Re: SB400 and HB4651

Mr. Jeff Troyer and Members of the SNC:

I am writing to you on behalf of the Michigan Communication Directors Association membership in regard to SB400 and HB4651, which propose a legislative amendment to provide critical funding for Next Generation 911 (NG911) and related IP infrastructure.

At the regularly scheduled MCDA meeting on June 2, 2017 the membership unanimously agreed to support this effort and the proposed bills. The MCDA membership recognizes that the legislative process needs to be a team effort. We look forward to working with all interested parties and we are actively communicating with our community leaders and legislators regarding the need to support SB400 and HB4651.

If you have any questions, or require anything additional from us, please do not hesitate to contact me.

Sincerely,

Jason Torrey, President
Michigan Communication Directors Association
