MSHDA at its discretion will determine the specific activities it will fund during the proposal review process. While this funding is flexible it is not for the following activities: demolition; land acquisition; downtown oriented activities such as streetscape/façade; non-housing oriented activities; gap financing for multi-family tax credit deals; match for crowdfunding; technical assistance; emergency funding; infrastructure such as streets, curbs, gutters, sidewalks, etc.; and any other activities already funded by another entity/agency including but not limited to economic development, direct business assistance, workforce training, etc. This is also not replacement funding, it cannot be re-granted and it cannot serve as a matching resource for another State and/or Federal Program.
