

Laboratory and Customer Agreement for Simplified Reporting

By requesting services (Crime Scene Response or Forensic Testing) of FSD, you agree to:

All MSP Forensic Science Division laboratory reports will be issued in a simplified format. The report will contain case information (submitting agency, case number, date of submission, date of release, laboratory number, analyst identification, etc.), a description of the evidence received, and the conclusions reached by the analyst for the evidence tested (including opinions and interpretations). The following will also be included, when applicable: uncertainty of measurement calculations, interpretation of results, and results of database entries.

Additional information will be made available upon request. This information may include the specific dates of performance of any laboratory testing activities, dates of sampling (if applicable), additions/deviations/exclusions from methods, specific test and environmental conditions, and any other activity or report parameters that may be of interest.

For additional information about simplified reporting, please visit the MSP Forensic Science Division Website at:
