, automobile fleets and other equipment that is short-lived and replaced under terms of the lease or for pole rentals shall report only the data called for in columns a, b (description), f, g and j, unless the lessee has the option to purchase the property.

6 In column (a) report the name of the lessor. List lessors which are associated companies * (describing association) first, followed by non-associated lessors. * See

## LEASE RENTALS CHARGED (continued)

definition on page 226 (B).

- 7 In column (b) for each leasing arrangement, report in order, classified by transmission line, distribution system or other operating unit or system, followed by any other leasing arrangements not covered under the preceding classifications: Description of the property, whether lease is a sale and leaseback, whether leasee has option to purchase and conditions of the purchase, whether lease is cancellable by either party and the cancellation conditions, state the tax treatment used, the accounting treatment of the lease payments (levelized charges to expense or other treatment), the basis of any charges apportioned between the lessor and lessee, and the responsibility of the respondent for operation and maintenance expenses and replacement of property. The above information is to be reported with initiation of the lease and thereafter when changed or every five years, which ever comes first.
- 8 Report in column (d), as of the date of the current lease term, the original cost of the property leased, estimated if not known, or the fair market value of the property if greater than original cost and indicate as shown. If leased property is part of a large unit, such as part of a building, indicate without associating any cost or value with it.
- 9 Report in column (k) below the estimated remaining annual charges under the current term of the lease. Do not apply a present value to the estimate. Assume that cancellable leases will not be cancelled when estimating the remaining charges.

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2008	
DEPRECIATION, DEPL	ETION, AND AMORTIZAT	TION OF GAS PLANT	
(Account	s 403, 404.1, 404.2, 404.3	3, 405)	
(Except Amo	ortization of Acquisition Ad	justments)	

- Report in Section A the amounts of depreciation expense, depletion and amortization for the accounts indicated and classified according to the plant functional groups shown.
- 2. Report all available information called for in Section B for the report year 1971, 1974 and every fifth year thereafter. Report only annual charges in the intervals between the report years (1971, 1974 and every fifth year thereafter). Report in column (b) all depreciable plant balances to which rates are applied and show a composite total. (If more desirable, report by plant account, subaccount or functional classifications other than those pre-printed in column a). Indicate at the bottom of Section B the manner in which column (b) balances are obtained. If

Notes to Depreciation, Depletion and Amortization of Gas Plant

- (1) Amounts in column (b) are the average of the beginning and ending balances for 2008.
- (2) Not included in the Depreciable Balance for Production Plant are several accounts which are depreciated by the Units Production Method. The average plant balance for these accounts is \$1.7 million. The depreciation expense associated with these accounts is \$0. This approximates to a depreciation rate of 0.%
- (3) Not included in the Depreciable Balance for General Plant are several transportation Plant Accounts which were depreciated in the clearing accounts. The average plant balance for these accounts is \$64.3 million. The depreciation expense associated with these accounts is \$7,604,687. This approximates to a depreciation rate of 11.83%.

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS length the information specified below, in the order given, for the respective income deduction and interest

Report the information specified below, in the order given, for the respective income deduction and interest charges accounts. Provide a subheading for each account and a total for the account. Additional columns may be added if deemed appropriate with respect to any account.

- (a) Miscellaneous Amortization (Account 425)-Describe the nature of items included in this account, the contra account charged, the total of amortizations charges for the year, and the period of amortization.
- (b) Miscellaneous Income Deductions-Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2, Life Insurance; 426.3, Penalities; 426.4, Expenditures for Certain Civic, Political and Related Activities; and 425.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than \$10,000 may be grouped by classes within the above accounts.
- (c) Interest on Debt to Associated Companies (Account 430) For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open accounts, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.

(d) Other Interest Expense (Account 431)-Report particulars (details) including the amount and interest

rate for other interest charges incurred during the year.

#### PARTICULARS CONCERNING CERTAIN OTHER INCOME ACCOUNTS

- Report in this schedule the information specified in the instructions below for the respective other income accounts. Provide a conspicuous subheading for each account and show a total for the account. Additional columns may be added for any account if deemed necessary.
- Merchandising, Jobbing and Contract Work (Accounts 415 and 416)-Describe the general nature of
  merchandising, jobbing and contract activities. Show revenues by class of activity, operating expenses
  classified as to operation, maintenance, depreciation, rents and net income before taxes. Give the
  basis of any allocations of expenses between utility and merchandising, jobbing, and contract work
  activities.
- 3. Nonutility Operations (Accounts 417 and 417.1)-Describe each Nonutility operation and show revenues, operating expenses classified as to operation, maintenance, depreciation, rents, amortization and net net income before taxes, from the operation. Give the bases of any allocations of expenses between utility and nonutility operations. The book cost of property classified as nonutility operations should be included in Account 121.
- 4. Nonoperating Rental Income (Account 418)-For each major item of miscellaneous property included in Account 121, Nonutility Property, which is not used in operations for which income is included in Account 417, but which is leased or rented to others, give name of lessee, brief description of property, effective date and expiration date of lease, amount of rent revenues, operating expenses classified as to operation, maintenance, depreciation, rents, amortization, and net income before taxes, from the rentals. If the property is leased on a basis other than that of a fixed annual rental, state the method of determing the rental. Minor items may be grouped by classes, but the number of items so grouped should be shown. Designate any lesses which are associated companies.
- 5. Interest and Dividend Income (Account 419)-Report interest and dividend income, before taxes, identified as to the asset account or group of accounts in which are included the assets from which the interest or dividend income was derived from investments, Accounts 123, 124 and 136 may be shown in total. Income from sinking and other funds should be identified with the related special funds. Show also expenses, included in Account 419 as required by the Uniform System of Accounts.
- Miscellaneous Nonoperating Income (Account 421)-Give the nature and source of each miscellaneous Nonoperating income, and expense and the amount thereof for the year. Minor items may be grouped by classes.

# MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2008 EXPENDITURES FOR CERTAIN CIVIC, POLITICAL AND RELATED ACTIVITIES (Account 426.4)

- 1. Report below all expenditures incurred by the respondent during the year for the purpose of influencing public opinion with respect to the election or appointment of public officials, referenda, legislation or ordinances (either with respect to the possible adoption of new referenda, legislation or ordinances or repeal or modification of existing referenda, legislation or ordinances); approval, modification, or revocation of franchises; or for the purpose of influencing the decisions of public officials which are accounted for as Other Income Deductions, Expenditures for Certain Civic, Political and Related Activities; Account 426.4.
- 2. Advertising expenditures in this Account shall be classified according to subheadings, as follows: (a) radio, television, and motion picture advertising; (b) newspaper, magazine, and pamphlet advertising; (c) letters or inserts in customers' bills, (d) inserts in reports to stockholders; (e) newspaper and magazine editorial services; and (f) other advertising.
- Expenditures within the definition of paragraph (1), other than advertising shall be reported according to captions or descriptions, clearly indicating the nature and purpose of the activity.
- 4. If respondent has not incurred any expenditures contemplated by the instructions of Account 426.4, so state.
- 5. For reporting years which begin during the calendar year 1963 only, minor amounts may be grouped by classes if the number of items so grouped is shown.

NOTE: The classification of expenses as nonoperating and their inclusion in this account is for accounting purposes. It does not preclude Commission consideration of proof to the contrary for ratemaking or other purposes.

#### REGULATORY COMMISSION EXPENSES

- Report particulars (details) of regulatory commission expenses incurred during the current year (or incurred in previous years, if being amortized) relating to formal cases before a regulatory body, or cases in which such a body was a party.
- 2. In columns (b) and (c), indicate whether the expenses were assessed by a regulatory body or were otherwise
- incurred by the utility.

  3. Show in column (k) any expenses incurred in prior years which are being amortized. List in column (a) the period of amortization.

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2008
RESEARCH, DEVELOPME	NT, AND DEMONSTRATIC	

- 1. Describe and show below costs incurred and accounts charged during the year for technological research, development, and demonstration (R, D & D) projects initiated, continued, or concluded during the year. Report also support given to others during the year for jointly-sponsored projects. (Identify recipient regardless of affiliation.) For any R, D & D work carried on by the respondent in which there is a sharing of costs with others, show separately the respondent's cost for the year and cost chargeable to others. (See definition of research, development, and demonstration in Uniform System of Accounts.) 2.
  - Indicate in column (a) the applicable classification, as shown below. Classifications:
    - A. Gas R, D & D Performed Internally
    - (1) Pipeline
      - a. Design
      - b. Efficiency
    - (2) Compressor Station
      - a. Design
      - b. Efficiency
    - (3) System Planning, Engineering, and Operation
    - (4) Transmission Control and Dispatching
    - (5) LNG Storage and Transportation
    - (6) Underground Storage
    - (7) Other Storage
    - (8) New Appliances and New Uses
    - (9) Gas Exploration, Drilling, Production, and Recovery
    - (10) Coal gasification
    - (11) Synthetic Gas
    - (12) Environmental Research
    - (13) Other (Classify and Include Items in Excess of \$5,000.)
    - (14) Total Cost Incurred

- B. Gas R, D & D Performed Externally
  - (1) Research Support to American Gas Association
  - (2) Research Support to Others (Classify)
  - (3) Total Costs Incurred
- 3. Include in column (c) all R, D & D items performed internally and in column (d) those items performed outside the company costing \$5,000 or more, briefly describing the specific area of R, D & D (such as safety, corrosion control, pollution, automation, measurement, insulation, type of appliance, etc.). Group items under \$5,000 by classifications and indicate the number of items grouped Under Other, (A.(13) and B.(2)) classify items by type of R, D & D activity.
- 4. Show in column (e) the account number charged with expenses during the year or the account to which amounts were capitalized during the year, listing Account 107 (Construction Work in Progress) first. Show in column (f) the amounts related to the account charged in column (e).
- 5. Show in column (g) the total unamortized accumulation of costs of projects. This total must equal the balance in Account 188 (Research, Development, and Demonstration Expenditures) outstanding at the end of the year.
- 6. If costs have not been segregated for R, D & D activities or projects, submit estimates for columns (c), (d) and (f) with such amounts identified by "Est."
- 7. Report separately research and related testing facilities operated by the respondent.

## DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts orginally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages orginally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

#### NATURAL GAS RESERVES AND LAND ACREAGE

- Report below particulars (details) concerning the remaining recoverable salable gas reserves and natural
  gas land acreage at end of year. Designate gas reserves on acreage acquired before October 8, 1969,
  and reserves on acreage acquired after October 7, 1969.
- Classify the gas reserves and related land and land rights and costs under the sub-headings:
   (A) Producing Gas Lands, and (B) Non-producing Gas Lands. Provide a total for each classification.
- 3. For producing gas lands, report the required information alphabetically by State, County, or offshore area, and field. If the field name is not assigned, report as "unnamed." Identify offshore fields according to their location in State or Federal domains by using the letter "S" for State domain, and "F" for Federal domain in column (a). For column (b), enter the zone number if applicable. The land, leasehold, and gas rights costs so reported should agree with the amounts carried under Account 101, Gas Plant in Service, and as reported for Accounts 325.1, 325.2, and 325.3 on page 204-205. In column (e) show for each field the year and remaining recoverable salable gas reserves available to respondent from owned lands, leaseholds, and gas rights.

4. For non-producing gas lands, report the required information alphabetically by State, County, or offshore areas by blocks. Report offshore lands in the same manner as producing gas lands. The land,

#### NATURAL GAS RESERVES AND LAND ACREAGE (Continued)

leasehold, and gas rights costs reported should agree with the amounts carried under Accounts 105, Gas Plant Held for Future Use and 105.1, Production Properties Held for Future Use, and reported in total on pages 214 and 215. Do not report estimates of gas reserves (column e) for unproven fields; however, if the company made estimates for such lands normally includes such estimates in stating its reserve position in connection with proposed financing and for managerial and other purposes, include such estimates on this page.

- 5. Report the cost of lands, leasholds, and gas rights in accordance with the provisions of the Uniform Systems of Accounts for Natural Gas Companies.
- 6. For columns (j) and (k), do not duplicate acreages reported for owned lands and leaseholds. Designate with an asterisk royalty interests separately owned.
- Indicate by footnote whether acres reported are gross acres or net acres based on proportion of ownership in jointly owned tracts.
- 8. Do not include oil mineral interests in the cost of acreage reported.
- 9. Report volumes on a pressure base of 14.73 psia at 60°F.

#### CHANGES IN ESTIMATED HYDROCARBON RESERVES AND COSTS, AND NET REALIZABLE VALUE

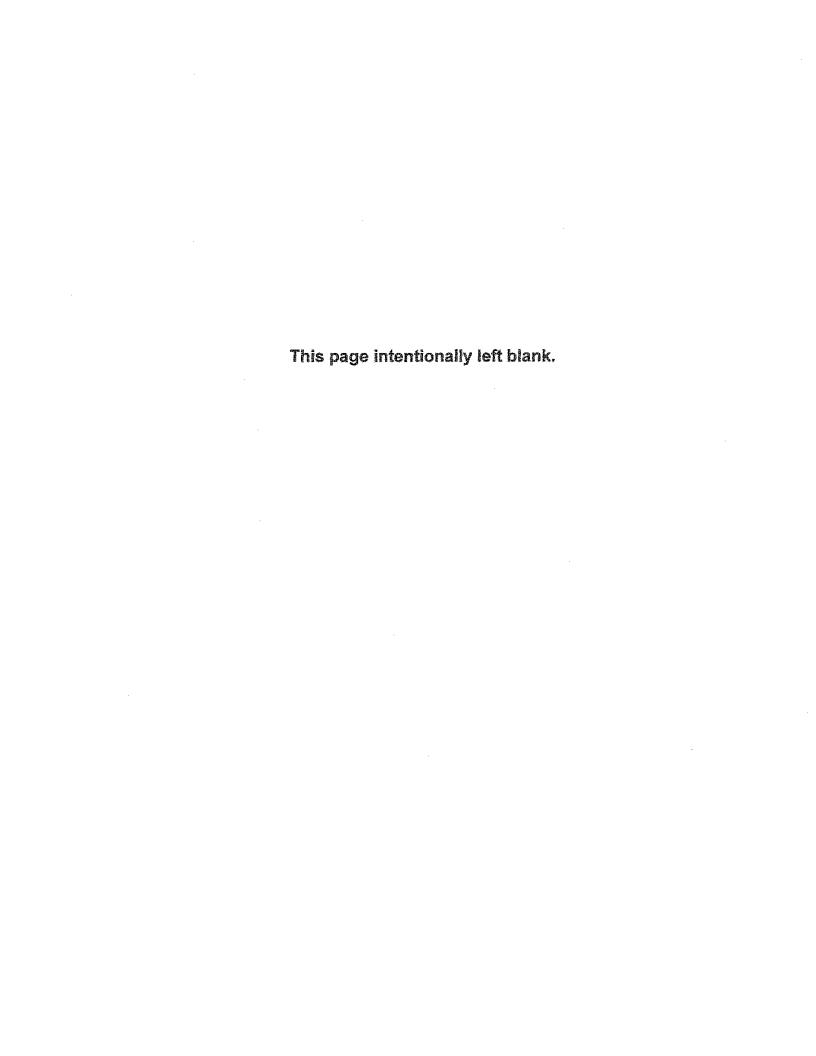

- 1. Report changes during the year in recoverable salable reserves of the respondent located on acreage acquired after October 7, 1969. Have the reported reserves attested to every three years by an independent appraiser. File the attestation with the Commission along with this report. If the reserves, at the time the reserve determination is made, significantly differ from those reported on this page, file a reconciliation and explanation of such differences along with the attestation.
- For any important changes in the estimated reserves due to purchases, sales, or exchanges of land, leaseholds or rights, furnish on page 505 a brief explanation of the transaction and reserves involved. Also, explain the criteria used to estimate the net realizable value of reserves.
- 3. For column (d), report the reserves and changes associated with lands, leaseholds, and rights included in Account 105.1, Production Properties Held for Future Use. (See Gas Plant Accounts Instruction 7G of the U.S. of A.)
- 4. Report pressure base of gas volumes at 14.73 psia at 60°F.
- For line 16 base the net realizable value of hydrocarbon reserves on the current selling price of the hydrocarbon reserves less estimated costs of extraction, completion, and disposal.

#### GAS AND OIL WELLS

- Report below the particulars (details) concerning gas and oil wells of the respondent which are either producing or capable of production.
- 2. Report the required information alphabetically by states. List wells located offshore separately.
- 3. For column (a), under separate headings, list gas wells first, oil wells second, and combination wells third.
  Combination wells are wells producing or capable of production from one or more oil reservoirs and also from one or more gas reservoirs. Enter totals for each of the headings (gas wells, oil wells, combination wells). Designate any wells not operated during the past year, and in a footnote state whether the book cost of such wells, or any portion thereof, has been retired in the books of account, or what disposition of the wells and their book cost is contemplated.

4. in column (f) report wells reclassified during the year as oil wells, gas wells, or combination wells. Show additions in black and deductions enclosed in parentheses. The total additions equal the total deductions.

^{*} Split of sendout on a daily basis is not accurately separatable between MPSC rate schedule and Others.

#### **AUXILIARY PEAKING FACILITIES**

- Report below auxiliary facilities of the respondent for meeting seasonal peak demands on the respondent's system, such as underground storage projects, liquefied petroleum gas installations, gas liquefaction plants, oil gas sets, etc.
- For column (c), for underground storage projects, report the delivery capacity on February 1 of the heating season overlapping the year-end for which this report is submitted. For other facilities, report the rated maximum daily delivery capacities.

3. For column (d), include or exclude (as appropriate) the cost of any plant used jointly with another facility on the basis of predominant use, unless the auxiliary peaking facility is a separate plant as contemplated by general instruction 12 of the Uniform System of Accounts.

#### AN ORIGINAL

**DECEMBER 31, 2008** 

#### SYSTEM MAPS

- 1. Furnish 5 copies of a system map (one with each copy of this report) of the facilities operated by the respondent for the production, gathering, transportation and sale of natural gas. New maps need not be furnished if no important change has occured in the facilities operated by the respondent since the date of the maps furnished with the previous annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.
- 2. Indicate the following information on the maps:
  - (a) Transmission lines colored in red, if they are not otherwise clearly indicated.
  - (b) Principal pipeline arteries of gathering system.
  - (c) Size of pipe in the principal pipelines shown on map.
  - (d) Normal directions of gas flow indicated by arrows.
  - (e) Location of natural gas fields or pools in which the respondent produces or purchases natural gas.
  - (f) Locations of compressor stations, products extraction plants, stabilization plants, important purification plants, undergrounf storage areas, recycling areas, etc.
  - (g) Important main line interconnections with other natural gas companies, indicating in each case whether gas is received or deliverd and name of connecting company.
  - (h) Principal communities in which respondent renders local distribution service.
- 3. In addition, show on each map: graphic scale to which map is drawn; date as of which the map represents the facts it purports to show, a legend giving all symbols and abbreviations used; designation of facilities leased to or from another company, giving name of such other company.
- 4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the maps to a size not larger than this report. Bind the maps to the report.

Map provided in 1993 Annual Report with supplement in 1996 Annual Report.
