

The MSI
Print Shop
Gets You
Back to
School
in Style
in 2020!

Back to School 2020 presents new challenges and opportunities. The MSI Print Shop is ready to assist you in preparing a wide range of materials to support your programs.

To support your virus-control protocols, we can produce creative posters, brochures and fliers clearly presenting the safety measures you have devised.

To support your expanded in-school and at-home educational programs we can produce worksheets, workbooks, booklets and other course-specific materials. Any quantity, large or small.

And to support your communication efforts we can prepare newsletters and other tools to keep your families informed and engaged.

All we need from you is the desired content prepared in most any electronic format together with an idea of the layout or design you envision. We'll give your projects immediate attention and complete them promptly.
