**SECTION A  
SUPPLEMENTAL UTILITY SERVICE CHARGES  
FOR ALL CUSTOMERS**

The charges shown on this sheet are not subject to approval by the Michigan Public Service Commission. The Company will make changes in these charges from time to time to include the current prices for the services offered.

**LABOR CHARGES**

Where service by the Company is performed for which the customer is responsible and the charge for the service is based upon Time and Materials (T & M), the labor charge shall be:

Regular Rates – \$75.00 per hour per employee (\$50.00 minimum charge).

Issued January 7, 2011  
Michael V. Palmeri  
Exec. V.P., C.O.O. and C.F.O.  
Port Huron, MI

Michigan Public Service Commission
<b>January 19, 2011</b>
Filed <u>RL</u>

Effective for service rendered on  
and after January 7, 2011. Issued under  
authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued from Sheet No. A-15.00

**METER TEST CHARGE**

The charge for a gas meter test when applicable per B.1.5.51 (Rule R460.2351) will be based upon time and materials.

**ELEVATED PRESSURE CHARGE**

Where a customer requires the Company to provide gas service at an elevated pressure (a pressure higher than standard pressure), the customer shall pay an initial charge of \$300 and shall pay an additional \$100 for each annual inspection of the system pressure there after. Elevated pressure provided at 2.0 p.s.i. for residential use shall be exempt from such charge.

**ADDITIONAL METER BRACKET CHARGE**

Where the Company sets an additional meter bracket from a single service at the same time as the Company installs the first meter bracket, the customer shall be subject to the charges directed by Rule C9, Customer Attachment Program.

Where the Company installs an additional meter bracket from a single service line at a time other than when the original meter bracket is installed, the charge shall be \$200.

**SERVICE LINE AND/OR METER RELOCATION CHARGE**

A charge for a customer requested meter relocation shall be based upon time and materials.

Issued January 7, 2011  
Michael V. Palmeri  
Exec. V.P., C.O.O. and C.F.O.  
Port Huron, MI

Effective for service rendered on  
and after January 7, 2011. Issued under  
authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet No. A-18.00

(C) Customer construction of a structure or appurtenance near or over the main, service line piping, or meter set assembly so that the utility's facilities are not in compliance with the provisions of the Michigan Gas Safety Standards or the utility's standards.

(D) Customer failure to correct or replace gas utilization equipment or gas fuel line piping that has been previously identified and classified as potentially hazardous by the utility.

Rate Book -- The assembled rate schedules, rules, regulations, and standard forms of the utility as filed with the commission.

Required Access -- Access that is necessary to conduct any of the following:

(A) Routine inspections and maintenance.

(B) Meter readings of gas usage.

(C) Scheduled replacement, repairs, relocations, or disconnection of branch service lines or other changes with respect to service lines and meter assembly piping.

SNG -- Substitute natural gas.

Substitute Natural Gas -- Gas which is interchangeable and compatible with natural gas, and which is manufactured from carbon and hydrogen-bearing materials.

Therm -- 100,000 British thermal units.

Utility -- A person, firm, corporation, cooperative, association, or agency which is subject to the jurisdiction of the commission and which delivers or distributes and sells gas to the public for heating, power, or other residential, commercial, or industrial purposes.

[http://www.state.mi.us/orr/emi/admincode.asp?AdminCode=Single&Admin\\_Num=46000101&Dpt=&RngHigh=48702110](http://www.state.mi.us/orr/emi/admincode.asp?AdminCode=Single&Admin_Num=46000101&Dpt=&RngHigh=48702110)

PART 11. COMMISSION APPEAL PROCEDURES

- R 460.158 Informal appeal.
- R 460.159 Filing procedures.
- R 460.160 Informal appeal procedures.
- R 460.161 Interim determination.
- R 460.162 Appeal review.
- R 460.163 Shutoff pending decision.
- R 460.164 Informal appeal decision.
- R 460.165 Failure to comply with informal appeal decision.
- R 460.166 Same dispute.
- R 460.167 Formal appeal.
- R 460.168 Other remedies.
- R 460.169 Scope of rules.

B3. UNCOLLECTIBLES ALLOWANCE RECOVERY FUND (R 460.2601 - R 460.2625)

[http://www.state.mi.us/orr/emi/admincode.asp?AdminCode=Single&Admin\\_Num=46002601&Dpt=&RngHigh=48702110](http://www.state.mi.us/orr/emi/admincode.asp?AdminCode=Single&Admin_Num=46002601&Dpt=&RngHigh=48702110)

PART 1. GENERAL PROVISIONS

- R 460.2601 Application of rules.
- R 460.2602 Definitions.

PART 2. UNCOLLECTIBLES ALLOWANCE RECOVERY FUND

- R 460.2621 Uncollectibles allowance recovery fund.
- R 460.2622 Annual deposits.
- R 460.2623 Notice of deposit.
- R 460.2624 Disputes; procedure for resolution.
- R 460.2625 Disbursement of funds.

B4. BILLING PRACTICES APPLICABLE TO NON-RESIDENTIAL ELECTRIC AND GAS CUSTOMERS (R 460.1601 - R 460.1640)

(Applicable to nonresidential customers)

[http://www.state.mi.us/orr/emi/admincode.asp?AdminCode=Single&Admin\\_Num=46001601&Dpt=LG&RngHigh](http://www.state.mi.us/orr/emi/admincode.asp?AdminCode=Single&Admin_Num=46001601&Dpt=LG&RngHigh)

- R 460.1601 Applicability; purpose.
- R 460.1602 Definitions.
- R 460.1603 Discrimination prohibited.
- R 460.1604 Form of proceedings.
- R 460.1605 Additional rules.
- R 460.1606 Application for new service.
- R 460.1607 Customer deposits.
- R 460.1608 Meter reading interval and estimated bills.
- R 460.1609 Metering inaccuracies; billing adjustments.

**SECTION C  
COMPANY RULES AND REGULATIONS  
(FOR ALL CUSTOMERS)**

These General Rules and Regulations for all customers are not to supersede but are in addition to Rule B1, Technical Standards for Gas Service **and** Rule B2., Consumer Standards and Billing Practices for **Electric and Natural Gas** Service.

**C1. CHARACTERISTICS OF SERVICE**

**C1.1 Company Liability and Force Majeure:**

**A. Company Liability**

In any case of stoppage of the flow of gas to Customers, whether caused by accident, repairs or other cause, Company will not be liable for any damage that may arise therefrom. All stoppage of gas or damages of any kind that may be caused by severe cold weather will be considered beyond the control of Company and involving no pecuniary responsibility on its part.

Company shall not be liable for damages that may be incurred by the use of gas or appliances or the presence of Company's property on Customer's premises.

If a judgment is entered against Company as a result of its failure to exercise reasonable care and skill, Company's liability shall be limited to an amount equivalent to three times Customer's non-gas Monthly Customer Charge or one thousand dollars, whichever is less. Neither Company nor Customer shall be liable to the other party for consequential, incidental, exemplary, punitive, or indirect damages, lost profits or other business interruption damages arising out of the performance or non-performance of any obligation under Company's Rate Book for Natural Gas Service or any contract, by statute, in tort or contract, under any indemnity provision or otherwise.

**B. Force Majeure**

Neither Customer nor Company shall be liable in damages, or in any other remedy, legal or equitable, to the other for any act, omission, or circumstances occasioned by or in consequence of any acts of God, strikes, lockouts, or other industrial disturbances; acts of the public enemy, wars, blockades, insurrections, riots, epidemics, pandemics, landslides, lightning, earthquakes, fires, storms (including but not limited to hurricanes or hurricane warnings), extreme weather (any weather event that increases Customer demand beyond what the Company's system can deliver), crevasses, floods, washouts, loss of utility services (including but not limited to electric power, natural gas or other fuels, water supply, storm water or sewer drain service, radio communications, telephonic communications, fiber communications, cable communications, or internet communications), arrests and restraints of the government, either Federal or State, civil or military, and civil disturbances. Force majeure shall also mean the loss of upstream and/or on-system gas supply (including but not limited to gas supply received from on-system local gas production or on-system gas storage), the inability to schedule or transport gas to the Company's pipeline system from upstream sources, Gas Quality Deficiency, shutdowns for purposes of necessary repairs, relocation, or construction of facilities; failure of electronic data capability; breakage or accident to machinery or lines of pipe; the necessity of testing (as required by governmental authority or as deemed necessary by the Company for the safe operation thereof), the necessity of making repairs or alterations to machinery or lines of pipe; failure of surface equipment or pipelines; accidents, breakdowns, inability to obtain necessary materials, supplies or permits, or labor to perform or comply with any obligation or condition of service, rights of way; and any other causes, whether of the kind

**SECTION C  
COMPANY RULES AND REGULATIONS  
(FOR ALL CUSTOMERS)**

These General Rules and Regulations for all customers are not to supersede but are in addition to Rule B1., Technical Standards for Gas Service, Rule B2., Consumer Standards and Billing Practices for Residential Customers, and Rule B4., Commercial and Industrial Billing Practices.

**C1. CHARACTERISTICS OF SERVICE**

**C1.1 Gas Supply and Company Liability:**

The Company does not guarantee, but will endeavor to furnish, a continuous supply of gas and to maintain pressure within reasonable limits. The Company shall not be liable for loss or damage which the customer may sustain by accidents, repairs or otherwise, or incurred by the use of gas or appliances or presence of the Company's property on the customer's premises. Nor shall the Company be held liable for loss or damage occurring under or by virtue of the exercise of authority or regulation by governmental, military or lawfully established civilian agencies, or due to conditions or causes beyond the Company's control.

If the supply of natural gas diminishes to the point where continuous service to other customers is threatened, the Company shall have the right to limit or discontinue the use of service for its industrial customers, irrespective of the contracts in force, as provided for in rule C3.

Before purchasing equipment or installing piping, the customer shall secure from the Company, in writing, the characteristics of the service available.

**C1.2 Discontinuance of Supply or Service:**

The Company shall have the right at any time to terminate its service contract for breach of any of the terms and conditions thereof. The Company shall also have the right to stop service of gas to be furnished thereunder, without notice, for any of the following reasons or purposes, without such action causing a termination of such agreement:

- A. For the purpose of making repairs or extensions;
- B. On account of or to prevent fraud or abuse;
- C. For violation of any of the Company's regulations;

B. Force Majeure (Contd)

herein enumerated or otherwise which are not reasonably within the control of the Company. It is understood that the settlement of strikes and lockouts or controversies with landowners involving rights of way shall be entirely within the Company's discretion and that the above requirements that any Force Majeure be remedied with all reasonable dispatch shall not require the settlement of strikes or lockouts or controversies with landowners involving rights of way by acceding to the demands of the opposing party when such course is inadvisable in the discretion of the Company.

Under no circumstances will the following events constitute Force Majeure: (i) Customer's lack of finances, (ii) inadequate or uneconomic markets for Customer's gas, or (iii) insufficiency of Customer's gas supplies.

Such causes or contingencies affecting the performance of any obligations under any Rate Schedule or agreement by either Customer or Company, shall not relieve it of liability in the event of its concurrent negligence or in the event of its failure to use due diligence to remedy the situation and remove the cause in an adequate manner and with all reasonable dispatch, nor shall such causes or contingencies affecting performance of any obligation relieve Customer from its obligation to make payments of amounts then due, nor shall such causes or contingencies relieve either Customer or Company of liability unless such party shall give notice and full particulars of the same in writing, including by facsimile or electronic communication, to the other party as soon as possible after the occurrence relied on.

C1.2 Discontinuance of Supply or Service:

The Company shall have the right at any time to terminate its service contract for breach of any of the terms and conditions thereof. The Company shall also have the right to stop service of gas to be furnished thereunder, without notice, for any of the following reasons or purposes, without such action causing a termination of such agreement:

- A. For the purpose of making repairs or extensions;
- B. On account of or to prevent fraud or abuse;
- C. For violation of any of the Company's regulations;

authority of the Michigan Public Service  
Commission dated December 9, 2016 in  
Case No. U-17975.

Continued From Sheet No. C-1.00

C1.2 Discontinuance of Supply or Service: (Contd)

- D. For the reason that the customer's service is detrimental to the service in general or in his immediate locality;
- E. When made incompatible with order, ordinances, or laws of the United States of America, the State of Michigan or any political subdivision thereof;
- F. Upon proper notice for nonpayment of bill;
- G. If the customer's equipment is not approved by any local governmental agency in charge of such matters.

C1.3 Heating Installations:

The Company will have the right to refuse to connect and serve central heating installations in which gas is the only or the principle fuel used, where such installations are, in the opinion of the Company, unsafe or dangerous to operate. The safety of equipment shall be judged by, but not limited to, compliance with the following:

- A. All gas conversion burners to be installed shall either be A.G.A certified or approved by the Company and all gas designed heating plants shall either meet A.G.A. requirements or be approved by the Company.
- B. Conversion burners must be properly sized for safe operation in the heating plant being converted.
- C. No conversion burner shall be connected which is installed in a furnace in which its operation would be dangerous because of the condition of the furnace, chimney, or flue.
- D. No gas heating equipment shall be connected, the operation of which would be dangerous because of improper installation.
- E. No gas heating equipment shall be connected which does not have adequate shut-off controls for safe operation.

C1.4 Unusual Cost:

Any unusual cost incurred specifically for an individual customer, and not ordinarily necessary for the furnishing of gas service to the customer, shall be paid by the customer for whom such unusual cost is incurred. Such unusual cost shall be in addition to the charge for gas service provided in the applicable rate schedule, and such additional charge shall be subject to review by the Michigan Public Service Commission upon petition by such customer.

C1.5 Invalidity of Oral Agreements or Representations:

No employee or agent of the Company is authorized to modify or supplement the terms and conditions of this Schedule of Gas Rates Governing the Sale of Natural Gas Service or any contract by oral agreement or representation, and no such oral agreement or representation shall be binding upon the Company.

Continued On Sheet No. C-3.00

Effective for service rendered on  
and after January 7, 2011. Issued under  
authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet No. C-3.00

- B. The Company may not grant sales service to new customers or permit additional load by existing customers, if:
  - 1. The Company is curtailing any customers in the affected service area due to a long term Capacity Deficiency under the provisions of Rule C3, Curtailment of Gas Service.
  - 2. The Company is curtailing any customers due to a long term Gas Supply Deficiency under the provisions of Rule C3, Curtailment of Gas Service; except that the Company may attach controlled service Priority One or Priority Two customers provided no customers in Curtailment Priority Three are being curtailed.
- C. The Company reserves the right to attach new interruptible loads.
- D. The written notification by the Company granting approval of the application shall specify the date gas sales service must commence.

C2.4 Forfeiture

- A. A customer shall install the necessary equipment and commence gas sales service by the date specified in the Company's notification of approval, otherwise the customer's reservation of gas supply is forfeited.
- B. When the Company grants approval in those cases where the Application for Gas Service was not initially granted, the customer shall notify the Company in writing within thirty days (from the date of the Company's written notification of approval) of the customer's intention to accept service. If the customer does not respond within thirty days, the customer's original application is void.

C2.5 Restricted Sales

As a result of warmer-than-normal weather, or other factors, the Company may have gas in excess of its immediate load. The Company may sell such excess gas subject to:

- A. The requirements of present and future system supply customers of the Company.
- B. The sale of such gas causes no detriment to its system supply.
- C. The Gas Supply Deficiency Curtailment Priority Five of Rule C3, Curtailment of Gas Service for all special contract sales of such gas.
- D. Commission approval of such sales on a special contract basis, limited as to time and volume.

Continued From Sheet No. C-4.00

C2.6 Priorities

- A. Service shall be controlled under this rule in accordance with the following Priorities. Priority One constitutes the highest Priority. Priority Six constitutes the lowest Priority which will be the first Priority controlled. Within each Priority, sub-priority ( 1.) shall have the highest priority and sub-priority ( 3.) the lowest Priority.

PRIORITY 1

1. Residential gas requirements for any purpose, except space-heating or air-conditioning.
2. Residential gas requirements for space-heating or air-conditioning.
3. Commercial gas requirements having a peak usage less than 50 Dth per day.

PRIORITY 2

1. The use of natural gas for services essential for public health and safety.
2. The use of natural gas for essential agricultural requirements.

PRIORITY 3

1. Industrial gas requirements for process and feedstock needs or for gas-fired after burners to limit or abate obnoxious odors or air pollution.
2. Industrial gas requirements having a peak usage less than 50 Dth per day and not otherwise classified.

PRIORITY 4

1. Commercial and Industrial gas requirements having a peak usage of 50 Dth per day and greater and not otherwise classified.
2. Commercial and Industrial gas requirements for co-generation having alternate fuel capability and a peak usage of 50 Dth per day, but less than 300 Dth per day.
3. Commercial and Industrial gas requirements for co-generation having alternate fuel capability and a peak usage of 300 Dth per day or greater.

Effective for service rendered on  
and after January 7, 2011. Issued under  
authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet No. C-5.00

PRIORITY 5

1. Commercial and Industrial requirements for boilers or kilns having alternate fuel capability and a peak usage of 50 Dth per day but less than 300 Dth per day.
2. Commercial and Industrial requirements for boilers or kilns having alternate fuel capability and a peak usage of 300 Dth per day or greater.

PRIORITY 6

The use of natural gas for the generation of steam or electricity by utilities.

- B. A customer who has a pollution problem which presents a threat to the public health and safety, where the use of natural gas offers the only feasible solution to the problem, may petition the Commission to assign a Priority of use higher than that to which the customer would otherwise be entitled. The matter will be considered by the Commission pursuant to its Rules of Practice relating to petitions or complaints.

C2.7 Definitions

- A. Alternate fuel capability means that an alternate fuel could have been used whether or not the facilities for use have actually been installed or the alternate fuel is available.
- B. Boilers shall mean all closed vessels in which a liquid is heated or vaporized by the combustion of fuel for the generation of steam or hot liquid.
- C. Co-generation shall mean the sequential production of both electrical (or mechanical) and thermal energy from the same fuel source.
- D. Commercial gas requirements shall refer to any usual commercial use of gas including but not limited to all gas purchased by a business which does not qualify for a manufacturing industry code under the Standard Industrial Classification, as listed in the current edition of the Standard Industrial classification Manual issued by the Executive Office of the President of the United States.
- E. Essential Agricultural Requirements means any use of natural gas for agricultural production, natural fiber production and processing, food processing, food quality maintenance, irrigation pumping crop drying, or a process fuel or feedstock in the production of fertilizer, agricultural chemicals, animal feed or food; provided, however, that boilers, gas turbines and engines which have alternate fuel capability shall not qualify as essential agricultural requirements without the express authorization of the Michigan Public Service Commission. The matter will be considered by the Commission pursuant to its Rules of Practice relating to petitions or complaints.

Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet No. C-6.00

- F. Feedstock gas is natural gas used as a raw material for its chemical properties in creating an end product.
- G. Industrial gas requirements shall refer to any usual industrial use of gas, including but not limited to all gas purchases under the Standard Industrial Classification, listed in the current edition of the Standard Industrial Classification Manual, issued by the Executive Office of the President of the United States.
- H. Process gas is natural gas used in appliances capable of burning a gaseous fuel so as to utilize those combustion characteristics of gaseous fuels such as complete combustion, safe combustion products flame geometry, ease of temperature control to precise levels, and optimum safety of heat application. Specifically excluded are boilers, gas turbines, space heating equipment (other than direct fired makeup air heaters for process purposes) and indirect air heaters.
- I. Requirements for services essential for public health and safety shall mean gas purchased for use by or in connection with hospitals, convalescent homes, nursing homes, medical centers and clinics; water and sewage treatment and waste disposal facilities; civil defense centers and public utility buildings; newspapers, radio and television stations; fire stations, police stations, jails and penal institutions; and such other uses of gas are found qualified by the Michigan Public Service Commission as requirements of services essential for public health and safety; provided, however, that boilers, turbines and engines which have alternate fuel capability shall not qualify as requirements for services essential for public health and safety without the express authorization of the Michigan Public Service Commission. The matter will be considered by the Commission pursuant to its Rules of Practice relating to petition or complaints.
- J. Residential gas requirements shall include all gas usage metered and consumed within an individual household, and reasonably appurtenant and related to and normally associated with such a household, for such applications as space conditioning, cooking, water heating, refrigeration, clothes drying, incineration, lighting and other similar household applications. The term "household" includes single-family homes, farm homes, seasonal dwellings, duplexes and individual living units within mobile home parks, condominiums, apartments and cooperatives; provided, however, to qualify for residential usage a household must have the normal household facilities such as bathroom, individual cooking and kitchen sink facilities.

### C3 CURTAILMENT OF GAS SERVICE

#### C3.1 Definitions:

The following terms used in this Rule have the meanings hereinafter set forth:

- A. Capacity Deficiency shall mean situations whereby gas demand exceeds the capacity of the Company's pipeline system to deliver quantities of gas commensurate with such demand, but such that the full design capacity of the Company's pipeline system is unaffected.
- B. Capacity Restriction shall mean restriction due to Force Majeure or other impairment of the Company's facilities such that the full design capacity of the Company's pipeline system is not available.
- C. Commercial Gas Requirements shall include all service to Customers engaged primarily in the furnishing or sale of goods or services including schools, local, state and federal government agencies, penal or corrective institutions, motels, hotels, dormitories, nursing homes, tourist homes, military barracks, hospitals, special care facilities or any other facilities primarily associated with the purchase, sale or supplying (for profit or otherwise) of a commodity, product or service by a public or private person, entity, organization or institution other than those involving manufacturing or electric power generation.
- D. Curtailment (including Curtail, Curtailed, or Curtailing) shall mean partially or completely suspending gas Deliveries and/or services to its Customers under the Company's Rate Book for Natural Gas Service ("Tariff") when the Company does not have sufficient supply of gas or system capacity to serve its existing Customer's gas requirements due to a Supply Deficiency, Capacity Deficiency, Capacity Restriction, Gas Quality Deficiency, or other situations of Force Majeure which affect the Company's pipeline system, on-system gas storage assets, off-system gas storage services, interstate pipeline gas services, and/or intrastate pipeline gas services, the Company shall Curtail service to Customers beginning with the lowest priority category (Priority 8) until gas supply is sufficient to serve all remaining Customers.
- E. Customers, unless otherwise specified, shall mean Gas Sales Service Customers, Gas Customer Choice Customers, and Gas Transportation Customers.
- F. Deliveries shall mean quantities of gas delivered to the Customer's meter.
- G. Gas Customer Choice Customer shall mean those Customers served under Section F of the Company's Tariff.
- H. Gas Quality Deficiency shall mean situations where the Company cannot provide continuous service to its Customers, and the Company's system operations because of defective gas quality.
- I. Gas Sales Service Customers shall mean those Customers served under Section D of the Company's Tariff.

C3 CURTAILMENT OF GAS SERVICE

C3.1 Definitions

The following terms used in this Rule have the meanings hereinafter set forth:

- A. Blanket certificate customer is a transportation customer who has contracted with the Company to transport gas in interstate commerce pursuant to a blanket certificate issued to the Company by the Federal Energy Regulatory Commission.
- B. Capacity deficiency shall mean emergency situations whereby anticipated load temporarily exceeds the capacity of the Company's pipeline system to deliver volumes commensurate with such load, but such that the full design capacity of the system is unaffected. See Section C3.2 D(2). of this rule.
- C. Capacity restriction shall mean restriction due to damage to the Company's facilities such that the full design capacity of the pipeline system is not available. See Section C3.2 D(1). of this rule.
- D. Commercial gas requirements shall include all service to customers engaged primarily in the furnishing or sale of goods or services including schools, local, state and federal government agencies and other public or private institutions for use other than those involving manufacturing or electric power generation.
- E. Customers, unless otherwise specified, shall mean sales customers, transportation customers and storage customers.
- F. Deliveries shall mean both transportation and sales volumes.
- G. End use customer is a customer under the Company's sales and transportation rate schedules where the gas is used or consumed on the customer's premises to which the gas was delivered.
- H. Force majeure shall mean acts of God, strikes, lockouts, or other industrial disturbances; acts of the public enemy, wars, blockades, insurrections, riots epidemics, landslides, lightning, earthquakes, fires, storms (including but not limited to hurricane warnings), extreme cold weather, crevasses, floods, washouts, arrests and restraints of the government, either Federal or State, civil or military, civil disturbances. Force majeure shall also mean shutdowns for purposes of necessary repairs, relocation, or construction of facilities; failure of electronic data capability; breakage or accident to machinery or lines of pipe; the necessity of testing (as required by governmental authority or as deemed necessary by the Company for the safe operation thereof), the necessity of making repairs or alterations to machinery or lines of pipe; failure of surface equipment or pipelines; accidents, breakdowns, inability to obtain necessary materials, supplies or permits, or labor to perform or comply with any obligation or condition of service, rights of way; and any other causes, whether of the kind herein enumerated or otherwise which are not reasonably within the control of the Company. It is understood that the settlement of strikes and lockouts or controversies with landowners involving rights of way shall be entirely within the Company's discretion and that the above requirements that any force majeure be remedied with all reasonable dispatch shall not require the settlement of strikes or lockouts or controversies with landowners involving rights of way by acceding to the demands of the opposing party when such course is inadvisable in the discretion of the Company.

Continued From Sheet No. C-8.00

- J. Force Majeure shall mean acts of God, strikes, lockouts, or other industrial disturbances; acts of the public enemy, wars, blockades, insurrections, riots, epidemics, pandemics, landslides, lightning, earthquakes, fires, storms (including but not limited to hurricanes or hurricane warnings), extreme weather (any weather event that increases Customer demand beyond what the Company's system can deliver), crevasses, floods, washouts, loss of utility services (including but not limited to electric power, natural gas or other fuels, water supply, storm water or sewer drain service, radio communications, telephonic communications, fiber communications, cable communications, or internet communications), arrests and restraints of the government, either Federal or State, civil or military, and civil disturbances. Force majeure shall also mean the loss of upstream and/or on-system gas supply (including but not limited to gas supply received from on-system local gas production or on-system gas storage), the inability to schedule or transport gas to the Company's pipeline system from upstream sources, Gas Quality Deficiency, shutdowns for purposes of necessary repairs, relocation, or construction of facilities; failure of electronic data capability; breakage or accident to machinery or lines of pipe; the necessity of testing (as required by governmental authority or as deemed necessary by the Company for the safe operation thereof), the necessity of making repairs or alterations to machinery or lines of pipe; failure of surface equipment or pipelines; accidents, breakdowns, inability to obtain necessary materials, supplies or permits, or labor to perform or comply with any obligation or condition of service, rights of way; and any other causes, whether of the kind herein enumerated or otherwise which are not reasonably within the control of the Company. It is understood that the settlement of strikes and lockouts or controversies with landowners involving rights of way shall be entirely within the Company's discretion and that the above requirements that any Force Majeure be remedied with all reasonable dispatch shall not require the settlement of strikes or lockouts or controversies with landowners involving rights of way by acceding to the demands of the opposing party when such course is inadvisable in the discretion of the Company.
- K. Gas Transportation Customers shall mean those Customers served under Section E of the Company's Tariff.
- L. Industrial Gas Requirements shall include all service to Customers engaged primarily in a process which creates or changes raw or unfinished materials into another form or product including the generation of electric power.
- M. Interruption shall mean restrictions of gas supply or gas transportation services to Customers whose contracts or whereby provisions of the Company's Tariff, allow for the restriction of such gas supply or gas transportation services.
- N. Off System Transportation Service Customer shall mean an Off System Transportation Service Customer as described in Section E of the Company's Tariff.
- O. Requirements For Plant Protection shall mean such minimum quantities of gas required to prevent physical harm to the plant facilities or danger to plant personnel when such protections cannot be afforded through the use of alternate fuel. This includes the protection of such material in process as would otherwise be destroyed, but shall not include deliveries required to maintain plant production.

Commission dated December 9, 2016 in  
Case No. U-17975.

Continued From Sheet No. C-8.00

- I. Industrial gas requirements shall include all service to customers engaged primarily in a process which creates or changes raw or unfinished materials into another form or product including the generation of electric power.
- J. Requirements for plant protection shall mean such minimum volumes of gas required to prevent physical harm to the plant facilities or danger to plant personnel when such protections cannot be afforded through the use of alternate fuel. This includes the protection of such material in process as would otherwise be destroyed, but shall not include deliveries required to maintain plant production.
- K. Requirements for services essential for public health and safety shall mean gas purchased for food processing and for use by or in connection with hospitals, convalescent homes, nursing homes, medical centers and clinics, water and sewage treatment and waste disposal facilities; civil defense centers and public utility buildings; newspapers, radio and television stations; fire stations, police stations, jails and penal institutions; and such other uses of gas as are found qualified by the Michigan Public Service Commission as requirements for services essential for public health and safety; provided, however, that requirements for boilers which have alternate fuel capability shall not qualify requirements for services essential for public health and safety without the express authorization of the Michigan Public Service Commission.
- L. Residential gas requirements shall include natural gas usage for space heating, cooking, water heating, and other residential uses in a single family dwelling or in an individual flat or apartment; or to two or more households served by a single meter (one customer) in a multiple family dwelling, or portion thereof. A "multiple family dwelling" includes such living facilities as, for example, cooperatives, condominiums and apartments; provided each household with such multiple family dwelling has the normal household facilities such as bathroom, individual cooking and kitchen sink. A "multiple family dwelling" does not include such living facilities as, for example, penal or corrective institutions, motels, dormitories, nursing homes, tourist homes, military barracks, hospitals, special care facilities or any other facilities primarily associated with the purchase, sale or supplying (for profit or otherwise) of a commodity, product or service by a public or private person, entity, organization or institution.
- M. Supply deficiency shall mean emergency situations whereby the company is unable to procure adequate gas supplies to meet the demand requirements of its firm system supply customers and firm balancing service to its Transportation customers and that required for the Company's system operations.
- N. System supply customer shall mean those customers who purchase natural gas requirements from the Company.

C3.2 Curtailment of Gas Service

A. Company's Rights to Curtail

The Company recognizes its primary public service obligation is to maintain gas service to its customers. If, in the event of an emergency arising out of causes referred to as force majeure situations, the Company determines that its ability to deliver gas may become inadequate to support service to its customers on its system, the Company shall have the right to partially or completely curtail service to each of its customers in accordance with the order of curtailment set forth below, irrespective of the contracts in force.

1. This plan applies to all gas sales, transportation and storage service provided by the Company.
2. In implementing this curtailment plan, the Company will take into account the extent to which curtailment of customers in a specific portion of the Company's system may or may not remedy the emergency. Thus, curtailment may be limited to certain portions of the Company's system.
3. If a curtailment of firm gas deliveries becomes necessary, the Company shall provide notice to the Commission and all affected customers of the nature, probable duration and extent of such curtailment. Such notice will be given as far in advance as possible. The Company will curtail customers in a nondiscriminatory manner.

B. Steps Prior to Curtailment of Firm Gas Deliveries

In an emergency situation arising out of force majeure, the Company will attempt to minimize the extent of curtailment of firm gas deliveries, or if possible, eliminate the need to curtail firm gas deliveries, by taking the following preliminary steps.

1. Interrupt service provided under interruptible tariff provisions or contracts. Notification deadlines incorporated into interruptible tariffs or contracts are suspended pursuant to this Rule. Notice will be given as far in advance as possible;
2. Restrict deliveries to any customer in excess of the maximum daily quantity (MDQ) specified in the customer's contract. Volumes exceeding the MDQ during the period of curtailment are subject to the unauthorized use charge listed in C3.2 J.;
3. Implement contingency contracts for emergency gas supplies, such as contracts having been established in advance of any emergency. Seek to purchase additional gas supplies to the extent available at reasonable and prudent prices;
4. Make a public service announcement for voluntary dial-down actions by end-use customers;
5. Ask transportation customers and their authorized agents, including those agents managing transportation pools to voluntarily reduce use and/or increase deliveries.

### C3.2 Curtailment of Gas Service

#### A. Company's Rights to Curtail

The Company will use reasonable diligence in its operations to render continuous service to all its Customers other than those Customers served under contracts or tariff provisions contained herein that expressly permit Interruption or Curtailment of service. If, in the event of a Supply Deficiency, Capacity Deficiency, Capacity Restriction, Gas Quality Deficiency, or other events of Force Majeure whereby the Company, in its sole discretion, has determined that its ability to receive, transport, and/or deliver gas may or has become insufficient to support service to its Customers, the Company shall have the right to partially or completely Curtail service to each of its Customers in accordance with the Curtailment Plan set forth below, irrespective of any contracts which may be in force.

1. This right to Curtail applies to all services provided under the Company's Tariff to Gas Sales Services Customers, Gas Customer Choice Customers, and Gas Transportation Customers.
2. The Company will implement Curtailment of gas service by taking into account the extent to which Curtailment of Customers in a specific portion of the Company's pipeline system may or may not remedy the events of Curtailment. Thus, Curtailment may be limited, at the Company's discretion to certain portions of the Company's system.

#### B. Steps Prior to Curtailment

When there is adequate time, and if applicable to the nature of the event(s) which require the implementation of a Curtailment, the Company may take the following steps in order to attempt to mitigate the extent of a Curtailment:

1. Interrupt service provided under interruptible contracts and interruptible provisions of the Company's Rate Book for Natural Gas Service;
  - a. Notification deadlines incorporated into interruptible tariffs or interruptible contracts are suspended pursuant to Curtailment of Gas Service;
  - b. Notice will be given to such interruptible Customers as far in advance as possible.
2. Notify Gas Transportation Customers (including their authorized agents or pool managers) taking Deliveries in excess of their maximum daily quantity (MDQ) not to exceed their contracted MDQ. Also notify Gas Transportation Customers that Deliveries exceeding their MDQ are subject to the unauthorized use charge as described in Section G of this rule;
3. Ask Gas Transportation Customers and their authorized agents or pool managers to voluntarily reduce and/or increase Deliveries to match daily consumption;

authority of the Michigan Public Service  
Commission dated December 9, 2016 in  
Case No. U-17975.

Continued From Sheet No. C-10.00

C. Operational Flow Order

1. Firm balancing services bundled with transportation services and firm balancing services contracted by FERC blanket customers are subject to curtailment by means of an OFO issued by the Company. An OFO provides the means for the Company to flex the level of firm balancing services it provides to any intermediate level, up to and including zero, as necessary to meet the exigencies of an emergency. An OFO will reduce the firm balancing tolerance in one direction, and will be designated as either a positive imbalance or a negative imbalance OFO.

2. Firm storage services may be curtailed by means of an OFO.

The Company's gas storage injection or withdrawal obligations pursuant to any firm storage contracts with its customers are subject to an OFO limiting the level of service to any authorized daily level deemed necessary by the Company to meet the exigencies of an emergency.

3. Notice of an OFO

a. Preliminary notification of an OFO

The Company will notify all potentially affected customers, their authorized agents, and agents managing pools, via telephone and facsimile, as soon as it believes that an OFO may be required. Notice will indicate the nature of the potential emergency, the period it may be in effect, and the anticipated level of curtailment (authorized imbalance tolerance level or authorized storage injection/withdrawal levels).

b. Notification of an OFO

If the decision is made to issue an OFO, the Company will notify all affected customers, their authorized agents, and agents managing pools, via telephone and facsimile. The Company will attempt to issue notice as soon as possible in advance of the deadline for nominations on the upstream pipelines. Notice will indicate the period the OFO will be in effect, will specify whether the Company is curtailing the negative imbalance tolerance level or the positive imbalance level, and indicate the authorized tolerance level of each. Notice will indicate the need for intra-day nomination changes, if necessary, to balance usage with gas deliveries to the Company. OFOs curtailing storage services will indicate the authorized injection/withdrawal level.

4. Penalties for violation of an OFO

After the Company has provided actual notice of implementation of an OFO, any gas usage in excess of the authorized imbalance tolerance specified by the OFO, and during the period in which the OFO is in effect, will be subject to unauthorized use charges, with such charges being in addition to those normal charges (excluding penalties) made under the applicable rate schedules. For customers grouped into transportation pools, penalties will be assessed by the Company to the authorized agent managing the pool and not to the individual customers of the pool.

authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet C-11.00

B. Steps Prior to Curtailment (Contd)

4. Seek to purchase additional gas supplies;
5. Make a request to Customers to take voluntary dial-down actions.

C. Notice of Curtailment

When Curtailment becomes necessary, the Company will attempt to provide notice to the Commission and all affected Customers of the nature, probable duration, and extent of such Curtailment except where actions by foreign, federal, state, or local government or regulatory agencies preclude the giving of such notice. When possible, notice of Curtailment will be given as far in advance as possible if the nature of the event(s) causing Curtailment allows for such advance notice.

D. Method of Curtailment

1. Curtailments shall be made in accordance with the Curtailment priorities set forth in Section E of this Rule, beginning with the lowest priority category (Priority 8) and proceeding to the next highest priority category. The total Curtailment shall equal the estimated deficiency of gas brought about by the demands of all Customers purchasing system supply gas on those portions of the Company's pipeline system affected by the Curtailment.
2. Curtailments may be simultaneously instituted in more than one Curtailment category.
3. For the Company's pipeline system(s) affected by Curtailment, all Gas Transportation Customers and their authorized agents and/or pool managers shall be notified that the affected Gas Transportation Customers will be removed from their respective balancing pools and that all nominations must be made to their physical point of receipt (gate station) into the Company's distribution system(s).
4. If Curtailment becomes necessary due to a Capacity Restriction, the Company shall determine the amount of remaining system capacity available to serve its Customers. If the Company determines that residual system capacity (available system capacity above the capacity required to serve its Gas Sales Service Customers and Gas Customer Choice Customers) is available to serve the Company's Gas Transportation Customers, such residual capacity will be allocated proportionally among the Gas Transportation Customers associated with the affected system(s) based on their currently effective MDQ.
5. Off System Transportation Service Customers are exempt from Curtailment during a Supply Deficiency situation.

Filed 

Effective for service rendered on  
and after December 10, 2016. Issued under  
authority of the Michigan Public Service  
Commission dated December 9, 2016 in  
Case No. U-17975.

Continued From Sheet C-11.00

a. Negative imbalances exceeding OFO daily balancing threshold; storage withdrawals exceeding curtailment allocation.

The charge for such unauthorized usage shall be the highest price reported for the MichCon, Consumers Energy and Chicago LDC's during the period of curtailments as reported by Gas Daily or, to the extent that Gas Daily discontinues its reporting of such prices, any comparable reporting service, plus \$10 per Dth. Failure to pay an unauthorized use charge shall subject the customer to termination of gas service.

b. Positive imbalances exceeding OFO balancing threshold; gas storage injections exceeding curtailment allocation.

If the Company issues a positive daily imbalance OFO, positive imbalances exceeding such threshold will be subject to forfeiture (trespass gas).

c. Unauthorized use charges will be credited to the Company's Booked Cost of Gas Sold as defined in Section C7.2 of the Company's Rules and Regulations. Trespass gas will be credited to the Company's Booked Cost of Gas Sold at zero cost.

d. In instances where customer violation of curtailment causes the Company to incur imbalance penalties on up-stream pipelines, and where incurring of pipeline penalties cannot reasonably be avoided by acquisition of gas supplies at the Company's city gate stations, then the cost of such pipeline penalties will be passed through to the customer in violation. Pipeline penalties assessed to customers are in addition to the regular unauthorized usage charge.

D. Method of Curtailment of Firm Gas Deliveries

Curtailment may be simultaneously instituted in more than one curtailment category provided that gas usage falling within a lower priority category is being completely curtailed.

If system deliverability permits only delivery of gas to a given priority category of use, curtailment will be effected on the basis of a pro rata sharing using the base period deliveries to customers for that priority category. If a customer has entered into an arrangement for voluntary reduction of use and/or increase in deliveries pursuant to Paragraph B.5. above, the volumes associated with such voluntary reductions of use or increased deliveries shall be attributed to that customer's pro rata share.

Upon notice of a curtailment, the company shall give customers with multiple locations, the option to select which location will be subject to curtailment, consistent with the practical and physical constraints of the Company's system.

Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet C-12.00

E. Curtailment Priorities

For purposes of Curtailment, eight categories are established with Priority 8 constituting the lowest priority and Priority 1 being the highest priority.

- |            |  |
|------------|--|
| Priority 8 | Firm transportation services to Off System Gas Transportation Customers.   |
| Priority 7 | Firm daily balancing services provided to Gas Transportation Customers.  |
| Priority 6 | All non-residential Customers having alternate fuel capability for that portion of their load covered by the alternate fuel and all emergency sales of system supply gas to Gas Transportation Customers.    |
| Priority 5 | Transportation Gas Requirements under rate class TR-3, TR-2, and TR-1.   |
| Priority 4 | Industrial Gas Requirements and Commercial Gas Requirements under rate class GS-3.   |
| Priority 3 | Industrial Gas Requirements and Commercial Gas Requirements under rate class GS-2.   |
| Priority 2 | Industrial Gas Requirements and Commercial Gas Requirements under rate class GS-1.   |
| Priority 1 | Residential Gas Requirements under the Residential Service Rates, Requirements For Plant Protection, and Requirements For Services Essential For Public Health And Safety not supplied by an alternate fuel. |

F. Rate Adjustments

A Customer shall not be liable for any part of a monthly service charge provided in a rate schedule if such Customer's consumption under that rate is completely Curtailed for the entire billing period. No other rate adjustments will be permitted unless otherwise provided by contract.

G. Enforcement

1. The Company reserves the right to take special daily or hourly meter reads during periods when a Curtailment has been instituted pursuant to this Section C. The Company reserves the right to inspect the Customer's equipment, to install special metering, and to immediately physically interrupt gas service for violations of this Rule. Once gas service is terminated, the Company may withhold such service during the period of Curtailment until it is satisfied that the terms and conditions of this Rule will be observed.
2. There is nothing in this Rule that shall prevent a Customer from challenging before the Commission Curtailment or continuation of a Curtailment or that shall abridge the Customer's right to appeal any such determination to the Commission.

Effective for service rendered on  
and after December 10, 2016. Issued under  
authority of the Michigan Public Service  
Commission dated December 9, 2016 in  
Case No. U-17975.

Continued From Sheet C-12.00

1. Capacity restriction

If a curtailment of firm gas deliveries becomes necessary due to capacity restrictions, the Company shall determine the amount of firm service capacity that is available (residual firm capacity). The Company shall allocate that residual capacity between (i) firm transportation service provided pursuant to a FERC blanket certificate (Blanket Certificate Customers) and (ii) all other services (Other Customers), such allocation being made pro rata between such two classes of service, based upon the daily volumes scheduled for service by each class in the gas day immediately preceding curtailment.

a. The residual firm capacity which is allocated to the Other Customers shall be allocated pro rata among the members of that class, based upon the most current daily nominations prior to curtailment.

b. The residual firm capacity which is allocated to the Other Customers shall be curtailed in accordance with the curtailment priority categories set forth in Section F of this Rule, beginning with Curtailment Priority Five and proceeding to the next highest priority category.

c. Firm imbalance services provided to transportation customers, including Blanket Certificate Customers, may be subject to an OFO. Daily nominations of transportation pools, or individual transportation customers, must be equal to or less than allocated capacity.

2. Capacity deficiency

If curtailment of firm deliveries becomes necessary due to an emergency situation resulting in a capacity deficiency, the Company shall curtail gas service in accordance with Section C3.2 D, subject to the following conditions:

a. Firm imbalance services provided to Blanket Certificate Customers may be subject to an OFO. Firm deliveries within imbalance tolerance levels established by the OFO are exempt from curtailment.

b. Firm imbalance services provided to transportation pools or individual transportation customers may be subject to an OFO. Daily nominations of transportation customers, or transportation pools, must be equal to or less than allocated capacity.

3. Supply deficiency

If curtailment of firm deliveries becomes necessary due to an emergency situation resulting in a supply deficiency, with no associated capacity restriction or capacity deficiency, the Company shall curtail gas service in accordance with Section C3.2 D, subject to the following conditions:

authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet C-13.00

H. Unauthorized Use Charge

After the Company has provided actual oral or written notice of implementation of Curtailment to an affected Customer, any gas used by such Customer in excess of the quantities authorized during the period when a Curtailment has been instituted pursuant to this Rule will be subject to unauthorized use charges, with such charges being in addition to those normal charges (excluding penalties) made under the applicable rate schedules.

1. The charge for such unauthorized usage shall be the highest price reported for the Mich Con (also known as DTE Gas), Consumers Energy and Chicago LDCs during the period of Curtailment as reported by Gas Daily or, in the event that Gas Daily discontinues its reporting of such prices, any comparable reporting service, plus \$10 per Dth. Failure to pay an unauthorized use charge when rendered shall subject the Customer to termination of gas service.
2. Unauthorized use charges will be credited to the Company's Booked Cost of Gas Sold as defined in Section C7.2 of the Company's Rules and Regulations.
3. In instances where Customer violation of Curtailment causes the Company to incur incremental fuel charges, overrun charges and/or penalties on up-stream pipelines, and where incurring of such pipeline penalties cannot reasonably be avoided by acquisition of gas supplies at the Company's city gate stations, then the cost of such pipeline penalties will be passed through to the Customer in violation. Pipeline penalties assessed to Customers are in addition to the regular unauthorized usage charge.
4. In instances where Customer violation of Curtailment causes the Company to incur labor and material costs associated with incremental operating and maintenance activities including, but not limited to: Customer meter shut-offs; Customer meter turn-ons; Customer re-lights; operation, maintenance, or repairs of Company gas facilities; then the cost of such incremental activities will be passed through to those Customer(s) in violation.
5. Incremental labor and material costs associated with a violation of Curtailment shall not be credited to the Company's Booked Cost of Gas Sold as defined in Section C7.2.

The Company may discontinue service without notice other than personal notice at the time of discontinuance, in case the meter or piping on the customer's premises is tampered with in any manner to allow unmetered gas to be used.

The Company will discontinue service to any customer upon request by the customer. However, if reconnection is requested by the same customer on the same premises within one (1) year after discontinuance, the customer shall be charged a turn-on charge.

Continued From Sheet C-13.00

a. Firm imbalance services provided to Blanket Certificate Customers may be subject to an OFO. Firm deliveries within imbalance tolerance levels established by the OFO are exempt from curtailment.

b. Firm imbalance services provided to intrastate transportation pools or individual transportation customers may be subject to an OFO. Firm deliveries within imbalance tolerance levels established by the OFO are exempt from curtailment.

E. Base Period

1. For Priorities Two through Five

a. For the purpose of determining the customer's volumes within each curtailment priority category, a twelve month base period shall be established. Such base period shall be fixed for the term of the curtailment. The base period volumes shall consist of the twelve consecutive monthly deliveries ending June of each year. In those instances where the customer has encountered strikes, interruption of gas service or unavoidable abnormalities, the Company may make reasonable adjustments to normalize the customer's requirements. Base period volumes shall be adjusted for equipment added and new loads.

b. In determining monthly deliveries, the Company shall determine the gas during each month of the period described above for all buildings, parts of buildings, and equipment associated with each customer's gas billing in accordance with the Company's Rules and Regulations. Volumes specified in Curtailment Priority Two through Five shall apply in the aggregate for all equipment of the same end use rather than on a unit of equipment basis.

c. The monthly deliveries so determined, with such adjustments as provided above, shall then be used as the monthly requirements specified in the Curtailment Priority Categories. In determining a customer's Curtailment Priority Category, the applicable monthly requirements in the base period shall be used.

2. For Priority One

a. The Company will use its best judgment in responding to exigencies demanding curtailment of Priority One residential customers, thus no base load period volume are established for this sub-class.

b. Base period volumes for commercial gas requirements, plant protection, and services essential for public health and safety will be established concurrently with, and using the same procedures as the calculation of base period volumes for Priority Two through Five.

F. Curtailment Priorities

1. For purposes of curtailment, firm end use sales and transportation customers (whose service is not provided pursuant to a blanket certificate by the FERC) will be treated equally in accordance with the curtailment priority categories set forth. Six categories are established with Priority Six being the first category to be curtailed and Priority One being the last.

PRIORITY SIX

Firm daily balancing services provided to transportation customers and transportation pools.

PRIORITY FIVE

All non-residential customers having alternate fuel capability for that portion of their load covered by the alternate fuel, and all firm sales of gas not provided to the Gas Cost Recovery (GCR) customers.

PRIORITY FOUR

Commercial and industrial gas requirements in excess of 10,000 Dth per the base load period month being curtailed.

PRIORITY THREE

Commercial and industrial gas requirements of 2,573 Dth to 10,000 Dth per the base period month being curtailed.

PRIORITY TWO

Non-residential customers having commercial gas requirements of 834 Dth to 2,573 Dth per the base period month being curtailed and industrial gas requirements of 8,334 Dth per the base period month being curtailed.

PRIORITY ONE

Residential gas requirements, commercial gas requirements of 834 Dth or less per the base period month being curtailed, requirements for plant protection, and requirements for services essential for public health and safety not covered by an alternate fuel.

Effective for service rendered on  
and after January 7, 2011. Issued under  
authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet No. C-15.00

2. The volumes of gas destined to end users of other local distribution companies (LDC) shall be classified into the same priority categories as the Company's onsystem sales and transportation customers if the LDC provides the Company with the information necessary to make such a classification and an affidavit verifying the accuracy of such information. Such information shall be provided for each priority category in a manner similar to the information regarding the base period volumes of other customers as set forth in Paragraph E above. Any volumes for which the LDC fails to provide such information shall be presumed to be Priority Five.

3. During an emergency curtailment of gas service, public utilities that generate and distribute electricity shall be granted Priority One service for that portion of the gas requirements of owned or firm contracted generation necessary to the discharge of the utilities' obligation to provide essential services.

a. Such classification of volumes qualifying for Priority One shall be contingent upon the electric utility exercising due diligence in taking reasonable steps to minimize the use of natural gas during the course of the gas emergency, and consistent with maintenance of electric system integrity. To the extent that certain actions can minimize the use of natural gas, such actions may include, but are not limited to the following:

- i. Bring on line any non-gas reserve capacity.
- ii. Switch gas fired dual-fuel generating plants to an alternate fuel.
- iii. Attempt to procure incremental power.
- iv. Curtail all non-firm off-system electric sales.
- v. Interrupt service to controlled and/or interruptible electric loads.

#### G. Diversion of Customer-Owned Gas During Gas Emergencies

If the Company determines that its ability to deliver gas is inadequate to support continuous service to its customers on its system and it enforces the curtailment plan established in this Rule, the Company may, at its discretion, give end user transportation customers the option to sell to the Company their flowing pipeline supplies that have been curtailed. The price of the purchased gas will be negotiated between the transportation customer and the Company but be limited to the higher of (a) the customer's reasonable cost associated with using alternate fuels during the period of diversion, (b) the actual cost of the customer's diverted gas, or (c) the highest price reported for the Mich Con, Consumers Energy and Chicago LDCs during the period of curtailment as reported by Gas Daily or, in the event that Gas Daily discontinues its reporting of such prices, any comparable reporting service. The Company shall not divert gas from transportation customers who do not have title to the gas being transported unless the owner of such gas voluntarily agrees that its gas may be purchased, borrowed or otherwise diverted by the Company.

#### H. Rate Adjustments

A customer shall not be liable for any part of a monthly service charge provided in a rate schedule if such customer's consumption under that rate is completely curtailed for the entire billing period. No other rate adjustments will be permitted unless otherwise provided by contract.

#### I. Enforcement

1. The Company reserves the right to take special daily or hourly meter reads during periods when an Operational Flow Order (OFO) and/or curtailment of firm gas service has been instituted pursuant to Part C3.2 of this Rule. The Company reserves the right to inspect the customer's equipment, to install special metering, and to immediately physically interrupt gas service for violations of this Rule. Once gas service is terminated, the Company may withhold such service during the period of curtailment until it is satisfied that the terms and conditions of this Rule will be observed.

2. There is nothing in this Rule that shall prevent a customer from challenging before the Commission the Company's administration of a curtailment or that shall abridge the customer's right to appeal any such determination to the Commission.

#### J. Penalty for violation of curtailment of firm gas deliveries

After the Company has provided actual oral or written notice of implementation of curtailment pursuant to Part C3.2 to the affected end use customer, any gas used by such customer in excess of the volumes authorized during the period of curtailment has been instituted pursuant to Part C3.2 of this Rule will be subject to unauthorized use charges, with such charges being in addition to those normal charges (excluding penalties) made under the applicable rate schedules.

1. The charge for such unauthorized usage shall be the highest price reported for the Mich Con, Consumers Energy and Chicago LDCs during the period of curtailment as reported by Gas Daily or, in the event that Gas Daily discontinues its reporting of such prices, any comparable reporting service, plus \$10 per Dth. Failure to pay an unauthorized use charge when rendered shall subject the customer to termination of gas service.

2. Unauthorized use charges will be credited to the Company's Booked Cost of Gas Sold as defined in Section C7.2 of the Company's Rules and Regulations.

3. In instances where customer violation of curtailment causes the Company to incur imbalance penalties on up-stream pipelines, and where incurring of pipeline penalties cannot reasonably be avoided by acquisition of gas supplies at the Company's city gate stations, then the cost of such pipeline penalties will be passed through to the customer in violation. Pipeline penalties assessed to customers are in addition to the regular unauthorized usage charge.

#### C4. APPLICATION OF RATES

##### C4.1 Rate Schedules:

Unless otherwise specifically provided for in the rate schedule applicable, service will be supplied to each installation through one meter. Gas consumed by the same person, firm or corporation, and delivered and measured at different locations, will be billed separately for each location and not as one customer.

In some cases the customer is eligible to take service under a choice of rates. Upon request, the Company will advise the customer in the selection of the rate which will give him the lowest cost of service, based on the information at hand, but the responsibility for the selection of the rate lies with the customer.

After the customer has selected the rate under which he elects to take service, the customer will not be permitted to change from that rate to another rate until at least twelve months have elapsed. Neither will the customer be permitted to evade this rule by temporarily terminating service. However, the Company may, at its option, waive the provisions of this paragraph where it appears that an earlier change is requested for permanent rather than for temporary or seasonal advantage. The intent of this rule is to prohibit frequent shifts from rate to rate.

No refund will be made of the difference in charges under different rates applicable to the same class of service.

##### C4.2 Special Taxes:

In any municipality or township in which special taxes, license fees or street rentals may be levied against the Company, and with respect to which the levy has been successfully maintained, the rate schedules applicable to service in such area shall be increased to offset such special charges which may be levied in order to prevent the customers in other localities from being compelled to share in any portion of such local increases. Rate schedules shall also be increased to offset any new or increased specific tax or excise imposed by any governmental authority upon the Company's production, purchase, distribution or sale of gas where the amount of such tax or excise is measured by the unit or units of gas produced, purchased, distributed or sold.

##### C4.3 Terms of Service:

A written agreement may be required from each customer before service will be commenced. A copy of the agreement will be furnished to the customer upon request.

Service agreements shall remain in force for the term stated, if any, and in any event for the full period during which service is taken and until three days after receipt by the Company at its office of written notice, from the customer, of his wish to discontinue service.

##### C4.4 Rate Schedule:

###### A. Apartment Buildings and Multiple Dwellings:

A customer receiving gas through a single meter to a building containing more than four apartments or dwelling units will be classified as a commercial customer, and will have one bill under the appropriate commercial service rate schedule.

authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet No. C-18.00

If the building has meters and services for each apartment, the apartment will be classified residential and service will be billed to each service under the Residential Service Rate schedule.

B. Combined Residence and Commercial or Industrial Service:

Where one building is used by a customer as a commercial or industrial establishment and also as a residence, the piping shall be so arranged that the business and residence parts may be metered separately and a bill rendered for each class of service. If, for reasons acceptable to the Company, separation is not effected, the combined service shall be classified as commercial service and shall be billed under the applicable rate.

C4.5 Centrally Metered Installation:

A. A centrally metered installation serving multiple living units, such as apartments, multiple family units or mobile home courts, is one that meets the following conditions:

1. The Complex is served by a single meter installation; and
2. The fuel lines are buried underground from the central meter installation to the location at which each fuel line enters each building or mobile home at its outside wall; and
  - a. where the complex consists of two or more separate buildings, such as apartments, multifamily dwellings, dormitories or similar type buildings are supplied with gas and at least two buildings so supplied contain four or more living units, or
  - b. where the complex consists of mobile homes, four or more living mobile homes used as living units are supplied with gas.
3. A centrally metered installation may also be an individual building served by a single meter installation where gas is supplied to multiple units.
4. Multiple living unit usage shall consist of the gas supplied for the individual dwelling units as well as all usage normally associated with buildings containing multiple living units.
5. All buried fuel lines from the outlet side of the Company's meter, up to the outlet side of the above ground shutoff valve adjacent to the outside wall of each structure served, in addition to the pipe from the property line to the meter, shall be considered service lines.
6. Penal and corrective institutions are not considered to be centrally metered installations.

B. New Centrally Metered Installations

The cost of the gas main extension and all service lines (as defined above) shall be paid for in accordance with the Company's Rule C9, Customer Attachment Program. All service lines shall be installed, owned, operated and maintained by the Company.

C. Additions to an Existing Centrally Metered Installation

At the customer's request, the Company shall extend gas service to an addition to an existing centrally metered installation. Additional service lines shall be installed in accordance with the Company's Rule C9, Customer Attachment Program.

D. Customer Owned Centrally Metered Installation

Where the customer owns the service lines in a centrally metered installation, the customer must inspect, operate and maintain the installation in accordance with applicable code requirements or must enter into a contract with a person who is qualified to inspect, operate and maintain the installation in accordance with applicable code requirements. The company shall offer the customer a contract which provides for the operation and maintenance in accordance with applicable code requirements. Under the terms of the contract, the Company shall be permitted to recover the direct cost for service performed plus an appropriate administrative overhead.

## C5. CUSTOMER RESPONSIBILITIES

### C5.1 Application for Service:

A written application, accepted by the Company, or a written contract may be required from each prospective customer requesting gas service before such service is supplied, whether or not a new installation by the Company is involved. This rule shall also apply in cases involving (a) the unsealing of a meter where service has previously been supplied, (b) a change in the class or service, and/or (c) a change in the name of the customer.

### C5.2 Credit, Deposits and Guarantees:

The Company may require, as a guarantee of payment of current bills, a reasonable cash deposit from a customer or prospective customer in accordance with the Company's Billing Standards. The Company may waive this requirement with respect to any customer whose credit is established as being satisfactory to the Company, or whose account may be guaranteed by a responsible party in lieu of a deposit. Any deposit shall be handled in accordance with the Company's Billing Standards rules.

### C5.3 Service on Customers' Premise:

When requested, designated employees of the Company will investigate gas leaks on customer owned piping, whereupon, if a hazardous condition should be detected, the employee will terminate service until such condition has been repaired. This service will be performed free of charge.

If requested by the customer, the employee may furnish repair services with a charge to the customer at the Company's time and materials rate.

### C5.4 Customer's Piping and Utilization Equipment:

The Company reserves the right to deny or terminate service to any customer whose piping or equipment shall constitute a hazard. However, it disclaims any responsibility to inspect the customer's piping or equipment and shall not be held liable for any injury or damage resulting from the condition thereof.

### C5.5 Bills and Remittances:

Bills for gas service shall be rendered once each month, as nearly as is possible on a normal monthly period, and shall be due and payable on or before the due date shown on each bill. The Company will schedule meters to be read at least bimonthly on or about the same day of such meter-reading month. In monthly periods intervening between actual meter readings, the bills will, under ordinary conditions, be based on past service records, except the bills for space heating service, which will be on a basis of average outside temperatures in degree days. If, in any instance, the past service records are not available or practicable for use, then such billing will be based upon such service data as are available. All accounts shall be adjusted as necessary each time the actual meter readings are obtained.

Effective for service rendered on  
and after January 7, 2011. Issued under  
authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet No. C-21.00

Bills rendered for gas service in months in which meters are not read shall have the same force and effect as those based upon actual meter readings. Any customer considering himself aggrieved by the application of this rule may read his meter and send the readings to the Company on appropriate forms which will be provided by the Company. The information shown in the bills will include the beginning and closing dates of the period for which the bill is rendered, the meter readings, actual or estimated, the number of units, the net and gross amounts payable, the due date, the statement that any tax which the utility is authorized to collect from its customers is included in the amount billed, a statement that the bill is based on estimated meter readings, if such is the case, and the name and address of the customer. A printed rate schedule will be available to any customer upon request.

The Company shall assess a late payment charge as authorized by the Company's Gas Rate Schedule.

C5.6 Access to Customer's Premises:

The Company's authorized agents shall have access to the customer's premises at all reasonable times to install, inspect, test, read, repair or remove meters and other property of the Company situated on said premises, and to inspect and determine the load characteristics of appliances installed on said premises.

C5.7 Use of Service:

Customers shall not resell, share, or distribute to others any gas supplied by the Company without the written consent of the Company. The Company does not hold itself out as ready to supply gas to any customer for resale, and due to the wide variety of conditions encountered in serving customers on such a basis, separate arrangements will be made in each case. When the resale of gas is consented to by the Company, the Company may require that such resale be made at its established rates then effective for the same class of service in that specific community or area.

C5.8 Equal Monthly Payments:

Bills will be rendered by the Company to the customer monthly in accordance with the tariff selected which is applicable to the customer's service, with the following exceptions:

Year-round residential gas space heating customers shall have the option to paying bills under the Company's Equal Payment Plan (Budget Plan), whereby the total service for the succeeding 12-month period is estimated in advance and bills are rendered monthly on the basis of one-twelfth of the 12-month estimate. The Company may at any time during the 12-month period adjust the estimate so made, and the bills rendered in accordance with such estimate, to conform more nearly with the actual use of service being experienced. The normal equal payment period will be 12-months.

In case the actual service used during any equal payment period exceeds the bills as rendered on the Equal Payment Plan, the amount of such excess shall be paid not later than the third billing month following such equal payment period, except that if the customer discontinues service with the Company under the Equal Payment Plan, any such excess not yet paid shall become payable immediately. In case the actual service used during the equal payment period is less than the amount paid under the Equal Payment Plan during such period, the amount of such overpayment shall, at the option of the Company, be either refunded or credited to the customer at the end of the period.

Effective for service rendered on  
and after January 7, 2011. Issued under  
authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet No. C-22.00

If a customer fails to pay bills as rendered on the Equal Payment Plan, the Company shall have the right to withdraw the plan with respect to such customer and to restore the customer to billing as provided for in the applicable tariffs, in addition to any other rights which the Company may have under such tariffs in case of arrearage in payment of bills.

C5.9 Nonpayment of Bills:

All bills are due and payable by the customer as specified in the tariff applicable to his service. The word "month" as used herein and in the tariffs is hereby defined to be the elapsed time between two successive meter readings approximately 30 days apart.

C5.10 NSF Checks and Charge for Shut-Off Notification or On Premise Collection:

A. Charge for Nonsufficient Funds (NSF) Check

A charge of \$18.00 will be levied upon a customer for each check the customer issues the Company in payment for a gas bill when the check is returned to the Company marked NSF or closed account by the financial institution upon which the check is drawn. This charge will become part of the customer's arrears and will be subject to the same requirements applicable thereto. If the check was written to avoid shutoff, the Company may shutoff after one final contact is attempted.

B. Charge for Shut-Off Notification or On-Premises Collection

A charge of \$11.50 will be levied upon a customer if an employee of the utility is sent to the premise to either serve the customer with a shut off notification or to shut off service, unless the customer presents evidence that reasonably indicates the claim has been satisfied or is currently in dispute. The utility shall not assess this fee twice for the same premise visit. The customer may elect to make payment at that time; however, the charge for sending an employee to the premise will still apply. This charge will become part of the customer's arrears and will be subject to the same requirements applicable thereto.

C5.11 Discontinuance of Service:

The customer is responsible for the payment of bills until service is ordered discontinued and the Company has had reasonable time for securing a final reading. If any bill for gas service rendered by the Company to a customer remains unpaid for a period of five (5) days after the due date, the Company shall have the right to issue a notice in writing of its intent to discontinue service and to discontinue such service ten (10) days after such notice has been given. If the bill in question is paid under protest, in order to secure continuity of service, and it is later shown the bill was in error, the customer shall be entitled to a refund.

**The Customer or Shipper shall not tamper with or adjust the Company’s metering facilities and other associated meter equipment. Unsupervised and unauthorized installation of remote monitoring equipment, tampering with or adjustments to the Company’s metering facilities and other associated meter equipment may result in discontinuance of service. If such tampering results in equipment damage or unauthorized consumption of gas by Customer or Shipper, the Company reserves the right to recover all unbilled service revenue and costs associated with such unauthorized consumption of gas including but not limited to, costs for discovery, repair and investigation.**

C5.12 Turn-On Charges:

Transfers of service, where service at a premise is transferred from one customer to a subsequent customer, and where the transfer does not require the dispatch of a Company employee to the premise, shall be made with a charge of \$5.00 to the customer (transferee) **establishing service**. A premise with a Landlord Agreements shall be exempt from this charge **if service is transferred to the landlord**. Where a service turn-on requires the dispatch of a Company employee to the premise, the following turn on charges shall apply:

**A. In the case of the same customer requesting turn-off and turn-on at the same premise within one year, the customer shall be charged \$75.00.**

B. In all other circumstances where a service turn-on requires the dispatch of a Company employee, a single service turn-on charge of \$50.00 will be collected. This charge will become part of the customer’s arrears and will be subject to the same requirements applicable thereto.

C5.13 Receipt or Delivery Facility Capacity Deficiency

Where the rated capacity of a Company supply receipt facility, or a supply delivery facility owned by an up-stream pipeline or storage provider, has been exceeded or is likely to be exceeded on a given day, the Company may apply the curtailment priorities given in rule C3.2 E to customers behind an affected receipt or delivery facility. Shippers will be notified of a gate station constraint in accordance with the requirements for issuance of an IBR.

## C6. METERING

### C6.1 Meters, Metering Equipment and Regulators:

The Company will furnish and maintain one meter or one set of metering equipment, and, when required, one regulator for each service contract. The customer shall provide, free of expense to the Company, at the point of service termination, located outside, suitable space for the installation of the necessary meter, metering equipment and/or regulator. Such a location shall be in accordance with all applicable codes and standards.

For customers with large or unusual facility requirements the Company may require the customer, at the customer's cost, to allow the Company to install a concrete foundation of appropriate size and thickness suitable for the installation of metering and pressure control equipment. Those customers may also be required to make special contractual arrangements with the Company for the large or unusual facilities.

Customers requesting delivery pressure above seven inches water column may be charged a fee for the additional metering and pressure control equipment necessary to provide elevated delivery pressure.

The customer shall permit only authorized agents of the Company, or other persons lawfully authorized to do so, to inspect, test, repair, or remove such equipment. If meters, regulators or other equipment are damaged or destroyed through neglect on the part of the customer, the cost of necessary repairs or replacements shall be paid by the customer.

### C6.2 Meter Tests, Errors and Adjustments:

The Company shall test meter accuracy upon request of a customer, provided such customer does not make requests for tests more frequently than once a year, and provided further that the customer will agree to accept the results of such tests as the basis for determining any adjustment which may be required. No charge will be made to the customer for the first such test in any five-year period, but if ensuing tests during the same period for the same customer show the meter to be within the allowable limits of accuracy, the Company may charge the customer, at its time and materials cost, for each such test. If such test reveals the meter registration to be outside the accuracy limits prescribed in these rules, any charge for meter testing shall be refunded and a billing adjustment made. The customer shall be entitled to be present at such test, if he makes a request to this effect in writing at the time of filing the request for testing. A report in writing shall be made to the customer by the Company, giving the results of such test. The Company shall retain a record of such test.

C7.3 Billing:

A. In applying the Gas Cost Recovery Factor, per dekatherm, any fraction of 0.01 cent shall be rounded to the nearest 0.01 cent.

B. Each month the company shall include in its rates a Gas Cost Recovery Factor up to the maximum authorized by the Commission as shown on Sheet No. D-3.00. For months in which the Michigan Public Service Commission has not approved a specific Gas Cost Recovery Factor, the Company may include an appropriate Gas Cost Recovery Factor in its rates if authorized by law to do so.

C. The Gas Cost Recovery Factor shall be the same per Dth for each customer metered using a pressure base of 14.65 PSIA. Customers metered at pressures other than 14.65 PSIA shall be billed the appropriate monthly Gas Cost Recovery Factor adjusted by the ratio that the metered pressure bears to 14.65 PSIA. The factor shall be placed into effect in the first billing cycle of each monthly billing period and shall continue in effect throughout all cycles in each monthly billing period.

D. The Gas Cost Recovery Factor shall appear on all GCR customer bills.

C7.4 General Conditions:

A. At least fifteen days prior to each billing month, the company will notify the Public Service Commission Staff as to the actual factor or factors to be billed to its GCR Customers in the subsequent month.

If the factor or factors are subject to change after this date due to an adjustment mechanism, the company will notify the Public Service Commission Staff as to the actual factor or factors to be billed to its Customers as soon as practical after the rate has been determined. The company will also submit the revised tariff sheet D-3.00 showing the new factor or factors at that time.

B. This Gas Cost Recovery Clause is authorized by the provisions of 1982 P.A. 304. A copy of that act is available for public inspection at each business office of the Company. The Company will provide a copy of the act to any customer upon request.

## C8. REFUNDING PROCEDURES

### C8.1 Receipt of Refunds

#### A. Supplier Refunds

By April 15th of each year the Company shall notify the Michigan Public Service Commission Staff of any pipeline or other supplier refunds (other than a routine bill adjustment) received during the prior twelve months ended March 31st. During the period that the GCR clause is suspended, the notification shall include an indication of which amounts may be refundable to customers for periods prior to the April 1999 Billing Cycle and allocations to non GCR customers shall include deductions for Company Use and Lost and Unaccounted for Gas in accordance with C8.3A. This notification shall be in the form of a letter and shall include:

1. The amount of the refund, including interest.
2. Date each refund was received.
3. Source and reason for each refund.
4. Period covered by each refund (historical refund period).

Failure of the Company to report a refund to the Michigan Public Service Commission Staff by the April 15th deadline shall result in an interest penalty of 50% over the normal authorized rate of return on common equity for the period of time that the utility fails to comply with the notification requirement.

### C8.2 GCR Customer Refunds:

#### A. Supplier Refunds

All supplier refunds allocable to GCR customers shall be reflected as reduction to the GCR Cost of Gas Sold in the month received and included in the Cost of Purchased and Produced Gas. No deductions for Company Use and Lost and Unaccounted For Gas volumes shall be made from refunds allocated to GCR customers.

#### B. GCR Reconciliation

Prior year GCR over/under-recoveries due to reconciliation provisions of the Company's GCR Clause shall be computed annually according to the provisions of 1982 PA 304. Such over/under-recoveries and any Commission ordered adjustments or disallowance's associated with the prior GCR year shall be reflected separately below the GCR Cost of Gas Sold line on the GCR Over/Under-recovery Reconciliation report.

authority of the Michigan Public Service  
Commission dated January 6, 2011 in  
Case No. U-16169.

Continued From Sheet No. C-28.00

C. Other Refunds

All other refunds shall be reflected in the month the refund is received and shall be included on a separate line below the Cost of Gas Sold line on the Over/Underrecovery Reconciliation Report so that such refunds are readily identifiable.

C8.3 Non-GCR Customer Refunds

A. All supplier refunds allocable to non-GCR customers shall be allocated on the basis of actual consumption during the historical refund period. Deductions for Company Use and Lost and Unaccounted For volumes shall be made from the non-GCR portion of the refund based upon the actual percentages for Company Use and Lost and Unaccounted For during the historical refund period.

B. Portions of the refunds allocable to non-GCR customers shall be credited to a refund liability account to accrue interest until distributed. The Company shall include an application to refund these moneys in its next GCR Reconciliation filing.

C. The Company is not required to issue checks to customers who are in arrears with the Company, to customers for whom checks were returned as undeliverable in previous refunds or for refund amounts of less than \$5.00. Refunds may be applied against past due amounts owed to the Company and any excess refunded according to these procedures. After 90 days, any returned or uncashed refund checks shall be transferred to the non-GCR refund liability account for refund to non-GCR customers in the next GCR Reconciliation. Rights to any portion of a refund shall not vest until a refund check has been negotiated.

D. Refund completion reports for non-GCR customers shall be submitted to the Michigan Public Service Commission Staff six months following initial distribution of a non-GCR customer refund. Reports, at a minimum, should include the amount authorized for refund compared to the amount actually refunded and the date of the refund distribution.

C9. CUSTOMER ATTACHMENT PROGRAM

A. Purpose

The Company proposes to make extension of its gas mains and/or service lines from time to time, at its own cost, to serve applicants whose requirements will not disturb or impair the service to prior users or will not require an expenditure out of proportion to the revenue obtainable therefrom.

The Company reserves the right to delay or deny a request for service under this rule, if fulfilling such a request could, in the Company's opinion, create conditions potentially adverse to the Company or its customers. Such conditions may include, but are not limited to, safety issues, system operating requirements or capital constraints. The provisions under this Rule are in addition to the existing rules and tariffs for customer gas service.

B. Customer Contribution

A customer contribution shall be required equal to the Connection Fee plus any applicable Fixed Monthly Surcharge plus any Excessive Service Line Fee.

C. Payment of Customer Contribution

For all customers other than land developers and builders the Customer Contribution shall be paid as follows:

The Connection Fee and the Excessive Service Line Fee are payable in lump sum at the time the service agreement is executed by the customer. The Connection Fee is non-refundable. The Excessive Service Line Fee is refundable if the service line has not been installed. If the service line has been installed, the Excessive Service Line Fee is non-refundable. The Fixed Monthly Surcharge shall be payable monthly throughout the surcharge period. The Fixed Monthly Surcharge will commence on the date that the customer receives gas service or six (6) months following the date the service agreement is executed by the customer, whichever occurs first. The customer may at any time elect to pay off the remaining Fixed Monthly Surcharge balance with a lump sum payment equal to the present value of the remaining monthly payments. If the present value of the Fixed Monthly Surcharge is less than \$200.00, the Company may require the customer to make a lump sum payment. The Fixed Monthly Surcharge is assessed to the property served such that any subsequent customer requesting gas service at the property address, once notified by the Company of the amount and duration of such surcharge, shall be liable for the Fixed Monthly Surcharge. Such notification may be verbal, written or in the form of a bill which includes the Fixed Monthly Surcharge. Failure of sellers, agents, lessors or other non-company parties to notify a customer of the Fixed Monthly Surcharge shall not relieve the customer's obligation to pay the Fixed Monthly Surcharge. Failure by the customer to timely pay the Fixed Monthly Surcharge shall result in the discontinuation, termination or denial of natural gas service. For land developers and builders, the customer contribution shall be required in a lump sum in advance of the facility expansion.

I. Model Assumptions

Incremental Revenues:

The incremental revenues will be calculated based on current rates and a forecast of the timing and number of customer attachments as well as the customers annual consumption levels.

Incremental Costs:

1. Carrying Cost Rate

The carrying cost rate will be based on the weighted rate of debt, preferred stock, equity and associated taxes. The cost will be equal to and weighted in proportion to those authorized in the Company's most recent rate order. The carrying cost rate is equal to **10.01%**.

2. Plant in Service

Plant in Service shall reflect the Company's estimated cost to construct distribution mains, customer service lines, meters and pressure regulators or regulating facilities for the Project. The timing of the facility investment, primarily service lines, will correspond with the projected timing of the customer attachments. The facility investment for an individual customer service line will be limited to the greater of 400 feet or 150 % of the average length of all service lines within the Project.

3. Carrying Costs

The Carrying Costs will be the product of the average of beginning and end-of-year net plant. Plant in Service minus accumulated depreciation minus deferred taxes, multiplied by the Carrying Cost Rate, noted in paragraph 1 above.

4. Depreciation

Depreciation expense will be the product of Plant in Service multiplied by the appropriate prescribed depreciation rates approved for the Company.

5. Property Taxes and Other Operating Expenses

Property taxes will be the product of Plant in Service multiplied by the Company's average property tax rate. All other incremental operating expenses will be included as identified. Incremental O&M will at a minimum include proportional cost for monthly meter reading, billing and mailing.

6. Discount Rate

The Discount rate will be a weighted rate of long-term debt, preferred stock, and common equity. The cost will be equal to and weighted in proportion to those authorized in the Company's most recent rate order. Based on the Company's rate order in Case No. U-16169 dated January 6, 2011, the Discount Rate is equal to 7.22%.

Michigan Public Service Commission dated  
December 06, 2019 in Case No. U-20479

RIDER MRP  
MAIN REPLACEMENT PROGRAM  
RIDER

1. The MRP Rider is limited to the recovery of the removal and replacement of cast iron, unprotected steel and vintage plastic (pre 1978) service lines and mains only. Unless required for the replacement of unprotected metallic main, the costs associated with the removal and replacement or abandonment of protected steel, copper or (post 1977) plastic mains or service lines should be excluded from the MRP recovery mechanisms.
2. The revenue distribution and the accounting provisions produced from this MRP rider shall have no precedential value in the company's next rate case.
3. The Company will set up special accounts for the removal and replacement of the cast iron, unprotected steel and vintage plastic (pre 1978) service lines mains in Account 376.00: Distribution Mains, and Account 380.00: Services. (Sub accounts 376.69 and 380.69.)
4. Plant additions will be replacements of existing plant items and/or additions required to support these replacements in only Account 376.69 and Account 380.69. Such replacements are installed to replace cast iron, unprotected steel and vintage plastic (pre 1978) service lines, mains, ancillary infrastructure and such replacements were not included in the calculation of the rate base in the Company's last rate case (Case No. U-20479).
5. The Company's proposed recovery is based upon an **annual** revenue requirement calculation by rate schedule with the main allocation factor of average and peak and the corresponding number of customers as approved by the Commission in the applicant's last rate case.
6. The Company's calculation is based upon the following:
  - a. Original Cost and Accumulated Reserve for Post 12/31/2019
    1. Used and useful on 1/1/2020
    2. Capital expenditures is limited to new plant under this rider
    3. Adjustments for the retirement of existing assets
  - b. Calculation of post in - service carrying charges on net plant additions and related deferred taxes
    1. Calculated from the date that the applicable assets are used and useful, January 1 of the year following installation.
    2. Based on the Company's embedded interest cost and recorded at the gross rate for recovery on deferred taxes that lessens amount for recovery.
  - c. Calculation of deferred taxes on depreciation
  - d. Proper annual depreciation expense
  - e. Operation and maintenance expense savings resulting from the MRP
  - f. Incremental property taxes associated with net plant additions
  - g. Expenses associated with the cost of meter relocations, removals and all customer owned service lines.

RIDER MRP

MAIN REPLACEMENT PROGRAM RIDER

7. The company will file an annual report by March 31, including the following information:
  - A. Number of MRP mains replaced, corresponding footage and cost
  - B. Number of MRP mains removed, corresponding footage and cost
  - C. Number of MRP customer service lines replaced, corresponding footage and cost.
  - D. Number of MRP customer service lines removed, corresponding footage and cost.
  - E. Number of MRP meters relocated and corresponding cost.
  - F. Number of MRP meters removed and corresponding cost.
  - G. Infrastructure removed or replaced to support the MRP mains removed or replaced and its corresponding cost.
  - H. Sample test that the costs recovered through Rider MRP are not recovered through any other approved tariffs.
  - I. Sample test that the customer bills for each rate schedule include the correct Rider MRP surcharge and are properly billed to the customers during the correct billing periods.
  - J. Sample test that the Rider MRP revenues are properly recorded.
  - K. Sample test that the actual costs associated with the Rider MRP are properly recorded.
8. The company will make the annual report available to all interested parties.
9. The Commission Staff will conduct an annual investigation of the MRP report and file a report by May 20 to the Commission, (e-file docket).
  - A. The Commission staff will limit its review for this MRP to expenses associated with depreciation, amortization of property taxes, AFUDC, and operational and maintenance savings. Amortization of post in-service carrying costs, and its deferred tax effect and deferred taxes on depreciation.
  - B. The Commission staff will make appropriate recommendations as needed.

Applicable to all customers receiving service under the Company’s sales and transportation rate schedules and Special Contract Customers.

**MAIN REPLACEMENT PROGRAM (MRP)**

This MRP Rider as approved by the MPSC recovers the cost of the MRP not included in SEMCO’s base rates. These projects included pipeline replacements and related costs. By having this surcharge in place, SEMCO recovers over time the costs associated with these replacement projects, which should reduce the frequency of expensive general rate cases in the future.

All customers receiving service under Rate Schedules Residential, GS-1, GS-2, GS-3, TR-1, TR-2, TR-3 and Special Contract shall be assessed a monthly charge in addition to the Customer Charge component of their applicable rate which will enable the Company to begin and complete their cast iron/unprotected steel/ vintage plastic (pre 1978) MRP.

The company can bill this surcharge to all of its customers monthly. The program will be reviewed annually, in order to reflect the impact on the Company’s revenue requirements of net plant additions as offset by the operation and maintenance expense reductions during the most recent twelve months ended December 31 of each calendar year. This Rider surcharge will become effective with the first billing cycle of **January 2024**, and reflects the allocation of the required revenue increase needed based upon the main allocation factor of average and peak and the number of customers per rate group as defined and approved in the Company’s last rate proceeding.

The Rider MRP charge will be implemented on a bill rendered basis beginning in **January 2024** and will continue as approved in U-20479 until new rates are established in a future contested case addressing the MRP. The charge for the specific Rate Schedule is:

	<u>Customer Class</u>	<u>Per Customer Meter</u>
	Residential	<b>\$0.72/month</b>
GS-1	General Service	<b>\$1.81/month</b>
GS-2	General Service	<b>\$9.43/month</b>
GS-3	General Service	<b>\$56.87/month</b>
TR-1	Small Volume Transportation	<b>\$165.97/month</b>
TR-2	Large Volume Transportation	<b>\$838.45/month</b>
TR-3	Extra Large Volume Transportation	<b>\$4,190.42/month</b>
	Special Contract	<b>\$4,190.42/month</b>

Rider MRP surcharges will continue until the earlier of either: (i) base rates are established in a future contested case addressing the MRP through self-implementation or Commission Order, or (ii) December 31, 2025.

SECTION C – COMPANY RULES AND REGULATIONS

Part I – Applicable to All Customers

C10. CUSTOMER DATA PRIVACY

C10.1. Definitions

- A. "Anonymized Data" means any Consumption Data or Customer Account Information, from which all identifying information has been removed so that the individual data or information of a customer cannot be associated with that customer without extraordinary effort.
- B. "Aggregated Data" means any Consumption Data from two or more Customers combined so that an individual Customer's Consumption Data cannot be easily determined.
- C. "Contractor" means an entity or person performing a function or service under contract with or on behalf of the Company, including, but not limited to customer service, demand response, energy efficiency programs, payment assistance, payroll services, bill collection, or other functions related to providing natural gas service.
- D. "Customer" means a purchaser of natural gas that is supplied or distributed by a utility for residential or Non-Residential purposes
- E. "Customer Account Information" means personally identifiable information including Personal Data and Consumption Data. Customer Account Information also includes information received by the Company from the Customer for purposes of participating in regulated utility programs, including, but not limited to, bill payment assistance, shutoff protection, renewable energy, demand-side management, load management, or energy efficiency.
- F. "Consumption Data" means customer specific gas usage data, or Weather Adjusted Data, including but not limited to ccf, Mcf, therms, dth, and other information that is collected by the gas meter by the Company and stored in its systems.
- G. "Informed Customer Consent" means, in the case where Written Consent is required: (1) the Customer is provided with a clear statement of the data or information to be collected and allowable uses of that data or information by the party seeking consent; (2) the frequency of data or information release and the duration of time for which the consent is valid; and (3) process by which the Customer may revoke consent. In no case shall silence by the Customer ever be construed to mean express or implied consent to a request by the Company, or its Contractors.
- H. "Personal Data" means specific pieces of information collected or known by the Company that merit special protection including the standard types of positive identification information used to establish an account. Personal Data includes, but is not limited to, name and address in conjunction with birth date, telephone number, electronic mail address, Social Security Number, financial account numbers, driver's license number, credit reporting information, bankruptcy or probate information, health information, network, or Internet protocol address.
- I. "Primary Purpose" means the collection, use, or disclosure of information collected by the Company or supplied by the Customer in order to: (1) provide, bill, or collect for, regulated natural gas service; (2) provide for system or operational needs; (3) provide services as required by state or federal law or as specifically authorized by an order of the Commission; (4) plan, implement, or evaluate programs, products or services related to energy assistance, demand response, energy management, energy efficiency, or renewable energy by the Company or under contract with the Company, under contract with the Commission, or as part of a Commission-authorized program conducted by an entity under the supervision of the Commission, or pursuant to state or federal statutes governing energy assistance.

Effective for bills rendered on and after October 25, 2018. Issued under authority of the Michigan Public Service Commission dated October 24, 2018 in Case No. U-18485.

Continued From Sheet No 38.00.

C10.1. Definitions (Contd)

- J. "Secondary Purpose" means any purpose that is not a Primary Purpose.
- K. "Standard Usage Information" means the usage data that is made generally available by the gas utility to all similarly situated Customers on a regular basis, delivered by the gas utility in a standard format.
- L. "Third-party" means a person or entity that has no contractual relationship with the Company to perform services or act on behalf of the Company.
- M. "Weather Adjusted Data" means gas consumption data for a given period that has been normalized using the stated period's cooling degree days.
- N. "Written Consent" means written correspondence clearly communicating the Customer's intention to allow disclosure received through mail, facsimile, or email, and signed, either with ink or by means of electronic signature.

C10.2 Collection and Use of Data and Information

- A. The Company or its Contractors collect Customer Account Information, Consumption Data, and Personal Data as necessary to accomplish Primary Purposes only.
- B. The Company may collect and use Customer Account Information, Consumption Data, and Personal Data for Primary Purposes without Informed Customer Consent.
- C. Informed Customer Consent is necessary before collection, use, or disclosure of Customer Account Information, Consumption Data, and Personal Data for Secondary Purposes.
- D. The Company will not sell Customer Account Information, Consumption Data, and Personal Data except in connection with sales of certain aged receivables to collection firms for purposes of removing this liability from its accounts, unless it receives Informed Customer Consent.

C10.3 Disclosure without Informed Customer Consent

- A. The Company shall disclose Customer Account Information, Consumption Data, or Personal Data when required by law or Commission requests or rules. This includes law enforcement requests supported by warrants or court orders specifically naming the Customers whose information is sought, and judicially enforceable subpoenas. The provision of such information will be reasonably limited to the amount authorized by law or reasonably necessary to fulfill a request compelled by law.
- B. Informed Customer Consent is not required for the disclosure of customer name and address to a provider of appliance repair services in compliance with MCL 460.10a(9)(a).
- C. The Company may disclose Customer Account Information, Consumption Data, or Personal Data in the context of a business transaction such as an asset sale or merger to the extent permitted by law.
- D. Informed Customer Consent is not required for the disclosure of Anonymized or Aggregated Data.
